TAYLOR TELE-COMMUNICATIONS, INC. 401-K PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2020 AND 2019

NOTE 1 – DESCRIPTION OF THE PLAN

The following description of the Taylor Tele-Communications, Inc. 401-k Plan (the “Plan”) provides only general information. Participants should refer to the plan document for a more complete description of the Plan’s provisions.

General: Taylor Tele-Communications, Inc. (the “Company”) established the Plan effective March 1, 2016. The Plan operates in accordance with Section 401(k) of the Internal Revenue Code. The Plan is a defined contribution plan covering substantially all employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security (CARES) Act was enacted and signed into law. The CARES Act provides emergency economic relief in response to the COVID-19 pandemic. There are several key provisions of the CARES Act that affect retirement plans related to hardship distributions, participant loans, and required minimum distributions.

The CARES Act provided for distribution of benefits up to \$100,000 for participants impacted by COVID-19. Distributions were available to participants through December 31, 2020, who were impacted by COVID-19 through a diagnosis of COVID-19, a spouse or dependent diagnosed with COVID-19, or were financially impacted by quarantine, job loss, or reduced hours due to COVID-19. The CARES Act also allowed participants the option to defer required minimum distributions. The Plan adopted these provisions in 2020.

Eligibility: To be eligible, an employee must have attained the age of 21 and have completed three months of service, as defined in the Plan. Leased employees are excluded from eligibility. The Plan allows employees to enter the Plan on the date on which the employee completes the eligibility requirements.

Contributions: Each year, participants may contribute up to 100% of their compensation (as defined by the Plan) up to the maximum amount permitted under the Internal Revenue Code in the form of pre-tax 401(k) contributions. Participants who have attained age 50 before the end of the Plan year are also eligible to make catch-up contributions. Employees of the Company may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Company makes a safe harbor matching contribution equal to 100% of elective deferrals up to 4% of eligible compensation. Prior to January 1, 2020, safe harbor matching contributions were equal to 100% of each participant's elective deferrals that did not exceed 3% of their eligible compensation, plus 50% of the participant's elective deferrals between 3% and 5% of their eligible compensation. Additionally, the Company may contribute a discretionary profit-sharing contribution. No discretionary profit-sharing contributions were made for 2020. Contributions are subject to limitations. Participants may change their investment options daily, and have the option to invest all or part of their contributions into the various investment funds offered under the Plan.

Participant accounts: Each participant's account is credited with the participant's contributions and an allocation of (a) Company contributions, if any, and (b) plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their voluntary contributions and employer safe harbor matching contributions, plus actual earnings thereon. The participant's portion of Company discretionary profit-sharing contributions adhere to a six-year graded vesting schedule. Participants become fully vested in the Company profit-sharing contributions if they are employed upon reaching the normal retirement age of 65 or upon death.

Payment of benefits: Upon separation from service, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. In the event of the death of a participant, the value of the participant's account is payable to the participant's beneficiary in a lump sum distribution. Involuntary distribution of a terminated participant's vested account balance of \$1,000 or less will be automatically rolled into an individual retirement account. In-service distributions are not permitted by the Plan. In case of hardship, a participant may apply for a distribution as described in the Plan agreement.

Administrative expenses: Certain administrative functions are performed by officers or employees of the Company. No such officer or employee received compensation from the Plan. Certain administrative expenses of the Plan, including legal and audit fees, have been paid by the Company and are, therefore, not expenses of the Plan. The Plan pays fees related to the management of participating accounts.

Notes receivable from participants: The Plan does not allow for loans to participants.

Forfeited accounts: At December 31, 2020 and 2019, forfeited nonvested accounts totaled \$2,868 and \$469, respectively. These accounts are to be used to reduce Company contributions or they may be used to pay administrative expenses of the Plan. During the year ended December 31, 2020, no forfeited nonvested accounts were used to reduce Company contributions.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES

Basis of presentation: The financial statements are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value using methodologies described in Note 4. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of investments, including gains or losses, are recorded on a trade-date basis. Interest income is recorded when earned, dividends are recorded on the ex-dividend date and capital gain distributions are included in dividend income. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefit payments: Benefit payments are recorded when paid.

Subsequent events: In preparing these financial statements, Plan management has evaluated events and transactions for potential recognition or disclosure through October 7, 2021, the date the financial statements were available to be issued.

NOTE 3 – INFORMATION PREPARED AND CERTIFIED BY TRUSTEES

The trustees of the Plan, Huntington National Bank for the period December 31, 2019 through June 30, 2020, and Newport Trust Company for the period July 1, 2020 through December 31, 2020, held the Plan's investments and executed investment transactions.

The following information, included in the accompanying financial statements and supplemental schedules, was obtained from data that has been prepared and certified as complete and accurate by the trustees:

	<u>2020</u>	<u>2019</u>
Investments, at fair value	\$ 2,438,157	\$ 1,757,439
Additions to net assets:		
Net appreciation in fair value of investments	\$ 241,207	
Interest and dividends	69,450	

NOTE 4 – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy are described as follows:

Level 1 – inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – inputs to the valuation methodology include:

- a) Quoted prices for similar assets or liabilities in active markets;
- b) Quoted prices for identical or similar assets or liabilities in inactive markets;
- c) Inputs other than quoted prices that are observable for the asset or liability;
- d) Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Mutual funds: The mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Stable value collective trust fund: The stable value collective trust fund that is composed primarily of fully benefit-responsive investment contracts that are valued at the net asset value of units of the collective trust. The net asset value, as provided by the trustees, is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily. If the plan initiates a full redemption of the collective trust, the issuer reserves the right to require 12 months notification in order to ensure that securities liquidations will be carried out in an orderly business manner. As of December 31, 2020 and 2019, there were no unfunded commitments.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2020 and 2019.

	Assets at Fair Value as of December 31, 2020			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 2,431,439	\$ -	\$ -	\$ 2,431,439
Total assets in the fair value hierarchy	2,431,439	-	-	2,431,439
Investments measured at net asset value (a)	-	-	-	6,718
Investments at fair value	<u>\$ 2,431,439</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 2,438,157</u>

Assets at Fair Value as of December 31, 2019				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 1,753,624	\$ -	\$ -	\$ 1,753,624
Total assets in the fair value hierarchy	1,753,624	-	-	1,753,624
Investments measured at net asset value (a)	-	-	-	3,815
Investments at fair value	\$ 1,753,624	\$ -	\$ -	\$ 1,757,439

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to amounts presented in the statements of net assets available for benefits.

There were no Level 2 or 3 assets during 2020 and 2019.

NOTE 5 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their employer contributions.

NOTE 6 – INCOME TAX STATUS

The Plan has adopted a volume submitter plan document on which the Internal Revenue Service has issued an opinion letter dated February 28, 2017 that stated that the volume submitter document, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The volume submitter document has been amended since issuance of the most recent opinion letter. The Plan has not requested an individual determination letter from the Internal Revenue Service. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, the plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

NOTE 7 – PROHIBITED TRANSACTIONS

During 2019, the Company failed to remit certain participant contributions to the Plan on a timely basis as defined by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, which are considered nonexempt prohibited transactions with a party-in-interest. Such contributions totaled \$4,300 and are summarized on the supplemental schedule of delinquent participant contributions. The Company remitted delinquent contributions to the Plan in January 2020 and calculated and remitted lost earnings to the Plan in May 2020. No delinquent participant contributions were noted in 2020.

NOTE 8 – RISKS AND UNCERTAINTIES

The participants direct the Plan to invest in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

The World Health Organization declared the Coronavirus Disease 2019 (COVID-19) outbreak a pandemic in March 2020. The COVID-19 pandemic has adversely affected global economic activity including significant deterioration and instability in financial markets. As a result, the fair value of the Plan's investments experienced significant volatility during 2020 and may continue to do so in the future. The full extent of the future impact of COVID-19 on the fair value of the investments held by the Plan and the Company's operations is uncertain. A prolonged COVID-19 pandemic could have a material adverse impact on the Plan's net assets available for benefits and the Company's operations and financial condition.
