Great-West Trust Company LLC (the "Custodian") is the custodian of the Plan and Empower Retirement ("Empower") is the record-keeper.

During 2020, the Company made the election to allow participants to take Coronavirus-related distributions ("CRDs") under the Coronavirus Aid, Relief, and Economic Security Act ("CARES Act"). CRDs were permitted to qualified individuals during 2020 not to exceed $100,000 and were not subject to tax withholding or withdrawal penalties. If elected by participants, CRDs can be reinvested in the Plan, another qualified plan, or IRA over a three year period. Required minimum distributions during 2020 were also waived at the option of participants. The Company also made the election to allow participants to take Coronavirus-related loans under the CARES Act. Coronavirus-related loans were permitted to qualified individuals up to the lesser of $100,000 or 100% of a participant's vested balance. As part of the CARES Act, if elected by participants, loan repayments due between March 27, 2020 and December 31, 2020 could be delayed for up to one year while still accruing interest. Plans were permitted to adopt any CARES Act provisions immediately provided the *Plan Document* is retroactively amended on or before December 31, 2022.

Eligibility

The Plan allows participation upon employment to all employees except those specifically excluded per the *Plan Document*. The entry date for participation in the Plan coincides with the employee's hire date.

Participant and employer contributions

Participants may contribute up to 90% of compensation subject to the Internal Revenue Code (the "IRC") maximum annual limitations. Participants who have attained age 50 or older by the end of the calendar year and are making deferral contributions to the Plan are eligible to make catch-up contributions, as defined by the IRC. The Company may, at its sole discretion, make matching or other nonelective contributions to the Plan. During 2020, the Company matched 100% of the participant's elective deferrals up to 9%. There were no discretionary nonelective contributions made for the 2020 Plan year.

Participant accounts

Each participant's account is credited with the participant's contribution, an allocation of the Company's contribution, administrative expenses, and Plan earnings and losses. Allocations are based on participant compensation and account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Note 1 - Description of the Plan (Continued)

Notes receivable from participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of 50% of the participant's vested account balance or $50,000. The loans are made for terms not to exceed five years, unless for the purchase of a principal residence, in which case the loan term cannot exceed ten years. A participant may have only one note outstanding at any given time. Notes receivable from participants are secured by the participant's account balance and bear a reasonable rate of interest. Principal and interest are paid ratably through automatic payroll deductions, unless otherwise provided by the employer.

Benefit payments

Upon termination of service, death, disability, or retirement, a participant may elect a distribution in the form of a lump-sum amount equal to the participant's vested interest in his or her account, partial withdrawals, or substantially equal installments over a period not to exceed the life expectancy of the participant as specified in the *Plan Document*. In-service withdrawals are permitted when a participant, who has not separated from service, reaches age 59 ½ or in the event of financial hardship (as defined by the *Plan Document*).

Upon termination of service, if the value of the participant's vested account balance is less than $1,000, the payment will be made in cash in a single lump-sum without the participant's consent. If the value in the participant's vested account balance is more than $1,000 but less than $5,000 and the participant does not consent to a lump sum distribution, the account balance will be distributed to an individual retirement account for the benefit of the participant at the discretion of the Plan administrator. Any taxable distribution paid by the Custodian directly to the participant will be subject to mandatory federal income tax withholding of 20% of the requested distribution.

Vesting

Participants are immediately vested in their voluntary contributions and actual earnings thereon. The Company's discretionary matching and nonelective contributions and earnings thereon, if any, vest in accordance with the following:

Years of Service	Percent Vested
Less than 1 year	0%
1 year but less than 2 years	33.3%
2 years but less than 3 years	66.6%
3 years or more	100%

Note 1 - Description of the Plan (Continued)

Forfeitures

Upon termination of service, a participant's vested account balance will be distributed to the participant or directly rolled into other qualified plans depending on the status of the original contribution and participant direction. The unvested amount is forfeited and maintained in an account by the Custodian. Available forfeitures are used to offset employer contributions or to pay administrative expenses. During 2020, $93,062 of forfeitures were used to reduce employer contributions or pay administrative expenses. As of December 31, 2020 and 2019, $465 and $67,878, respectively, of non-vested forfeited accounts were available to reduce future employer contributions and pay administrative expenses of the Plan.

Investment options

Plan participants can direct the investment of their contributions into any or all of the investment options available under the Plan. Participants can change their investment allocation among the various investment options either through direct transfer from one option to another or by changing the percentage allocation of future contributions.

Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination of the Plan, participants become fully vested and the net assets of the Plan are to be distributed to participants in accordance with priorities established in the Plan.

Note 2 - Significant Accounting Policies

Basis of accounting

The accompanying financial statements of the Plan have been prepared using the accrual basis of accounting in accordance with U.S. generally accepted accounting principles ("GAAP").

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as distributions, based upon the terms of the *Plan Document*, upon liquidation of their account balance.

Administrative expenses

All administrative expenses incurred by the Plan are paid by the Plan, offset with forfeitures, or paid by the Company.

Note 2 - Significant Accounting Policies (Continued)

Benefit payments

Benefit payments are recorded when paid.

Investment valuation and income recognition

The Plan's investments are stated at fair value based on quoted market prices as of year-end which represents the net asset value of shares held by the Plan. See Note 3 regarding fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

Unrealized appreciation or depreciation in the fair value of investments held at year end is determined using the fair value at the beginning of the year or the purchase price if the investment is acquired during the year. The realized gain or loss on the sale of investments is determined using historical cost. Upon the sale of an investment, the current year unrealized appreciation or depreciation is adjusted for unrealized gains and losses recognized in prior years. Unrealized appreciation or depreciation and realized gains and losses are reported as net appreciation or depreciation in fair value of investments in the statement of changes in net assets available for benefits.

Financial instruments and credit risk

Financial instruments which potentially subject the Plan to credit risk include investments in mutual funds and a common/collective trust. Investments are exposed to various risks, such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statements of net assets available for benefits. Plan participants bear the risk of any investment losses.

Use of estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

Note 3 - Fair Value Measurements

The Plan uses a three-level hierarchy for grouping assets and liabilities, based on the significance of inputs. The hierarchy of fair value measurements is described below:

- Level 1 – quoted prices in active markets for identical assets or liabilities;
- Level 2 – inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of these assets or liabilities; or
- Level 3 – unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value:

- Mutual funds - these investments are valued daily based on the quoted market prices.

- Common/collective trust - this investment is valued at net asset value ("NAV") of the fund. The NAV is calculated by the fund based on "net assets," which includes fully benefit-responsive investment contracts at contract value comingled with other investments. This NAV represents the Plan's fair value since this is the amount at which the Plan transacts with the fund. The NAV, as provided by the Custodian, is used as a practical expedient to estimate fair value for the common/collective trust. The investment can be redeemed daily, has a daily redemption notice period, and has no unfunded commitments.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the valuation methods are considered appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan's investments measured at fair value as of December 31, 2020 are as follows:

	Level 1	Total
Mutual funds	$ 9,704,471	$ 9,704,471
Investments at net asset value [(a)]		344,548
Total investments at fair value	$ 9,704,471	$ 10,049,019

Note 3 - Fair Value Measurements (Continued)

The Plan's investments measured at fair value as of December 31, 2019 are as follows:

	Level 1	Total
Mutual funds	$ 6,582,236	$ 6,582,236
Investments at net asset value [(a)]		297,794
Total investments at fair value	$ 6,582,236	$ 6,880,030

[(a)] The common/collective trust is measured at NAV per share (or its equivalent) as a practical expedient and has not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Note 4 - Information Certified by the Custodian (Unaudited)

For 2020, the financial information included in the Plan's financial statements and supplemental schedule, except for contributions receivable, contributions, benefit payments, and administrative expenses, has been derived from information certified as complete and accurate by the Custodian, in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 5 - Party-In-Interest Transactions

The Plan's cash holding account is managed by the Custodian. Therefore, these transactions qualify as party-in-interest transactions.

Note 6 - Income Tax Status

The prototype plan adopted by the Company obtained its latest opinion letter on June 30, 2020, in which the Internal Revenue Service ("IRS") stated that the prototype plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the opinion letter, however, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2020, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7 - Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statement to the Form 5500 as of December 31, 2020:

Net assets available for benefits per the financial statements	$ 10,404,224
Employer contributions receivable	(80,575)
Net assets available for benefits per Form 5500	$ 10,323,649

No similar reconciling items existed as of December 31, 2019.

The following is a reconciliation of net increase in assets available for benefits per the financial statement to net income per the Form 5500 for the year ended December 31, 2020:

Net increase in net assets available for benefits per the financial statements	$ 3,226,782
Change in employer contributions receivable	(80,575)
Net income per Form 5500	$ 3,146,207

Note 8 - Subsequent Events

Management has evaluated subsequent events through October 4, 2021, which was the date that the financial statements were available to be issued, and has determined that there are no subsequent events to be reported.
