NOTE 1-DESCRIPTION OF PLAN

The following description of the Monroe Group (the "Company") 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

A. General. The Plan, established June 1, 2020, is a defined contribution plan and, as such, is subject to some, but not all, of the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). On June 1, 2020, net assets available for benefits held within the ADP Total Source Retirement Savings Plan, sponsored by the Monroe Group, Ltd. (the "Former Plan") were transferred into the Monroe Group 401(k) Plan. The transferred net assets have been recognized in the accounts of the Monroe Group 401(k) Plan as of June 1, 2020, at their balances as previously carried in the accounts of the Former Plan. Net assets available for benefits transferred into the Plan amounted to $1,551,193, which consisted of $20,872 in notes receivable from participants and $1,530,321 in cash. See Note 9.

   Employees are eligible to participate upon the completion of two months of service. The Plan entry date is the first day of the month coinciding with or next following the date in which a participant satisfies the eligibility requirements. The Plan Sponsor and Plan Administrator is Monroe Group, Ltd., and the Custodian is the Reliance Trust Company ("Reliance Trust"). Investment options are offered through Standard Insurance Company ("The Standard"), the Plan's Recordkeeper, which offers products and services in retirement markets.

B. Contributions. Employees may elect to contribute pre-tax dollars to the Plan, through payroll deductions, to an annual limit of $19,500 for 2020. Additionally, participants may elect to make after-tax contributions to the Plan. Participants who reach age 50 during the calendar year may be eligible to make catch-up contributions up to $6,500 in addition to the IRS limit of $19,500. Participants can also elect a direct rollover of an existing balance from a tax-qualified retirement or savings plan into the Plan. Participants direct the investment of their contributions into various investment options offered by the Plan.

   The Company makes a "Safe Harbor" contribution to the participant’s account. In order to maintain "safe harbor" status, the Company makes a Safe Harbor matching contribution equal to 100% salary deferrals that do not exceed 4% compensation. Safe Harbor contributions of $137,563 were made during the period June 1, 2020 through December 31, 2020, which was 61% of eligible participant compensation.

C. Participant Accounts. Each participant's account is credited with the participant's contribution and allocation of the Company's contribution, and Plan earnings. Company contributions are invested in the investment options in the same allocation percentages as each participant's contributions. The benefit for a participant is the benefit that can be provided from the participant's vested account.

NOTE 1-DESCRIPTION OF PLAN (CONTINUED)

D. Notes Receivable from Participants. Participants may borrow from their fund accounts up to a maximum of the lesser of 50% of their vested account or $50,000 as defined in the Plan document. The loans are collateralized by the balance in the participant's account, and bear interest at a rate ranging from 3.25% to 6.75%, which are commensurate with the prime rate at the time the loan is made. Principal and interest are paid ratably through bi-weekly after-tax payroll deductions. All principal and interest payments are allocated to the Plan's investment funds based on the participant's investment elections at the time of payment. Loans which are granted and repaid in compliance with the Plan provisions will not be considered distributions to the participant for tax purposes. On June 1, 2020, ten notes receivable from participants totaling $20,872 were transferred into the Plan. Loans outstanding as of December 31, 2020 totaled $28,110. Loan defaults deemed to be distributions to the participant were $3,421 for the period June 1, 2020 through December 31, 2020.

E. Vesting. Upon eligibility, participants are immediately vested in their elective deferral contributions and the Company’s Safe Harbor contributions, and actual earnings thereon.

F. Payment of Benefits. On termination of service due to death, disability or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Participants may request a withdrawal of all or a portion of their elective contribution account balance if they can demonstrate financial hardship as defined by the Plan. Such amounts will be considered distributions to the participant for income tax purposes.

NOTE 2-SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Investment valuation and income recognition

The Plan offers investments in various registered investment companies (mutual funds) maintained by The Standard, which are valued at fair value. Fair value is the exchange price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants at the measurement date. See Note 3. The Plan presents in the Statement of Changes in Net Assets Available for Benefits, the net gain (loss) in registered investment companies (mutual funds) which consists of the related appreciation (depreciation) in the fair value of its investments and the unrealized appreciation (depreciation) on those investments.

NOTE 2-SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment valuation and income recognition (continued)

Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Realized gains and losses on investments are recognized upon the sale of the related investments and unrealized appreciation or depreciation is recognized at period end when the carrying values of the related investments are adjusted to their estimated fair market value. Purchase and sales of securities are reflected on a trade-date basis.

Earnings on investments are allocated on a pro rata basis to individual participant accounts based on the type of investment and the ratio of each participant's individual account balance to the aggregate of participant account balances.

Notes receivable from participants

Notes receivable from participants are stated at the outstanding principal balance of the loan plus all accrued but unpaid interest, which approximates fair value. As of December 31, 2020, the Plan does not have an allowance for credit losses, as repayments of principal and interest are generally received through payroll deductions, and the notes are collateralized by the participants' account balances.

The Plan is subject to the provisions of the Loans to Participants topic of the Financial Accounting Standards Board ("FASB") issued *Accounting Standards Update* ("ASU") 2010-25, *Reporting Loans to Participants by Defined Contribution Pension Plans*, which requires loans to participants in an entity's defined contribution plan be classified as notes receivable. These loans are to be reported separately from plan investments.

Plan administration costs

The Sponsor absorbs Plan administration costs related to legal, accounting, record keeping, and general administration. The Sponsor passes on the following Plan administration costs to participants: asset based fees, distribution fees, and loan fees.

Payment of benefits

Benefits are recorded when paid.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

NOTE 2-SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Accounting for uncertainty in income taxes

The Plan is subject to the Income Taxes topic of the FASB *Accounting Standards Codification* ("ASC") 740, which provides guidance for how uncertain income tax positions should be recognized, measured, presented and disclosed in the financial statements. The Plan is required to evaluate the income tax positions taken or expected to be taken to determine whether the positions are "more-likely-than-not" to be sustained upon examination by the applicable tax authority. The Plan has determined that the application of the Income Taxes Standard does not impact the operations of the Plan and that no provision for income tax is required in the Plan's financial statements. No interest or penalties have been recognized in the Plan's Statement of Net Assets Available for Benefits as of December 31, 2020 or its Statement of Changes in Net Assets Available for Benefits for the period June 1, 2020 through December 31, 2020. Generally, federal and state returns are subject to examination for three years after the later of the original or extended due date or the date filed by the applicable tax authorities.

Subsequent events

The Plan Administrator performed an evaluation of the Plan's activity through October 1, 2021, the audit report date, and has concluded that there are no significant subsequent events that require disclosure through the date these financial statements were available to be issued.

NOTE 3-FAIR VALUE MEASUREMENTS

Fair value is defined as the exchange price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants at the measurement date. The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Accounting guidance establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value.

The fair value hierarchy input levels are as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE 3-FAIR VALUE MEASUREMENTS (CONTINUED)

The following provides a description of the valuation methodology used for assets measured at fair value. The Company's policy for determining the timing of significant transfers between levels is at the end of the reporting period, if applicable. There were no transfers between level 1, 2 or 3 assets or liabilities during the period June 1, 2020 through December 31, 2020.

Mutual funds - These investments are public investment securities valued using the Net Asset Value ("NAV") provided by The Standard. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, if applicable, and then divided by the number of shares outstanding. The NAV is quoted in an active market.

Funds held in insurance company general account (annuity contract) - These investments are valued at fair value by discounting the related cash flows based upon current yields of similar instruments with comparable durations considering the credit worthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although Plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Assets at Fair Value as of December 31, 2020:

	Level 1
Participant directed mutual funds	$ 1,832,788
Funds held in insurance company general account	132,292
Total assets at fair value	**$ 1,965,080**

NOTE 4-PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by The Standard. These transactions qualify as party-in-interest transactions. Fees paid by the Plan are incorporated in the return for the various mutual funds. The funds pay The Standard a fee for their services, which include any fees The Standard pays to the sub-advisors. There were no additional fees paid outside of the funds. Fees incurred by the Plan amounted to $6,007 for the period June 1, 2020 through December 31, 2020. These fees are recorded as administrative expenses in the accompanying Statement of Changes in Net Assets Available for Benefits.

The Company's President, Chief Accounting Officer and Senior Manager, Human Resources are currently participants in the Plan and serve as plan administrators and members of the 401(k) Advisory Committee.

NOTE 5-PLAN TERMINATION

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

NOTE 6-INFORMATION PREPARED AND CERTIFIED BY PLAN CUSTODIAN

Certain information presented in the Statement of Net Assets Available for Benefits, Changes in Net Assets Available for Benefits, and Supplemental Schedules was certified as complete and accurate, to the best of their knowledge, by Reliance Trust. The information prepared and certified is as follows:

Registered investment companies	$ 1,832,788
Funds held in insurance company general account	132,292
Net appreciation (depreciation) from registered investment companies	196,436
Interest on funds held in insurance company general account	752
Dividends	36,002

NOTE 7-TAX STATUS

The Plan qualifies as a cash or deferred arrangement under Section 401(k) of the Internal Revenue Code ("Code"), and therefore, is exempt from federal income taxes under Section 501(a) of the Code. A favorable tax determination letter for this type of plan dated March 31, 2014 has been obtained from the Internal Revenue Service. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan sponsor believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code, and therefore, believe the Plan is qualified as tax-exempt.

Under a plan qualified pursuant to Section 401(k) of the Code, participants generally will not be taxed on contributions or matching contributions, or earnings thereon, until such amounts are distributed to participants or their beneficiaries under the Plan. Participants have the option of making contributions as Roth 401(k) contributions. Roth 401(k) contributions are not deducted from the participant's income and are therefore taxable when contributed. The tax-deferred contributions and matching contributions are deductible by the Company for tax purposes when those contributions are made, subject to certain limitations set forth in Section 404 of the Code.

Participants or their beneficiaries will be taxed, at ordinary income tax rates, on the amount they receive as a distribution from the Plan at the time they receive the distribution. However, if the participant or beneficiary receives a lump sum payment of the balance under the Plan in a single taxable year, and the distribution is made by reason of death, disability, or termination of employment of the participant, or after the participant has attained age 59 1/2, then certain special tax rules may be applicable.

NOTE 8-RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

The Plan's exposure to a concentration of credit risk is limited by the diversification of investments across 13 participant - directed fund elections for the period June 1, 2020 through December 31, 2020. Additionally, the investments within each participant-directed fund election are further diversified into varied financial instruments.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Economic conditions

In December 2019, a novel strain of coronavirus ("COVID-19") surfaced. The spread of COVID-19 around the world in 2020 has caused significant volatility in U.S. and international markets. There is significant uncertainty around the breadth and duration of business disruptions related to COVID-19, as well as its impact on the U.S. and international economies, and, as such, the Plan is unable to determine if it will have a material impact to its operations.

NOTE 9-TRANSFER OF NET ASSETS AVAILABLE FOR BENEFIT

On July 9, 2020, net assets available for benefits held within the Former Plans were transferred into the Monroe Group 401(k) Plan. Prior to the merger, the Former Plan covered eligible employees at Monroe Group and related entities. Participants were notified on June 8, 2020, which included among other things, a blackout period beginning July 8, 2020 and ending sometime during the week of August 3, 2020.

The transferred net assets have been recognized in the accompanying Statement of Changes in Net Assets Available for Benefits. A summary of the transferred net assets is as follows:
