WRIGHT TOOL COMPANY
RETIREMENT SAVINGS PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS

1. THE PLAN

The following description of the Wright Tool Company Retirement Savings Plan and Trust (the Plan) is provided for general information purposes. Participants should refer to the plan document for more complete information.

The Plan, established on November 1, 1988, is a defined contribution plan providing benefits for the eligible employees of Wright Tool Company (the Company). The Company is the plan sponsor and administrator. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Participation
Employees become eligible to participate in the Plan upon completion of one year of service, as defined by the plan document, and the attainment of age 21. Eligible employees are able to participate in the Plan on the first day of the month following the date of initial eligibility.

Participant Accounts and Contributions
Each participant's account is credited with the participant's tax-deferred contributions, company contributions, and investment fund earnings. Plan participants may make tax-deferred contributions to the Plan of 1% to 25% of their total compensation.

The Company makes a 3% safe harbor contribution on eligible compensation for all participants. Participants are also eligible for discretionary matching and non-elective contributions. Discretionary matching contributions were 50% of the participant contributions up to a maximum of 4% of eligible compensation for the years ended December 31, 2020 and 2019. There were no discretionary non-elective contributions made during the years ended December 31, 2020 and 2019. The total annual contributions on behalf of any participant shall not exceed the applicable Internal Revenue Code (IRC) limits.

Rollover Contributions
Distributions from another qualified plan may be transferred into the Plan.

Investment Options
Participants may direct the manner in which their tax-deferred contributions, rollover contributions and Company contributions are allocated among the investment options available under the Plan.

Vesting
Participants are immediately vested in their tax-deferred contributions, rollover contributions, the Company's discretionary matching and safe harbor contributions. Vesting in discretionary non-elective contributions shall be zero percent until the employee completes 3 years of vesting service at which time they will be 100% vested.

Forfeitures
Forfeitures of terminated non-vested account balances shall be used to reduce employer contributions. These account balances totaled approximately $100 at December 31, 2020 and 2019. For the years ended December 31, 2020 and 2019, forfeitures of approximately $1,600 and $4,300, respectively, were used to reduce employer contributions.

Benefit Payments
Upon service or disability retirement, death, termination or financial hardship, the participant or beneficiary may elect to receive a benefit payment. Benefit payments are paid directly to the participant or beneficiaries from the net assets available for benefits and are made in lump-sum amounts subject to the provisions of the Plan.

Plan Termination
Although it has not expressed any intent to do so, the Company has the right to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all amounts credited to participant accounts shall become fully vested.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Financial Statements
The financial statements are prepared on the accrual basis of accounting.

Investments
Gains and losses on sales of securities are based on the actual cost of securities. Dividend income is recorded on the ex-dividend date. Interest from other investments is recorded as earned.

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Administrative Expenses
All significant administrative expenses of the Plan are paid through a revenue sharing agreement with a third party or by the Company.

Use of Estimates
The preparation of financial statements in conformity with U.S. generally accepted accounting principles (US GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

3. INFORMATION CERTIFIED BY TRUSTEE

The trustee has certified to the completeness and accuracy of the amounts reported as investments, net investment gain (loss) and interest and dividends on the Plan's financial statements and the accompanying supplemental schedule of assets (held at end of year). Certain plan investments are units of funds managed by Fidelity Management Trust Company (Fidelity), the trustee, as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions.

4. FAIR VALUE MEASUREMENTS

ASC 820, *Fair Value Measurements and Disclosures,* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 — Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specific (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Mutual Funds: Valued at the net asset value of shares held by the Plan at year end.

Common Collective Trust: Valued at the net asset value, exclusive of the adjustment to contract value. The use of net asset value as fair value is deemed appropriate as the collective trust funds do not have finite lives, unfunded commitments relating to these types of investments or significant restrictions on redemptions.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2020 and 2019:

	Level 1	Level 2	Level 3	Total
December 31, 2020				
Mutual Funds	$ 8,896,185	$ -	$ -	$ 8,896,185
Measured at net asset value				1,695,064
				$ 10,591,249
December 31, 2019				
Mutual Funds	$ 9,097,161	$ -	$ -	$ 9,097,161
Measured at net asset value				1,447,015
				$ 10,544,176

5. FEDERAL INCOME TAXES

The Plan is administered pursuant to a prototype plan offered by Fidelity, the Plan's trustee. In a volume submitter letter dated March 31, 2014, the Internal Revenue Service (IRS) notified Fidelity that the Plan, as then designed, was in compliance with applicable sections of the IRC. The Plan has not received a determination letter specific to the Plan itself. The Plan has been amended since the volume submitter letter was received related to the prototype plan, however, the plan administrator believes that the Plan was designed and is being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

US GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2020 and 2019, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the IRS; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2017.

6. SUBSEQUENT EVENTS

Plan management evaluated subsequent events through October 8, 2021, the date which the financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

WRIGHT TOOL COMPANY
RETIREMENT SAVINGS PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS

1. THE PLAN

The following description of the Wright Tool Company Retirement Savings Plan and Trust (the Plan) is provided for general information purposes. Participants should refer to the plan document for more complete information.

The Plan, established on November 1, 1988, is a defined contribution plan providing benefits for the eligible employees of Wright Tool Company (the Company). The Company is the plan sponsor and administrator. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Participation
Employees become eligible to participate in the Plan upon completion of one year of service, as defined by the plan document, and the attainment of age 21. Eligible employees are able to participate in the Plan on the first day of the month following the date of initial eligibility.

Participant Accounts and Contributions
Each participant's account is credited with the participant's tax-deferred contributions, company contributions, and investment fund earnings. Plan participants may make tax-deferred contributions to the Plan of 1% to 25% of their total compensation.

The Company makes a 3% safe harbor contribution on eligible compensation for all participants. Participants are also eligible for discretionary matching and non-elective contributions. Discretionary matching contributions were 50% of the participant contributions up to a maximum of 4% of eligible compensation for the years ended December 31, 2020 and 2019. There were no discretionary non-elective contributions made during the years ended December 31, 2020 and 2019. The total annual contributions on behalf of any participant shall not exceed the applicable Internal Revenue Code (IRC) limits.

Rollover Contributions
Distributions from another qualified plan may be transferred into the Plan.

Investment Options
Participants may direct the manner in which their tax-deferred contributions, rollover contributions and Company contributions are allocated among the investment options available under the Plan.

Vesting
Participants are immediately vested in their tax-deferred contributions, rollover contributions, the Company's discretionary matching and safe harbor contributions. Vesting in discretionary non-elective contributions shall be zero percent until the employee completes 3 years of vesting service at which time they will be 100% vested.

Forfeitures
Forfeitures of terminated non-vested account balances shall be used to reduce employer contributions. These account balances totaled approximately $100 at December 31, 2020 and 2019. For the years ended December 31, 2020 and 2019, forfeitures of approximately $1,600 and $4,300, respectively, were used to reduce employer contributions.

Benefit Payments
Upon service or disability retirement, death, termination or financial hardship, the participant or beneficiary may elect to receive a benefit payment. Benefit payments are paid directly to the participant or beneficiaries from the net assets available for benefits and are made in lump-sum amounts subject to the provisions of the Plan.

Plan Termination
Although it has not expressed any intent to do so, the Company has the right to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all amounts credited to participant accounts shall become fully vested.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Financial Statements
The financial statements are prepared on the accrual basis of accounting.

Investments
Gains and losses on sales of securities are based on the actual cost of securities. Dividend income is recorded on the ex-dividend date. Interest from other investments is recorded as earned.

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Administrative Expenses
All significant administrative expenses of the Plan are paid through a revenue sharing agreement with a third party or by the Company.

Use of Estimates
The preparation of financial statements in conformity with U.S. generally accepted accounting principles (US GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

3. INFORMATION CERTIFIED BY TRUSTEE

The trustee has certified to the completeness and accuracy of the amounts reported as investments, net investment gain (loss) and interest and dividends on the Plan's financial statements and the accompanying supplemental schedule of assets (held at end of year). Certain plan investments are units of funds managed by Fidelity Management Trust Company (Fidelity), the trustee, as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions.

4. FAIR VALUE MEASUREMENTS

ASC 820, *Fair Value Measurements and Disclosures,* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 — Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specific (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Mutual Funds: Valued at the net asset value of shares held by the Plan at year end.

Common Collective Trust: Valued at the net asset value, exclusive of the adjustment to contract value. The use of net asset value as fair value is deemed appropriate as the collective trust funds do not have finite lives, unfunded commitments relating to these types of investments or significant restrictions on redemptions.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2020 and 2019:

	Level 1	Level 2	Level 3	Total
December 31, 2020				
Mutual Funds	$ 8,896,185	$ -	$ -	$ 8,896,185
Measured at net asset value				1,695,064
				$ 10,591,249
December 31, 2019				
Mutual Funds	$ 9,097,161	$ -	$ -	$ 9,097,161
Measured at net asset value				1,447,015
				$ 10,544,176

5. FEDERAL INCOME TAXES

The Plan is administered pursuant to a prototype plan offered by Fidelity, the Plan's trustee. In a volume submitter letter dated March 31, 2014, the Internal Revenue Service (IRS) notified Fidelity that the Plan, as then designed, was in compliance with applicable sections of the IRC. The Plan has not received a determination letter specific to the Plan itself. The Plan has been amended since the volume submitter letter was received related to the prototype plan, however, the plan administrator believes that the Plan was designed and is being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

US GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2020 and 2019, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the IRS; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2017.

6. SUBSEQUENT EVENTS

Plan management evaluated subsequent events through October 8, 2021, the date which the financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.
