Notes to Financial Statements
For the Years Ended December 31, 2020 (Audited) and 2019 (Unaudited)

Note A - Description of Plan

The following description of the Live Technologies 401(k) P/S Plan & Trust (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Live Technologies Holdings, Inc. (the "Company") who are 21 years of age or older. Employees who have been employed for one month are eligible to make salary deferrals into the Plan and receive safe-harbor matching contributions. The Company may also make safe harbor discretionary matching and profit-sharing contributions to the Plan for participants who have completed at least 1 year of service and have 1,000 credited hours within a one-year period. Also, to qualify for profit sharing contributions, employees must be employed on the last day of the plan year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Under the Plan's provisions, each participant may contribute a percentage of his or her base pay not to exceed the maximum dollar limit in effect for such calendar year in accordance with Section 401(a) (30) of the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers and transfers). The employer will make safe harbor matching contributions for the employees who make contributions to the Plan. The matching contribution is 100% of the first 3% of employees' voluntary contributions. For employees' voluntary contributions more than 3% but less than 5%, the employer will make matching contributions at 50% of the employees' deferral. Upon enrollment into the Plan, a participant may direct employee contributions and company-matching contributions in any of the available investment options. Participants may change their investment options at their discretion.

The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless an affirmation election not to participate in the Plan is executed. Automatically enrolled participants have their contribution rate set at 1% of compensation from each payroll and their contributions are invested in a designated fund until changed by the participant.

The employer may elect to make safe harbor discretionary matching and profit-sharing contributions to the Plan. No employer profit-sharing contributions were made to the Plan in 2020 or 2019.

Participant Accounts

Each participant's account is credited with the participant's contribution and employer-provided matching contributions, as well as allocations of the employer's profit-sharing contributions (when applicable) and Plan earnings (losses). Participant accounts may also be charged with an allocation of certain administrative expenses of the plan. Allocations are based on participant earnings or account balances, as defined by the Plan agreement. Additional administrative fees are charged by the trustee upon fund withdrawal. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary, safe harbor employer matching contributions, employer profit-sharing contributions, and rollover contributions plus actual earnings thereon.

Note A - Description of Plan (continued)

Notes Receivable from Participants

Participants may borrow from their account balance a minimum of \$1,000 up to a maximum of \$50,000 or 50% of their account balance, whichever is less. The repayment terms of the notes cannot exceed five years except for the purchase of the participant's principal residence, for which the terms may exceed five years. Per the Plan Agreement, participants may only take loans from pre-tax deferrals and from those accounts invested in mutual funds. Also, participants may only have one loan outstanding at a time. Plan loans are secured by the balance in the participant's account and bear interest at the prime rate plus 1% at the time the note was approved. The participant is required to repay principal and interest ratably through payroll deductions based on payroll frequency.

Payment of Benefits

Upon the occurrence of a distributable event due to separation from service by termination, death, disability, or retirement, as defined by the Plan Agreement, a participant may elect to receive a lump-sum or partial payment cash distribution equal to the value of the participant's vested interest in his or her account. Also, upon reaching age 59½, participants may receive a distribution from all accounts that are fully vested. In-service withdrawals, as defined in the Plan Agreement, are permitted from a participant's account. Until a participant retires from the employment of the participant's employer, the participant shall continue to be treated in all respects as a participant.

Forfeited Accounts

Forfeitures of terminated participants' non-vested account balances will be used to reduce the employer's matching contribution. During 2020 forfeited non-vested accounts were used to reduce the employer's matching contribution of \$16,250. At December 31, 2020 forfeited non-vested accounts totaled \$8,091.

Note B - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of content of assets and liabilities. Accordingly, actual results may differ from those estimates.

Employer Contribution Receivable

Employer contributions receivable represent employer matching contributions related to participant deferrals withheld prior to December 31, 2020 and 2019 as well as any discretionary profit-sharing contributions approved during the years then ended, respectively. The balance is based on actual collections subsequent to year end. There were no employer contributions receivable as of December 31, 2020 and 2019.

Participant Contributions Receivable

Participant contributions receivable represent participant deferrals withheld prior to December 31, 2020 and 2019. The balance is based on actual collections subsequent to year end. There were no participant contributions receivable as of December 31, 2020 and 2019.

Notes to Financial Statements
For the Years Ended December 31, 2020 (Audited) and 2019 (Unaudited)

Note B - Summary of Significant Accounting Policies (continued)

Notes Receivable from Participants

Notes receivables from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed to participant accounts when they are incurred. No allowance for credit losses has been recorded as of December 31, 2020 and 2019. If a participant ceases to make repayments, and the Plan Administrator deems the note receivable to be in default, the balance of the note receivable is reduced, and a benefit payment is recorded per the Plan Agreement.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is accrued when earned. Dividend income is recorded on the ex-dividend date. Capital gain distributions are included in dividend income. Net appreciation includes gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expense of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expense that are paid by the Company are excluded from these financial statements.

Note C - Unaudited Information Prepared and Certified by Trustee

The December 31, 2020 Statements of Net Assets Available for Benefits, the investment activities included on the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2020, and the accompanying notes to the financial statements were prepared in part or entirely from information certified by the trustee in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The Plan's investments were held in custodial accounts maintained by Ascensus Trust Company for the year ended December 31, 2020. The Plan administrator obtained a certification for the year ended December 31, 2020 from Ascensus Trust Company. The information certified includes total investments of \$10,699,134 as of December 31, 2020 and related total net investment income of \$958,886 for the year ended December 31, 2020.

Note D - Fair Value Measurements

FASB ASC Topic 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of value hierarchy under FASB ASC Topic 820 are described as follows:

Live Technologies 401(k) P/S Plan & Trust

Notes to Financial Statements
For the Years Ended December 31, 2020 (Audited) and 2019 (Unaudited)

Note D - Fair Value Measurements (continued)

Level 1 Fair Value Measurements

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Fair Value Measurements

Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are delivered principally from or corroborated by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Fair Value Measurements

Inputs to the valuation methodology are unobservable and significant to the fair value measurements.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used to maximize the use of observable inputs and minimize the use of unobservable measurements.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Registered investment companies (mutual funds) - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded and therefore reported at level 1.

Common collective trust fund - Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The preceding method described may produce fair value calculations that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value could result in a different fair value measurement at the reporting date.

Note D - Fair Value Measurements (continued)

The following table sets forth, by level within fair value hierarchy, the Plan's investments at fair value as of December 31, 2020 and 2019.

Assets at Fair Value as of December 31, 2020			
	Level 1	Level 2	Level 3
Registered Investment Companies	\$8,944,397	-	-
Common Collective Trusts at NAV			1,754,737
Total			\$10,699,134

Assets at Fair Value as of December 31, 2019			
	Level 1	Level 2	Level 3
Registered Investment Companies	\$6,795,721	-	-
Common Collective Trusts at NAV			206,740
Total			\$ 7,002,461

The following summarizes investments measured at fair value based on net asset value (NAV) per unit as of December 31, 2020 and 2019.

	2020	2019	Redemption Frequency	Redemption Notice Period
MetLife GAC-25157 Class 0	\$ 1,754,737	\$ 206,740	Daily	none

The fair value of participation units held in the Reliance Trust Stable Value Fund (MetLife Series 25157), a common/collective trust ("CCT") is based on net asset value, as reported by the manager of the collective trust fund, Reliance Trust Company, and as supported by the unit prices of actual purchase and sale transactions occurring as of or close to the financial statement date. The CCT invests entirely in the MetLife Group Annuity Contract 25157, which consists of separately managed investment portfolios in fixed income securities and enters into wrapper contracts, which are issued by third parties and are designed to allow the Fund to maintain a constant net asset value. The CCT provides for daily redemptions by the Plan at reported net asset value, with no advance notice requirements.

Note E - Plan Merger

On January 1, 2020, the Plan merged with Iacono Production Services, Inc. Profit Sharing 401(k) Plan. The Iacono Production Services, Inc. Profit Sharing 401(k) Plan was a defined contribution plan, and all employees of the company were eligible for participation in the plan. For the period ended December 31, 2020, the Plan merged assets of \$4,991,631 into Live Technologies 401(k) Profit Sharing Plan.

Live Technologies 401(k) P/S Plan & Trust

Notes to Financial Statements
For the Years Ended December 31, 2020 (Audited) and 2019 (Unaudited)

Note F - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer accounts.

Note G - Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated June 30, 2020, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Note H - Concentrations

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note I - Party-in-Interest Transactions

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer, and certain others. Plan transactions with parties-in-interest were as follows:

Ascensus Trust Company is the trustee of the Plan and provides custodial services to the Plan.

Everhart Advisors provides fiduciary consulting and non-fiduciary services to the Plan.

Note J - COVID-19

The COVID-19 pandemic has developed rapidly in 2020, with a significant number of cases. Measures taken by various governments to contain the virus have affected economic activity. The Plan has taken a number of measures to monitor and mitigate the effects of COVID-19.

At this stage, Plan management believes the economic impact on the Plan and results of operations has not been significant, and based on their experience to date, they expect this to remain the case. Plan management will continue to follow the various government policies and advice and, in parallel, will do their utmost to continue operations in the safest way possible without jeopardizing the health of their employees.
