POWER DISTRIBUTION INCENTIVE SAVINGS PLAN

Notes to Financial Statements

1. Description of Plan:

The following description of the Power Distribution Incentive Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

Plan Merger: In February 2020, Power Distribution, Inc. (the "Plan Sponsor") was acquired by Eaton Corporation. As a result of the transaction, the Plan Sponsor merged the Plan into the Eaton Savings Plan in January 2021. Participants were notified of the merger in December 2020. Our opinion is not modified with respect to this matter.

General: The Plan was a defined contribution plan covering all eligible employees of Power Distribution, Inc. (the "Company"). Employees became eligible to participate in the Plan upon attaining age 18 along with completion of 30 days of service. Employees were eligible for entry to the Plan on the day the eligibility requirements were satisfied. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions: The Plan provided for participant contributions of pre-tax and after-tax annual compensation, as defined in the Plan. The Plan provided for matching contributions up to 50% of the first 6% of compensation. There were no discretionary matching contributions during 2021 and 2020. Participants of qualifying age could make additional "catch-up" contributions. Participants could also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Contributions were subject to certain limitations.

Participant Accounts: Each participant's account was credited with the participant's contributions and allocations of (a) the Company's contributions and (b) Plan earnings or losses, and charged with an allocation of administrative expenses. Allocations were based on participant compensation or account balances, as defined by the Plan. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account.

Investment Options: Participants could direct the trustee as to the investment of their account balances in accordance with guidelines established by the Plan. Participants could change their investment elections at any time.

Vesting: Participants were immediately vested in their contributions and matching contributions, plus actual earnings thereon.

Plan Administration: Overall responsibility for administering the Plan rested with the Company. Participant accounts were administered by Principal Trust Company, the trustee and third-party administrator of the Plan.

POWER DISTRIBUTION INCENTIVE SAVINGS PLAN

Notes to Financial Statements, Continued

1. Description of Plan, Continued:

Payments of Benefits: Distribution of the vested portion of a participant's account could occur upon the participant's termination of service, death, disability, retirement, or hardship withdrawal, as defined by the Plan. Participants were entitled to receive a lump-sum payment, installment or annuity payments in amounts equal to the vested value of their account.

Notes Receivable from Participants: Participants were permitted to borrow from their Plan accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms could not exceed five years, unless the proceeds were used to acquire a principal residence. The loans were secured by the vested balance in the participant's account and bore interest at rates commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest were paid ratably through payroll deductions. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Management has evaluated notes receivable from participants for collectability and determined that no allowance is considered necessary.

2. Summary of Significant Accounting Policies:

Basis of Accounting: The financial statements of the Plan are prepared on the accrual method of accounting.

Investment Valuation and Income Recognition: Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded when received. Dividends were recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Excess Contribution Liability: Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to participant contributions. Excess contributions were paid on April 23, 2021.

Payments of Benefits: Benefits were recorded when paid.

POWER DISTRIBUTION INCENTIVE SAVINGS PLAN

Notes to Financial Statements, Continued

2. Summary of Significant Accounting Policies, Continued:

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires the Plan's management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Subsequent Events: Management has evaluated subsequent events through August 23, 2021, the date the financial statements were available to be issued, and has determined there are no subsequent events to be reported in the accompanying financial statements.

3. Fair Value Measurements:

The Financial Accounting Standards Board ("FASB") has issued guidance for measurement and disclosure of fair value and established a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation are quoted prices for similar instruments in active and inactive markets; and model driven valuations with significant inputs and drivers derived from observable active markets.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Valuation techniques used should maximize the use of observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for investments carried or disclosed at fair value:

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled separate accounts: Unit value calculated based on the net assets or observable NAV of the underlying pool of securities or investments. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value.

POWER DISTRIBUTION INCENTIVE SAVINGS PLAN

Notes to Financial Statements, Continued

3. Fair Value Measurements, Continued:

Collective investment trusts: Unit value calculated based on the net assets or observable NAV of the pool of underlying securities which are made up of a collective trust fund as well as a variety of separate accounts and mutual funds. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value.

The following tables sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value as of the Plan's year end date:

	Investments at Fair Value as December 31, 2020	
	Level 1	Total
Investments:		
Mutual funds	\$ 5,393,238	\$ 5,393,238
Investments measured at net asset value		<u>11,691,806</u>
 Total investments at fair value	<u>\$ 5,393,238</u>	<u>\$ 17,085,044</u>

Certain investments that are measured at NAV as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in the table above are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The following tables summarize investments measured at fair value based on NAV as a practical expedient as of December 31, 2020:

Investment	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
December 31, 2020:				
Pooled separate accounts	\$ 362,399	None	Daily	30 days
Collective investment trusts	\$ 11,329,407	None	Daily	30 days

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

POWER DISTRIBUTION INCENTIVE SAVINGS PLAN

Notes to Financial Statements, Continued

4. Group Annuity Contract:

In 2017, the Plan entered into a group annuity contract with Principal Trust Company ("Principal"). Principal maintained the contributions in a general account. The account was credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses.

This contract met the fully benefit-responsive investment contract criteria and therefore was reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due was dependent on the issuer's ability to meet its financial obligations. The value of the group annuity contract was transferred to the Eaton Plan in January 2021.

5. Administrative Expenses:

Although not required by the Plan, a portion of the costs of the Plan administration were absorbed by the Company. Certain administrative functions were performed by employees of the Company. No such employee received compensation from the Plan. Expenses related to specific participant transactions were charged directly to the participant's account. The Plan paid administrative fees totaling \$351 in 2021 and \$40,590 in 2020.

6. Risks and Uncertainties:

The Plan provided for investments in various securities. Investments are exposed to various risks, such as interest rate, market, and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the financial statements.

7. Tax Status:
