INDEPENDENT AUDITOR'S REPORT

To the Trustees of
Nussbaum Transportation Services, Inc. Employee Stock Ownership Plan

Report on the Financial Statements

We have audited the accompanying financial statements of Nussbaum Transportation Services, Inc. Employee Stock Ownership Plan (the Plan), which comprise the statement of net assets available for benefits as of December 31, 2020, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Nussbaum Transportation Services, Inc. Employee Stock Ownership Plan as of December 31, 2020, and the changes in its net assets available for benefits for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matter - 2019 Financial Statements

The financial statements of the Plan as of and for the year ended December 31, 2019, were audited by Heinold Banwart Ltd. who merged with Sikich LLP as of September 1, 2020. Their report, dated August 20, 2020, indicated an unmodified opinion on the financial statements.

Emphasis of Matter

As discussed in Note 3, investments amounting to $16,600,000 and $16,016,000 and representing 94.72% and 95.52% of total assets as of December 31, 2020 and 2019, respectively, whose fair values, in the absence of readily ascertainable fair values, have been estimated by the trustee with the assistance of an independent third-party appraisal firm. Our opinion is not modified with respect to this matter.

Report on Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of and for the year ended December 31, 2020 is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

1. DESCRIPTION OF PLAN

The following description of Nussbaum Transportation Services, Inc. Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is an employee stock ownership plan established on January 1, 2018 to allow employees to share in the ownership of In Motion Group, Inc. (the Company). The Plan is designed to qualify as a "stock bonus plan" under section 401(a) of the Internal Revenue Code of 1986, as amended (the Code), and intended to be an employee stock ownership plan within the meaning of Section 4975(e)(7) of the Code and Section 407(d)(6) of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan covers substantially all employees of Nussbaum Transportation Services, Inc. who have completed one year of service (12 consecutive months with at least 1,000 working hours) and have reached 18 years of age. The trustee controls and manages the operations of the Plan. The trustee of the Plan is an independent third-party trust company.

The Plan is designed to invest primarily in the preferred stock of the Company.

The Plan holds the preferred stock in a trust established under the Plan. During 2020 and 2019, the Plan allocated 74,074 and 68,236 shares, respectively, of Company preferred stock with loans from the Company to eligible employees' accounts. As the Plan makes each payment of principal and interest, an appropriate percent of preferred stock is allocated to eligible employees' accounts in accordance with applicable regulations under the IRC.

The loan from the Company are secured by the unallocated shares purchased from the loan. Accordingly, the financial statements for the plan years ended December 31, 2020 and 2019, present separately the assets and liabilities and changes pertaining to (1) the accounts of employees with vested rights in allocated preferred stock (allocated) and (2) preferred stock not yet allocated to employees (unallocated). Shares are released from collateral and become allocated generally in the period in which debt services are actually paid.

Contributions

The Company is obligated to make contributions in cash to the Plan which, when aggregated, the Plan's dividends, contributions and interest earnings, equals the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its loan payable. Contributions are subject to the limitations established by the IRC and are limited to the maximum allowable by the Internal Revenue Service (IRS).

1. DESCRIPTION OF PLAN (Continued)

Contributions (Continued)

Plan shares purchased with debt proceeds are held in suspense. As debt service payments are made by the Plan, shares are released from suspense and allocated to active participants. Contributions and forfeitures from the accounts of terminated participants are allocated to participants as of the end of the plan year.

Employee contributions are not permitted.

Participant Accounts

Each participant's account is credited as of the last day of each plan year with an allocation of (a) shares of the Company's preferred stock released by the trustee from the unallocated account, (b) any Company dividends, (c) Plan earnings, and (d) forfeitures of terminated participant's nonvested accounts. Only those participants who are eligible employees of the Company as of the last day of the plan year will receive an allocation. Allocations are generally based on a participant's eligible compensation, relative to total eligible compensation. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting

Participants are credited annually with Company contributions and trust income. Vesting in Company contributions and trust income is based on the following table:

Years of Service	Percentage
2	20%
3	40%
4	60%
5	80%
6	100%

Payment of Benefits

Generally, payment of a participant's vested account balance occurs after normal retirement (age 65 or older), death, or disability. Participants eligible to receive benefits receive the distribution in a single lump sum or in annual installments as described in the Plan document. The amount to be distributed is based upon the immediately preceding valuation date. Distributions are made in cash.

If separated from service prior to retirement, death, or disability, distributions are taken in cash as a lump sum or over a period of time determined by the size of the vested balance.

1. DESCRIPTION OF PLAN (Continued)

Payment of Benefits (Continued)

Payments will commence during (or as soon as practicable after) the distribution period that beings after the Plan Year in which occurs the later of the date the participant is first eligible for Normal Retirement, or, if the participant elects, any earlier distribution period that begins after the end of the second Plan Year following the Plan Year in which the participant's termination date occurs.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to their account with regard to the approval or disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all assets, or such similar transactions as the Secretary of Treasury may prescribe in regulations. The Trustee is not permitted to vote any allocated share for which a participant has not given instructions. The trustee is required to vote any unallocated shares on behalf of the collective best interests of plan participants and beneficiaries.

Put Option

Under federal income tax regulations, the employer preferred stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand, under certain circumstances, that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current value of the stock.

The Company can pay for the purchase in a lump sum within 30 days of the put option being excercised. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a 6-year period. In each of the first 5 years, a participant my diversify up to 25 percent of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent.

1. DESCRIPTION OF PLAN (Continued)

Forfeited Accounts

Forfeitures for participants who terminate will be allocated after the expiration of a five-year period during which the forfeiture balances are reinstated if the participants are rehired or subsequent to the terminated participant receiving a full distribution from the Plan, whichever is earlier. Forfeitures allocated were $113,234 and $68,922 in 2020 and 2019, respectively.

Administration of Plan Assets

The Plan assets, which consist principally of the Company's preferred stock, are held by the trustees of the Plan.

Company contributions are held and managed by the trustees, who invest cash received, interest, and dividend income and make distributions to participants. The trustees also administer the payment of interest and principal on the loan, which was reimbursed to the Plan through contributions as determined by the Company.

Administrative expenses are paid directly by the Company.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Cash

Cash is defined as currency on hand, in demand deposits.

Use of Estimates

The preparation of financial statements is in conformity with accounting principles generally accepted in the United States of America and requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at

the measurement date. The Plan's trustee determines the Plan's valuation policies utilizing information provided by the investment advisors and custodians.

The investment in the Company's preferred stock is valued as of December 31, 2020 and 2019 at $16,600,000 ($20.75 per share) and $16,016,000 ($20.02 per share), respectively, based upon an appraisal performed by an independent valuation firm, and approved by the Plan's trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Dividends

When declared, dividends may be used to repay any ESOP loan taken out by the trustees to finance the purchase of Company preferred stock or paid directly in cash by the trustees to the participants in proportion to the amounts of Company preferred stock allocated to their Company preferred stock as of the record date of the dividends.

New Accounting Pronouncements

In August 2018, the Financial Accounting Standards Board (FASB) issued Financial Accounting Standards Update (ASU) 2018-13, *Changes to the Disclosure Requirements for Fair Value Measurements*. This standard is intended to improve the effectiveness of disclosures in the notes to the financial statements and modify the disclosure requirements on fair value measurements in Topic 820, *Fair Value Measurements.* ASU 2018-13 is effective for fiscal years beginning after December 15, 2019, with early adoption permitted. This has been applied for the year ended December 31, 2020 with no significant impact on the financial statements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Subsequent Events

Subsequent events are events or transactions that occur after year end but before financial statements are issued or are available to be issued. These events and transactions either provide additional evidence about conditions that existed at year end, including the estimates inherent in the process of preparing financial statements (that is, recognized subsequent events), or provide evidence about conditions that did not exist at year end but arose after that date (that is, nonrecognized subsequent events).

The Plan has evaluated subsequent events through October 8, 2021, which was the date that these financial statements were available for issuance, and determined that there were no significant nonrecognized subsequent events through that date.

3. INVESTMENTS

Investments at December 31, 2020 and 2019, were as follows:

	2020	2019
Preferred stock of In Motion Group, Inc.	$ 16,600,000	$ 16,016,000

The preferred stock of In Motion Group, Inc. owned by the Plan as of December 31, 2020 and 2019 was as follows:

	2020	2019
ALLOCATED SHARES, BEGINNING OF YEAR	143,002	74,766
Shares allocated during the year	75,074	68,236
ALLOCATED SHARES, END OF YEAR	218,076	143,002
UNALLOCATED SHARES, END OF YEAR	581,924	656,998
TOTAL ESOP SHARES	800,000	800,000
Fair market value per share	$ 20.75	$ 20.02

Substantially all investments are nonparticipant directed.

4. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Topic 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access at the measurement date.

Level 2: Inputs to the valuation methodology other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

a. Quoted prices for similar assets or liabilities in active markets,
b. Quoted prices for identical or similar assets or liabilities in inactive markets,
c. Inputs other than quoted prices that are observable for the asset or liability,
d. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full-term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

4. FAIR VALUE MEASUREMENTS (Continued)

Preferred stock: The fair value of the In Motion Group, Inc. preferred stock held by the Plan is valued at estimated fair value based upon an independent appraisal as of the last day of each annual reporting period. This appraisal was based upon the discounted cash flows and selected public company approaches. The discounted cash flows approach involves projecting free cash flows derived from normalized historical data, management insights, and trend analysis to analyze projections for a period of time that adequately reflects the

primary growth phase of a company. The selected public company approach compares similar, publicly traded companies to the Company and applies valuation multiples to the Company based on the activity of the comparable publicly traded company. The results of the two valuation approaches were considered as a whole. The appraiser took into account estimated fair value of Company assets and liabilities along with a non-marketability discount of 5 percent.

Plan management accumulates the data as requested by its independent financial advisor from the audited financial statements of the Company. The trustees' independent advisor

prepares a preliminary report which the trustees review in detail, discusses and approves. The results of this process are documented by the trustees.

Those policies and procedures are reassessed at least annually to determine if the current valuation techniques are still appropriate. At that time, the unobservable inputs used in the fair value measurements are evaluated and adjusted, as necessary, based on the current market conditions and other third-party information.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date

4. FAIR VALUE MEASUREMENTS (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2020 and 2019:

	Assets at Fair Value as of December 31, 2020			
Description	**Level 1**	**Level 2**	**Level 3**	**Total**
Investment in In Motion Group, Inc. preferred stock	$ -	$ -	$ 16,600,000	$16,600,000
TOTAL	$ -	$ -	$ 16,600,000	$16,600,000

	Assets at Fair Value as of December 31, 2019			
Description	**Level 1**	**Level 2**	**Level 3**	**Total**
Investment in In Motion Group, Inc. preferred stock	$ -	$ -	$ 16,016,000	$16,016,000
TOTAL	$ -	$ -	$ 16,016,000	$16,016,000

Changes in Fair Value of Level 3 Assets

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. We evaluate the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits.

The following table sets forth a summary of certain changes in the fair value of the Plan's level 3 assets for the plan years ended December 31, 2020 and 2019:

	2020	**2019**
BALANCE, BEGINNING OF YEAR	$ 16,016,000	$ 16,328,000
Unrealized gain (loss) relating to instruments still held at the reporting date	584,000	(312,000)
BALANCE, END OF YEAR	$ 16,600,000	$ 16,016,000

5. LOANS PAYABLE

Loans payable at December 31, 2020 and 2019, consisted of the following:

	2020	2019
Term note payable to the Company, due in annual principal and interest payments through December 31, 2032, and bearing interest at 2.66%.	$ 13,933,778	$ 15,335,140
TOTAL	$ 13,933,778	$ 15,335,140

The term loan is secured by the unallocated shares purchased with the original proceeds from the loans.

Future annual maturities of the loans payable as of December 31, 2020 are as follows:

2021	$ 1,543,017
2022	1,200,000
2023	1,200,000
2023	1,200,000
2025	1,200,000
Thereafter	7,590,761
TOTAL	$ 13,933,778

6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

7. TAX STATUS

The Internal Revenue Service has determined and informed the Company by letter dated December 20, 2018, that the Plan is designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the determination letter. However, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC. Therefore, the Plan administrator believes that the Plan and related trust continue to be tax-exempt as of December 31, 2020.

7. TAX STATUS (continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. PARTY-IN-INTEREST TRANSACTIONS

Plan investments as of and for the years ended December 31, 2020 and 2019 were held by the Company. As all investments are held in custody by this party, which also represents the issuer and manager of the corresponding investments that they hold, all investments and transactions thereof are considered related party transactions. Employees of the Company provide administrative services to the Plan for which no fees are charged.

9. RISKS AND UNCERTAINTIES

The Plan invests in Company stock. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

As a result of the spread of COVID-19 coronavirus, economic uncertainties have arisen which have resulted in significant volatility in the investment markets. The duration of these uncertainties and the ultimate financial effects cannot be reasonably estimated at this time. No adjustments have been made to these financial statements as a result of this uncertainty.

INDEPENDENT AUDITOR'S REPORT

To the Trustees of
Nussbaum Transportation Services, Inc. Employee Stock Ownership Plan

Report on the Financial Statements

We have audited the accompanying financial statements of Nussbaum Transportation Services, Inc. Employee Stock Ownership Plan (the Plan), which comprise the statement of net assets available for benefits as of December 31, 2020, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Nussbaum Transportation Services, Inc. Employee Stock Ownership Plan as of December 31, 2020, and the changes in its net assets available for benefits for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matter - 2019 Financial Statements

The financial statements of the Plan as of and for the year ended December 31, 2019, were audited by Heinold Banwart Ltd. who merged with Sikich LLP as of September 1, 2020. Their report, dated August 20, 2020, indicated an unmodified opinion on the financial statements.

Emphasis of Matter

As discussed in Note 3, investments amounting to $16,600,000 and $16,016,000 and representing 94.72% and 95.52% of total assets as of December 31, 2020 and 2019, respectively, whose fair values, in the absence of readily ascertainable fair values, have been estimated by the trustee with the assistance of an independent third-party appraisal firm. Our opinion is not modified with respect to this matter.

Report on Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of and for the year ended December 31, 2020 is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

1. DESCRIPTION OF PLAN

The following description of Nussbaum Transportation Services, Inc. Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is an employee stock ownership plan established on January 1, 2018 to allow employees to share in the ownership of In Motion Group, Inc. (the Company). The Plan is designed to qualify as a "stock bonus plan" under section 401(a) of the Internal Revenue Code of 1986, as amended (the Code), and intended to be an employee stock ownership plan within the meaning of Section 4975(e)(7) of the Code and Section 407(d)(6) of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan covers substantially all employees of Nussbaum Transportation Services, Inc. who have completed one year of service (12 consecutive months with at least 1,000 working hours) and have reached 18 years of age. The trustee controls and manages the operations of the Plan. The trustee of the Plan is an independent third-party trust company.

The Plan is designed to invest primarily in the preferred stock of the Company.

The Plan holds the preferred stock in a trust established under the Plan. During 2020 and 2019, the Plan allocated 74,074 and 68,236 shares, respectively, of Company preferred stock with loans from the Company to eligible employees' accounts. As the Plan makes each payment of principal and interest, an appropriate percent of preferred stock is allocated to eligible employees' accounts in accordance with applicable regulations under the IRC.

The loan from the Company are secured by the unallocated shares purchased from the loan. Accordingly, the financial statements for the plan years ended December 31, 2020 and 2019, present separately the assets and liabilities and changes pertaining to (1) the accounts of employees with vested rights in allocated preferred stock (allocated) and (2) preferred stock not yet allocated to employees (unallocated). Shares are released from collateral and become allocated generally in the period in which debt services are actually paid.

Contributions

The Company is obligated to make contributions in cash to the Plan which, when aggregated, the Plan's dividends, contributions and interest earnings, equals the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its loan payable. Contributions are subject to the limitations established by the IRC and are limited to the maximum allowable by the Internal Revenue Service (IRS).

1. DESCRIPTION OF PLAN (Continued)

Contributions (Continued)

Plan shares purchased with debt proceeds are held in suspense. As debt service payments are made by the Plan, shares are released from suspense and allocated to active participants. Contributions and forfeitures from the accounts of terminated participants are allocated to participants as of the end of the plan year.

Employee contributions are not permitted.

Participant Accounts

Each participant's account is credited as of the last day of each plan year with an allocation of (a) shares of the Company's preferred stock released by the trustee from the unallocated account, (b) any Company dividends, (c) Plan earnings, and (d) forfeitures of terminated participant's nonvested accounts. Only those participants who are eligible employees of the Company as of the last day of the plan year will receive an allocation. Allocations are generally based on a participant's eligible compensation, relative to total eligible compensation. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting

Participants are credited annually with Company contributions and trust income. Vesting in Company contributions and trust income is based on the following table:

Years of Service	Percentage
2	20%
3	40%
4	60%
5	80%
6	100%

Payment of Benefits

Generally, payment of a participant's vested account balance occurs after normal retirement (age 65 or older), death, or disability. Participants eligible to receive benefits receive the distribution in a single lump sum or in annual installments as described in the Plan document. The amount to be distributed is based upon the immediately preceding valuation date. Distributions are made in cash.

If separated from service prior to retirement, death, or disability, distributions are taken in cash as a lump sum or over a period of time determined by the size of the vested balance.

1. DESCRIPTION OF PLAN (Continued)

Payment of Benefits (Continued)

Payments will commence during (or as soon as practicable after) the distribution period that beings after the Plan Year in which occurs the later of the date the participant is first eligible for Normal Retirement, or, if the participant elects, any earlier distribution period that begins after the end of the second Plan Year following the Plan Year in which the participant's termination date occurs.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to their account with regard to the approval or disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all assets, or such similar transactions as the Secretary of Treasury may prescribe in regulations. The Trustee is not permitted to vote any allocated share for which a participant has not given instructions. The trustee is required to vote any unallocated shares on behalf of the collective best interests of plan participants and beneficiaries.

Put Option

Under federal income tax regulations, the employer preferred stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand, under certain circumstances, that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current value of the stock.

The Company can pay for the purchase in a lump sum within 30 days of the put option being excercised. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a 6-year period. In each of the first 5 years, a participant my diversify up to 25 percent of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent.

1. DESCRIPTION OF PLAN (Continued)

Forfeited Accounts

Forfeitures for participants who terminate will be allocated after the expiration of a five-year period during which the forfeiture balances are reinstated if the participants are rehired or subsequent to the terminated participant receiving a full distribution from the Plan, whichever is earlier. Forfeitures allocated were $113,234 and $68,922 in 2020 and 2019, respectively.

Administration of Plan Assets

The Plan assets, which consist principally of the Company's preferred stock, are held by the trustees of the Plan.

Company contributions are held and managed by the trustees, who invest cash received, interest, and dividend income and make distributions to participants. The trustees also administer the payment of interest and principal on the loan, which was reimbursed to the Plan through contributions as determined by the Company.

Administrative expenses are paid directly by the Company.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Cash

Cash is defined as currency on hand, in demand deposits.

Use of Estimates

The preparation of financial statements is in conformity with accounting principles generally accepted in the United States of America and requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at

the measurement date. The Plan's trustee determines the Plan's valuation policies utilizing information provided by the investment advisors and custodians.

The investment in the Company's preferred stock is valued as of December 31, 2020 and 2019 at $16,600,000 ($20.75 per share) and $16,016,000 ($20.02 per share), respectively, based upon an appraisal performed by an independent valuation firm, and approved by the Plan's trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Dividends

When declared, dividends may be used to repay any ESOP loan taken out by the trustees to finance the purchase of Company preferred stock or paid directly in cash by the trustees to the participants in proportion to the amounts of Company preferred stock allocated to their Company preferred stock as of the record date of the dividends.

New Accounting Pronouncements

In August 2018, the Financial Accounting Standards Board (FASB) issued Financial Accounting Standards Update (ASU) 2018-13, *Changes to the Disclosure Requirements for Fair Value Measurements*. This standard is intended to improve the effectiveness of disclosures in the notes to the financial statements and modify the disclosure requirements on fair value measurements in Topic 820, *Fair Value Measurements.* ASU 2018-13 is effective for fiscal years beginning after December 15, 2019, with early adoption permitted. This has been applied for the year ended December 31, 2020 with no significant impact on the financial statements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Subsequent Events

Subsequent events are events or transactions that occur after year end but before financial statements are issued or are available to be issued. These events and transactions either provide additional evidence about conditions that existed at year end, including the estimates inherent in the process of preparing financial statements (that is, recognized subsequent events), or provide evidence about conditions that did not exist at year end but arose after that date (that is, nonrecognized subsequent events).

The Plan has evaluated subsequent events through October 8, 2021, which was the date that these financial statements were available for issuance, and determined that there were no significant nonrecognized subsequent events through that date.

3. INVESTMENTS

Investments at December 31, 2020 and 2019, were as follows:

	2020	2019
Preferred stock of In Motion Group, Inc.	$ 16,600,000	$ 16,016,000

The preferred stock of In Motion Group, Inc. owned by the Plan as of December 31, 2020 and 2019 was as follows:

	2020	2019
ALLOCATED SHARES, BEGINNING OF YEAR	143,002	74,766
Shares allocated during the year	75,074	68,236
ALLOCATED SHARES, END OF YEAR	218,076	143,002
UNALLOCATED SHARES, END OF YEAR	581,924	656,998
TOTAL ESOP SHARES	800,000	800,000
Fair market value per share	$ 20.75	$ 20.02

Substantially all investments are nonparticipant directed.

4. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Topic 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access at the measurement date.

Level 2: Inputs to the valuation methodology other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

a. Quoted prices for similar assets or liabilities in active markets,
b. Quoted prices for identical or similar assets or liabilities in inactive markets,
c. Inputs other than quoted prices that are observable for the asset or liability,
d. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full-term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

4. FAIR VALUE MEASUREMENTS (Continued)

Preferred stock: The fair value of the In Motion Group, Inc. preferred stock held by the Plan is valued at estimated fair value based upon an independent appraisal as of the last day of each annual reporting period. This appraisal was based upon the discounted cash flows and selected public company approaches. The discounted cash flows approach involves projecting free cash flows derived from normalized historical data, management insights, and trend analysis to analyze projections for a period of time that adequately reflects the

primary growth phase of a company. The selected public company approach compares similar, publicly traded companies to the Company and applies valuation multiples to the Company based on the activity of the comparable publicly traded company. The results of the two valuation approaches were considered as a whole. The appraiser took into account estimated fair value of Company assets and liabilities along with a non-marketability discount of 5 percent.

Plan management accumulates the data as requested by its independent financial advisor from the audited financial statements of the Company. The trustees' independent advisor

prepares a preliminary report which the trustees review in detail, discusses and approves. The results of this process are documented by the trustees.

Those policies and procedures are reassessed at least annually to determine if the current valuation techniques are still appropriate. At that time, the unobservable inputs used in the fair value measurements are evaluated and adjusted, as necessary, based on the current market conditions and other third-party information.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date

4. FAIR VALUE MEASUREMENTS (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2020 and 2019:

	Assets at Fair Value as of December 31, 2020			
Description	**Level 1**	**Level 2**	**Level 3**	**Total**
Investment in In Motion Group, Inc. preferred stock	$ -	$ -	$ 16,600,000	$16,600,000
TOTAL	$ -	$ -	$ 16,600,000	$16,600,000

	Assets at Fair Value as of December 31, 2019			
Description	**Level 1**	**Level 2**	**Level 3**	**Total**
Investment in In Motion Group, Inc. preferred stock	$ -	$ -	$ 16,016,000	$16,016,000
TOTAL	$ -	$ -	$ 16,016,000	$16,016,000

Changes in Fair Value of Level 3 Assets

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. We evaluate the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits.

The following table sets forth a summary of certain changes in the fair value of the Plan's level 3 assets for the plan years ended December 31, 2020 and 2019:

	2020	**2019**
BALANCE, BEGINNING OF YEAR	$ 16,016,000	$ 16,328,000
Unrealized gain (loss) relating to instruments still held at the reporting date	584,000	(312,000)
BALANCE, END OF YEAR	$ 16,600,000	$ 16,016,000

5. LOANS PAYABLE

Loans payable at December 31, 2020 and 2019, consisted of the following:

	2020	2019
Term note payable to the Company, due in annual principal and interest payments through December 31, 2032, and bearing interest at 2.66%.	$ 13,933,778	$ 15,335,140
TOTAL	$ 13,933,778	$ 15,335,140

The term loan is secured by the unallocated shares purchased with the original proceeds from the loans.

Future annual maturities of the loans payable as of December 31, 2020 are as follows:

2021	$ 1,543,017
2022	1,200,000
2023	1,200,000
2023	1,200,000
2025	1,200,000
Thereafter	7,590,761
TOTAL	$ 13,933,778

6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

7. TAX STATUS

The Internal Revenue Service has determined and informed the Company by letter dated December 20, 2018, that the Plan is designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the determination letter. However, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC. Therefore, the Plan administrator believes that the Plan and related trust continue to be tax-exempt as of December 31, 2020.

7. TAX STATUS (continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. PARTY-IN-INTEREST TRANSACTIONS

Plan investments as of and for the years ended December 31, 2020 and 2019 were held by the Company. As all investments are held in custody by this party, which also represents the issuer and manager of the corresponding investments that they hold, all investments and transactions thereof are considered related party transactions. Employees of the Company provide administrative services to the Plan for which no fees are charged.

9. RISKS AND UNCERTAINTIES

The Plan invests in Company stock. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

As a result of the spread of COVID-19 coronavirus, economic uncertainties have arisen which have resulted in significant volatility in the investment markets. The duration of these uncertainties and the ultimate financial effects cannot be reasonably estimated at this time. No adjustments have been made to these financial statements as a result of this uncertainty.
