1. Description of the Plan

The following description of the Autarkic Holdings, Inc. Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan, as amended and restated March 28, 2019, is a participant-directed defined contribution plan covering any employee of Autarkic Holdings, Inc. (the "Company," the "Plan Sponsor" or the "Employer") who has completed at least one month of service and has reached 21 years of age. The Plan provides eligible employees with a means to save for retirement. It also provides certain benefits in the event of death, disability, or other termination of employment. Fidelity Management Trust Company ("Fidelity" or the "Trustee") is the Plan's Trustee. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Participant's may contribute up to 75% of pre-tax eligible compensation, as defined in the Plan, up to the maximum amount then permitted by tax laws. The Plan contains an automatic enrollment feature. Participants that are subject to automatic enrollment will be notified approximately 30 days prior to when the Employer will begin to automatically deduct 3% from the participant's pay on a pre-tax basis as a deferral contribution to the Plan. Participants may also elect to make Roth contributions, on an "after tax" basis, to the Plan and may contribute amounts representing distributions from other qualified plans (rollovers). Participants may stop or change this automatic contribution by following the instructions in the notice. The Plan provides for safe harbor contributions based on a percentage of a participant's compensation. For the year ended December 31, 2020, the Company made safe harbor matching contributions in an amount equal to 100% of the first 4% of participants' eligible compensation, and 50% of the next 2% of participants' eligible compensation which totaled $78,439. The safe harbor match was suspended in April 2020 and reinstated for the year 2021. The total contributions of the Company and participants for any Plan year cannot exceed the lesser of (1) 100% of the participants' compensation or (2) maximum allowable by the Internal Revenue Code ("IRC").

The Plan also provides for discretionary, qualified non-elective contributions ("QNEC's") for all eligible participants. There were no discretionary non-elective contributions for the year 2020.

Participant Accounts

Each participant's account is credited or charged with the participant's contribution and allocations of (i) employer's 401(k) matching contributions and (ii) the participant's share of earnings or losses on contributions and administrative expenses. Each participant directs all amounts credited into their account into one or more of the investment options available under the Plan. Accordingly, as a participant-directed plan, each participant's investments determine their share of earnings or losses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. Description of the Plan (Continued)

Coronavirus Aid, Relief, and Economic Security ("CARES") Act

The Plan has adopted certain measures included in the CARES Act which allow qualified participants to receive COVID-related distributions without penalty. Additionally, required minimum distributions beginning in 2020 will be delayed by one year, but may still be received at the request of a participant. Participants who had been affected were eligible to withdraw up to $100,000. Participants who elected to make a withdrawal and were younger than 59 ½ had the 10% federal penalty waived and taxes owed were spread over a three-year period or forgiven if the funds are rolled back into the account within three years. In addition, processing fees associated with the withdrawal were waived.

Vesting

Participants are immediately vested in their contributions, rollovers and QNEC's plus actual earnings thereon. Vesting in employer's contributions plus actual earnings thereon is based on years of continuous service. A participant is 100% vested in employer contributions and earnings thereon after six years of credited service.

Years of Service	Vesting %
Less than 2	0
2	20
3	40
4	60
5	80
6	100

Investment Options

Participants direct the investment of their contributions, into various investment options offered by the Plan. Participants may change their contribution investment options daily and may transfer part or all of past investments to other investment options daily. Participants may also elect to change their percentage daily.

Notes Receivable from Participants

Participants may borrow from their vested fund account balance a minimum of $1,000 up to a maximum equal to the lesser of 50% of the vested interest of the participant in the Plan or $50,000 reduced by the highest outstanding loan balance in a participant's account during a twelve-month period. All loans from plans maintained by the Employer are considered for the purposes of determining the maximum amount of a participant's loan. A participant may use up to 50% of their vested account balance as collateral for any loan. A participant may have no more than two loans outstanding at any time. All loans are required to be repaid through after-tax payroll deductions. However, if a repayment is not made by payroll deduction, it must be repaid in level payments on at least a quarterly basis within five (5) years from the date of the loan or up to ten (10) years for the purchase of a principal residence. The loans are secured by the balance in the participant's account and bear interest at a fixed rate that is set at the date of the loan. Loans mature through May 2025 with fixed interest rates of 6.00%.

1. Description of the Plan (Continued)

Forfeited Accounts

When certain terminations of participation in the Plan occur, the nonvested portion of the participant's account, as defined by the Plan, represents a forfeiture. However, if the participant is re-employed and fulfills certain requirements as defined by the Plan, the participant's account will be reinstated. Unused forfeitures may first be used to reduce administrative costs of the Plan. Any remaining amounts will be used to reduce future employer matching contributions. The amount of forfeitures used to reduce employer matching contributions were approximately $16,600 for the year December 31, 2020.

Hardship and In-Service Withdrawals

Participants may apply to withdraw certain contributions to satisfy specific and heavy financial needs after first exhausting all other assets reasonably available including any in-service withdrawals available. The minimum hardship withdrawal is $500. Participants who have reached age 70 ½ or older may elect to receive distributions calculated in the same manner as Required Minimum Distributions. Participants may elect to withdraw all or a portion of their rollover contribution account balance. There is no limit on the number of withdrawals of this type. In-service withdrawals from specified accounts shall be available to participants that meet the following requirements: age 55 with 25 years of service for participants employed on or before June 19, 2003 from vested Profit Sharing. Participants that performed qualified military service for a period of 30 days or more may elect to withdraw certain contributions defined in the Plan during their active duty period. They will be suspended from making contributions for 6 months following the distribution.

Deemed Distributions

When a participant fails to make loan repayments under the terms of the loan agreement, the loan is considered to be in default. Deemed distributions on defaulted loans are recorded in the calendar quarter following the calendar quarter during which the loan was defaulted.

Benefit Payments

Upon termination of service due to death, disability or retirement, as defined in the Plan, participants are entitled to a fully vested lump sum payment of their account balance. For termination of service due to other reasons, participants are entitled to the value of the vested interest in their account as a lump-sum distribution. As of December 31, 2020, all employees who elected to withdraw from the Plan had been paid.

Expenses of the Plan

Certain administrative functions are performed by officers or employees of the Plan Sponsor. No such officer or employee receives compensation from the Plan. Substantially all administrative expenses are paid by the Plan Sponsor. The Plan Sponsor is under no obligation to pay such expenses.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

All Plan investments are held by the Trustee. The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (See Note 4 for a discussion of fair value measurements).

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Management fees and operating expenses charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as components of net appreciation or decline in fair market value of investments for such investments.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2020 and 2019 as the notes are collateralized by the participant's account balance. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded. At December 31, 2020, there no were deemed distributions.

Participant and Employer Contributions

Participant and Employer contributions are included in additions to net assets during the period in which the Employer records the related liabilities.

Payment of Benefits

Benefit payments are recorded when paid.

2. Summary of Significant Accounting Policies (Continued)

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Recent Accounting Pronouncements

In August 2018, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Updated ("ASU") 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework - Changes to the Disclosure Requirements for Fair Value Measurement* which amends Accounting Standards Codification ("ASC") 820 to add, remove, and modify fair value measurement disclosure requirements. ASU 2018-13 is effective for all entities for fiscal years beginning after December 15, 2019. The manner of adoption varies, with certain provisions applied retrospectively, while others applied prospectively. The Plan adopted ASU 2018-13, which resulted in the removal of certain fair value disclosures, which did not have a material impact on the financial statements or the Plan's net assets available for benefits.

Subsequent Events

The Plan has evaluated subsequent events for recognition or disclosure through the date these financial statements were available for issuance, October 11, 2021.

3. Information Certified by the Trustee

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity, the Trustee of the Plan, has certified to the completeness and accuracy of:

- Investments and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of December 31, 2020 and 2019;

- Net appreciation in the fair value of the investments, interest, dividends and interest income on notes receivable from participants reflected on the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2020;

- Investments reflected on the schedule of assets (held at end of year) as of December 31, 2020.

4. Fair Value Measurements

The FASB established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Money market funds and mutual funds: Valued at quoted market prices of shares held by the Plan.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective or future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2020 and 2019:

As of December 31, 2020:

	Level 1	Total
Money market funds	$ 1,555,879	$ 1,555,879
Mutual funds	11,943,091	11,943,091
Investments at fair value	$13,498,970	$ 13,498,970

As of December 31, 2019:

	Level 1	Total
Money market funds	$ 331,716	$ 331,716
Mutual funds	12,820,180	12,820,180
Investments at fair value	$13,151,896	$ 13,151,896

5. Exempt Party-in-Interest

At December 31, 2020, certain Plan investments were managed by Fidelity and therefore, these transactions qualify as party-in-interest transactions. Administrative fees paid by the Plan to the Trustee were $34,378 for the year ended December 31, 2020. Notes receivable from participants also qualify as party-in-interest transactions.

6. Plan Termination

Although it has not expressed any intention to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

7. Tax Status

The Company adopted a Volume Submitter Profit Sharing Plan with a Cash or Deferred Arrangement ("CODA") sponsored by Fidelity Management Research Co. which received an opinion letter from the Internal Revenue Service, dated March 31, 2014, as to the Plan's qualified status. Although the Plan has been amended since receiving the opinion letter, the Plan Administrator believes that the Plan is designed and is being operated in compliance with the applicable provisions of the IRC, and accordingly no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of American require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service.

7. Tax Status (Continued)

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to tax examinations for years prior to 2017.

8. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits at December 31, 2020 and 2019 and changes in net assets available for benefits for the year ended December 31, 2020 from the financial statements to the Form 5500:

This representation letter is provided in connection with your audit of the financial statements of Autarkic Holdings, Inc. Profit Sharing Plan (the "Plan"), which comprise the statement of net assets available for benefits as of December 31, 2020 and 2019; the related statement of changes in net assets available for benefits for the year ended December 31, 2020; and the related notes to the financial statements.

We have determined that the Plan Trustee, Fidelity Management Trust Company ("Fidelity"), qualifies to issue a certification of the Plan's asset activity under Section 2520.103-5 of the Department of Labor ("DOL")'s Rules and Regulations. Therefore, as permitted by Regulation 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), we have instructed you not to perform any auditing procedures with respect to asset information certified or provided by Fidelity, the Trustee, other than comparing that information with the related information included in the financial statements and supplemental schedule. Because of the significance of the information that you did not audit, we understand that you will not express an opinion on the financial statements and supplemental schedule as a whole.

We confirm, to the best of our knowledge and belief, that as of October 11, 2021:

Financial Statements

1. We have fulfilled our responsibilities, as set out in the terms of the audit arrangement letter dated May 1, 2021, for the preparation and fair presentation of the financial statements referred to above in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

2. We acknowledge our responsibility for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

3. We acknowledge our responsibility for the design, implementation and maintenance of internal control to prevent and detect fraud.

4. We are responsible for making the accounting estimates included in the financial statements. Significant assumptions used by us in making accounting estimates, including those measured at fair value, are reasonable and reflect our judgment based on our knowledge and experience about past and current events, and our assumptions about conditions we expect to exist and courses of action we expect to take.

Financial Statements

5. In that regard, we are responsible for the estimation methods and assumptions used in measuring assets and liabilities reported or disclosed at fair value, including information obtained from brokers, pricing services or other third parties. The methods and significant assumptions used to determine fair values of the financial instruments are as follows:

   The Financial Accounting Standards Board ("FASB") established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

   Our valuation methodologies have been consistently applied from period to period. The methods and assumptions used result in a measure of fair value appropriate for financial statement measurement and disclosure purposes.

6. All significant estimates and material concentrations known to management that are required to be disclosed in accordance with the Risks and Uncertainties Topic of the FASB Accounting Standards
