Contributions

The Company must make annual contributions equal to 10 percent of total eligible participant compensation, which are remitted to the Plan quarterly. The Company met the minimum funding requirements established by ERISA.

During 2020, the Company withheld a loan repayment from a participant that was not contributed to the Plan in the time frame required by the DOL. The loan repayment was contributed to the Plan in 2021, and the lost earnings are expected to be remitted to the Plan in 2021.

Vesting

Participants with at least one hour of credited service, as defined in the Plan, after January 1, 2008 are immediately 100 percent vested in the respective account balance.

Participant Accounts

Each participant account is credited with the allocations of the Company's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on participants' compensation. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1 - Plan Description (Continued)

Payment of Benefits

Upon disability, retirement, or termination, a participant or his or her beneficiary may receive, at his or her election, within a reasonable period of time, a lump sum or a life annuity distribution in the amount equal to the participant's vested account balance. Upon death, distribution of the participant's entire account shall be completed by December 31 of the calendar year containing the fifth anniversary of the participant's death unless an election is made by his or her beneficiary to receive distributions either (a) over the life or over a period not greater than the life expectancy of the beneficiary commencing on or before December 31 of the calendar year immediately following the calendar year in which the participant died or (b) if the beneficiary is the surviving spouse, the date distributions are required to begin in accordance with (a) above shall not be earlier than the later of (i) December 31 of the calendar year immediately following the calendar year in which the participant died and (ii) December 31 of the calendar year in which the participant would have attained age 70½. Benefits are recorded when paid.

The Plan allows in-service distributions and partial distributions to participants age 62 or older who have not terminated employment with the plan sponsor. Furthermore, the Plan allows for terminated participant vested account balances of $1,000 or less to be automatically distributed as a lump-sum amount equal to the value of the participant's vested interest in his or her account. The Internal Revenue Service (IRS) has required minimum distributions once a participant reaches age 70½ during the previous plan year and is no longer employed by the Company.

Party-in-interest Transactions

The Plan provides for loans to participants, which are party-in-interest transactions that are exempt from the prohibited transaction rules. Certain fees due to the Plan's record-keeper and plan investments are managed by the record-keeper; however, under ERISA, these transactions qualify as exempt party-in-interest transactions.

Termination

While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. If the Plan is terminated for any reason, the plan administrator is to distribute each participant's interest to the participant or the participant's beneficiary.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation

The Plan's investments are stated at fair value, as reported to the Plan by the custodian. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

The common/collective trust fund and other investment are valued at net asset value per share (NAV) (or its equivalent) of the funds, which is based on the fair value of the funds' underlying assets. The money market account is valued based on its outstanding balance. See Note 4 for additional information.

The net realized and unrealized investment gain or loss (net appreciation or depreciation in fair value of investments) is reflected in the accompanying statement of changes in net assets available for benefits and is determined as the difference between fair value at the beginning of the year (or date purchased if during the year) and selling price (if sold during the year) or year-end fair value. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recognized on the accrual basis. Dividends are recognized on the ex-dividend date.

Note 2 - Summary of Significant Accounting Policies (Continued)

Concentration of Investments

As of December 31, 2020 and 2019, one investment accounted for approximately 100 of the investment balance. A significant change in the market value of this investment would significantly affect the net assets available for benefits and related investment income of the Plan.

Administrative Expenses

The Plan pays all administrative, accounting, and legal services to the Plan and also pays the cost of certain outside services for the Plan.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Contributions Receivable and Contributions from Employers

Contributions are made by the employer for the amount of benefits due to eligible employees on the date of payment. Contributions are accrued based on the benefit obligations earned during the final two weeks of the plan year. Contributions are also made to pay for external administrative expenses incurred by the Plan.

Participant Notes Receivable

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balances. Participants may have a maximum of one loan outstanding at any given time. The loans are collateralized by the vested balances in the participants' accounts and bear interest at rates that range from 5.25 to 7.5 percent, which are commensurate with local prevailing rates determined quarterly by the plan administrator at loan origination, and mature at various dates through September 2028. Loans have a maximum term of 5 years, unless such loan is for the purchase of the participant's primary residence, in which case the repayment period may not exceed 15 years from the date of loan origination. Principal and interest are paid ratably through payroll deductions. Participant loans are recorded in the financial statements at amortized cost (which represents unpaid principal plus accrued interest). Upon termination of a participant from employment, the participant's loan shall be due in full. Participant loans are written off when deemed uncollectible.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including September 21, 2021, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

Charles Schwab Trust Bank (the "Custodian") holds the Plan's investments, other than the money market account and the Hatteras Core Alternatives Fund, and executes all investment transactions. The investment balances and related investment income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year, other than the money market account and the Hatteras Core Alternatives Fund, are based solely on information certified by the Custodian.

The Plan's investments in the money market account and the Hatteras Core Alternatives Fund totaling $0 and $32,748 at December 31, 2020 and 2019, respectively, and related investment loss of $917 for the year ended December 31, 2020 were not certified.

Note 4 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset.

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan’s assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following tables present information about the Plan’s assets measured at fair value on a recurring basis at December 31, 2020 and 2019:

	Assets Measured at Fair Value on a Recurring Basis at December 31, 2020
	Investments (at Fair Value)
Investments measured at NAV - Common/collective trust fund	$ 16,673,999

Note 4 - Fair Value Measurements (Continued)

	Assets Measured at Fair Value on a Recurring Basis at December 31, 2019	
	Investments (at Fair Value)	Level 2
Money market account	$ 3,908	$ 3,908
Investments measured at NAV:		
Common/collective trust fund	10,791,213	
Other investment	28,840	
Total investments	$ 10,823,961	

The Plan's investment in the common/collective trust fund represents one investment. The investment's strategy is to maintain a target allocation that ranges between 50 percent and 70 percent in domestic and international equities. The remaining investments are to be composed of allocations to fixed income, such as bonds, stable value, and money market funds, as well as allocations to alternative investment strategies, such as long and short futures and managed futures. The investment manager will primarily use mutual funds to execute the strategy. There are no redemption notice requirements, redemption restrictions, or unfunded commitments on this investment.

Note 5 - Tax Status

The Plan, as adopted, is a volume submitter plan, which does not require an application for a determination letter from the Internal Revenue Service (IRS). The volume submitter plan has received a favorable notification letter from the IRS dated March 31, 2014. The Plan has not individually sought its own determination letter.
