The Plan's entry date is the first day of the payroll period coinciding with or next following the date the eligibility conditions described above are met. Eligible employees commence participation in the Plan and are permitted to make salary deferral contributions and become eligible to receive Company matching contributions on the entry date. Participants employed at the end of the Plan year, who have completed at least 1,000 hours of service, are eligible to receive an allocated portion of the Company's discretionary profit sharing contribution. Employees covered under a collective bargaining agreement, non-resident aliens who do not receive any compensation from U.S. sources, and leased employees are not eligible to participate in the Plan. The Plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions –

Each year, participants may contribute a portion of their annual compensation, as defined in the Plan, as either a pretax or after-tax (Roth) deferral, up to the maximum allowed under Internal Revenue Service (IRS) regulations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Rollovers are not permitted from a Roth IRA, however. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Plan provides for a discretionary employer matching contribution on behalf of each participant in an amount equal to 50 percent of the participant's elective salary deferrals, including Roth deferrals, not to exceed $2,000 per Plan year. Employer matching contributions for the years ended December 31, 2020 and 2019, totaled $144,442 and $151,346, respectively.

At the end of each Plan year, the Company may, out of its current or accumulated profits, contribute to the Plan an amount authorized by the Board of Directors, to be allocated to participants in proportion to the participant's allocation group, as defined. Discretionary contributions authorized for the years ended December 31, 2020 and 2019, amounted to $500,000 and $599,998, respectively.

Participant Accounts –

Participant accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contributions, Company contributions, and allocation of investment earnings and losses. Participant accounts may also be debited for certain loan and withdrawal fees, as well as charged with an allocation of administrative expenses that are paid by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting –

Participants are always 100 percent vested in their employee pre-tax and Roth accounts, rollover account and any earnings thereon. Participants vest in the Company's contributions at a rate of twenty percent per year, beginning after two years of continuous service, and will not be fully vested until the completion of six years of service. Participants become fully vested upon reaching normal retirement age, death, or disability.

Investment Options –

Participants may allocate their contributions and those of the Company among multiple mutual funds and a common/collective trust fund. Employees may change their contribution allocations between investment options for future contributions and transfer prior contributions and associated earnings between investment options subject to certain restrictions set forth in the Plan. The Plan currently offers twenty-eight mutual funds and one common/collective trust fund as investment options for participants. The investments offered have been selected by the Plan Trustee based upon the provisions of the Plan.

Forfeitures –

Forfeitures of employer contributions may first be used to pay administrative expenses, then to reduce future employer contributions. At December 31, 2020 and 2019, $1,083 and $9,229 of forfeitures of employer contributions were held by the Plan, respectively. Forfeitures of $20,697 and $7,742 were used to pay Plan expenses during 2020 and 2019, respectively. Forfeiture funds were not used to reduce Company matching contributions in 2020 and 2019.

Notes Receivable from Participants –

Participants may borrow, but not less than $1,000, from their self-directed investment accounts. The maximum aggregate of each participant's outstanding loans cannot exceed the lesser of $50,000 or 50 percent of the participant's vested account balance. No participant may have more than one loan outstanding at any time. Participant loans are secured by the balance in the participant's self-directed investment account and bear a fixed interest rate determined by the Plan Administrator based on the prevailing interest rates charged by persons in the business of lending money for loans which would be made under similar circumstances. Interest rates are between 4.25 and 7.50 percent on all participant loans outstanding at December 31, 2020. Principal and interest is paid ratably through payroll deductions in terms up to five years, unless the loan is for the purchase of a principal residence, in which case the loan may be repaid over a reasonable period of time.

Section 2202 of the Coronavirus Aid, Relief, and Economic Security Act (CARES Act), enacted on March 27, 2020, expands permissible loans from certain retirement plans. For loans made from March 27, 2020, through September 22, 2020, participants may borrow up to the lesser of $100,000 (minus any outstanding loan balance) or the participant's vested benefit under the Plan. If a loan is outstanding on or after March 27, 2020, and any repayment on the loan is due from March 27, 2020, to December 31, 2020, that due date may be delayed under the Plan for up to one year. Any payments after the suspension period will be adjusted to reflect the delay and any interest accruing during the delay.

Payment of Benefits –

Upon retirement, death, disability, termination of service, or certain in-service distributions, a participant may elect to receive a lump-sum distribution equal to the participant's vested account balance. If a participant's vested account balance exceeds $5,000 as of the distribution date, a participant must consent to the distribution. If a participant's vested account balance is between $1,000 and $5,000 as of the distribution date, and the participant does not consent to a distribution, the participant's entire vested account balance will automatically be rolled over to an IRA selected by the Plan Administrator. If a participant's vested account balance is less than $1,000 as of the distribution date, the participant's entire vested account balance will be distributed to the participant as a lump-sum without consent. Hardship withdrawals are also allowed as permitted under the Internal Revenue Code (IRC) subject to certain restrictions as defined in the Plan Agreement.

Section 2202 of the CARES Act provides for expanded distribution options and favorable tax treatment for up to $100,000 of coronavirus-related distributions from eligible retirement plans to qualified individuals. A coronavirus-related distribution is a distribution that is made from an eligible retirement plan to a qualified individual from January 1, 2020, to December 31, 2020, up to an aggregate limit of $100,000 from all plans and IRA's. A coronavirus-related distribution is not subject to the ten percent additional tax that otherwise generally applies to distributions made before an individual reaches age 59 ½. In addition, a coronavirus-related distribution can be included in income, in equal installments, over a three-year period, and an individual has three years to repay a coronavirus-related distribution to a plan or IRA and undo the tax consequences of the distribution.

Rollover Contributions –

With the Company's consent, an eligible employee may make one or more rollover contributions to the Plan if the employee demonstrates to the Company's satisfaction that the contribution qualifies as a rollover contribution in accordance with the IRC.

Administrative Expenses –

Certain expenses incurred in the administration of the Plan are paid directly by the Company.

Plan Termination –

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of the ERISA.

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of Accounting –

The accompanying financial statements of the Plan have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP). Benefit payment to participants are recorded upon distribution.

Use of Estimates –

The preparation of financial statements, in accordance with U.S. GAAP, requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Income Recognition and Investment Valuation –

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the investment advisers and custodians. See Note 9 for discussion of fair value measurements.

Notes Receivable from Participants –

Notes receivable from participants are measured at their unpaid principal balance plus any accrued, but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2020 or 2019. Delinquent participant loans are reclassified as deemed distributions based upon the terms of the Plan document.

Administrative Expenses –

Professional fees and certain administrative expenses incurred by the Plan are paid with forfeitures, Plan assets, or by the Company. Fees related to withdrawals or administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Expenses paid by the Company are excluded from these financial statements. Investment-related expenses are included in net appreciation or depreciation in fair value of investments.

Subsequent Events –

The Plan's management has performed an analysis of activities and transactions subsequent to December 31, 2020, to determine the need for any adjustments to and/or disclosures within the audited financial statements for the year then ended. Management has performed this analysis through the report date, the date which the financial statements were available to be issued. The Company's operations may be affected by the recent and ongoing outbreak of the novel coronavirus disease (COVID-19) which was declared a pandemic by the World Health Organization in March 2020. The ultimate disruption that may be caused by the outbreak is uncertain and may result in a material decline in value of assets held by the Plan. The pandemic has adversely impacted global commercial activity and contributed to significant declines and volatility in financial markets. The rapid development and fluidity of this situation precludes any prediction as to the ultimate material adverse impact of COVID-19. Nevertheless, the outbreak presents uncertainty and risk with respect to the Plan, its performance, and its financial results.

On March 27, 2020, Congress passed the CARES Act, which contains several provisions that temporarily impact tax qualified retirement plans and their participants. The Plan Administrator has elected to immediately operationalize certain provisions of the CARES Act prior to formally amending the Plan document in order to assist individuals affected by the COVID-19 pandemic. Written amendments to the Plan to reflect these operational changes will be adopted at a later date in accordance with applicable law and IRS guidance.

(3) RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS:

The notes receivable from participants held by the Plan represent party-in-interest transactions. These transactions are exempt from prohibited transaction rules of the ERISA.

(4) RISKS AND UNCERTAINTIES:

The Plan provides for investments in various investment securities, which in general, are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, together with a heightened market risk and volatility associated with the COVID-19 pandemic, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

(5) TAX STATUS:

The provisions of the Plan are based on the PNC Bank Volume Submitter Profit Sharing Plan (Volume Submitter Plan). PNC Bank requested that the IRS provide an opinion related to the acceptability of the Volume Submitter Plan under Section 401 of the IRC and received a favorable opinion dated September 21, 2017. Although the Plan has been amended since receiving the opinion letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and; therefore, believe that the Plan is qualified and the related trust is tax-exempt.

U.S. GAAP require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that, more likely than not, would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2020 and 2019, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to applicable statutory periods.

(6) INFORMATION CERTIFIED BY TRUSTEE:

The December 31, 2020 and 2019 Statements of Net Assets Available for Benefits, the investment activities included on the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2020, and the accompanying notes to the financial statements were prepared in part or entirely from information certified by the Trustee in accordance with 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under the ERISA. (7) COMMON/COLLECTIVE TRUST FUNDS:

At December 31, 2020, the Plan held an investment in a stable value investment trust fund managed by T. Rowe Price (the Stable Value Fund), which invests in a variety of investment contracts such as separate account contracts and synthetic investment contracts issued by insurance companies, banks, and other financial institutions and other investments such as high-quality bonds with short-term maturities. Because stable value funds insurance contracts usually prevent any fluctuations in the funds prices, these funds are insulated from interest-rate volatility. The investment objectives of the Stable Value Fund are to maximize current income consistent with the maintenance of principal and to provide for benefit-responsive participant withdrawals at contract value for certain events without penalty or adjustment. The fund is included in the 2020 financial statements at fair value using Net Asset Value (NAV) as a practical expedient to estimate fair value. Contract value, however, is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may redeem trust units on a daily basis for withdrawal or transfer of all or a portion of their investment at contract value without restriction. The difference between fair value and contract value is not significant.

Events outside the normal operation of the Stable Value Fund that cause a withdrawal from an investment contract may result in a negative market value adjustment, which can limit the ability to transact at contract value with the issuers of its investment contracts. Examples of such events include, but are not limited to, (1) partial or complete legal termination of the Stable Value Fund or a unit holder, (2) tax disqualification of the Stable Value Fund or a unit holder, or (3) certain Stable Value Fund amendments if issuers' consents are not obtained. According to the Stable Value Fund's annual report, as of December 31, 2020, the occurrence of an event outside the normal operation of the Stable Value Fund, which would cause a withdrawal from an investment contract, is not considered to be probable. To the extent a unit holder requests a redemption, under normal circumstances, it is anticipated that liquid assets would be available to satisfy the redemption of such unit holder's interest in the Stable Value Fund without the need to access investment contracts. Plan management believes that the occurrence of events that would cause the Stable Value Fund to transact at less than contract value is not probable.

At December 31, 2019, the Plan held an indirect investment in a fully benefit-responsive investment contract with PNC Bank through a common/collective trust fund, the PNC Stable Value Fund. The primary investment objective of the fund is to seek the preservation of capital, relatively stable returns, and liquidity for benefit responsive plan or participant payments. The fund's returns are based on returns generated by an actively-managed, highly diversified portfolio of high credit quality investment contracts, fixed income securities, units of other group trusts, cash equivalents, and/or any other investments that the Trustee deems to be consistent with the fund's investment objective. PNC Bank maintained the contributions in a general account, which was credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The fund was included in the 2019 financial statements at fair value using NAV as a practical expedient to estimate fair value. Contract value, however, was the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants could have directed the withdrawal or transfer of all or a portion of their investment at contract value. The difference between fair value and contract value was not significant.

Certain events limited the ability of the Plan to transact at contract value with the PNC Stable Value Fund. Such events included (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) election by the employer to withdraw from a collective trust fund in order to switch to a different investment provider, (3) bankruptcy of the Plan Sponsor or other Plan events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the ERISA. At December 31, 2019, Plan management believed that the occurrence of events that would cause the Plan to transact at less than contract value was not probable. PNC Bank could not terminate the contract at any amount less than contract value. The crediting interest rate was based on a formula agreed upon with the issuer. Such interest rates are reviewed and reset on a monthly or quarterly basis according to each contract. The Plan no longer holds an investment in this fund.

(8) RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500:

The following is a reconciliation of the net assets available for benefits per the financial statements to the Form 5500 as of December 31:

Net assets available for benefits per the Form 5500	$ 24,260,011	$ 22,212,933

The following is a reconciliation of the changes in net assets available for benefits per the financial statements to the Form 5500 as of December 31, 2020:

Changes in net assets available for benefit per the financial statements:	$ 1,949,863

Adjustment for employer contributions receivable at December 31, 2019	599,998
Adjustment for employee contributions receivable at December 31, 2020	(651)
Net income per Form 5500	$ 2,047,078

(9) FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of fair value hierarchy under FASB ASC 820 are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019:

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/Collective Trust Funds: Valued at the NAV of units of the collective trusts. Investments in common collective trusts during the plan year included the T. Rowe Price Stable Value Fund and the PNC Stable Value Fund. NAV per share for the stable value funds is provided by the fund administrator and is based on the value of the underlying assets owned by the funds, minus liabilities, and then divided by the number of shares outstanding. NAV is computed daily as of the close of business each day by the Trustee for the funds. NAV is used as a practical expedient to estimate fair value. This NAV represents the Funds' fair value since this is the amount at which the Plan transacts with the Funds. As of December 31, 2020, the Plan no longer holds an investment in the PNC Stable Value Fund.

The preceding methods may produce fair value calculations that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

2020				
Description of Investment	Level 1	Level 2	Level 3	Total
Mutual funds	$ 22,428,244	$ -	$ -	$ 22,428,244

Investments measured at NAV				1,774,989
Total investments at fair value				$ 24,203,233

2019				
Description of Investment	Level 1	Level 2	Level 3	Total

Investments measured at NAV				2,434,027
Total investments at fair value				$ 22,123,911

The following table summarizes investments in the common/collective trust fund for which fair value is measured using NAV per unit as a practical expedient as of December 31:

(10) PROHIBITED TRANSACTIONS:

The Company failed to timely remit $46,538 and $114,805 of certain employee deferrals to the Plan during 2020 and 2019, respectively. The Company was required to compute and remit lost earnings on these deferrals. The Company will remit the 2020 lost earnings to the Plan and they will be allocated to the individual participant accounts in October 2021. Lost earnings pertaining to the 2019 employee deferrals were remitted to the Plan and allocated to participant accounts in January 2021. All payments in relation to the late remittal of employee contributions will be made from the Company's assets, not from the Plan's assets.
