General

The Plan is a defined contribution plan with a 401(k) savings feature that covers substantially all employees of Production Design Services, Inc. 401(k) Savings Plan (the Company and Plan Sponsor) who have completed six months of service and attained the age of 21. To be eligible for the Plan Sponsor's discretionary matching contribution and discretionary profit sharing contribution, the employee must be employed on the last day of the plan year. The plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

The Plan allows for employee contributions up to 25% of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan Sponsor may also make discretionary matching and profit sharing contributions. The Sponsor has declared discretionary matching contributions of \$50,928 and \$55,257 in 2020 and 2019 respectively. These funds were paid in September 2021 and September 2020, respectively. No profit sharing contribution was declared for the years ended December 31, 2020 or 2019. Contributions are subject to certain limitations

Participant accounts

Each participant's account is credited with the participant's deferrals, the proportionate share of the Sponsor's discretionary matching and profit sharing contributions, and actual earnings thereon. Each participant's account is charged with his or her withdrawals and an allocation of administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately 100% vested in individual accounts derived from their voluntary contributions plus actual earnings thereon. Participants become 100% vested in individual accounts derived from employer discretionary matching and from employer discretionary profit sharing contributions and earnings thereon after completing 5 years of service.

Forfeited Accounts

At December 31, 2020 and 2019, forfeited nonvested accounts totaled \$5,676 and \$3,752, respectively. Employer contribution amounts that are forfeited by terminated employees are used to offset administrative expenses or reduce employer contributions. The Sponsor funded \$10,000 of the matching contribution through the use of forfeitures in 2020.

Payment of benefits

Upon termination of service for death, disability or retirement, a participant becomes 100% vested in his or her account and receives payments according to the Plan requirements. Upon termination prior to retirement for other than death or disability, payments will be made based on the vested account balance as provided in the Plan agreement.

Notes to the Financial Statements
December 31, 2020 and 2019

Note 1. Description of the Plan (Continued)

Notes receivable from participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum of \$50,000 or 50% of their vested account balance, whichever is less. Each loan is collateralized by the remaining balance in the participant's account and bear interest at local prevailing rates as determined by the Plan Administrator. The interest rate on participant loans is 9% at December 31, 2020. Principal and interest are paid ratably through payroll deductions or personal payments through the Sponsor.

Investment options

Participants may direct the investment of their accounts into various investment options offered under the Plan. Participants may change their investment choices on a daily basis.

Note 2. Significant Accounting Policies

Basis of accounting

The financial statements of the Plan are prepared using the modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. The modified cash basis of accounting reports investments at fair value, but recognizes investment income and employer contributions when received and expenses when paid.

Use of estimates

The preparation of financial statements in conformity with the modified cash basis of accounting requires the Plan administrator to make certain estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment valuation and income recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded when received. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the Plan year.

Notes Receivable from Participants

Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances.

Payment of benefits

Benefits are recorded when paid. For 2020 and 2019 all persons who elected to withdraw from the Plan had withdrawn their balances as of December 31, 2020 and 2019.

Administrative expenses

Administrative expenses of the Plan are paid by the Company or Plan participants, as defined in the Plan agreement.

Notes to the Financial Statements

December 31, 2020 and 2019

Note 2. Significant Accounting Policies (Continued)

Investment management fees and operating expenses

Investment management fees and operating expenses charged to the Plan for investments in the various funds are deducted from income earned on a daily basis and are reflected as a component of net appreciation in fair value of investments.

Date of Management's Review

Subsequent events have been evaluated by management through October 12, 2021, the date the statements were available to be issued.

Note 3. Information Certified by the Plan's Trustee

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, the trustee of the Plan, has certified to the completeness and accuracy of all investment information and notes receivable reflected on the accompanying statements of net assets available for benefits (modified cash basis) as of December 31, 2020 and 2019, the schedule of assets (held at end of year) (modified cash basis) at December 31, 2020, and the related investment income information reflected in the statement of changes in net assets available for benefits (modified cash basis) for the year ended December 31, 2020.

Note 4. Fair Value Measurement

FASB ASC 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability: inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Notes to the Financial Statements December 31, 2020 and 2019

Note 4. Fair Value Measurement (Continued)

The following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Mutual funds and money market funds: Valued at the closing price reported on the active market on which the individual securities are traded.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value on a recurring basis at December 31, 2020:

	Level 1	Level 2	Level 3	Total
Money Market Funds	\$ 8,374,070	\$ -	\$ -	\$ 8,374,070
Mutual Funds	1,008,418	-	-	1,008,418
Total	<u>\$ 9,382,488</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 9,382,488</u>

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value on a recurring basis at December 31, 2019:

	Level 1	Level 2	Level 3	Total
Money Market Funds	\$ 218,090	\$ -	\$ -	\$ 218,090
Mutual funds	8,044,088	-	-	8,044,088
Total	<u>\$ 8,262,178</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 8,262,178</u>

Note 5. Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds managed by Fidelity. Fidelity Management Trust Company serves as the trustee of the Plan's assets as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

Certain administrative services are provided by the Company at no cost to the Plan and certain administrative costs incurred by the Plan are paid by the Company.

The Plan's administrative expenses result from services rendered by parties-in-interest.

Note 6. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2014, that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code

Production Design Services, Inc. 401(k) Savings Plan

Notes to the Financial Statements

December 31, 2020 and 2019

Note 6. Tax Status (Continued)

(IRC) for use by employers for the benefit of their employees. Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2020 and 2019, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7. Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA and its related regulations. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits (modified cash basis).

Production Design Services, Inc. 401(k) Savings Plan

Notes to the Financial Statements
December 31, 2020 and 2019

Note 1. Description of the Plan

The following description of Production Design Services, Inc. 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the Summary Plan Description or the Plan Document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan with a 401(k) savings feature that covers substantially all employees of Production Design Services, Inc. 401(k) Savings Plan (the Company and Plan Sponsor) who have completed six months of service and attained the age of 21. To be eligible for the Plan Sponsor's discretionary matching contribution and discretionary profit sharing contribution, the employee must be employed on the last day of the plan year. The plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

The Plan allows for employee contributions up to 25% of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan Sponsor may also make discretionary matching and profit sharing contributions. The Sponsor has declared discretionary matching contributions of \$50,928 and \$55,257 in 2020 and 2019 respectively. These funds were paid in September 2021 and September 2020, respectively. No profit sharing contribution was declared for the years ended December 31, 2020 or 2019. Contributions are subject to certain limitations

Participant accounts

Each participant's account is credited with the participant's deferrals, the proportionate share of the Sponsor's discretionary matching and profit sharing contributions, and actual earnings thereon. Each participant's account is charged with his or her withdrawals and an allocation of administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately 100% vested in individual accounts derived from their voluntary contributions plus actual earnings thereon. Participants become 100% vested in individual accounts derived from employer discretionary matching and from employer discretionary profit sharing contributions and earnings thereon after completing 5 years of service.

Forfeited Accounts

At December 31, 2020 and 2019, forfeited nonvested accounts totaled \$5,676 and \$3,752, respectively. Employer contribution amounts that are forfeited by terminated employees are used to offset administrative expenses or reduce employer contributions. The Sponsor funded \$10,000 of the matching contribution through the use of forfeitures in 2020.

Payment of benefits

Upon termination of service for death, disability or retirement, a participant becomes 100% vested in his or her account and receives payments according to the Plan requirements. Upon termination prior to retirement for other than death or disability, payments will be made based on the vested account balance as provided in the Plan agreement.

Production Design Services, Inc. 401(k) Savings Plan

Notes to the Financial Statements
December 31, 2020 and 2019

Note 1. Description of the Plan (Continued)

Notes receivable from participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum of \$50,000 or 50% of their vested account balance, whichever is less. Each loan is collateralized by the remaining balance in the participant's account and bear interest at local prevailing rates as determined by the Plan Administrator. The interest rate on participant loans is 9% at December 31, 2020. Principal and interest are paid ratably through payroll deductions or personal payments through the Sponsor.

Investment options

Participants may direct the investment of their accounts into various investment options offered under the Plan. Participants may change their investment choices on a daily basis.

Note 2. Significant Accounting Policies

Basis of accounting

The financial statements of the Plan are prepared using the modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. The modified cash basis of accounting reports investments at fair value, but recognizes investment income and employer contributions when received and expenses when paid.

Use of estimates

The preparation of financial statements in conformity with the modified cash basis of accounting requires the Plan administrator to make certain estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment valuation and income recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded when received. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the Plan year.

Notes Receivable from Participants

Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances.

Payment of benefits

Benefits are recorded when paid. For 2020 and 2019 all persons who elected to withdraw from the Plan had withdrawn their balances as of December 31, 2020 and 2019.

Administrative expenses

Administrative expenses of the Plan are paid by the Company or Plan participants, as defined in the Plan agreement.

Production Design Services, Inc. 401(k) Savings Plan

Notes to the Financial Statements

December 31, 2020 and 2019

Note 2. Significant Accounting Policies (Continued)

Investment management fees and operating expenses

Investment management fees and operating expenses charged to the Plan for investments in the various funds are deducted from income earned on a daily basis and are reflected as a component of net appreciation in fair value of investments.

Date of Management's Review

Subsequent events have been evaluated by management through October 12, 2021, the date the statements were available to be issued.

Note 3. Information Certified by the Plan's Trustee

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, the trustee of the Plan, has certified to the completeness and accuracy of all investment information and notes receivable reflected on the accompanying statements of net assets available for benefits (modified cash basis) as of December 31, 2020 and 2019, the schedule of assets (held at end of year) (modified cash basis) at December 31, 2020, and the related investment income information reflected in the statement of changes in net assets available for benefits (modified cash basis) for the year ended December 31, 2020.

Note 4. Fair Value Measurement

FASB ASC 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability: inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Production Design Services, Inc. 401(k) Savings Plan

Notes to the Financial Statements December 31, 2020 and 2019

Note 4. Fair Value Measurement (Continued)

The following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Mutual funds and money market funds: Valued at the closing price reported on the active market on which the individual securities are traded.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value on a recurring basis at December 31, 2020:

	Level 1	Level 2	Level 3	Total
Money Market Funds	\$ 8,374,070	\$ -	\$ -	\$ 8,374,070
Mutual Funds	1,008,418	-	-	1,008,418
Total	<u>\$ 9,382,488</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 9,382,488</u>

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value on a recurring basis at December 31, 2019:

	Level 1	Level 2	Level 3	Total
Money Market Funds	\$ 218,090	\$ -	\$ -	\$ 218,090
Mutual funds	8,044,088	-	-	8,044,088
Total	<u>\$ 8,262,178</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 8,262,178</u>

Note 5. Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds managed by Fidelity. Fidelity Management Trust Company serves as the trustee of the Plan's assets as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

Certain administrative services are provided by the Company at no cost to the Plan and certain administrative costs incurred by the Plan are paid by the Company.

The Plan's administrative expenses result from services rendered by parties-in-interest.

Note 6. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2014, that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code

Production Design Services, Inc. 401(k) Savings Plan

Notes to the Financial Statements

December 31, 2020 and 2019

Note 6. Tax Status (Continued)

(IRC) for use by employers for the benefit of their employees. Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2020 and 2019, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7. Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA and its related regulations. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits (modified cash basis).
