1 Description of Plan, Continued

Contributions:

Employee Contributions - Participants may make self-directed tax-deferred and after-tax “Roth” cash contributions up to a maximum of 100% of their total compensation, subject to the IRS imposed limit, which was \$19,500 for 2020 and \$19,000 for 2019. Eligible employees may also elect to make catch up contributions. Unless a participant chooses otherwise, eligible participants will be automatically enrolled at 6%. Effective January 1, 2021, contributions for eligible employees will automatically increase 1% annually up to a maximum contribution of 10%.

Employer Matching Contributions - The Company may make contributions to each eligible participant's account by matching a percentage of the Participant's elective deferral for the plan year. The match is based on the respective employer's appendix.

Annual Retirement Contributions – Employers may also elect to make discretionary contributions. The Employer decides on an annual basis how much, if any, to contribute to the Plan as an Annual Retirement Contribution.

Rollover contributions from other plans are also accepted, providing certain specified conditions are met.

Contributions are subject to limitations on annual additions and other limitations imposed by the Internal Revenue Code, as defined in the Plan agreement.

Participants' Accounts:

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contribution and (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

All participants are immediately 100% vested in voluntary contributions, plus actual earnings thereon.

Vesting in the remainder of their accounts is based on years of continuous service as follows:

Years of Service	Vested %

Participants may borrow from their fund accounts up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. Loans are repaid over a period not to exceed 5 years with exceptions for the purchase of a primary residence. Loans are valued at unpaid principal plus accrued but unpaid interest. No allowance for credit losses has been recorded as of December 31, 2020 and 2019. Delinquent participant loans are recorded as distributions on the basis of the terms of the Plan agreement.

The loans are secured by the balance in the participant's account and bear interest at rates established by the Trustee of the Plan. The interest rate applicable to loans is set and reviewed by the Company on an annual basis. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits:

Upon termination of service by reason of separation of service, retirement, death or total and permanent disability, a participant receives a lump sum amount equal to the value of his or her account.

NOTES TO FINANCIAL STATEMENTS

TransDigm Inc. 401(k) Plan

1 Description of Plan, Continued

Partial Plan Termination:

In 2020, the Company terminated participants as a result of poor economic impacts of the COVID-19 pandemic. The significance of these terminations resulted in a partial termination of the Plan, and participants who were terminated in 2020 became 100% vested in their account balances as of their termination date.

2 Summary of Significant Accounting Policies

Basis of Accounting:

The Plan's transactions are reported on the accrual basis of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Recent Accounting Pronouncements:

In August 2018, the FASB issued Accounting Standards Update No. 2018-13, Fair Value Measurement (Topic 820): Disclosure Framework-Changes to the Disclosure Requirements for Fair Value Measurement ("ASU 2018-13). The new standard removes or modifies certain existing disclosure requirements and adds additional disclosure requirements related to fair value measurement. The Plan elected to adopt ASU 2018-13 for the year ended December 31, 2020. The effect of the adoption is an overall reduction in disclosures related to fair value measurement.

Valuation of Investments:

Investments (except for fully benefit responsive contracts, which are recorded at contract value) are stated at fair value. Fair market values represent quoted market prices or, if quoted market prices are not available, estimated fair values as determined by the Plan's investment broker. Units held in outside funds with underlying mutual funds are reported at fair value based on the observable net asset value ("NAV") of the underlying investments. Units held in pooled separate accounts are reported at fair value based on the unit prices quoted by the fund, representing the fair value of the underlying investments. Units held in self-directed brokerage accounts are reported at fair value based on the unit prices quoted by the plan, representing the fair value of the underlying investments. The fair value of the guaranteed investment contract is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments purchased and sold as held during the year.

NOTES TO FINANCIAL STATEMENTS

TransDigm Inc. 401(k) Plan

2 Summary of Significant Accounting Policies, Continued

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Administrative Fees:

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to distributions and the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.

Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Risks and Uncertainties:

The Plan's investments include investments in mutual funds, pooled separate accounts, common collective trust funds, self-directed brokerage account, and guaranteed interest accounts holding investment contracts with varying degrees of risk, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statement of net assets available for plan benefits.

Subsequent Events:

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements.

Subsequent events have been evaluated through October 8, 2021, which is the date the financial statements were available to be issued.

NOTES TO FINANCIAL STATEMENTS

TransDigm Inc. 401(k) Plan

3 Tax Status

The Plan is included in a volume submitted determination letter dated March 31, 2014, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended; however, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, they believe that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken uncertain tax positions that more-likely-than-not would not be sustained upon examination by applicable taxing authorities. The Plan administrator has analyzed tax positions taken by the Plan and has concluded that, as of December 31, 2020, there are no uncertain tax positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. However, currently no audits for any tax periods are in progress.

4 Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under Topic 820 are described as follows:

- * Level 1: Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.
- * Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:
 - * Quoted prices for similar assets or liabilities in active markets
 - * Quoted prices for identical or similar assets or liabilities in inactive markets
 - * Inputs other than quoted prices that are observable for the asset or liability
 - * Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- * Level 3: Inputs that are unobservable inputs for the asset or liability.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

NOTES TO FINANCIAL STATEMENTS

TransDigm Inc. 401(k) Plan

4 Fair Value Measurements, Continued

Money Markets:

The fair value of the money market funds seek a stable \$1.00 net asset value. The funds invest in cash, short-term debt instruments issued by the U.S. government or its agencies and instrumentalities, and repurchase agreements collateralized by such instruments in order to provide current income consistent with stability of principal. The money market fund is classified in Level 1 of the valuation hierarchy.

Mutual Funds:

The fair value of the mutual funds are based on quoted market prices. These fall into the Level 1 category of the valuation hierarchy.

Pooled Separate Accounts:

The fair value of the pooled separate accounts includes reinvested dividend and interest income, realized and unrealized gains and losses of the underlying pool of securities. The strategy of these funds is to seek high level of dividend income and long-term capital growth through investment in stocks. These fall into the Level 2 category of the valuation hierarchy.

Common Collective Trust Funds:

The fair value of the collective investment fund is based on the underlying assets of the fund. The fair value is expressed in units, and investment income earned is reinvested in the funds and included in the determination of unit values. The strategy of these funds is to invest in select funds to achieve its targeted allocation of assets. These fall into the Level 2 category of the valuation hierarchy.

Self-directed Brokerage Account:

The self-directed brokerage account (“SDBA”) includes mutual funds, stocks listed on the NYSE, NASDAQ, and AMEX, and corporate and government bonds. The fair value of the SDBA is calculated based on the observable net asset values of the underlying investments. This falls into the Level 2 category of the valuation hierarchy.

7 Party-in-Interest Transactions

Certain Plan investments are managed by Massachusetts Mutual Life Insurance Company, a service provider of the plan, and therefore, these transactions qualify as party-in-interest. Usual and customary fees were paid by the mutual fund for the investment management services. In addition, the Plan has arrangements with various service providers and these arrangements qualify as party in interest transactions.

8 Benefit-Responsive Contract (Guaranteed Interest Account)

The Plan holds a benefit-responsive guaranteed interest contract with Massachusetts Mutual Life Insurance Company ("MassMutual"). The contract meets the fully benefit responsive contract criteria and therefore are reported at contract value. Contract value is the relevant measure for fully benefit responsive contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the plan. MassMutual maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed interest contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

TransDigm Inc. 401(k) Plan

8 Benefit-Responsive Contract (Guaranteed Interest Account), Continued

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) the plan's failure to qualify under Section 401(a) or Section 401(k) of the Internal Revenue Code, (2) the establishment of a defined contribution plan that competes with the plan for employee contributions, (3) any substantive modification of the plan or the administration of the Plan that is not consented to by the wrap issuer, (4) complete or partial termination of the Plan, (5) any change in law, regulation, or administrative ruling applicable to the plan that could have a material adverse effect on a portfolio's cash flow, (6) merger or consolidation of the plan with another plan, the transfer of assets to another plan, or the sale, spin-off or merger of a subsidiary or division of the plan sponsor, (7) any communication given to participants by the plan sponsor or any other plan fiduciary that is designed to induce or influence participants not to invest in a portfolio or to transfer assets out of a portfolio, (8) exclusion of a group of previously eligible employees from eligibility in the plan, (9) any early retirement program, group termination, group layoff, facility closing, or similar program, and (10) any transfer of assets from a portfolio directly to a competing option. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants is probable.

The issuer may terminate the contract for cause at any time.

9 Prohibited Transactions

Mutual fund investments of the plan (whether direct or indirect through a separate investment account) may have soft dollar arrangements pursuant to which the investment advisor or sub-advisor to the mutual fund (and/or its affiliates) may direct trades to certain brokers in exchange for research and other services, other than just trade execution. For plans investing directly or indirectly in the MassMutual Premier or Select Funds, MassMutual provided the required written disclosure regarding soft dollar compensation on the Schedule C Formula Description and/or EIC Statement Description Attachment. For all other mutual funds, MassMutual provided the required written disclosure in the Statement of Additional Information (“SAI”).

For additional information on soft dollar compensation, refer to the section of the mutual fund’s SAI that discusses brokerage allocation and other practices.
