Note 1. Description of the Plan

The following description of Jefferson Bancshares, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan that covers all employees of Jefferson Bancshares, Inc., its wholly owned subsidiary, Jefferson Bank, and its wholly owned subsidiaries Sanger & Altgelt, LLC and Monticello Wealth Management, LLC (collectively, the Company or Employer), who have completed 90 days of service and are age 21 or older. The Plan's Advisory Committee is responsible for oversight of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participants are eligible to receive Company-matching contributions upon completion of 90 days of service and after attaining the age of 21. The Company makes matching contributions of 100% of the first 1% and 50% of the next 5% of compensation a participant contributes to the Plan. Participants most recently hired on or before January 1, 2009, and who did not elect to be covered by the cash balance formula of the Jefferson Bancshares, Inc. Employees' Retirement Plan and Trust as of April 1, 2010, are not eligible to receive matching contributions. Contributions are subject to certain limitations.

Participants may elect to contribute up to the maximum amount allowed by law. The Company automatically enrolls eligible participants at a deferral percentage of 3% if an election is not made by the employee; this automatic deferral amount will increase by 1% per Plan year, up to a maximum of 6% of compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Investment options: Participants direct the investment of their contributions into various investment options offered by the Plan. Participants may change their investments daily.

Participant accounts: Participants may direct the investment of their contributions into various investment options offered by the Plan. If they do nothing, they will be invested in the Plan's default investment. Each participant's account is credited with the participant's contribution, Employer contribution and Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Employer's contributions to participants' accounts, plus actual earnings thereon, is based on years of service. A year of service is defined as one where the participant works at least 1,000 hours in the Plan year. A participant is 100% vested after two years of credited service or at the time of death, normal retirement age or incapacity, as defined by the Plan agreement. See vesting table below.

Completed Years of Service	Vested Percentage
Less than two years	0%
Two years	100%

Note 1. Description of the Plan (Continued)

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range up to five years or up to 10 years for the purchase of a participant's primary residence. The loans are secured by the balance in the participants' accounts and bear interest, as determined by the Plan Administrator. The rates range from 4.25% to 6.50% on loans outstanding at December 31, 2020. Principal and interest are paid through payroll deductions.

Payment of benefits: Upon death, termination, retirement or becoming permanently disabled, a participant may elect to receive a lump-sum distribution equal to the value of the participant's vested interest in his or her account. Any balance under $5,000 is automatically paid out as soon as administratively possible. Hardship withdrawals are also available subject to certain limitations.

Forfeitures: Participant forfeitures of nonvested balances will be used to reduce future employer contributions or pay the expenses of the Plan. At December 31, 2020 and 2019, forfeited nonvested accounts totaled $5,383 and $1,268, respectively. The Plan used $1,268 in forfeited balances to pay Plan expenses during 2020.

COVID-19: On January 30, 2020, the World Health Organization declared the coronavirus outbreak (COVID-19) a "Public Health Emergency of International Concern" and on March 11, 2020, declared it to be a pandemic. The pandemic in the United States and throughout the world has resulted in volatility in financial markets. As a result, the Plan's investments have incurred significant fluctuation in fair value.

CARES Act: On March 27, 2020, the CARES Act was enacted in response to the COVID-19 pandemic. The CARES Act, among other things, allows eligible participants who are impacted by COVID-19 to withdraw up to $100,000 from their account without penalty regardless of their age. Additionally, from March 27 through September 23, 2020, the eligible amount available to be borrowed was increased from 50% to 100% of the participant's vested account balance, and the participant loan limit was increased from $50,000 to $100,000. Additionally, the CARES Act suspended required minimum distributions for 2020. Plan management has elected to provide these CARES Act provisions to the plan.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The accompanying financial statements are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value except for the fully benefit-responsive investment contract, which is reported at contract value. Fair value is the price that would be recognized to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Advisory Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and trustee. See Note 4 for disclosure of the fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Note 2. Summary of Significant Accounting Policies (Continued)

Stable value fund: Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measurement for the portion of the net assets available for benefits attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus accrued, but unpaid, interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded. No allowance from credit losses has been recorded as of December 31, 2020 and 2019. Notes receivable from participants have been classified as an investment asset for Form 5500 reporting purposes and, accordingly, have been included as an investment in the supplemental schedule, Schedule H, line 4i – schedule of assets (held at end of year).

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: Administrative expenses may be paid by either the Company or the Plan, as provided by the Plan document. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are offset against net appreciation in fair value of investments.

Subsequent events: The Plan has evaluated subsequent events through September 16, 2021, the date the financial statements were available to be issued.

Note 3. Information Certified by Reliance Trust Company (Trustee)

The following is a summary of the Plan's asset information as of December 31, 2020 and 2019, and for the year ended December 31, 2020, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by Reliance Trust Company, the trustee, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that the information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information that appears throughout the financial statements and supplemental schedule related to the following assets:

	December 31	
	2020	2019
Investments at fair value – mutual funds	$ 26,557,146	$ 24,317,324
Investment at contract value – stable value fund	2,872,011	3,401,637
Notes receivable from participants	387,387	424,886
	$ 29,816,544	$ 28,143,847

Note 3. Information Certified by Reliance Trust Company (Trustee)

Reliance Trust Company, also certified to the completeness and accuracy of $2,312,665 of net appreciation in fair value of investments, $79,813 in dividends and interest related to the aforementioned investments, and $22,994 of interest income on notes receivable from participants for the year ended December 31, 2020.

Note 4. Fair Value Measurements

The framework measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices for the asset or liability that are observable for the asset or liability
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, Level 2 inputs must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques that are used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2020 and 2019.

Mutual funds: Mutual funds are valued at the daily closing price, as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Note 4. Fair Value Measurements (Continued)

The following table sets forth, by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2020 and 2019:

	Assets at Fair Value at December 31, 2020			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 26,557,146	$ -	$ -	$ 26,557,146

	Assets at Fair Value at December 31, 2019			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 24,317,324	$ -	$ -	$ 24,317,324

Note 5. Stable Value Fund

The Plan has a traditional fully benefit-responsive stable value fund with Standard Insurance Company (Standard). Standard maintains the contributions in a general account. The account is credited with interest on the underlying investments and charged for participant withdrawals and administrative expenses. The stable value fund issuer is contractually obligated to repay the principal at a specified interest rate that is guaranteed to the Plan. The crediting rate is based upon a formula established by the contract issuer, but may not be less than 1%. The crediting rate is reviewed on a quarterly basis for resetting. The stable value fund does not permit the insurance company to terminate the agreement prior to scheduled maturity date.

This contract meets the fully benefit-responsive investment criteria and, therefore, is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount that would be received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Standard, represents contributions made under the contract, plus interest, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) termination of the contract, (2) spin-offs or divestures, (3) layoffs, (4) corporate relocation, (5) partial or total Plan termination, (6) retirement incentive programs and (7) liberalization of the Plan withdrawal or transfer rules. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include: (1) failure to abide by state or federal law, (2) failure to render performance necessary to comply with terms of the contract, (3) failure to maintain assets of at least $25,000, (4) Plan disqualification and (5) failure to adopt the Plan in a reasonable period of time.

Note 6. Related-Party Transactions and Party-in-Interest Transactions

The Company paid certain administrative expenses related to the Plan for the year ended December 31, 2020. Certain Plan investments are managed by the Standard. The Standard is the marketing name for StanCorp Financial Group, Inc. and its wholly owned subsidiaries. StanCorp Equities, Inc. wholesales a group annuity contract issued by Standard Insurance Company and a mutual fund trust platform for retirement plans. Third-party administrative services are provided by Standard Retirement Services, Inc. Investment advisory services are offered through StanCorp Investment Advisers, Inc.; therefore, these investments qualify as party-in-interest transactions.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Plan sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions**.**

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9. Tax Status

The Plan has adopted a volume submitter plan sponsored by Standard Retirement Services, Inc. The volume submitter plan provider has received an advisory letter from the Internal Revenue Service as to the volume submitter plan's qualified status. The volume submitter plan advisory letter has been relied upon by the Plan. The Plan has been amended since the volume submitter plan received the advisory letter. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
