Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by Plan management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

BLADE PENSION PLAN AND TRUST

Notes To Financial Statements
Years Ended December 31, 2020 and 2019

Note A - Description of the Plan

The following description of the Toledo Newpaper Unions - Blade Pension Plan and Trust ("The Plan") is being provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Toledo Newspaper Unions - Blade Pension and Trust was founded in 1967. Partcipation is being provided under the terms of collective bargaining agreements between Teamsters Union Local 20, Typographical Union No. 18, International Brotherhood of Electrical Workers Local No. 8, Toledo Newspaper Guild/Communications Workers of America Local 34043, and the Toledo Blade Company ("The Company"), to provide pension and death benefits to eligible members or their beneficiaries as specified in the plan.

Benefits and Vesting

The plan provides for a normal retirement pension. The pension is based on a percentage of the participant's annual base earnings as specified by the plan. A participant is eligible for such benefit upon attainment of age sixty-five and completion of ten years of credited service. The plan also provides for early retirement, disability retirment, and death benefit pensions as defined by the plan and based on actuarial determined equivalents of the normal retirement benefit.

Funding Policy

The minimum required contribution for the 2020 plan year (determined as of January 1, 2020) is $- 0 -, which is lower than the minimum required contribution for the prior year of $3,863,426. The decrease is primarily due to the electing relief for community newpapers under the American Resue Plan Act of 2021 and better asset results than expected during the plan year.

The actuarially determined minimum contribution necessary for the year beginning January 1, 2019, to avoid a deficiency in the funding standard account, is $3,863,426. The contributions are discounted at the effective interest rate of 5.42% from the actual dates to January 1, 2019.

Valuation of Investments

All investment assets of the plan are held by a bank-administrated trust fund. Investments are valued at their fair values. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date and interest income is recorded on the accrual basis.

Note B - Summary of Accounting Policies

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that effect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Payment of Benefits

Benfit payments to participants are recorded upon distribution.

Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administation of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation in fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

Actuarial Present Value of Accumulated Plan Benefits

The present value of accumulated plan benefits is the sum of the present value of:

1. Benefits expected to be paid with respect to former employees who have retired or who have terminated service with vested rights.

2. Benefits expected to be paid to beneficiaries of employees who have died.

3. Accrued benefits on service rendered and compensation earned prior to the date of determination, which are expected to become payable with respect to present employees whether or not such benefits are vested.

Note B - Summary of Accounting Policies (continued)

Actuarial Present Value of Accumulated Plan Benefits (continued)

The actuarial present value of accumulated pan benefits is determined by an actuary from Milliman Inc. It is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and the probability of payment between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of December 31, 2019 and 2018 were:

	December 31, 2019	December 31, 2018
Annual Salary Increases	None	None
Investment Return	6.50% per annum	6.50% per annum
Termination Rates	.12% to 10.73% depending on age	.12% to 10.73% depending on age
Retirement	Rates range from age 62 of 30% to age 70 of 100%	Rates range from age 62 of 30% to age 70 of 100%
Disability	Rates range from age 20 of .06% to age 60 of 1.09%	Rates range from age 20 of .06% to age 60 of 1.09%

Occupational Disability	Rates range from age 20 of .79% to age 60 of .01%	Rates range from age 20 of .79% to age 60 of .01%
Pre-Retirement Death Benefits	75% of male participants and 75% of female participants assumed to have spouses. Males assumed to be 2 years older than females	75% of male participants and 75% of female participants assumed to have spouses. Males assumed to be 2 years older than females
Assumed Age of Commencement	Age 62. For participants who terminated employment prior to January 1, 1999, the assumed age of commencement of deferred benefits is age 65.	Age 62. For participants who terminated employment prior to January 1, 1999, the assumed age of commencement of deferred benefits is age 65.
Administrative Expenses	$800,000	$800,000

The actuarial cost method used for the Plan's ERISA funding requirements and the FASB ASC Topic values is the Unit Credit cost method. The Actuarial value of assets used for determining the Plan's ERISA funding requirements is based on the permitted three-year asset smoothing as defined under IRS Notice 2009-22.

Effective July 29, 2007, all benefit accruals were frozen.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Note C - Federal Income Tax Status

This Plan is currently considered an exempt organization under Section 501 (a) and 401 (a) of the Internal Revenue Code. As provided, in the trust agreement, all of the income of The Toledo Newspaper Unions - Blade Pension and Trust is set aside to provide for the payment of retirement and death benefits, including the reasonable costs of administration directly connected with providing such benefits and for no other purpose.

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2018.

Note D - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.

The full impact of the COVID-19 outbreak continues to evolve as of the date of this report. This pandemic has adversely affected global economic activity and contributed to the deterioration and instability in financial markets. The extent of the impact of COVID-19 on the Plan's investment performance will depend on certain developments, including the duration and spread of the outbreak. The values of the Plan's investments which have and will fluctuate in response to changing market conditions will have a direct impact on its funded status. The actual impact if any on future required contributions or plan liquidity cannot be determined at this time.

Note E - Priorities Upon Termination

Upon the Plan's termination, the assets in the fund shall be realized and after providing for the reasonable and necessary expense of termination of the Plan, the balance shall be allocated among the participants in the following successive order:

(A) First, in the case of benefits payable as a pension:

1. In the case of the pension of a Participant or Beneficiary which was in pay status as of the beginning of the three-year period ending on the termination of the Plan, the priority amount is limited to the lowest benefit that would be payable, based on the provisions of the Plan (as in effect during the five-year period ending on such date).

   The amount is therefore limited to the lowest pension in pay status during the three-year period.

2. In the case of a pension of a Participant or Beneficiary which would have been in pay status as of the beginning of such three-year period, if the participant has retired prior to the beginning of the three-year period and if the pension has commenced as of the beginning of such period, the priority amount is limited to the lowest benefit that would be payable (as in effect during the five-year period ending on such date).

(B) Second, to all other benefits (if any) of the individuals under the Plan insured by the Pension Benefit Guaranty Corporation (PBGC).

(C) Third, to all other vested benefits under the Plan.

(D) Fourth, to all other non-vested benefits under the Plan.

Note E - Priorities Upon Termination (continued)

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees. The ceiling is adjusted periodically. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or Plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward. Benefit improvements attributable to the Plan amendment effective January 1, 1991 may not be fully guaranteed even though total benefit entitlements fall below the aforementioned ceilings. For example, none of the improvements would be guaranteed if the Plan were to terminate before January 1, 1992. After that date, the PBGC would guarantee 20% of any benefit improvements that resulted in benefits below the ceiling, with an additional 20% guaranteed each year the Plan continued beyond January 1, 1992. If the amount of the benefit increase below the ceiling is also less than $100, $20 of the increase (rather than 20%) becomes guaranteed by the PBGC each year following the effective date of the amendment. As a result, only the primary ceiling would be applicable after January 1, 1996.

Whether all participants receive their benefits, should the Plan terminate at some future time, will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

Note F - Amended and Restated Pension Plan Document and Determination Letter

The Plan was amended and restated effective January 1, 2013. The Internal Revenue Service has determined and informed the Plan by a letter dated March 6, 2015 that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC).

The first amendment was adopted in 2014 to incorporate the revisions requested by IRS as a condition to issuing a determination letter on the continued qualification of the Plan. The second amendment was adopted in 2016 to provide a temporary window for qualified participants to receive an immediate distribution of vested retirement benefits. In 2017 the Plan adopted the third amendment to acknowledge the continuing freeze in accruals which began July 29, 2007 as a permanent freeze on pension accruals effective August 1, 2011. In 2018 the Fourth and Fifth amendments have been adopted to incorporate the new ERISA regulations on disability appeals and provide a temporary benefit window in 2018 for qualifying participants to receive an immediate distribution of vested retirement benefit.

Note G - Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Financial Accounting Standards Board (FASB) Accounting Standards Codification topic, Fair Value Measurements and Disclosures, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were used only when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

Common Stocks, Mutual Funds, Real Estate Investment Trust, and Cash and Short Term Securities are classified as Level 1 based on Quoted prices in active markets

Level 2 Fair Value Measurements

The fair value of Corporate Bond and Government bonds are measured using a market approach based on yields currently available on comparable securities of issuers with similar credit rating.

Real Estate Mortgage are evaluated by IDC using a pricing matrix which involves assumptions about collateral quality and prepayment speeds in addition to government bond yields and spreads.

Level 3 Fair Value Measurements

Investment in PIMCO StocksPLUS LP is not actively traded, and the significant other observable inputs are not available. The fair value of the investment is based on net asset value per share.

Investment in Multi-Employer Property Trust is an open-ended, commingle real estate collective fraud. The fair values of the real estate investments are based on the Independent appraisals of the real estate which are completed in accordance with USPAP annually.

Note G - Fair Value Measurements (continued)

The Plan administrator determines the fair value measurement policies and procedures, subject to oversight by the Plan's Trustee Committee. Those policies and procedures are reassessed at least annually to determine if the current valuation techniques are still appropriate. At that time, the unobservable inputs used in the fair value measurements are evaluated and adjusted, as necessary, based on current market conditions and other third-party information.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2020 and December 31, 2019:

Note G - Fair Value Measurements (continued)

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2020 and 2019, there were no significant transfers in or out of levels 1, 2, or 3.

Note H - Subsequent Events

Subsequent events have been evaluated through August 17, 2021 which is the date the financial statements were available to be issued. The following event required adjustment to the financial statement or additional disclosure:

Attachment to 2020 Form 5500

Schedule SB, Part V – Statement of Methods/Actuarial Assumptions

Summary of Actuarial Methods

The ultimate cost of a pension plan is the excess of actual benefits and administrative expenses paid over actual net investment return on plan assets during the plan's existence until the last payment has been made to the last participant. A plan's "actuarial cost method" determines the expected incidence of actuarial costs by allocating portions of the ultimate cost to each plan year. The cost method is thus a budgeting tool to help ensure that a plan will be adequately and systematically funded. Annual contributions are also affected by a plan's "asset valuation method" (as well as plan provisions, actuarial assumptions, and actual plan demographic and investment experience each year).

Actuarial Cost Method

The actuarial cost method used for determining the Plan's ERISA funding requirements and the FASB ASC Topic 960 values is the Unit Credit method. Under this method, an accrued benefit is determined at each active participant's assumed retirement age based on compensation and service at both the beginning and the end of the current year. The Plan's normal cost is the sum of the present value of the excess of each active participant's accrued benefit at the end of the current year over that at the beginning of the current year. The Plan's accrued liability is the sum of (a) the present value of each active participant's accrued benefit at the beginning of the current year plus (b) the present value of each inactive participant's benefits. This method is prescribed for ERISA funding requirements by the Pension Protection Act of 2006.

Asset Valuation Method

The Actuarial Value of Assets used for determining the Plan's ERISA funding requirements is based on the permitted three-year asset smoothing as defined under IRS Notice 2009-22. Under this method, the Actuarial Value of Assets equals the Adjusted Market Value of Assets minus one-third and two-thirds, respectively, of the investment gain or loss for each of the two immediately preceding plan years, but it must be within 90% to 110% of the Adjusted Market Value of Assets. The expected investment return for a plan year is based on the lesser of the expected rate of return on plan assets (currently 6.50% per year) or the applicable statutory interest rate for the year.

The Actuarial Value of Assets for IRC Section 404 purposes, used in determining the Maximum Deductible Contribution, reflects the Plan Sponsor's election to use segment rate stabilization as permitted under IRS Notice 2012–61.

Amortization Method

For the Plan's ERISA funding requirements including the election for community newspaper relief under ARPA 2021, incremental Funding Shortfall amounts are amortized over a 30 year period, and the related shortfall amortization payment is determined on the first valuation date following the plan year in which it arises based on the segment rates used for ERISA minimum funding purposes on that date, as prescribed under IRC Section 430.

Schedule SB, Part V – Statement of Methods/Actuarial Assumptions

Summary of Actuarial Assumptions

ECONOMIC ASSUMPTIONS

Interest Rates

The current funding and PBGC interest rates are as follows. The funding interest rates are prescribed under IRS regulations based on the Plan Sponsor's interest rate election as well as provided for in ARPA for eligible electing community newspaper plans. The PBGC interest rates are based on the Plan Sponsor's elected method for determining the premium funding target.

	Minimum Funding	Maximum Deductible	PBGC Premium
Segment 1 (0–5 years)	8.00%	2.79%	2.03%
Segment 2 (5–20 years)	8.00%	3.92%	3.06%
Segment 3 (20+ years)	8.00%	4.38%	3.59%
Effective Interest Rate	8.00%	3.98%	3.17%

ERISA minimum funding: 8.00% per year.

PBGC 4010 and Maximum Deductible Contribution: 24-month average segment rates, using a four-month lookback period, but not adjusted to reflect segment rate stabilization.

PBGC premium: Spot segment rates for the month preceding the valuation date, but not adjusted to reflect segment rate stabilization. Effective January 1, 2014, the standard method is used for the PBGC variable rate premium calculation.

FASB ASC Topic 960: 6.50% per year. This is the assumed rate of return for the Plan's entire portfolio of assets, net of investment expenses. It is based on the Plan's investment policy, including target asset allocation, and Milliman's capital market expectations.

Administrative Expenses

Expected administrative expenses payable from the trust are explicitly loaded to the normal cost. For the current valuation, the loading for expenses (assumed to be payable beginning of year) is $800,000.

DEMOGRAPHIC ASSUMPTIONS

Except where noted, all demographic assumptions are based on the actuary's judgment and continual review of experience.

Mortality

ERISA minimum funding, Maximum Deductible Contribution, PBGC 4010 and PBGC premium: IRS 2020 static mortality for non-annuitants and healthy annuitants. For disabled lives, IRS Revenue Ruling 96-7 tables are used.

FASB ASC Topic 960: Pri-2012 blue collar dataset employee amount-weighted mortality tables adjusted to reflect mortality improvement scale MP-2019, with employee rates before benefit commencement and healthy annuitant

rates after benefit commencement. For disabled lives, Pri-2012 total dataset disabled mortality tables adjusted to reflect mortality improvement scale MP-2019 is used.

Retirement

Annual rates of retirement are shown in the following table for active participants who are eligible to retire.

Age	Rate
61 & Under	0%
62	30
63-64	25
65	50
66-69	35
70 & Over	100

Terminated vested participants are assumed to retire at age 62. For participants who terminated employment prior to January 1, 1999, the assumed age of commencement of deferred benefits is age 65.

Notwithstanding the above retirement rates, for “at-risk” calculations retirement, if eligible during the next 10 years, is assumed at the earliest retirement date.

Termination

Annual rates of termination are based on age. Sample rates are shown in the following table.

Decrement Timing

Decrements are assumed to occur at the middle of the year, except that 100% retirement (see above) is assumed to occur at the beginning of the year.

Form of Payment

Five-year certain and life annuity.

Marital Characteristics

For participants not in pay status: 75% of participants are assumed to be married to a spouse of the opposite sex. Males are assumed to be 2 years older than females.

For participants in pay status: Actual birth dates of spouses are included in the census data, where relevant.

Benefits Not Valued

None.

Special Data Adjustments

None.

Weighted Average Retirement Age

The weighted average retirement age for active participants is 64. This equals the sum, over all retirement ages, of the retirement age multiplied by the probability of retiring at that age, as shown below.
