Note 1. Description of Plan

The following description of the Jobe Materials, L.P. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan generally provided for employees of Jobe Materials, L.P. (the Company) who have completed one year of service and are 21 years of age or older. The service and age requirements were waived for all employees who were employed on September 30, 2005. The Plan qualifies as a tax-exempt Plan under the provisions of the Internal Revenue Code and complies with the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Trustees are responsible for oversight of the Plan and determining the appropriateness of the Plan's investment offerings and monitoring investment performance.

Administration of Plan Assets: The Plan is administered by Jobe Materials, L.P. The Plan's assets, which consist principally of mutual funds, and guaranteed investment contracts, are held by the Custodian of the Plan. Contributions are held and managed by the Custodian, which invests cash received, interest, and dividend income and makes distributions to participants.

Eligibility: Employees of the Company who have completed one year of service and have reached the age of 21 are eligible to participate in the elective deferral contributions and the employee matching contribution component.

Contributions: All eligible employees may voluntarily contribute a specific amount or a percentage of their pretax compensation, as defined in the Plan, up to the maximum amount allowable under Internal Revenue Code limitations. Participants may also elect to make contributions to the Plan on an after-tax basis. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Total contributions are subject to Internal Revenue Service limitations. Participants direct the investment of their accounts to selected investment funds as made available and determined by the Plan Trustee and adopted by the Plan Administrator. Participants may change their allocation in investment options at any time, via direct phone and internet access to the trustee.

The Company makes matching contributions under the safe harbor election. For 2020 and 2019, the safe harbor matching contribution matched participant pre-tax contributions at a rate of 100% of participant's contributions up to 3% of compensation, plus 50% of eligible participant contributions exceeding 3% and up to 5% of compensation.

The Company may also make a discretionary non-elective matching contribution at the end of the Plan Year in an amount determined by the Company's management. No discretionary contributions were made for the plan year ended December 31, 2020.

Participant Accounts: Each participant's account is credited with the participant's contribution and allocations of (a) the company's contribution and (b) plan earnings, and (c) charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1. Description of Plan (continued)

Vesting: Participants are vested immediately in their contributions, the Company's safe harbor matching contributions, and discretionary non-elective matching contributions if employed at the end of the year, plus earnings thereon.

Forfeitures: Forfeited balances of terminated participant's non-vested accounts are used to reduce future employer contributions. Forfeited, non-vested account balances at December 31, 2020 and 2019 totaled $7,978 and $8,059, respectively.

Investment Options: Participants direct the investment of their accounts to selected investment funds as made available and determined by the Plan Custodian and adopted by the Plan Administrator. Participants may change their allocation in investment options at any time, via direct phone and internet access to the custodian.

Notes Receivable from Participants: Participants may borrow from their investment accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with national prevailing rates, as adopted by the Plan Administrator. Participants are allowed to have only one loan outstanding at any given time. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant loans fund. Loans must be repaid within 5 years, unless the loan is used for the purchase of a primary residence. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits: Participants are eligible for benefit payment upon termination of employment, disability, death, normal retirement after attaining age 59 ½ and upon a qualifying financial hardship. A participant may elect to receive the value of the participant's vested interest in his or her account either in (1) a lump-sum amount, (2) installments over a certain period not extending beyond the life expectancy of the participant, (3) installments over a certain period not extending beyond the joint and last survivor's life expectancy, or (4) fixed or variable installments to equal or exceed any required minimum distributions until the balance of the account is depleted.

Note 2. Summary of Significant Accounting Policies

The significant accounting policies of the Plan are summarized as follows:

Basis of Accounting: The financial statements of the Plan are prepared using the accrual method of accounting.

As described in FASB ASC 962-325 *Defined Contribution Pension Plans- Investments*, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in a benefit-responsive deposit administration contract. Contract value of the investment contract is based on the net asset value of the fund as reported by the investment advisor. The Plan reports investment contracts at contract value which approximates fair value on the Statement of Net Assets Available for Benefits as required by the accounting guidance.

Note 2. Summary of Significant Accounting Policies (continued)

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition: The Plan's investments are based on the estimated fair value of the underlying investments in the plan. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants: Notes receivables from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2020 and 2019. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits: Benefits are recorded when paid.

Subsequent Events: The Plan has evaluated subsequent events through October 8, 2021, the date the financial statements were available to be issued.

Note 3. Fair Value Measurements

FASB ASC 820-10-35, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820-10-35 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Note 3. Fair Value Measurements (continued)

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Pooled separate accounts: Valued at the net asset value (NAV) of shares, which is based on quoted prices for identical assets in active markets, held by the plan at year end.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2020 and 2019:

	Assets at Fair Value as of December 31, 2020			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ 13,431,903	$ -	$ -	$ 13,431,903
Total assets at fair value	$ 13,431,903	$ -	$ -	$ 13,431,903

	Assets at Fair Value as of December 31, 2019			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ 11,859,541	$	$	$ 11,859,541
Total assets at fair value	$ 11,859,541	$ -	$ -	$ 11,859,541

Note 4. Investment Contracts with Insurance Company

The Plan entered into a benefit-responsive investment contract with Nationwide Financial Services, Inc. (Nationwide). Nationwide maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by Nationwide. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer all of or a portion of their investment at contract value.

Note 4. Investment Contracts with Insurance Company (continued)

There are no reserves against contract value for credit risk of the contract issuer or otherwise. Contract value for the traditional guaranteed investment contract were $1,309,259 and $1,152,999 for December 31, 2020 and 2019, respectively.

Note 5. Administrative Expenses

Certain expenses incurred in connection with the general administration of the Plan are paid by the Plan and are recorded in the accompanying statement of changes in net assets available for benefits as administrative expenses. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Certain other administrative expenses are paid by the Company, which is then reimbursed by the Plan.

During 2020, the Plan utilized various services from investment advisors. The firms charged the Plan $152,905 in fees for the year ended December 31, 2020.

Note 6. Information Certified by the Trustee

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the value of investments and notes receivables which were $14,741,162 and $593,420 as of December 31, 2020 and $13,012,540 and $637,086 as of December 31, 2019, certified by Nationwide Financial Services, Inc., except for comparing such information certified by the trustee to information included in the Plan's financial statements and supplemental schedule.

The Custodian also certified to the completeness and accuracy of $60,726 of dividends and interest income related to the aforementioned investments and note receivables from participants for the year ended December 31, 2020, and a change of $1,715,683 in net appreciation in investments, including gains and losses on investments bought and sold, as well as held during the year.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Plan may determine.

Note 8. Income Tax Status

The IRS has determined and informed the Company by a letter dated March 31, 2014, that the Plan and related trust are designed in accordance with applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes the Plan is designed and being operated in compliance with the applicable requirements of the IRC and therefore believes that the plan is qualified and the related trust is tax-exempt.

Note 8. Income Tax Status (continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2020, no uncertain positions are taken or are expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to income tax examinations for plan years prior to 2017.

Note 9. Related Party Transactions

Certain plan investments are shares of mutual funds managed by Nationwide Financial Services, Inc. Nationwide Financial Services, Inc. is the Trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. The administrative fee paid to Nationwide Financial Services, Inc. was $33,489 for the year ended December 31, 2020.

Note 10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

On January 30, 2020, the World Health Organization declared the coronavirus outbreak a "Public Health Emergency of International Concern" and on March 10, 2020, declared it to be a pandemic. Actions taken around the world to help mitigate the spread of the coronavirus include restrictions on travel, and quarantines in certain areas, and forced closures for certain types of public places and businesses. The coronavirus and actions taken to mitigate it have had and are expected to continue to have an adverse impact on the economies and financial markets of many countries, including the geographical area in which the Company operates. While it is unknown how long these conditions will last and what the complete financial effect will be to the Plan, to date, the Plan has not experienced a significant decrease in their assets. Management is evaluating the impact on the assets; however long-term effects cannot be estimated and as such no provision has been recorded in the 2020 financial statements
