Independent Auditor's Report

To the Plan Administrator and Plan Participants
Adient US LLC Savings and Investment (401k) Plan
Avanzar Interior Technologies, Ltd. Savings and Investment (401k) Plan
Bridgewater Interiors, LLC Savings and Investment (401k) Plan
Adient Production Employees Savings and Investment (401k) Plan

We have audited the accompanying financial statements of Adient US LLC Savings and Investment (401k) Plan; Avanzar Interior Technologies, Ltd. Savings and Investment (401k) Plan; Bridgewater Interiors, LLC Savings and Investment (401k) Plan; and Adient Production Employees Savings and Investment (401k) Plan (collectively, the "Plans"), which comprise the statements of net assets available for benefits as of December 31, 2020 and 2019 and the related statements of changes in net assets available for benefits for the year ended December 31, 2020, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets of the Plans as of December 31, 2020 and 2019 and the changes in net assets for the year ended December 31, 2020 in accordance with accounting principles generally accepted in the United States of America.

Note 1 - Description of the Plans

The accompanying financial statements comprise employee savings plans of Adient US LLC (the "Company") or its affiliates that participate in the Adient US LLC Defined Contribution Master Trust for Employee Savings Plans (the "Master Trust").

The following description of the Adient US LLC Savings and Investment (401k) Plan, the Avanzar Interior Technologies, Ltd. Savings and Investment (401k) Plan, the Bridgewater Interiors, LLC Savings and Investment (401k) Plan, and the Adient Production Employees Savings and Investment (401k) Plan (collectively the "Plans") provide only general information. Participants should refer to the respective Plan Document for a more complete description of each of the Plans' provisions.

The Plans are subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

On July 24, 2015, Johnson Controls, Inc. ("Johnson Controls") announced its intent to separate its automotive seating and interiors business into an independent, publicly traded company-Adient plc ("Adient"). The separation occurred on October 31, 2016, at which date Johnson Controls transferred its automotive seating and interiors businesses, including its ownership of the Plans, to Adient and its affiliates. Through October 31, 2016, the Plans were administered by the Johnson Controls Employee Benefit Policy Committee. Effective October 31, 2016, the plan administration transferred to the Adient Employee Benefit Policy Committee.

Adient US LLC Savings and Investment (401k) Plan ("ASIP")

General - In anticipation of the separation from Johnson Controls, the ASIP was established effective as of July 1, 2016. All U.S. automotive seating and interior employees (including retirees and terminated vested participants) who were participants in the Johnson Controls Savings and Investment 401(k) Plan (the "JCI Plan") automatically became participants in the ASIP and were thereafter excluded from participation in the JCI Plan on July 1, 2016. Plan assets of those former JCI Plan participants were transferred to the ASIP at that time. The ASIP is sponsored by the Company. Employees hired after July 1, 2016 are permitted to participate in the Plan provided they meet the eligibility requirement outlined in the plan document.

Contributions - Participants can generally defer an amount up to twenty-five percent (25%) of their gross annual compensation as contributions. The Company remitted certain employee contributions related to the 2019 and 2020 plan year after the Department of Labor's required timeframe. The Company remitted the 2019 plan year contributions and related lost earnings during 2019 and 2020. The Company plans to remit the 2020 plan year contributions and related lost earnings during 2021.

The Company may make matching contributions to the ASIP on behalf of the participants based on specific eligibility rules as listed in their benefit schedule and the ASIP plan document. Matching contributions are based on the participant's location or position as outlined in the ASIP plan document. A participant may also be eligible to receive a retirement income contribution ("RIC") from the Company. Eligibility for RIC is dependent upon the participant's locations and is generally computed based on the participant's age and years of service.

Effective May 16, 2020, the Company matching contribution and RIC were suspended for the remainder of plan year 2020 for all non-bargained employees in the ASIP. The suspension of the matching contribution and RIC is one of the actions taken by the Company to maintain adequate liquidity during 2020 in response to adverse impact from the COVID-19 pandemic.

Effective January 1, 2021, as part of the restatement of the ASIP, the Company reinstated the Company matching contribution for all non-bargained employees in the ASIP. The RIC was replaced with a discretionary non-matching employer contribution. Additionally, participants can now contribute up to fifty percent (50%) of their 401(k) eligible earnings.

Avanzar Interior Technologies, Ltd. Savings and Investment (401k) Plan ("AVSIP")

General - The AVSIP is a defined contribution plan adopted effective September 1, 2005 for participation by eligible employees of Avanzar Interior Technologies, Ltd. ("Avanzar"). The AVSIP is sponsored by Avanzar.

Contributions - Participants can generally defer an amount up to twenty-five percent (25%) of their gross annual compensation as contributions.

Avanzar may make matching contributions to the AVSIP on behalf of the participants. Matching contributions are determined in the discretion of Avanzar. A participant may also be eligible to receive a RIC from Avanzar. The RIC is computed based on the participant's age and years of service.

Bridgewater Interiors, LLC Savings and Investment (401k) Plan ("BSIP")

General - The BSIP is a defined contribution plan adopted effective January 1, 1999 for participation by eligible employees of Bridgewater Interiors, LLC ("Bridgewater"). The BSIP is sponsored by Bridgewater.

Contributions **-** Participants can generally defer an amount up to twenty-five percent (25%) of their gross annual compensation as contributions. Bridgewater remitted certain employee contributions related to the 2019 plan year after the Department of Labor's required timeframe. Bridgewater remitted the 2019 plan year contributions and related lost earnings during 2020.

Bridgewater may make matching contributions to the BSIP on behalf of the participants as determined in Bridgewater's discretion. During 2020, Bridgewater matching contributions were based on the participant's before-tax contributions, not to exceed 6% of compensation. A participant may also be eligible to receive a RIC from Bridgewater. The RIC is equal to 3% of each eligible participant's eligible earnings.

Adient Production Employees Savings and Investment (401k) Plan ("APSIP")

General - The APSIP, formerly the Johnson Creek Savings and Investment Plan, and more recently known as the Johnson Controls Automotive Systems Group Production Employees Savings and Investment 401(k) Plan, is a defined contribution plan adopted effective September 1, 1998 for participation by eligible Company production employees at designated facilities.

Contributions - Participants can generally defer an amount up to twenty-five percent (25%) of their gross annual compensation as contributions. The Company remitted certain employee contributions related to the 2019 plan year after the Department of Labor's required timeframe. The Company remitted the 2019 plan year contributions and related lost earnings during 2020. The Company remitted certain employee contributions related to the 2020 plan year after the Department of Labor's required timeframe. The Company plans to remit the 2020 plan year contributions and related lost earnings during 2021.

The Company may make matching contributions to the APSIP on behalf of the participants based on specific eligibility rules as listed in their benefit schedule and the APSIP plan document. Matching contributions are based on the participant's location as outlined in the APSIP plan document. A participant may also be eligible to receive a RIC from the Company. The RIC is computed based on the participant's location.

Participant Accounts - Participant recordkeeping is performed by Fidelity Workplace Services. Participant and employer contributions are deposited in the investment funds of the participant's choice. Participants may reallocate their account balances among the available investment funds at any time in increments of one percent (1%). However, participants can reallocate deposits out of the Fixed Income Fund no more than once each calendar quarter in order to maximize the rate of return for that fund and allocations may not be made to the Johnson Controls International plc ("JCI plc") Stock Fund, which is a sell-only fund.

Vesting and Forfeiture - Participants are immediately vested in their contributions plus actual earnings (losses) thereon. A participant's interest in employer contributions plus actual earnings (losses) thereon vest in accordance with vesting requirements specified within their benefit schedule and respective plan document, generally over a two to five-year period. A participant becomes fully vested on termination of service due to death, total and permanent disability or retirement.

If employment terminates other than by reason of retirement, death or total and permanent disability and the participant is not reemployed by the respective Plan sponsor or its affiliates within 72 months of that date, the participant's interest in the non-vested portion of the employer contributions is forfeited. Forfeited amounts in each respective plan may be applied to reduce future employer contributions to the respective plan.

Payment of Benefits - On termination of service, a participant may elect to receive a lump-sum amount equal to the value of the participant's interest in his or her account. Activity for any participants in the ASIP who have elected to receive dividends on Adient ordinary shares paid in the form of cash instead of purchasing additional shares is reported in the statement of changes in net assets available for benefits. There were no such cash dividends paid during 2020.

During 2020, the Plans adopted provisions to allow for expanded distributions under the Coronavirus Aid, Relief and Economic Security (CARES) Act. This allowed qualified individuals to take distributions of up to $100,000 with no penalty through December 31, 2020.

Notes Receivable from Participants - Participants may borrow from their accounts a minimum of $1,000 up to a maximum of $50,000 or fifty percent (50%) of their account balance, whichever is less. Loans are subject to certain limitations based on the Plan document. Only two loans per participant may be outstanding at any time. Each loan may be for a term up to five years. Regular payroll deductions are required to repay a loan. Each loan's interest rate is fixed at the prime rate at the beginning of the calendar quarter in which it is issued. At termination, participants may continue to make monthly loan payments until the balances of any loans are paid off. The notes receivable from participants are measured at their unpaid principal balances plus accrued but unpaid interest. At the time of borrowing, the assets of the participant are sold proportionally to finance the loan. Participant notes receivable are written off when deemed uncollectible. During 2020, the Plans allowed for increased maximum borrowings of $100,000 and expanded loan repayment options under the CARES Act. This allowed qualified individuals to defer loan payments through December 31, 2020.

Administrative Expenses - Certain administrative expenses are paid by the Plans, as allowed by Plan provisions, with all remaining expenses paid by the respective plan sponsor.

Note 2 - Summary of Significant Accounting Policies

Basis of Presentation - The financial statements of the Plans are prepared on the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Master Trust - Contributions are invested in accordance with the participant's election in one or more investments, which are held in the Master Trust (See Note 3).

Investment Valuation - All investments of the Master Trust, except the Fixed Income Fund, are stated at fair value. The Fixed Income Fund is a synthetic guaranteed investment contract ("synthetic GIC") which is stated at contract value. The synthetic GIC is fully benefit responsive. Contract value, as reported to the Plans by Fidelity Fund and Investment Operations, represents contributions made under the contract, plus interest at the contract rate, less participant withdrawals and administrative expenses. Each participating plan's interest in the Master Trust is based on account balances of the participants and their elected investment options. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based upon average monthly balances invested by each plan. See Note 4 for further discussion of fair value measurements.

Transfer of Assets - The Plans permit the transfer of assets among investment options held by the Master Trust, subject to certain trading restrictions imposed on some of the investment options.

Investment Contracts - The Fixed Income Fund is a synthetic GIC which consists of wrap contracts paired with underlying investments owned by the Master Trust, including a common collective trust fund that invests in short to intermediate-term fixed-income securities and a short-term investment fund. The Master Trust purchases wrapper contracts from insurance companies and financial institutions.

A synthetic GIC credits a stated interest rate. Investment gains and losses are amortized over the expected duration of the covered investments through the calculation of the interest rate on a prospective basis. The synthetic GIC provides for a variable crediting rate, which resets on a monthly basis and is calculated by Fidelity Fund and Investment Operations. The monthly crediting rate does not include the short-term investments (e.g., short-term interest fund) used for benefit-responsive events. The issuer of the wrap contract provides assurance that future adjustments to the crediting rate cannot result in a crediting rate less than zero. The actual interest rate of the fund is impacted by the current yield of the short-term investments.

The crediting rate is primarily based on the current yield-to-maturity of the covered investments, plus or minus amortization of the difference between the market value and contract value of the covered investments over the duration of the covered investments at the time of computation.

The crediting rate is most impacted by the change in the annual effective yield to maturity of the underlying securities, but is also affected by the differential between the contract value and the market value of the covered investments. This difference is amortized over the duration of the covered investments. Depending on the change in duration from reset period to reset period, the magnitude of the impact to the crediting rate of the contract to market difference is heightened or lessened.

Certain events limit the ability of the Master Trust to transact at contract value with the insurance companies and the financial institution issuers. Such events include the following: (i) material amendments to the plan documents (including complete or partial plan termination or merger with another plan); (ii) changes to the Plans' prohibition on competing investment options or deletion of equity wash provisions; (iii) bankruptcy of the plan sponsor or other plan sponsor events (e.g., divestitures or spin-offs of a subsidiary) which cause a significant withdrawal from the Plans; (iv) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA; (v) any change in law, regulation, ruling, administrative or judicial position, or accounting requirement, applicable to the Fixed Income Fund or the Plans; or (vi) the delivery of any communication to plan participants designed to influence a participant not to invest in the Fixed Income Fund.

The plan administrator does not believe that the occurrence of any such event, which would limit the Master Trust's ability to transact at contract value, is probable.

The wrap contracts generally impose conditions on both the Master Trust and the issuers. If an event of default occurs and is not cured, the non-defaulting party may terminate the contract. The following may cause the Master Trust to be in default: a breach of material obligation under the contract; a material misrepresentation; or a material amendment to the plan agreement. The issuer may be in default if it breaches a material obligation under the investment contract; makes a material misrepresentation; has a decline in its long-term credit rating below a threshold set forth in the contract; is acquired or reorganized and the successor issuer does not satisfy the investment or credit guidelines applicable to issuers. If, in the event of default of an issuer, the Master Trust were unable to obtain a replacement investment contract, withdrawing plans may experience losses if the value of the Master Trust's assets no longer covered by the contract is below contract value. The Master Trust may seek to add additional issuers over time to diversify the Master Trust's exposure to such risk, but there is no assurance the Master Trust may be able to do so. The combination of the default of an issuer and an inability to obtain a replacement agreement could render the Master Trust unable to achieve its objective of maintaining a stable contract value. The terms of an investment contract generally provide for settlement of payments only upon termination of the contract or total liquidation of the covered investments. Generally, payments will be made pro-rata, based on the percentage of investments covered by each issuer. Contract termination occurs whenever the contract value or market value of the covered investments reaches zero or upon certain events of default.

If the contract terminates due to issuer default (other than a default occurring because of a decline in its rating), the issuer will generally be required to pay to the Master Trust the excess, if any, of contract value over market value on the date of termination. If a wrap contract terminates due to a decline in the ratings of the issuer, the issuer may be required to pay to the Master Trust the cost of acquiring a replacement contract (i.e., replacement cost) within the meaning of the contract. If the contract terminates when the market value equals zero, the issuer will pay the excess of contract value over market value to the Master Trust to the extent necessary for the Master Trust to satisfy outstanding contract value withdrawal requests. Contract termination also may occur by either party upon election and notice.

Benefit Payments - Benefits are recorded when paid.

Risks and Uncertainties - The Plans' investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the values of investments, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits. The outbreak of the coronavirus (COVID-19) pandemic has adversely affected, and may continue

to adversely affect, economic activity globally, nationally and locally. Following the COVID-19 outbreak in March 2020, the values of investment securities have experienced significant volatility. These economic and market conditions and other effects of the COVID-19 pandemic may continue to adversely affect the Plans. The extent of the adverse impact to the amounts reported in the 2020 statements of net assets available for benefits will depend on future developments that are highly uncertain and cannot be accurately predicted.

Note 3 - Master Trust

Employee benefit plans participating in the Master Trust as of December 31, 2020 and 2019 include the following defined contribution plans:

- Adient US LLC Savings and Investment (401k) Plan
- Avanzar Interior Technologies, Ltd. Savings and Investment (401k) Plan
- Bridgewater Interiors, LLC Savings and Investment (401k) Plan
- Adient Production Employees Savings and Investment (401k) Plan

All transfers to, withdrawals from or other transactions regarding the Master Trust shall be conducted in such a way that the proportionate interest in the Master Trust of each plan and the fair market value of that interest may be determined at any time.

A summary of the net assets of the Master Trust and dollar amounts of each plan's interest in the Master Trust as of December 31, 2020 is as follows:

Net realized and unrealized gains	$ 127,468,120
Dividend, interest and other income	14,872,825
Net Investment Income	**$ 142,340,945**

During 2020, there was approximately $23 million of purchases and $32 million of sales related to Adient plc ordinary shares in the Master Trust, which is considered to be a related party transaction. During 2019, there was approximately $20 million of purchases and $14 million of sales related to Adient plc ordinary shares in the Master Trust, which is considered to be a related party transaction.

Note 4 - Fair Value Measurements

Accounting standards require certain assets and liabilities to be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

In determining fair value, various valuation techniques are utilized and observable inputs are prioritized. The availability of observable inputs varies from instrument and depends on a variety of factors including the type of instrument, whether the instrument is actively traded, and other characteristics particular to the transaction. For many financial instruments, pricing

inputs are readily observable in the market, the valuation methodology used is widely accepted by market participants, and the valuation does not require significant management discretion. For other financial instruments, pricing inputs are less observable in the marketplace and may require management judgment.

The inputs used to measure fair value are assessed using a three-tier hierarchy based on the extent to which inputs used in measuring fair value are observable in the market. Level 1 inputs include quoted prices in active markets for identical instruments and are the most observable. Level 2 inputs include quoted prices for similar assets and inputs such as interest rates and yield curves that are observable at commonly quoted intervals. Level 3 inputs are not observable in the market and include management's judgments about the assumptions market participants would use in pricing the asset. In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Master Trust's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Following is a description of the valuation methodologies used to value the underlying investments in the Master Trust:

Mutual Funds and Common Stock - The fair value for Mutual Funds and Common Stock are determined by direct quoted market prices.

Employer Stock Funds - The Adient Stock Fund and JCI plc Stock Fund are unitized accounts that are comprised of Adient and JCI plc ordinary shares, respectively, except for a small portion of the funds that is invested in interest bearing cash to provide liquidity for daily activities. Adient and JCI plc ordinary shares are valued based on direct quoted market prices and interest bearing cash is based on outstanding balances.

Interest Bearing Cash - These investments are valued at fair value based on their outstanding balances.

Common/Collective Trust Funds - Common collective trusts are valued at the net asset value ("NAV") provided by the administrator of the fund using the practical expedient approach and therefore is not assigned to a level in the hierarchy table. The NAV is based on the fair value of the underlying assets owned by the fund. The common collective trusts are not subject to restrictions regarding redemptions and there are no unfunded commitments to the funds.
