Note 1—Description of the Plan

The following description of The Keyes Company 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General – The Plan, as amended, was formed and adopted in July 1997, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. The Plan is maintained for the employees of The Keyes Company and Subsidiaries (the "Company" or the "Employer"). The following are the subsidiaries that participate in the Plan: Keyes Asset Management, Inc., American Southern Financial Group, LC, Keyes National Referrals, Inc., Home Partners Title, Inc., Home Partners Mortgage Services, KFins, LLC, TKC of Palm Beach LLC d/b/a Valore Real Estate Group, and Illustrated Properties, LLC.

Plan Administration – The Plan is administered by the Company. The Plan's assets are maintained by Fidelity Personal Trust Company, FSB, (the "Custodian") during the years ended December 31, 2020 and 2019. The maintenance of the Plan's participant accounts as well as actuarial services are managed by Ingham Retirement Group ("Ingham").

Eligibility – Under the Plan, those eligible to participate are all full-time employees of the Company who have attained the age of 21 and completed one year of service.

Employee Contributions – Participants may contribute up to 100% of pre-tax annual compensation, as defined in the Plan Document, without exceeding limitations prescribed by the Internal Revenue Code ("IRC"). Participants may begin making contributions to the Plan after becoming eligible to participate. The entry dates to the Plan are the first day of each plan year quarter following the satisfaction of the eligibility requirements. Participants may also rollover amounts representing distributions from other qualified defined benefit or defined contribution plans. Additionally, participants age 50 or older, who are making contributions to the Plan, are allowed to make catch-up contributions as defined in the Plan. Participants direct the investment of all contributions into various investment options offered by the Plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their contribution rate set at 2% of eligible compensation, and their contributions are automatically invested in a designated balanced fund until changed by the participant.

Employer Contributions – The Employer can make a discretionary matching contribution based on the employee elective contributions and compensation. The Employer elected to match 25% of an eligible participant contribution that does not exceed 6% of the participant's eligible compensation. Effective April 1, 2020, as part of the ongoing coronavirus pandemic ("COVID-19") responses the Company decided to stop matching contributions for the Plan's participants through December 31, 2020. During 2020, matching contributions were approximately $21,000. Additionally, the Employer may, at its discretion, make profit sharing contributions and qualified non-elective contributions. During the year ended December 31, 2020, the Company did not make any discretionary profit sharing or qualified non-elective contributions.

Participant Investment Account Options – The Plan currently offers various mutual funds as investment options for participants. Each investment option has its own investment strategy, which can be obtained through the prospectus of the respective fund. Participants may change their investment options at their discretion.

Participant Accounts – Each participant's account is credited and/or reduced with the participant's elective deferral contributions and distributions as well as allocation of (a) the Company's contribution, (b) Plan earnings (losses), (c) forfeitures, and (d) administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1—Description of the Plan (continued)

Forfeitures – Forfeitures of terminated non-vested account balances may be used to pay the Plan's administrative expenses, reduce employer contributions, or to reallocate to participants. During the year ended December 31, 2020, no forfeiture amounts were used. As of December 31, 2020 and 2019, there were approximately $1,200 and $0 respectively in forfeited non-vested accounts.

Vesting – Participants are immediately vested in their own contributions plus or minus any earnings or losses thereon. Participants also become fully vested in their account in the event of death, disability, or upon attaining the Plan's normal retirement age, all as defined in the Plan document. Employer matching contributions, including profit sharing contributions, are subject to the following vesting schedule:

Years of Service	Vested Percentage
Less than 3	0%
3 or more	100%

Notes Receivables from Participants – Participants may borrow up to the lesser of $50,000 or 50% of their vested account balance. Participants are allowed a maximum of two outstanding notes and the minimum amount of any note is $1,000. The notes are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. Interest rates ranged from 4.25% to 6.50% at December 31, 2020. Participant notes have a term of no more than five years, unless for the purchase of a principal residence, which term to be determined by the Plan administrator at the time of the loan. Principal and interest are paid ratably through payroll deductions. Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Delinquent participant notes are reclassified as distributions based upon the terms of the Plan document.

Payment Benefits – Upon termination of service due to death, disability, or retirement or other reasons, the Plan provides for a lump-sum distribution or installment payments equal to the total value of the participant's deferral contribution account, and the vested portion of his/her matching contribution and non-elective contribution accounts. Participants are allowed in service withdrawals of their vested participant's vested interest in his or her account upon attainment of retirement age or in the event of a financial hardship. The Plan provides for involuntary cash-out distributions for terminated employees with a vested balance of less than $1,000.

Note 2—Summary of significant accounting policies

Basis of Accounting – The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates – The preparation of financial statements in conformity with U.S. GAAP requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities in the financial statements and accompanying notes. Actual results could differ from those estimates, particularly given the significant social and economic disruptions and uncertainties associated with the COVID-19 and the COVID-19 control responses.

Investment Valuation and Income Recognition – Investments held by the Plan are recorded at fair value. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction. A fair value hierarchy exists which requires an entity to maximize the use of observable inputs when measuring fair value.

Note 2—Summary of significant accounting policies (continued)

Three levels of inputs may be used to measure fair value:

Level 1 – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date;

Level 2 – Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies; and

Level 3 – Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for instruments measured at fair value, including, if applicable, the general classification of such instruments pursuant to the valuation hierarchy. There have been no significant changes in the methodologies used at December 31, 2020 and 2019.

Mutual Funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded and are included within Level 1 of the fair value hierarchy.

Money Market Funds – This investment is a cash equivalent and is valued using amortized cost to the extent that periodic fair value approximates market value. The amortized cost is provided by the administrator of the fund. The amortized cost is classified within Level 1 of the valuation hierarchy because unit prices are quoted on an active market and are made up of mostly cash or high-quality money market funds which are based on the value of $1.

The methods described above may produce a fair value determination that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Purchases and sales of securities are recorded on a trade-date basis. Dividend income is recorded on the ex-dividend date and interest income is recognized when earned. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses – Certain expenses of the Plan are paid by the Company and are not included in the statement of changes in net assets available for benefits. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Note 2—Summary of significant accounting policies (continued)

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2020 or 2019. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment (distributed loan) is recorded.

Payment of Benefits – Benefits are recorded when they have been processed and paid by the Plan.

Excess Contributions Payable – Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service ("IRS") are recorded as a liability with a corresponding reduction to contributions.

Note 3—Information prepared and certified by Custodian (unaudited)

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Fidelity Personal Trust Company, FSB, the Custodian of the Plan, has certified to the completeness and accuracy of the following data included in the accompanying financial statements and supplemental schedule.

- Investments, at fair value, as shown on the statements of net assets available for benefits, as of December 31, 2020 and 2019.

- Net appreciation in fair value of investments, and interest and dividends as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2020.

- Schedule of Assets (Held at End of Year) – Form 5500, Schedule H, Part IV, Line 4i as of December 31, 2020.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule of assets held at end of year.

Note 4—Fair value measurements

Below are the Plan's financial instruments carried at fair value on a recurring basis by the fair value hierarchy levels described in Note 2 as of December 31:

	2020			
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total Fair Value

	$ 6,519,839	$ -	$ -	$ 6,519,839

* Amounts are unaudited. See Note 3.

Note 5—Party-in-interest transactions

Plan investments and the related transactions as of December 31, 2020 and 2019, and for the year ended December 31, 2020, were in investment funds managed by the Custodian; therefore, these investments and transactions qualify as party-in-interest transactions. Fees paid during the year for accounting and other services rendered by parties-in-interest totaling approximately $32,000 for the year ended December 31, 2020 were based on customary and reasonable rates for such services. Notes receivable from participants are also considered to be party-in-interest transactions because they are transacted with Plan participants.

Note 6—Income tax status

The Company adopted a prototype non-standardized profit-sharing plan with a cash or deferral arrangement. The prototype plan received a favorable opinion letter from the IRS in March 31, 2014 which stated that the prototype plan is designed in accordance with applicable sections of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements. The Plan has not received a determination letter specific to the Plan itself, however, the Plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and, no unrelated business income tax. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 7—Risks and uncertainties

The Plan provides for various investment options which are exposed to various risks, such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to the changes in the value of investment securities, it is at least reasonably possible that changes in the fair value of investments will occur in the near term and that such change could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

As a result of the spread of the COVID-19, economic uncertainties have arisen triggering volatility in financial markets and a significant, negative impact on the global economy. As the values of the Plan's individual investments have and will fluctuate in response to changing market conditions, the amount of potential losses that will be recognized in subsequent periods, if any, cannot be determined. The full impact of the COVID-19 outbreak continues to evolve as of the date of this report.

Note 8—Reconciliation of the financial statements to the Form 5500

The following is a reconciliation of the net assets available for benefits per the financial statements at December 31, 2020 and 2019 to net assets available for benefits per Form 5500:

	2020	2019
Net assets available for benefits per the financial statements	$ 6,939,360	$ 6,669,292
Excess contributions payable	-	13,647
Net assets available for benefits per Schedule H of Form 5500	$ 6,939,360	$ 6,682,939

The following is a reconciliation of the net increase in net assets available for benefits included in the statement of changes in net assets available for benefits for the year ended December 31, 2020 to Schedule H of the Form 5500:

Net increase per the financial statements	$ 270,068
Less excess contributions payable at end of prior year	(13,647)
Net increase per Schedule H of Form 5500	$ 256,421

Note 9—Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested in their account balances.

Note 10—Delinquent participant contributions

During the year ended December 31, 2019, the Company's failure to remit certain employee contributions to the Plan in a timely manner constituted a lending of such monies to the Company. As such, these transactions represented nonexempt transactions between the Company and the Plan as identified in the Schedule of Delinquent Participant Contributions – Form 5500, Schedule H, Part IV, line 4a. The Company has remitted the participant contributions totaling $4,007 during the year ended December 31, 2019, and the associated lost earnings corrections on those remittances were made during 2020.

Note 11—Subsequent events

The Plan has evaluated events through October 12, 2021, the date the financial statements were available to be issued. No events have occurred subsequent to the date of the financial statements that would require adjustment to, or disclosure in, the financial statements.
