Independent Auditor's Report

To the Plan Administrator
Adient Production Employees Pension Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Adient Production Employees Pension Plan (the "Plan"), which comprise the statement of net assets available for benefits as of December 31, 2020 and 2019 and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by U.S. Bank, National Association (the "Trustee"), except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the Trustee holds the Plan's investment assets and executes related transactions. The plan administrator has obtained certifications from the Trustee as of and for the years ended December 31, 2020 and 2019 that the information provided to the plan administrator is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules of assets held at end of year as of December 31, 2020 and reportable transactions for the year ended December 31, 2020 are required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on these supplemental schedules.

Note 1 - Plan Description

The following description of Adient Production Employees Pension Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit plan covering all full-time employees of Adient US LLC (the "Company") who are represented by a collective bargaining unit, are employed at the Battle Creek, Michigan; Oklahoma City, Oklahoma; Earth City, Missouri; Shreveport, Louisiana; and Kansas City, Kansas plants and have completed one hour of service, and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

On October 31, 2016, the Company was separated from Johnson Controls, Inc. Prior to the separation, the Plan was sponsored by Johnson Controls, Inc.

Effective August 30, 2012, the Plan no longer allowed new entrants, and benefit accrual was frozen for all plants except the Battle Creek, Michigan plant.

Contributions

All contributions to the Plan are made by the Company. The Company contributes such amounts, as determined on an actuarial basis, to provide the Plan with assets sufficient to meet the projected benefits to be paid to plan participants. Annual contributions meet the minimum funding requirements of ERISA. No participant contributions are permitted.

Pension Benefits

Eligible employees with five or more years of service are entitled to normal annual pension benefits beginning at the participant’s normal retirement age of 65, as described in the Plan. The individual pension benefit is equal to credited service times a monthly pension basic benefit. Special provisions for retirement at other than the normal retirement age are described in the Plan and union agreements, if applicable. Employees with at least 10 years of service may elect early retirement and receive the accrued normal retirement benefits at age 60 or a reduced monthly retirement benefit payable immediately in accordance with the plan agreement.

Death Benefits

If an active or terminated employee who has a vested interest in the Plan dies prior to his or her normal retirement age, a death benefit equal to the benefit the employee would have received under the qualified joint and survivor annuity form had the employee retired on the day immediately preceding the date of his or her death will be paid to the surviving spouse. Beneficiaries of unmarried participants and those who have elected to waive the preretirement surviving spouse benefit will receive a lump-sum benefit or monthly installments equal to the actuarial equivalent of the participant’s vested accrued normal retirement benefit at the date of break in service.

Payment of Benefits

Distributions are payable in the form of a single life annuity for unmarried participants and an automatic 55 percent joint and survivor annuity for married participants unless otherwise elected. Participants can also elect a lump-sum payment, 75 percent joint and survivor annuity, or a single life annuity.

Note 1 - Plan Description (Continued)

Administration

Under a trust agreement, U.S. Bank, National Association was appointed trustee of the Plan. In accordance with the powers and duties of the trustee, as designated by the Company, U.S. Bank, National Association administers the Plan in accordance with the orders of the Employee Benefits Policy Committee and invests the Plan's assets and the income therefrom, as directed by the Plan's investment manager. Certain administrative fees incurred in administering the Plan are paid from the assets of the Plan.

Note 2 - Summary of Significant Accounting Policies

Investments in the Master Trust

The Plan participated in the Adient US LLC Master Pension Trust (the "Master Trust") through May 15, 2020. After that date, the investments of the Plan are no longer commingled in the Master Trust.

Investment Valuation

The Plan's investments are stated at fair value.

All investments are valued based on quoted market prices reported in active markets. See Note 6 for additional information.

During the plan year ended December 31, 2019 and through May 15, 2020, the fair value of the Plan's interest in the Adient US LLC Master Pension Trust is based on the beginning of the year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. See Note 4 for additional information.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

Various administrative costs are paid by the Company.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments that are attributable, under the Plan's provisions, to the service that employees have rendered. Accumulated plan benefits include benefits expected to be paid to retired or terminated employees or their beneficiaries, beneficiaries of employees who have died, and present employees or their beneficiaries. The present value of accumulated plan benefits is actuarially determined and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment due to death, disability, or retirement between the valuation date and the expected date of payment.

Actuarial Assumptions

The actuarial present value of accumulated plan benefits is determined by an actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and probability of payment between the valuation date and the expected date of payment.

Note 2 - Summary of Significant Accounting Policies (Continued)

The significant actuarial assumptions used in determining the actuarial present value of accumulated plan benefits as of January 1, 2020 are summarized as follows:

Mortality rates	The amounts-weighted aggregate rates and the amounts-weighted aggregate contingent survivor rates from the Pri-2012 mortality study with blue collar adjustment projected generationally from 2012 using scale MP-2019
Actuarial cost method	Unit credit method
Interest rate	2.5 percent

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

Contributions to the Plan and the accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. It is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the financial statements.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including October 7, 2021, which is the date the financial statements were available to be issued.

Note 3 - Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits is determined by consulting actuaries. The calculation of the actuarial present value of accumulated plan benefits attributable to participants in the Plan, which was made as of January 1, 2020, the most recent actuarial valuation, is as follows:

Actuarial present value of accumulated plan benefits - Vested benefits:	
Participants currently receiving benefit payments	$ 405,724
Other vested participants	8,830,290
Total actuarial present value of accumulated plan benefits	$ 9,236,014

Note 3 - Accumulated Plan Benefits (Continued)

A summary of significant changes in the actuarial present value of accumulated plan benefits during the year ended December 31, 2020 is as follows:

Actuarial present value of accumulated plan benefits - Beginning of year	$	7,254,098
Increase (decrease) during the year attributable to:		
Interest accumulation		249,666
Benefits paid		(243,683)
Assumption changes		1,756,474
Benefits accumulated and plan experience		219,459
Net increase		1,981,916
Actuarial present value of accumulated plan benefits - End of year	$	9,236,014

This information is based on the actuarial assumptions, which are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The increase in the accumulated plan benefits related to the change in actuarial assumptions was the result of the change in mortality basis from the aggregate 2006 base rates from the RP-2014 mortality study with 100 percent blue collar adjustments, projected generationally from 2006 with scale MP-2018 to the weighted aggregate rates and the amounts-weighted aggregate contingent survivor rates from the Pri-2012 mortality study with blue collar adjustment, projected generationally from 2012 using scale MP-2019, as well as a change in the interest rate from 3.50 percent to 2.50 percent.

The Plan's deficiency of net assets over accumulated plan benefits at year end is expected to be funded through future employer contributions.

Note 4 - Interest in Master Trust

Through May 15, 2020, the Plan's investments were in the Master Trust, which was established for the investment of assets of the Plan and two other Adient US LLC-sponsored benefit plans. Each participating benefit plan had an undivided interest in the Master Trust. The assets of the Master Trust were held by the Trustee.

At December 31, 2019, the Plan's interest in the net assets of the Master Trust was approximately 40 percent. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based upon their pro rata share in the investments of the Master Trust.

The net assets of the Master Trust and the Plan's interest in Master Trust balances at December 31, 2019 are as follows:

		Master Trust Balances		Plan's Interest in Master Trust Balances
Total Master Trust investments - Mutual funds	$	15,226,708	$	6,096,871

The investment income for the Master Trust for the period from January 1, 2020 through May 1, 2020 and the year ended December 31, 2019 is as follows:

		2020		2019
Net realized and unrealized (losses) gains on investments	$	(608,617)	$	2,573,189
Interest and dividends		145,795		536,812
Total	$	(462,822)	$	3,110,001

Note 5 - Unaudited Information

U.S. Bank, National Association (the "Trustee") holds the Plan's investments and executes all investment transactions. The investment balances and related investment income and losses included in the accompanying financial statements, supplemental schedule of assets held at end of year, supplemental schedule of reportable transactions, and the Master Trust information summarized in Note 4 are based solely on information certified by the Trustee.

Note 6 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset.

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Master Trust's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following table presents information about the Plan's assets measured at fair value on a recurring basis at December 31, 2020:

	Assets Measured at Fair Value on a Recurring Basis at December 31, 2020	
	Investments (at Fair Value)	Level 1
Mutual funds	$ 6,112,162	$ 6,112,162
Money market fund	103,053	103,053
Total	$ 6,215,215	$ 6,215,215

The following table presents information about the Master Trust's assets measured at fair value on a recurring basis at December 31, 2019:

	Master Trust Assets at December 31, 2019	
	Master Trust Balance	Level 1
Investments at fair value - Mutual funds	$ 15,226,708	$ 15,226,708

Note 7 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Accordingly, no provision for income taxes has been made in the accompanying financial statements.

Note 8 - Plan Termination

Should the Plan terminate at some future time, its net assets generally will not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Other Information to Fully and Fairly Disclose the Actuarial Position of the Plan

Due to software limitations with the electronic filing process, information filed electronically cannot be controlled by the Enrolled Actuary. The values on the signed Schedule SB will govern to the extent there are any differences in the entries filed electronically and the actual data contained on the signed Schedule SB.

Under the American Rescue Plan Act of 2021 (ARPA), the stabilized interest rates for certain purposes will be adjusted once the ARPA stabilization is applied. By default, this stabilization would have applied starting with the 2020 plan year.

On September 13, 2021, Adient US LLC made an explicit election not to apply the ARPA interest rate stabilization (for any purposes) to the Adient Production Employees Pension Plan for the 2020 plan year. Therefore, this Schedule SB reflects stabilized 2020 minimum funding interest rates without regard to ARPA.

Schedule SB, line 32—Schedule of Amortization Bases

Type of Base	Present Value of Installment	Date Established	Years Remaining	Amortization Installment
Shortfall	$ 812,990	January 1, 2019	6	$ 149,539
Shortfall	$ (572,315)	January 1, 2020	7	$ (92,698)

Under the American Rescue Plan Act of 2021 (ARPA), the shortfall relief wipes out existing shortfall amortization bases and changes the amortization period. By default, this relief applies starting with the 2022 plan year. This Schedule SB reflects the shortfall amortization bases without regard to the ARPA shortfall relief for the 2019 and 2020 plan years.
