1. Plan Description

The following description of the Field Home Health Care LLC 401(k) Profit Sharing Plan and Trust (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more comprehensive description of the Plan's provisions.

a) *General* – The Plan is a 401(k) defined contribution plan covering substantially all employees of Field Home Health Care LLC (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The effective date of the Plan is January 1, 2020. Deferrals to the Plan started October 1, 2020.

b) *Eligibility* – The Plan substantially covers all employees of the Company who have completed one year of service and are age twenty one or older. Once an employee has satisfied the eligibility requirements the employee becomes a participant on the first day of the month following the date eligibility requirements are satisfied.

c) *Employee Contributions* – Each year participants may contribute annual compensation, as defined by the Plan, subject to certain limitation under the Internal Revenue Code ("IRC"). Participants who have attained age 50 before the end of the calendar year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit plans or defined contribution plans. The Plan does not include an automatic deferral feature.

d) *Employer Contributions* –The Company make a safe harbor matching contribution of 100% of the first 3% of compensation the participant contributes to the Plan and 50% of the next 2% contributed (4% maximum matching contribution on participant contributions of 5% or greater). For the year ended December 31, 2020, matching contributions in the amount of $2,649 were made by the Company. The Company may also make additional matching and profit sharing contributions. No such additional contributions were made in 2020.

e) *Investment Options* - Participants direct the investment of their contributions and the Company's contribution into various investment options offered by

the Plan. Participants may change their investment options at any time via the telephone or internet. Participants who do not select specific investments are invested in accordance with the default investment alternatives established under the Plan.

f) *Participants Accounts* – Each participant's account is credited with the participant's contributions and allocation of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. Administrative expenses maybe charged based on account balances or charged equally to each participant. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

g) *Vesting* – Participants are vested immediately in their contributions and the Company's safe harbor matching contributions, plus actual earnings thereon. Participants are vested in other Company contributions based on a six-year graded vesting schedule, with an initial 20% vesting after two years of service, and 20% additional vesting each year thereafter (fully vested after 6 years of service.

h) *Payment of Benefits* – In the case of retirement, death, disability or termination of employment, participants may elect to receive the vested accumulated value of their account in a lump sum distribution.

i) *Forfeited Account* – Forfeitures of non-vested balances may be used to reduce employer contributions or pay plan expenses. At December 31, 2020, the forfeiture account balance was $0.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual method of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Investment related expenses are included in net appreciation of fair value of investments.

3. Subsequent Events

The Plan has evaluated events and transactions occurring subsequent to December 31, 2020 through September 27, 2021, which is the date the financial statements were available to be issued.

4. Information Prepared and Certified by the Trustee

The following information included in the accompanying financial statements and supplemental material was obtained from data that has been prepared and certified to as complete and accurate by the trustee, Mid Atlantic Trust Company.

Year ended December 31,	*2020*

Net appreciation in fair value of investments	$ 206

5. Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual Funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value.

	Investment Assets at Fair Value As of December 31, 2020			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 9,542	–	–	$ 9,542
Total investments at fair value	$ 9,542	–	–	$ 9,542

6. Risks and Uncertainties

The Plan utilizes various investment instruments, which are exposed to various risks, such as interest rates, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

7. Related-Party Transactions and Party in Interest Transactions

Paychex is the current recordkeeper of the Plan. Mid Atlantic Trust Company is the custodian of the Plan and qualifies as a party-in-interest. No fees were paid directly by the Plan for recordkeeping or trustee services.

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

9. Tax Status

The Internal Revenue Service has determined and informed the Company that the prototype plan is designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2017.
