INDEPENDENT AUDITORS' REPORT

To the Participants and Trustees of
The PMC Pension Trust
Cincinnati, Ohio

Report on the Financial Statements

We have audited the accompanying financial statements of The PMC Pension Trust (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2020 and 2019, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, information regarding the Plan's net assets available for benefits as of December 31, 2020 and the changes therein for the year then ended, and its financial status as of December 31, 2019 and changes therein for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying supplemental schedule of assets (held at end of year) as of December 31, 2020, is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in our audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Funding Interest Rates	For the Current Plan Year, the rates shown on the Summary of Actuarial Assumptions and Method Page are the prescribed rates for Funding using a 4-month look-back. The Minimum rates are those after the application of the MAP-21 Corridor as extended by HATFA and constrained to a 90% - 110% Corridor around the average Segment Rates for the 25-year period Ending September 30, 2019.
PBGC Variable Premium Rates	The Standard PBGC rates were used for the 2020 premium filing which is consistent with the 2019 premium filing. These rates are the same as for funding without MAP-21 / HATFA constraints for the 2020 plan year.
Mortality	Mortality tables mandated by PPA as specified in IRS Regulation 1.430(h)(3)-1, applied on a static basis, using the blended annuitant/non-annuitant table applicable to small plans.
Actuarial Cost Methods	The Funding Target is the present value of accrued benefits earned to date. The Target Normal Cost is the present value of benefits to be accrued during the current plan year, including expected plan-related expenses to be paid from plan assets during the year.
Retirement Rates	Retirements for active participants are assumed to occur 100% at the Normal Retirement Age of 65 and 5 Years of Participation.
Withdrawal Rates	There are no pre-retirement Turnover rates assumed.
Marital Percentage	100% of employees eligible for Early Retirement are assumed to be Married, with the male spouse and female spouse assumed to be the same age.
Expenses	Plan-related expenses totaling \$131,066 are assumed to be paid from Plan Assets and accordingly are added to the Target Normal Cost.
Frequency of Optional Payment Forms	Retired Participants are assumed to elect benefits at the Normal Plan Form Life Annuity with 10 Years Certain.
Asset Valuation Method	The Actuarial Value of Assets is equal to the Market Value of Assets without any averaging or smoothing.

Assumptions and Methods for Accounting Purposes

The assumptions and methods for accounting purposes are the same as those for Funding with the following exceptions:

ASC 715 Discount Rate

Current Year for 2020 expense and 2019 year-end disclosure:	3.22%
Prior Year for 2019 expense and 2018 year-end disclosure:	4.22%

A plan's amortization payments are calculated to pay down the plan's underfunding over a seven year period (unless a plan sponsor has elected to use allowable relief, in which case the payment period will be longer).

Report on the Financial Statements

We have audited the accompanying financial statements of The PMC Pension Trust (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2020 and 2019, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, information regarding the Plan's net assets available for benefits as of December 31, 2020 and the changes therein for the year then ended, and its financial status as of December 31, 2019 and changes therein for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying supplemental schedule of assets (held at end of year) as of December 31, 2020, is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in our audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

1. DESCRIPTION OF PLAN:

The following description of The PMC Pension Trust (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit pension plan covering substantially all employees of the Plastic Moldings Company, LLC (the "Company" or "Employer") hired before January 1, 2008. Participant entry into the Plan was frozen as of December 31, 2007. The accrual of participant benefits in the Plan was frozen as of February 28, 2009. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Funding policy

The Company contributes amounts as actuarially determined in order to provide assets sufficient to meet the benefits to be paid to Plan participants. The Company made contributions of \$358,080 and \$493,000 during 2020 and 2019, respectively. The Company's contributions for 2020 and 2019 met or exceeded the minimum funding requirements of ERISA.

Pension benefits

Employees who have completed five years of service are entitled to annual pension benefits at normal retirement age. The normal retirement age is 65; however, employees who have attained the age of 55 and completed five years of service are eligible to receive early retirement benefits. The amount of the benefit is based upon the participant's average monthly compensation, age at retirement, and years of service at termination of employment. Early retirement benefits are reduced by a specific percentage for each month by which the commencement of payments precedes the normal retirement date. The form of payment is elected by the participant from the options provided by the Plan. Participants are fully vested after five years of service upon termination.

As noted above, effective February 28, 2009, the Company froze the accrued benefit of The PMC Pension Trust. Compensation after that date shall not be considered in the determination of the average monthly compensation. The social security benefit determined as of February 28, 2009 shall be frozen. Every employee who was a member of the Plan on February 28, 2009 shall continue to be a member of the Plan. Employees hired after January 1, 2008, except as provided under Section 2.04, shall not be eligible for membership in the Plan. In addition, employees hired prior to March 1, 2009, but who were not members as of February 28, 2009, shall not be eligible for membership in the Plan. Benefit service shall not include any service earned after February 28, 2009.

Upon termination of employment, participants have the option of receiving their vested benefit in the form of a one-time lump sum payment or a monthly annuity payable for their lifetime. The form of payment is elected by the retiring participant from the options provided by the Plan. Effective October 1, 2019, if the actuarially equivalent lump sum value of a participant's vested benefit is less than \$20,000, the participant may elect a one-time lump sum payment. If the actuarially equivalent lump sum value of a participant's vested benefit is less than \$5,000 but greater than \$1,000 and the participant does not timely notify, the plan administrator must transfer the value of your vested accrued benefit to an individual retirement account (IRA) established in your name. No consent of the participant is necessary if the balance does not exceed \$1,000.

Death and disability benefits

The Plan also provides pre-retirement disability and death benefits. A totally disabled participant who has completed ten years of credited service and who is an active employee of the Company is entitled to a monthly benefit beginning on the first month following the date of disability. The benefit equals the benefit accrued as of the date of disability. A participant's beneficiary is entitled to a benefit equal to the deceased participant's accumulated contribution account. Or, if greater, for an employee who is vested and has been married for one year, the spouse is entitled to a monthly benefit as if the employee had terminated on the date of death and survived to retire early. The benefit is 50% of the actuarial equivalent of the accrued pension.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:**Basis of accounting**

The accompanying financial statements have been presented on the accrual basis of accounting.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Payment of benefits

Benefit payments to participants are recorded upon distribution.

Administrative expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as a deduction in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation in fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

Participant contributions

Prior to January 1, 1987, participating employees were required to contribute 1% of their salary to the Plan. Each participant could also make additional voluntary contributions to the Plan up to 10% of their compensation. Effective January 1, 1987, these required and voluntary contributions were eliminated.

Employee contributions made to the Plan prior to January 1, 1987 remain fully vested and may be withdrawn at any time.

Accounting change

Recently issued accounting pronouncement - In August 2018, the Financial Accounting Standards Board issued Accounting Standards Update No. 2018-13. "Fair Value Measurement (Topic 820): Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement, (ASU 2018-13)," which amends ASC 820 to add, remove, and modify fair value measurement disclosure requirements. ASU 2018-13 became effective for all entities for fiscal years beginning after December 15, 2019. Certain requirements of the standard should be applied prospectively, while others are required to be adopted retrospectively. Adoption of ASU 2018-13 does not have a material impact on the Plan's financial statements.

Subsequent events

The Plan has evaluated subsequent events through the report date, the date the financial statements were available to be issued.

3. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS:

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to services rendered by the participants. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated participants or their beneficiaries, (b) beneficiaries of participants who have died, and (c) present participants or their beneficiaries. Benefits under the Plan are based on the average of an employee's monthly compensation over the five consecutive calendar years out of their last ten or fewer consecutive calendar years of benefit service which produces the highest average. The average monthly compensation is determined as of February 28, 2009. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to participant service rendered to the valuation date.

The Plan's actuary estimates the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts of interest) and the probability of payment (by means of decrements such as death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The more significant assumptions underlying the actuarial computations are as follows:

Assumed rate of return on investments	7.50% in 2020 and 2019
Discount rate	7.50% in 2020 and 2019
Mortality basis	The RP-2000 Total Mortality Table projected generationally using the blended annuitant/non-annuitant table applicable to small plans for the 2020 and 2019 plan year.

Retirement

Age 65 in 2020 and 2019

The actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computation of the actuarial present value of accumulated plan benefits was made as of January 1, 2020. Had the valuation been performed as of December 31, there would be no material differences.

The accumulated plan benefit information is as follows:

	<u>January 1, 2020</u>
Actuarial present value of accumulated plan benefits:	
Vested benefits:	
Participants currently receiving payments	\$ 5,078,385
Other vested benefits	<u>2,470,507</u>
	<u>\$ 7,548,892</u>

The changes in accumulated plan benefits are as follows:

Actuarial present value of accumulated plan benefits at January 1, 2019	\$ 7,534,772
Increase (decrease) during the year attributable to:	
Actuarial losses **	(2,879)
Benefits paid	(555,148)
Interest	<u>572,147</u>
Net increase	<u>14,120</u>
Actuarial present value of accumulated plan benefits at January 1, 2020	<u>\$ 7,548,892</u>

** Includes mortality table and interest rate assumption changes in accordance with Internal Revenue Service ("IRS") regulations.

4. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below.

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
---------	---

- Level 2 Inputs to the valuation methodology include:
- quoted prices for similar assets or liabilities in active markets;
 - quoted prices for identical or similar assets or liabilities in inactive markets;
 - inputs other than quoted prices that are observable for the asset or liability;
 - inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and December 31, 2019.

Money market fund: The carrying value approximates fair value.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pension annuity contract: Valued by the insurance company by discounting the related cash flows based on current yields.

Limited partnerships: The fair value of limited partnerships is based on the Plan's percentage ownership in the equity of the limited partnerships.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2020 and December 31, 2019:

<u>Investments at fair value as of December 31, 2020</u>

Total investments at fair value	<u>\$ 7,749,667</u>	<u>1,197,053</u>	<u>-</u>	<u>6,552,614</u>

Changes in Fair Value of Level 3 Assets

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another.

We evaluate the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to the total net assets available for benefits.

The following tables set forth a summary of certain changes in the fair value of the Plan's level 3 assets for the years ended December 31, 2020 and 2019:

	<u>2020</u>	
	<u>Limited Partnerships</u>	<u>Pension Annuity Contract</u>

5. PENSION ANNUITY CONTRACT WITH INSURANCE COMPANY:

The Plan maintains an immediate participation guarantee contract with an insurance company, New York Life. The contract is a flexible funding guaranteed pension contract and includes a fixed dollar account and a pension account. Amounts held in these two accounts reflect the experience of the insurance company's general account. Interest credited to the contract was at an aggregate of 3.94% and 4.42% at December 31, 2020 and 2019, respectively. The pension account is subject to a minimum balance. As of the last day of the calendar year, New York Life will determine a minimum balance for the pension account which is the aggregate of the estimated present value of all pension benefits to which participants are entitled under the contract. Funds are transferred to or from the fixed dollar account and the pension account as needed for the balance in the pension account to equal the minimum balance calculated. If the balance of these accounts is underfunded, the Plan will transfer monies from other Plan investments into the account.

At December 31, 2020 and 2019, the contract was fully funded. At December 31, 2020 and 2019, the value of the contract was \$6,384,042 and \$6,357,945, respectively. If the insurance contract is terminated, the insurance company will retain the assets held and buy pension benefits equal to, and in the same form as, the pension benefits in force on the date of the contract termination for all pensioners under the insurance contract. Such action will discharge the insurance company from all liability with respect to the contract. The insurance contract is secured by the financial stability of the insurance company. The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

The contract is reported at fair value which approximates contract value. Fair value, as reported to the Plan by New York Life, represents contributions made under the contract, plus interest less withdrawals, and administrative expenses.

6. RELATED PARTY TRANSACTIONS:

Certain Plan investments are money market funds managed by Fidelity Investment Company. Fidelity Investment Company is the custodian as defined by the Plan and, therefore, these transactions qualify as party in interest transactions.

7. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated as prescribed by ERISA and its related regulations.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC") if the Plan terminates. Generally, the PBGC guarantees most vested normal retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

8. INCOME TAX STATUS:

During 2019, the Plan adopted a volume submitter plan document that has received a favorable opinion letter from the IRS dated March 30, 2018. The Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

9. RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

10. PLAN OPERATIONS IMPACTED BY COVID-19:

On March 11, 2020, the World Health Organization declared the novel coronavirus ("COVID-19") outbreak a pandemic which has impacted the financial markets and global economy. The COVID-19 pandemic is on-going and the duration and extent of the related financial impact on the Plan's net assets available for benefits and changes in net assets available is uncertain and cannot be reasonably estimated at this time.
