1. Plan Description

The following description of the Community Rehab Associates Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more comprehensive description of the Plan's provisions.

a) *General* – The Plan is a 401(k) defined contribution plan covering all full-time employees of Community Rehab Associates, Inc. (the "Company") who have completed one year of service and are age eighteen or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The effective date of the Plan is September 1, 2007. The Plan was restated on April 1, 2016.

b) *Eligibility* – The Plan substantially covers all employees of the Company who have completed three months of service and are age eighteen or older. Once an eligible employee has satisfied the eligibility requirements the employee will become a participant in the Plan on the first day of the month next following the date eligibility requirements are satisfied.

c) *Employee Contributions* – Each year participants may contribute up to 100% of annual compensation, as defined by the Plan, subject to certain limitation under the Internal Revenue Code ("IRC"). Participants who have attained age 50 before the end of the calendar year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit plans or defined contribution plans. The Plan does not include an automatic deferral feature.

d) *Employer Contributions* – For the year ended December 31, 2020 and 2019, the Company made a matching contribution of up to 1% based upon the first 4% of compensation that each participant contributed to the Plan. The matching contributions are discretionary and determined per payroll.

e) *Investment Options* - Participants direct the investment of their contributions and the Company's contribution into various investment options offered by the Plan. Participants may change their investment options at any time via the telephone or internet. Participants who do not select specific investments are invested in accordance with the default investment alternatives established under the Plan.

f) *Participants Accounts* – Each participant's account is credited with the *participant's* contributions and allocation of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. Administrative expenses maybe charged based on account balances or charged equally to each participant. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

g) *Vesting* – Participants are vested immediately in their contributions plus actual earnings thereon. Participants are also immediately vested in the Company's matching contribution.

h) *Payment of Benefits* – In the case of retirement, death, disability or termination of employment, participants may elect to receive the vested *accumulated* value of their account in a lump sum distribution or installment payment sufficient to satisfy required minimum distributions (RMD).

i) *Forfeited Account* – Forfeitures of non-vested balances may be used to reduce employer contributions or pay plan expenses. At December 31, 2020 and 2019 the balance in the forfeiture account was $208 and $206, respectively.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual method of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Investment related expenses are included in net appreciation of fair value of investments.

3. Subsequent Events

The Plan has evaluated events and transactions occurring subsequent to December 31, 2020 through October 11, 2021, which is the date the financial statements were available to be issued.

4. Information Prepared and Certified by the Custodian

The following information included in the accompanying financial statements and supplemental material was obtained from data that has been prepared and certified to as complete and accurate by the custodian, Great West Life and Annuity Insurance Company.

December 31,	*2020*	*2019*
Investments:		
Pooled separate accounts	$1,467,081	$1,376,943
Guaranteed investment contract	78,590	91,915

Year ended December 31,	*2020*
Investment income:	
Net appreciation in fair value of investments	$ 215,132
Interest and dividends	1,011

5. Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value.

Following is a description of the valuation methodologies used for assets measured at fair value.

Pooled separate accounts: The Plan holds units of participation in the separate accounts under a group annuity contract. The units are valued daily at their accumulation unit value. Accumulation unit value is determined based on the net asset values of the underlying funds, which are generally quoted in active markets, and the contract's separate account charges. There are no transfer or redemption restrictions, and no unfunded commitments on these investments.

The underlying mutual funds include: (i) equity securities invested in small, large and mid-sized companies that seek high total return or long-term capital growth; (ii) common stocks, preferred stocks, fixed-income securities, convertible securities and depositary receipts of foreign companies that seek long-term capital growth; (iii) common stocks and fixed-income securities that seek favorable overall return; (iv) stocks, bonds and money market instruments that seek to achieve a competitive total return; (v) asset allocation funds which invest in a combination of assets such as stocks, bonds and money market instruments and seek to provide capital appreciation and income consistent with asset allocation; and (vi) Lifecycle funds which model portfolios designed to provide a balance of growth, income and capital conservation through a mix of equity and fixed-income exposures based on a participant's age and projected retirement date, adjusting asset allocations and associated risk levels with the objective of becoming more conservative as the target date approach.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value.

	Investment Assets at Fair Value As of December 31, 2020			
	Level 1	Level 2	Level 3	Total
Pooled Separate Accounts	–	$1,467,081	–	$1,467,081
Total investments at fair value	–	$1,467,081	–	$1,467,081

	As of December 31, 2019			
	Level 1	Level 2	Level 3	Total
Pooled Separate Accounts	–	$1,376,943	–	$1,376,943
Total investments at fair value	–	$1,376,943	–	$1,376,943

6. Investment Contract with Insurance Company

The Plan holds a benefit-responsive investment contact (GIC) with Great-West Life & Annuity Insurance Company (Great West). The contract underlying this investment option is considered to be fully-benefit responsive. Because the contract is fully benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the GIC. For the years ended December 31, 2020 and 2019, contract value was equal to fair value.

Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the plan.

The investment contract (Great West Key Guaranteed Portfolio Fund) is a general account product. The methodology for calculating the interest crediting rate is based on the earnings of the underlying assets in the entire medium-long term new portfolio compared to the minimum interest crediting rate, as stated in the contract, and prevailing market conditions. Interest crediting rate is reset quarterly.

The average yield earned by the plan for the benefit responsive fund can be derived by averaging the quarterly gross interest rates for the fund over the year. The average yield for 2020 and 2019 was 1.04% and 1.20%, respectively.

7. Risks and Uncertainties

The Plan utilizes various investment instruments, which are exposed to various risks, such as interest rates, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

8. Related Party Transactions

Investment assets of the Plan are held by Great West Life & Annuity Company (Great West). Empower Retirement (Recordkeeper), a subsidiary of Great West, is the recordkeeper for the Plan. In 2020, the Plan paid fees of $2,281 for recordkeeping services. Great West also maintains the Key Guaranteed Portfolio Fund, an investment contact written by Great West and an investment of the Plan and the Plan's investment options.

9. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

10. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008 that the Prototype Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2017.
