INDEPENDENT AUDITOR'S REPORT

To the Audit Committee of
Moody National Bank:

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Moody National Bank 401(k) Plan (the "Plan"), which comprise the Statements of Net Assets Available for Benefits as of December 31, 2020 and 2019, and the related Statements of Changes in Net Assets Available for Benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, as amended ("ERISA"), the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Voya Retirement Insurance and Annuity Company ("Voya"), the custodian of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the Plan administrator that Voya holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained certifications from the custodian as of December 31, 2020 and 2019, and for the years then ended, that the information provided to the Plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter – Supplemental Schedule

The supplemental schedule, Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2020, is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on this supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, is presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

1. Description of Plan

The following description of the Moody National Bank 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan, effective May 1, 2003, covering all full-time employees of Moody National Bank (the "Company") meeting participation requirements described below. The Plan is subject to the Employee Retirement Income Security Act of 1974, as amended ("ERISA"), and all requirements of Section 401(a) of the Internal Revenue Code ("IRC").

Effective December 31, 2018, the Plan was amended and restated to, among other things, comply with the most recent statutory and regulatory changes applicable to plans maintained under Section 401(a) and 401(k) of the IRC.

On December 20, 2019, the Setting Every Community Up for Retirement Enhancement Act of 2019 (the "SECURE Act") was enacted and became effective beginning on January 1, 2020. The SECURE Act provisions include, among other things, an increase in the age limit for required minimum distributions from 70 ½ to 72.

On March 27, 2020, the President signed the Coronavirus Aid, Relief, and Economic Security Act (the "CARES Act"), a bipartisan economic relief package aimed at helping American workers and businesses impacted by the coronavirus pandemic. The CARES Act, among other things, includes several relief provisions available to tax-qualified retirement plans and their participants. The Plan's management has evaluated the relief provisions available to Plan participants under the CARES Act, and has implemented the provision that permits coronavirus related distributions ("CRDs") of up to $100,000 to individuals affected by COVID-19. Under the provisions of the CARES Act, there is no mandatory federal tax withholding requirement, and the early withdrawal penalty is waived for any CRD.

Administration

The Plan is administered by the Company. The Moody National Bank Trust Department serves as trustee of the Plan. Voya Retirement Insurance and Annuity Company ("Voya") is the Plan's custodian and recordkeeper.

Eligibility

Prior to March 1, 2019, all Company employees who have completed a minimum of one year of service, consisting of at least 1,000 hours of service during a Plan year, and have attained the age of 19, are eligible to participate in the Plan except (i) collectively-bargained employees and (ii) non-resident aliens who do not have United States income.

Effective March 1, 2019, the Plan was amended to reduce the one-year service requirement to 90 days.

Employees meeting the eligibility requirements described above may begin participating in the Plan on the first day of the Plan year quarter coinciding with or immediately following the date such requirements are met (the "entry date").

Automatic Enrollment

Employees who are eligible to participate in the Plan are automatically enrolled in the Plan and deemed to have elected a deferral rate of 3% of their pre-tax annual compensation unless the employee affirmatively elects not to participate or elects a different deferral rate.

Contributions

Employees may elect to contribute up to 100% of their eligible compensation as a pre-tax elective deferral or a Roth elective deferral not to exceed the limitation ($19,500 in 2020 and $19,000 in 2019) as set forth in Section 402(g) of the IRC. Participants may make catch-up contributions, pre-tax contributions that exceed the annual elective deferral limit, during any calendar year ending on or after the participant's 50th birthday. Participants' total catch-up contributions during 2020 and 2019 cannot exceed $6,500 and $6,000, respectively. Participants may also make rollover contributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

1. Description of Plan, continued

Contributions, continued

The Company makes safe harbor matching contributions on behalf of each participant equal to the sum of 100% of the first 3% of the eligible employee's compensation that he or she contributes to the Plan plus 50% of the next 2% of the eligible employee's compensation that he or she contributes to the Plan. For the years ended December 31, 2020 and 2019, the Company made safe harbor matching contributions of $440,693 and $393,674, respectively.

The Company may also make employer matching contributions at a discretionary percentage of a participant's compensation or a discretionary dollar amount. Additionally, the Company, at its discretion, may elect to make annual contributions for all eligible Plan participants employed on the last day of the Plan year which must be designated as qualified non-elective profit sharing contributions. These contributions are allocated in the same ratio that each participant's compensation for the Plan year bears to the total compensation of all participants for the Plan year, subject to certain limitations required for Plan qualifications under the IRC. The Company made no discretionary employer matching contributions or qualified non-elective contributions during 2020 or 2019.

Participant Accounts

Each participant's account is credited with the participant's salary deferrals and rollover contributions and allocations of the Company contributions and Plan earnings and losses. Plan earnings and losses, net of appreciation (depreciation), are allocated as of the last day of each calendar quarter in the same proportion that each participant's and former participant's non-segregated accounts bear to the total of all participant's and former participant's non-segregated accounts as of the last day of each calendar quarter. Participants self-direct the allocation of contributions to investment choices offered under the Plan.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

Vesting

Participants are immediately vested in their employee contributions and earnings thereon as well as balances rolled over into the Plan from other qualified benefit plans under ERISA. Participants are also immediately vested in safe harbor matching contributions made by the Company prior to December 31, 2018. Participants' vesting in safe harbor matching contributions subsequent to December 31, 2018, discretionary employer matching contributions and employer non-elective profit sharing contributions are based on years of continuous service. A participant is 100% vested in safe harbor matching contribution after two years of credited service, and for discretionary employer matching contributions and employer non-elective profit sharing contributions after three years of credited service.

A participant becomes 100% vested in all Company contributions upon death, disability or attaining normal retirement age, as defined in the Plan document.

Notes Receivable from Participants

Participants may borrow from their fund accounts any amount greater than $1,000 up to a maximum equal to the lesser of $50,000, reduced by the highest outstanding loan balance incurred by the participant during the twelve-month period ending on the day before the loan is made, or 50% of the participant's vested account balance. Loan terms range from 1 to 5 years except in the case of a loan used to acquire a principal residence which will be a reasonable period of time determined at the time the loan is made. The loans are secured by the balance in the participant's account and bear interest at the prime rate, as stated in the Wall Street Journal, plus 1.00%.

Loan repayments are made ratably through payroll deductions. Participant loans outstanding as of December 31, 2020 and 2019 were $214,402 and $231,265, respectively. As of December 31, 2020 and 2019, interest rates on outstanding loans ranged from 4.25% to 6.50% in both years.

1. Description of Plan, continued

Payment of Benefits

Benefit payments are typically made in a lump-sum distribution to the participant upon termination of employment, disability or retirement, or to the designated beneficiary in the event of death, equal to the balance of the participant's vested interest in his or her account. Participants over the age of 59 ½ may make in-service withdrawals of the vested value of their accounts, subject to certain limitations as described in the Plan document.

Hardship withdrawals prior to the age of 59 ½ are also permitted under certain circumstances. Prior to January 1, 2020, participants electing to take a hardship withdrawal are suspended from making contributions to the Plan for a six-month period. Effective January 1, 2020, the required six-month suspension period was eliminated.

Forfeitures

Forfeited nonvested accounts, subject to the Plan administrator's discretion, may be applied to employer contributions or Plan expenses. At December 31, 2020 and 2019, forfeitures available to reduce future employer contributions or pay Plan expenses were $53,286 and $39,747, respectively. During the years ended December 31, 2020 and 2019, no forfeitures were used to reduce employer contributions or pay Plan expenses.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits.

The COVID-19 outbreak, which was declared a pandemic by the World Health Organization on March 11, 2020, has triggered volatility in financial markets and a significant negative impact on the global economy. However, because the values of the Plan's individual investments have and will fluctuate in response to changing market conditions, the amount of losses that will be recognized in subsequent periods, if any, cannot be determined. The full impact of the COVID-19 outbreak continues to evolve and is unknown at the date of this report.

Investment Valuation and Income Recognition

Investments are reported at fair value, with the exception of the fully benefit-responsive investment contract which is reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Investments in pooled separate accounts are valued at fair value based on the quoted market prices of the underlying assets and the number of units owned by the Plan at the reporting date.

The Plan invests in a fully benefit-responsive investment contract ("FBRIC") which is accounted for at contract value. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to FBRICs because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

2. Summary of Significant Accounting Policies, continued

Investment Valuation and Income Recognition, continued

Net appreciation in fair value of investments includes realized gains and losses on investments sold during the year and unrealized appreciation (depreciation) of investments held at the end of the year. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is accrued as earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2020 and 2019. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document.

Benefit Payments

Benefits are recorded when paid.

Recent Accounting Pronouncements

In August 2018, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework - Changes to the Disclosure Requirements for Fair Value Measurement*, which is part of the FASB disclosure framework project to improve the effectiveness of disclosures in the notes to the financial statements. The amendments in the new guidance remove, modify and add certain disclosure requirements related to fair value measurements covered in FASB Accounting Standards Codification Topic 820 ("ASC 820") *Fair Value Measurements and Disclosures*. The new standard is effective for Plan years beginning after December 15, 2019. Early adoption is permitted for either the entire standard or only the requirements that modify or eliminate the disclosure requirements, with certain requirements applied prospectively, and all other requirements applied retrospectively to all periods presented. The Plan adopted ASU No. 2018-13 effective January 1, 2020, and its adoption did not have a significant impact on the financial statements.

3. Fair Value Measurements

ASC 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

3. Fair Value Measurements, continued

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used by the Plan for investments measured at fair value. There has been no change in the methodology used at December 31, 2020 and 2019.

Pooled separate accounts: The Plan's investments in pooled separate accounts are stated at fair value and represent the number of participation units owned by the Plan valued at the net asset value ("NAV") of units held as of year-end. The net asset value is used as a practical expedient to determine fair value for these accounts. The calculated NAV is directly related to the net asset value of the underlying investment adjusted for dividends or distributions received by the custodian and the daily equivalent of any fees charged. Pooled separate accounts invest primarily in long-term bonds, domestic and international stocks, or single mutual funds. The underlying investments held by each pooled separate account are traded on an active market. Due to the nature of these investments, there are no unfunded commitments or redemption restrictions.

The valuation methodology described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methodology is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

In accordance with ASC 820, investments measured at NAV per share (or its equivalent) as a practical expedient, are not classified in the fair value hierarchy. Except as discussed in Note 4, Plan investments, at both December 31, 2020 and 2019, are in pooled separate accounts and measured at NAV as a practical expedient. Accordingly, no fair value hierarchy is presented.

Investment Strategies

(a) These funds seek both capital and appreciation and include a combination of assets, such as aggressive stocks, international stocks, large-company stocks, government bonds, foreign bonds or money markets. The allocation percentage to each asset type may be fixed, bounded by a range, or determined at the discretion of the manager. Managers of these funds review market conditions regularly and refine the asset allocation mixture they believe will achieve the best risk adjusted performance based on the stated objectives and target allocations of the particular fund.

(b) These investments seek capital appreciation or income by investing in stocks of small and medium-sized companies. These companies are generally striving to develop new products or markets and have above-average earnings growth potential.

(c) These investments seek capital appreciation by investing in stocks of larger U.S. companies that tend to reinvest all or most of their profits rather than pay dividends.

(d) These investments seek long-term growth of capital or a combination of growth and income by investing primarily in stocks of larger, mature companies. Stocks are selected for price appreciation and for the value of the current income provided through dividends. These investments generally exhibit a lower level of price volatility, due to the types of companies they favor.

(e) These investments primarily seek growth of capital and diversification in the investment portfolio by investing in securities of companies in developed and developing countries outside of the United States. These investments can demonstrate high volatility due to the unstable nature of the economies, political structures and currencies of the related countries.

(f) These investments seek income or growth of income, with less emphasis on capital appreciation. Funds in this asset class vary greatly in their risk profiles. The issuer, credit quality of the underlying investments, and the average duration of the portfolio play important roles in determining the risk profile of the fund.

(g) This investment seeks to provide the investor high liquidity with a low level of risk. The funds in this category invest in near-term instruments such as cash, cash equivalent securities, and high-credit-rating, debt based securities with a short-term maturity (such as U.S. Treasuries).

4. Group Annuity Contract – Fixed Account

At December 31, 2020 and 2019, the Plan invested in a group annuity contract that holds a fully benefit-responsive guaranteed investment contract with Voya (the "Issuer"). Contributions are maintained in a fixed account backed by the general assets of the Issuer. The account is credited with earnings and charged for participant withdrawals and administrative expenses. The Issuer of the guaranteed investment contract is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

The guaranteed investment contract is fully benefit-responsive and accordingly, is presented in the accompanying Statements of Net Assets Available for Benefits at contract value. Contract value, as reported to the Plan by the Issuer, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Certain events limit the ability of the Plan to transact at contract value with the Issuer. Such events include (1) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (2) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, or (3) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan). The Plan administrator does not believe that the occurrence of any such event which would limit the Plan's ability to transact at contract value with participants is probable.

Voya has the option to payout 100% of the current value of the contract after completion of five contract years.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The guaranteed investment contract with Voya has a guaranteed annual interest rate of no less than 1.00%. The guaranteed interest rate is redetermined annually. However, under no circumstances will the redetermined rate be less than 1.00%. The guaranteed interest rate for the years ended December 31, 2020 and 2019 was 1.00%.

5. Information Certified by the Plan's Custodians (Unaudited)

The Plan administrator has elected the method of annual reporting and compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2020 and 2019, and net appreciation in the fair value of investments, interest and dividends for the years then ended, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the custodian.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

6. Plan Termination

Although it has not expressed any interest to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants become 100% vested in their account balances.

7. Tax Status

The Plan adopted by the Company is a prototype non-standardized profit-sharing plan document ("Prototype Plan") designed by Voya. The Prototype Plan received an IRS opinion letter dated September 1, 2014, stating that the plan document complied with the applicable law. The Plan, which continues to use that prototype document, has been subsequently amended; however, management believes it is designed and continues to be operated in compliance with the applicable requirements of the Code and thus is exempt from federal income taxes under the provisions of Section 401(a) of the Code.

7. Tax Status, continued

U. S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2020 and 2019, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Party-In-Interest Transactions

Certain Plan investments are in accounts managed by the custodian, and the Plan issues notes receivable from participants. These transactions qualify as party-in-interest transactions, as defined by ERISA. However, such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA.

9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of the net assets available for benefits per the financial statements to the Form 5500 as of December 31, 2020 and 2019:

	2020	2019
