Notes to Financial Statements
December 31, 2020 and 2019**

1. Description of the Plan

The following description of the Profit Sharing Plan for Employees of Belmont Community Hospital (the Plan) provides general information. Users of these financial statements should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan was a defined contribution profit sharing plan covering substantially all employees of Belmont Community Hospital (the Hospital), established January 1, 1990 and amended and restated on January 1, 2009. The Hospital was managed as a part of Wheeling Hospital. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

In response to an IRS compliance check in 2015, the Hospital chose to retroactively discontinue the Plan as of December 31, 2008, the Plan year immediately following the year that the last contribution was made to the Plan.

In 2018 the Plan's management decided to liquidate the Plan. The Hospital ceased operations on April 5, 2019. The Plan's assets were liquidated as of December 31, 2020.

Participant Accounts

Each participant's account was credited with Plan earnings. Allocations of investment earnings were based on account balances. Participant accounts were valued daily and earnings or losses were posted to accounts on a daily basis. As of December 31, 2020 and 2019, \$0 and \$2,187 was unallocated to plan participants, respectively.

Vesting

All balances were 100% vested as of December 31, 2008.

Payment of Benefits

All benefits have been distributed in liquidation. Participants were free to take a lump sum distribution less required withholding or could roll over their account to an IRA or another employer Plan. In 2020 and 2019, and \$348,761 and \$215,319 of distributions were rolled over into the Wheeling Hospital 403(b) Plan.

Administrative Fees

Legal and accounting fees, and certain administrative expenses relating to the maintenance of participant eligibility records were paid by the Hospital.

Investment Fees

The Plan's participants invested in various mutual funds which charged between 4 and 68 basis points. The total fees paid by plan participants approximated \$2,797 and \$4,399 for the years ended December 31, 2020 and 2019, respectively.

2. Summary of Significant Accounting Policies

Liquidation Basis of Accounting

Due to the Hospital's closure in 2019, the Plan's management resolved to terminate the Plan beginning in 2018. Accordingly, the liquidation basis of accounting has been used in presenting the financial statements in accordance with FASB ASC 205-30. As of December 31, 2020, all assets of the Plan have been fully liquidated.

Accrued Activity

These financial statements include the following activity which occurred after December 31, 2020, but before May 6, 2021:

Benefit payments including administrative fees	\$456,145
Realized gains	\$24,728
Dividend income	\$1,779

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments were recorded at fair value. For plan assets presented at fair value under GAAP, there was no change in asset values due to changing to the liquidation basis.

Participant accounts were valued daily and earnings or losses were posted to accounts on a daily basis. Purchases and sales of securities were recorded on a trade date basis. Dividends were recorded on the ex-dividend date. Net appreciation includes the Plan's realized and unrealized gains and losses on investments bought and sold, as well as held, during the year.

3. Investments

Investment Composition

As of December 31, 2020, the Plan's investments were comprised of the following:

	Level 1	Level 2	Level 3	Investments Measured at Net Asset Value	Total
Cash and Cash Equivalents	\$ -	\$ -	\$ -	\$ -	\$ -
Mutual funds	-	-	-	-	-
Total investments	\$ -	\$ -	\$ -	\$ -	\$ -

As of December 31, 2019, the Plan's investments were comprised of the following:

	Level 1	Level 2	Level 3	Investments Measured at Net Asset Value	Total
Cash and Cash Equivalents	\$ 98,475	\$ -	\$ -	\$ -	\$ 98,475
Mutual funds	985,683	-	-	-	985,683
Total investments	\$ 1,084,158	\$ -	\$ -	\$ -	\$ 1,084,158

4. Fair Value

The framework for measuring fair value provides a fair value hierarchy which prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • Quoted prices for similar assets in active markets • Quoted prices for identical or similar assets in inactive markets • Inputs other than quoted prices that are observable for the asset • Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.
<i>All of the Plan's investments were Level 1 as of December 31, 2020 and 2019, measured on a recurring basis.</i>	

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

4. Fair Value (Continued)

METHODOLOGIES

The following is a description of the methodologies used by this Plan. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds that were held by the Plan were open-end mutual funds that were registered with the Securities and Exchange Commission. These funds were required to publish their daily net asset value and to transact at that price. The mutual funds that were held by the Plan were actively traded.

Money markets: Valued at \$1 per share.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods were appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could have resulted in different fair value measurements at the reporting date.

5. Information Prepared and Certified by the Plan's Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

The following is a summary of the investment information regarding the Plan as of December 31, 2020 and 2019, and for the years then ended, included in the Plan's financial statements that was prepared by or derived from information prepared by PNC Institutional Investments, the trustee of the Plan, and furnished to the plan administrator. The Plan administrator has obtained certifications from the trustee that such information is complete and accurate.

The Plan's independent certified public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements.

6. Plan Termination

Plan's management has terminated the Plan. All distributions have been made to the exclusive benefit of participants or their beneficiaries.

7. Tax Status

The Plan used the PNC Bank National Association Prototype document for Profit Sharing Plans, which received a favorable determination opinion from the Internal Revenue Service (IRS), dated March 31, 2008. The Plan itself has not received a determination letter from the IRS. The prototype document has been amended and restated since receiving the prototype determination letter. However, the Plan administrator believes that the prototype document is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

8. Investment Risk

Investments of the Plan were not insured by the FDIC; were not deposits or other obligations of, or guaranteed by any bank or affiliates; and were subject to investment risks, including possible loss of the principal amount invested.

The Plan invested in various investment securities. The investment securities were exposed to various risks such as interest rate, market, and credit risks.

9. Classification Differences

10. Reclassification

Certain accounts in the prior year financial statements have been reclassified for comparative purposes to conform with the presentation in the current year financial statements. These reclassifications had no effect upon net assets available for benefits.
