GEISSELE AUTOMATICS 401(k) PROFIT SHARING PLAN & TRUST

Notes to Financial Statements December 31, 2020 and 2019

(1) Description of Plan

The following description of the Geissele Automatics 401(k) Profit Sharing Plan & Trust (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution profit-sharing plan covering substantially all employees of Geissele Automatics, Inc., Gwynedd Manufacturing, Inc., and ALG Defense, Inc. (collectively, the Company) who have attained age eighteen or older and completed three months of service (as defined in the Plan document) with the Company, except employees whose employment is covered by a collective bargaining agreement, nonresident aliens, and leased employees. The Plan is subject to the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The plan trustees are responsible for the oversight of the Plan, determine the appropriateness of the Plan's investment offerings and monitor investment performance.

Contributions

Participants may contribute up to 100% of their pre-tax annual eligible compensation or after-tax annual eligible compensation, as defined in the plan document, subject to the maximum allowable under the Internal Revenue Code (IRC) guidelines. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company makes a matching contribution of 50% of a participant's elective deferral contribution for elective deferrals up to 6% of a participant's compensation, as defined by the Plan. Matching contributions are determined each payroll period.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) plan earnings, and charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes to Financial Statements December 31, 2020 and 2019

(1) Description of Plan, Continued

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service according to the following schedule:

Years Service	Vesting Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000. Participants are permitted to have one loan outstanding at any given time. Loan terms range from 1 to 5 years, or longer if the proceeds are used for the purchase of the participant's primary residence. The loans are secured by the balance in the participants' accounts and bear interest at rates that range from 5.25% to 6.75% at December 31, 2020, which are commensurate with local prevailing rates as determined by the plan administrator. The interest rate will remain fixed for the duration of the loan. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

Upon termination of service, death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the vested balance of the participant's account, unless another form of payment is selected by the participant. For termination of service due to other reasons, a participant may (a) elect to defer payment until normal retirement age or April 1 of the calendar year following the attainment of age 72, if the balance is greater than \$1,000, (b) receive the value of the vested account as a lump-sum distribution, or (c) rollover the vested balance to another authorized plan. Absent instructions, accounts with a balance under \$1,000 will be paid as a lump-sum distribution. Employees may elect withdrawals during employment subject to the terms described in the plan document.

(1) Description of Plan, Continued

Forfeited Accounts

As of December 31, 2020, there are forfeited nonvested account balances in the amount of \$755. At December 31, 2019, there were no balances in forfeited nonvested accounts. Forfeited nonvested accounts may be used to offset future employer contributions or plan administrative expenses. There were no forfeited nonvested account balances at December 31, 2019. During 2020, \$7,621 of forfeitures were used to reduce employer matching contributions.

(2) Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed as they are incurred. No allowance for credit losses has been recorded as of December 31, 2020 and 2019. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Notes to Financial Statements December 31, 2020 and 2019

(2) Summary of Significant Accounting Policies, Continued

Excess Contribution Payable

Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service (IRS) are recorded as a liability with a corresponding reduction to contributions and related net appreciation on those contributions.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses related to the administration of the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and processing of distributions are charged directly to the affected participants' accounts and are included in administrative expenses. Investment related expenses are included in net appreciation in the fair value of investments.

Subsequent Events

The Plan has evaluated subsequent events through October 8, 2021, the date the financial statements were available to be issued.

(3) Financial Information Certified by the Trustee (Unaudited)

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Nationwide Trust Company, FSB (Nationwide), the trustee of the Plan, except for comparing such information certified by the trustee to information included in the Plan's financial statements and supplemental schedules. The trustee has certified the following as complete and accurate:

- The investments at fair value at December 31, 2020 and 2019.
- Net appreciation in fair value of investments for the year ended December 31, 2020.
- Interest and dividend income for the year ended December 31, 2020.
- Schedule H, Line 4i - Schedule of Assets (Held at End of Year) at December 31, 2020, except for notes receivable from participants.

Notes to Financial Statements December 31, 2020 and 2019

(4) Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include
- quoted prices for similar assets or liabilities in active markets;
 - quoted prices for identical or similar assets or liabilities in inactive markets;
 - inputs other than quoted prices that are observable for the asset or liability;
 - inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Notes to Financial Statements December 31, 2020 and 2019

(4) Fair Value Measurements, Continued

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Registered investment companies: Valued at the daily closing price as reported by the fund. Registered investment companies held by the Plan are open end funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The registered investment companies held by the Plan are deemed to be actively traded.

The following table sets forth by level and asset class, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	Assets at Fair Value as of December 31, 2020			
	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 3,191,850	\$ -	\$ -	\$ 3,191,850
Total investments at fair value				<u>\$ 3,191,850</u>

	Assets at Fair Value as of December 31, 2019			
	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 2,285,731	\$ -	\$ -	\$ 2,285,731
Total investments at fair value				<u>\$ 2,285,731</u>

There were no significant transfers among investment levels during the years ended December 31, 2020 and 2019.

(5) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will remain 100% vested in their employer contributions.

Notes to Financial Statements December 31, 2020 and 2019

(6) Tax Status

The Plan uses a prototype plan document sponsored by Nationwide Financial Services, Inc. (NFSI). The IRS has determined and informed NFSI by a letter dated March 31, 2014, that the Plan is designed in accordance with the applicable section of the IRC. Although the Plan has been amended since receiving the opinion letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(7) Related Party Transactions and Party-In-Interest Transactions

Certain plan investments are shares of registered investment companies managed by an affiliate of Nationwide. Nationwide Retirement Plans, an affiliate of Nationwide, is the record keeper of the Plan. Nationwide is the trustee of the Plan and, therefore, these transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules. Fees incurred by the Plan for investment management services are included in net appreciation in the fair value of investments. Administrative expenses paid by the Plan related to activity based transactions and recordkeeping services amounted to \$1,158 for the year ended December 31, 2020. The plan sponsor pays directly certain other fees related to the Plan's operations.

(8) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

(9) Prohibited Transactions

During 2019, the Company failed to remit to the Plan's trustee certain employee contributions aggregating \$308 within the period prescribed by the DOL regulations. Delays in remitting contributions to the custodian were due to administrative errors, and the Company will make contributions to the affected participant's account to compensate those participants for potential lost income due to the delays.
