All employees are eligible to participate in the plan after completing three months of service. Participants may enter the plan of the first day of the plan year quarter coinciding with or next following date requirements are met. The plan is a defined contribution plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Participants may elect to defer a minimum of 1% up to a maximum of 90% of compensation. Rollover contributions may also be accepted by the plan on behalf of participants from other plans qualified under Section 401(a) of the Internal Revenue Code of 1986 (the "Code"), provided that such rollover contributions are approved by the plan's administrator. Participants who have attained the age of 50 before the end of the plan year are eligible to make catch-up contributions.

The employer will make a matching contribution equal to 100% of the participants salary deferrals up to a maximum of 3% of compensation. The employer may also make a discretionary profit sharing contribution. The profit sharing contribution will be allocated in the same ratio as each participant's compensation bears to the total of such compensation of all participants.

For purposes of the employer matching contributions, employees of Second Chances Recovery; National Flare & Equipment, LLC; Sheldon Resources, LP; and Brady Champion Ranch are excluded.

Participant's accounts

Each participant's account is credited with the participant's contribution and allocations of (*a*) the company's contribution and (*b*) plan earnings and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their elective deferrals and rollover contributions, if any, plus actual earnings thereon. The following vesting schedule applies to the employer matching and profit sharing contributions:

A. Description of the Plan - Continued

Vesting - Continued

Years of service	Vested Percentage
Less than 3 years	0%
3 years or more	100%

Notes receivable from participants

New loans are not permitted according to the plan document.

Payment of benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump sum amount or in annual installments. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution. Financial hardship withdrawals are also permitted as defined by the plan.

Forfeited accounts

At December 31, 2020 and 2019, forfeited nonvested accounts totaled $88,386 and $33,533, respectively. These accounts will be used to reduce future employer contributions or to pay administrative expenses of the plan. No forfeitures were used during 2020.

B. Summary of Significant Accounting and Reporting Policies

Basis of accounting

The financial statements of the plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the plan. See Note C for a discussion of fair value measurements.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

B. Summary of Significant Accounting and Reporting Policies

Investment valuation and income recognition

Investments are reported at fair value (except for fully-benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note C for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of benefits

Benefits are recorded when paid.

Operating expenses

Certain administrative expenses of maintaining the plan are paid by the company. Contract administrative fees are paid by the plan.

Subsequent events

The plan has evaluated subsequent events through October 08, 2021, the date the financial statements were available to be issued.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

C. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The 3 levels of the fair value hierarchy under FASB ASC 820, *Fair Value Measurement*, are described as follows:

C. Fair Value Measurements - Continued

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Corporate bonds: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the plan are deemed to be actively traded.

U.S. government securities: Valued using pricing models maximizing the use of observable inputs for similar securities.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2020 and 2019:

C. Fair Value Measurements - Continued

			Assets at Fair Value as of December 31, 2020	
	Level 1	*Level 2*	*Level 3*	*Total*
Mutual funds	$3,478,605			$3,478,605
Investments at fair value	$3,478,605			$3,478,605

			Assets at Fair Value as of December 31, 2019	
	Level 1	*Level 2*	*Level 3*	*Total*
Mutual funds	$2,306,992			$2,306,992
Investments at fair value	$2,306,992			$2,306,992

D. Guaranteed Investment Contract with Reliance Trust Company

The plan entered into a benefit-responsive investment contract with Reliance Trust Company totaling $105,635 for 2020 and $34,426 for 2019. Reliance Trust Company maintained the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses.

This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the plan. Contract value, as reported to the plan by Reliance Trust Company, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the plan to transact at contract value with the issuer. Such events include (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA (5) premature termination of the contract. No events are probable of occurring that might limit the ability of the plan to transact at contract value with the contract issuers and that also would limit the ability of the plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, (4) a material amendment to the agreement without the consent of the issuer.

E. Related Party and Party-in-Interest Transactions

During 2020 and 2019, the plan investments were shares of mutual funds managed by Reliance Trust Company. Reliance Trust Company is a trustee as defined by the plan and, therefore, a party-in-interest with respect to the plan. These transactions are covered by an exemption from the "prohibited" transaction provisions of ERISA and the IRC.

F. Plan Termination

Although it has not expressed any intent to do so, the company has the right under the plan to discontinue its contributions at any time and to terminate the plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their employer contributions.

G. Tax Status

On July 16, 2014, the IRS stated that the prototype adopted by the plan, as then designed, qualifies under Internal Revenue Code (IRC) Section 401(a). The plan has not received a determination letter specific to the plan itself; however, the plan administrator and the plan's tax counsel believe that the plan was designed and was being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognizes a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable authorities. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

H. Risks and Uncertainties

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

I. Custodial Certification

The plan management has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted under such election, the following investment information was certified by Reliance Trust Company and was not subjected to any auditing procedures performed by the independent public accountants:

a. Total investments as shown in the accompanying statements of net assets available for benefits of $3,548,605 as of December 31, 2020, and $2,341,418 as of December 31, 2019.
