Independent Auditor's Report

To the Participants and Plan Administrator of
the Vistra Thrift Plan

Report on the Financial Statements

We have audited the accompanying financial statements of the Vistra Thrift Plan (the Plan), which comprise the Statements of Net Assets Available for Benefits as of December 31, 2020 and 2019, and the related Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2020, and the related Notes to Financial Statements.

Plan Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America (US GAAP); this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America (US GAAS). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by Plan management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2020 and 2019, and the changes in net assets available for benefits for the year ended December 31, 2020, in accordance with US GAAP.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental information listed in the table of contents as of December 31, 2020 is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of Plan management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or the financial statements themselves, and other additional procedures in accordance with US GAAS. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

VISTRA THRIFT PLAN

NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN

The following description is provided for general information purposes only. Reference should be made to the Vistra Corp Thrift Plan (Plan) document for more complete information.

General - The Plan is a participant-directed defined contribution plan for employees of Vistra Corp, (Vistra) and its participating subsidiaries (collectively the Employers). Prior to July 2, 2020, Vistra was named Vistra Energy Corp. (Vistra Energy) and the Plan was named Vistra Energy Thrift Plan.

In July and December 2019, Vistra completed the acquisitions of Crius Energy Trust and Ambit Holdings, LLC, respectively. The Ambit Energy 401(k) Retirement Plan was terminated effective February 1, 2020, and the majority of the assets were transferred to the Plan in February and March 2020. Substantially all of the assets of the Crius 401(k) Plan were transferred to the Plan in 2019, with the remainder transferred in 2020. The statement of net assets available for plan benefits reflects (a) the transfer of \$20,905 thousand in plan assets and \$680 thousand in loans from the Ambit Energy 401(k) Retirement Plan and (b) the transfer of \$9,019 thousand in plan assets and \$121 thousand in loans from the Crius 401(k) Plan.

The Vistra Thrift Plan Committee manages the operation and administration of the Plan. Fidelity Investments is the trustee, custodian of the assets and record-keeper. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The Plan is intended to be a participant-directed “individual account plan” under ERISA Section 404(c). As such, the fiduciaries of the Plan are not liable for any losses that are the direct result of participant investment decisions. Although the Plan has an automatic enrollment feature for new employees, continued participation in the Plan by employees of the Employers is entirely voluntary.

The Plan had the following investment options at December 31, 2020 and 2019:

- Interest Income Fund (stable value investment option);
- PIMCO Total Return Fund - Institutional Class (fixed income mutual fund);
- Vanguard Total Bond Market Index Fund - Institutional Class (fixed income mutual fund);
- Fidelity Extended Market Index Fund (formerly Spartan Extended Market Index Fund) - (domestic equity mutual fund);
- MFS Institutional International Equity Fund - Institutional Class (international/global equity mutual fund);
- AllianceBernstein Small Cap Growth Portfolio - Class I (domestic equity mutual fund);
- Integrity Asset Management's Small Cap Value Equity Strategy (managed separate account small value equity portfolio);
- Harbor Small Cap Value - Institutional Class (domestic equity mutual fund);
- T. Rowe Price Institutional Large Cap Growth Fund (collective investment trust growth equities);

- Boston Partners Large Cap Value Equity Fund Class D (collective investment trust value equities);
- Fidelity 500 Index fund (domestic equity mutual fund);
- Well's Fargo Stable Fund (stable value collective investment trust);
- Vanguard Inflation-Protected Securities Fund - Institutional Class (fixed income mutual fund);
- Fidelity Institutional Asset Management Trust Company (FIAM) Index Target Date Commingled Pools (a series of commingled pools using a lower-cost, index-based approach that allow a participant to select an appropriate pool based on expected retirement year) including:
 - FIAM Index Target Date Income Commingled Pool;
 - FIAM Index Target Date 2005 Commingled Pool;
 - FIAM Index Target Date 2010 Commingled Pool;
 - FIAM Index Target Date 2015 Commingled Pool;
 - FIAM Index Target Date 2020 Commingled Pool;
 - FIAM Index Target Date 2025 Commingled Pool;
 - FIAM Index Target Date 2030 Commingled Pool;
 - FIAM Index Target Date 2035 Commingled Pool;
 - FIAM Index Target Date 2040 Commingled Pool;
 - FIAM Index Target Date 2045 Commingled Pool;
 - FIAM Index Target Date 2050 Commingled Pool;
 - FIAM Index Target Date 2055 Commingled Pool;
 - FIAM Index Target Date 2060 Commingled Pool; and
 - FIAM Index Target Date 2065 Commingled Pool;
- Fidelity Global ex U.S. Index Fund (formerly Spartan Global ex U.S. Index Fund) - (international equity fund), and
- Fidelity BrokerageLink (a brokerage account with the Plan that offers the opportunity to choose investments from a range of Fidelity Investment and non-Fidelity Investment mutual funds).

A Roth 401(k) contribution feature provides for participants to make after-tax contributions to the Plan and to ultimately receive a distribution of the earnings attributable to these contributions that are tax free if certain conditions are met.

Eligibility, Participation and Employee Savings -All employees of a participating Employer are eligible to participate in the Plan upon employment except: (1) nonresident alien employees who receive no earned United States of America (US) sourced income, (2) leased employees, or (3) any individuals who are treated by or characterized in the internal records of an Employer as independent contractors, loaned employees, staff augmentation personnel, scope of work contractors, or seconded employees, regardless of any determination by the US Internal Revenue Service (IRS), other governmental agency, or a court or other tribunal, that any such individual is, or was, a common law employee of an Employer for any period of time, or (4) individuals who are treated or characterized by an Employer as temporary employees or who perform services for an Employer under a special contractual arrangement pursuant to which such individual will not attain a year of service. Door-to-door sales representatives of TXU Energy Retail Company LLC and its subsidiaries are eligible to participate in the Plan after 90 days of employment.

The Plan has an automatic enrollment feature whereby new employees are automatically enrolled in the Plan with a pretax contribution rate of 3% of eligible compensation unless the new employee affirmatively makes an election not to participate or to participate at a different contribution rate. If no change is made by the participant, the contribution rate will automatically increase by 1% each year up to a maximum of 10% at the end of seven years. Such contributions initiated through this automatic enrollment feature are automatically invested in the age appropriate FIAM Index Target Date Commingled Pool for the participant unless they choose a different investment.

Under the Plan, except as limited by law, a participating employee may invest a specified percentage of eligible compensation each payroll period, either through pretax salary deferral or after-tax payroll deduction. The total of a participant's pretax and after-tax salary deferral/payroll deductions is known as Employee Savings. The maximum amount of Employee Savings for participants earning less than the IRS threshold for determining "highly compensated employees" is 75% of eligible compensation, and for participants earning more than the IRS threshold for determining "highly compensated employees" is 20% of eligible compensation.

Federal law limits the amount a participant may invest on a pretax basis (\$19,500 in 2020). However, a participant who is eligible to make pretax salary deferrals, and attained age 50 before the close of the Plan year, may make an additional pretax catch-up contribution each year. This catch-up limit was \$6,500 in 2020 for participants who reached age 50 during the respective Plan year. The Plan year begins January 1 and ends December 31.

Subject to certain conditions, a participant may transfer or rollover to the Plan cash amounts distributed or distributable from an individual retirement account (IRA) or a qualified retirement plan. Only taxable contributions held in an IRA may be transferred or rolled over from an IRA, while taxable and nontaxable contributions may be transferred or rolled over from a qualified retirement plan.

Employer Matching Contributions - All eligible Plan participants are eligible to receive Employer matching contributions of 100% up to the first 6% of eligible compensation, except for Luminant bargaining unit employees of Vistra and its subsidiaries participating in the Traditional Retirement Plan Formula in Vistra Retirement Plan, who receive a 75% Employer matching contribution on the first 6% of eligible compensation contributed.

Investment of Funds — All Employer matching contributions are made in cash and invested according to the participant's investment election. Each participant may invest his/her Employee Savings, in 1% increments, among the various available investment options.

All assets of the Plan are held by the trustee for the exclusive benefit of participants and their beneficiaries. Separate account records for each participant are maintained by the record-keeper. The record-keeper provides a summary of financial performance by investment fund directly to Plan participants.

A participant may diversify investments of Employee Savings among the available investment funds under the Plan at any time by liquidating the investments attributable to such Employee Savings and reinvesting such amounts in other investment options as may be available under the Plan.

Participants may also effectively diversify their Employer matching contributions amount at any time by making a total withdrawal of such accounts subject to certain regulatory and vesting conditions. See below for information regarding withdrawal from the Plan. Additionally, a participant may diversify investments of Employer matching contributions at any time by liquidating the investments attributable to such matching contributions and reinvesting such amounts in other investment options available under the Plan.

Unit Values — Participants do not have beneficial ownership in specific securities or other assets in the Interest Income funds, but have an interest therein represented by units valued as of the close of each business day. Generally, contributions to and withdrawals from each fund are converted to units by dividing the amounts of such transactions by the unit value, and the appropriate account is charged or credited with the number of units properly attributable to the participant.

Withdrawals from the Plan — Withdrawals from the Plan are governed by applicable IRS regulations and provisions of ERISA. Penalties may apply in certain instances.

Participants are fully vested in all amounts in their accounts (i.e., pretax contributions, after-tax contributions, Employer matching contributions, rollover contributions, Roth contributions and all earnings and dividends thereon).

A participant who terminates employment may retain the funds in the Plan or withdraw them at any time; however, the participant must begin withdrawals no later than April 1st following the later of: (1) the calendar year in which the participant

attains age 70 ½ or (2) the calendar year in which the participant retires. To avoid immediate taxation, a withdrawal made upon termination may be rolled into an IRA or a qualified retirement plan sponsored by another employer, provided that the other qualified retirement plan accepts rollovers. Terminated participants who leave their account in the Plan are charged a monthly administrative maintenance fee.

Participants may make partial or total withdrawals from their rollover and after-tax Employee Savings accounts at any time and for any reason. Participants may make withdrawals from their Employer Match Contributions once the matching contributions have been held in the account for at least 24 months. Participants may make withdrawals from pretax Employee Savings accounts upon termination of employment or attainment of age 59 ½. Additionally, participants who meet certain qualifications defined by the IRS may make hardship withdrawals from their pretax Employee Savings account. As of January 2019, new regulations state that Participants who receive hardship withdrawals no longer have a waiting period before they may contribute to the Plan.

Participants making withdrawals can choose from the following optional forms of payment: (a) publicly traded fund units (to the extent permitted by the fund) credited to a participant's account; (b) single lump sum cash payment; or (c) a combination of (a) and (b).

Notes Receivable from Participants — The Plan includes a loan feature allowing participants to borrow up to 50% of their pretax Employee Savings, after-tax Employee Savings, Employer matching contributions and rollover contributions and repay the loan with after-tax payroll deductions. A participant may not have more than two outstanding loans at one time. The minimum amount of a Plan loan is \$1,000 and the maximum is \$50,000 less the highest outstanding loan balance in the preceding 12 months. Participants may repay the loan into their account(s) over a period of one to five years for a general purpose loan, and the shorter of 15 years or their remaining mortgage term for a primary home loan. The rate of interest charged for a loan initiated in any given month is the prime lending rate published in the Wall Street Journal on the last business day of the prior month, plus 2.0%. During 2020, the interest rate charged on new loans was 6.25% for January through April and 5.25% for the remaining part of 2020.

Federal Income Taxes — The IRS has determined that the Plan meets the requirements of Section 401(a) of the Internal Revenue Code of 1986, as amended (the Code) as to form; that the Trust is exempt from federal income taxes under Section 501(a) of the Code; and that Employer contributions paid to the Trust under the Plan are allowable federal income tax deductions to the Employers subject to the conditions and limitations of Section 404 of the Code. The Plan received its last favorable determination letter from the IRS on September 30, 2016. Certain non-material amendments have been made to the Plan that are not covered by the new determination letter. The Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code.

The Plan is subject to examinations by taxing jurisdictions; however, there are currently no examinations for any tax periods in progress. The Plan has recorded no uncertain tax positions.

Amendment, Modification, Suspension and Termination — It is the intention of the Plan Sponsor to continue the Plan indefinitely; however, the Plan Sponsor, by action of its Board of Directors, may amend, modify or suspend the Plan at any time, or from time to time, and may terminate the Plan at any time; and any Employer may withdraw from participation in the Plan at any time upon prior notice.

In the event of termination of the Plan, in whole or in part, or termination of participation of any Employer, each participant in the Plan affected by such termination shall receive a distribution of the entire balance in the participant's account, whether derived from Employee Savings, rollovers or Employer matching contributions.

Party-in-Interest — Certain plan investments are managed by Fidelity Institutional Asset Management, Fidelity Management Research Company and Fidelity Brokerage Services LLC, all of which are subsidiaries of the plan trustee. These transactions qualify as party-in-interest transactions allowable under ERISA regulations.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting — The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States (GAAP). Benefit payments are recorded when paid. Subsequent events have been evaluated through October 11, 2021, the date these financial statements were available to be issued.

Use of Estimates — The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Risks and Uncertainties — The Plan utilizes various investment instruments. Investment instruments, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment instruments, it is reasonably possible that changes in the values of investment instruments will occur in the near term, and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

CARES Act — In March 2020, the Coronavirus Aid, Relief, and Economics Security Act (CARES Act) was enacted. The CARES Act permits optionality in adopting employee relief provisions including with regard to withdrawals, loans and loan deferrals. Certain optional items allowed for by the CARES Act have been adopted and are now allowable under the Plan.

Valuation of Investment Securities — The Plan's investments (other than benefit-responsive investment contracts) are stated at fair value. See Note 3 for additional disclosures on fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned on an accrual basis. Dividend income is recorded on the ex-dividend date.

Benefit-responsive investment contracts held by a defined-contribution plan are required to be reported at contract value. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan corresponding to fully benefit-responsive investment contracts because it represents the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statements of Net Assets Available for Benefits present the Interest Income Fund at contract value of the investment contracts.

Notes Receivable from Participants — Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. No allowance for credit losses has been recorded as of December 31, 2020 and 2019. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced, and a benefit payment is recorded.

Expenses — Plan administration fees (e.g., recordkeeping, accounting, legal and trustee services) are paid by the Employers and recorded as incurred. Investment fees are charged individually by each fund manager for asset management and administration of that fund. Investment fees are typically charged indirectly against individuals' accounts by being deducted from the investment return on each individual investment option. Individual service fees (e.g., short-term redemption fees, loan initiation fees, in-service withdrawal fees) are charged separately to the accounts of individuals who choose to utilize a particular plan feature, generally on a pro-rata basis against all investments and sources. Additionally, terminated participants pay a monthly account maintenance fee, which is recorded as a reduction of administrative fees reported in the statement of changes in net assets available for benefits, if they leave their account in the Plan.

3. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB") Accounting Standards Codification 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability, in an orderly transaction between willing market participants at the measurement date. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities. The income approach uses valuation techniques to convert future amounts to a single present value amount. The cost approach is based on the amount that currently would be required to replace the service capacity of an asset. The Plan primarily uses the market approach of using prices and other market information for identical and/or comparable assets for those investments that are measured on a recurring basis and uses valuation techniques to maximize the use of observable inputs and minimize the use of unobservable inputs.

The Plan categorizes its investments recorded at fair value based upon the following fair value hierarchy:

- Level 1 valuations use quoted prices in active markets for identical assets that are accessible at the measurement date. An active market is a market in which transactions for the asset occur with sufficient frequency and volume to provide pricing information on an ongoing basis. For example, the Plan's Level 1 investments include equity and fixed income mutual funds that are valued using published market prices, such as those from the New York Stock Exchange.
- Level 2 valuations use inputs other than actively quoted market prices included in Level 1, which are observable for the asset, either directly or indirectly. Level 2 inputs include: (a) quoted prices for similar assets or liabilities in active markets, (b) quoted prices for identical or similar assets or liabilities in markets that are not active, (c) inputs other than quoted prices that are observable for the asset such as interest rates and yield curves observable at commonly quoted intervals and (d) inputs that are derived principally from or corroborated by observable market data by correlation or other mathematical means. None of the Plan's assets are classified as Level 2 assets.
- Level 3 valuations use unobservable inputs for the asset. Unobservable inputs are used to the extent observable inputs are not available, thereby allowing for situations in which there is little, if any, market activity for the asset at the measurement date. None of the Plan's assets are classified as Level 3 assets.

With respect to amounts presented in the following fair value hierarchy table, the fair value measurement of an asset (e.g. an investment) is required to fall in its entirety in one level, based on the lowest level input that is significant to the fair value measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgment, considering factors specific to the asset being measured.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

At December 31, 2020 and 2019, all Plan investments measured at fair value on a recurring basis are set forth in the following table:

	December 31,	
	2020	2019
Investments categorized as Level 1 under the fair value hierarchy:		
Mutual funds	\$ 536,944,660	\$ 561,520,573
Short Term Investment Fund (a)	5,843,260	4,660,892
Other - Brokeragelink	46,731,080	28,858,210
Subtotal investments categorized as Level 1 under the fair value hierarchy	589,519,000	595,039,675

Common funds whose fair value is estimated using NAV per share	860,611,238	709,839,946
Total investments	<u>\$ 1,450,130,238</u>	<u>\$ 1,304,879,621</u>

(a) This category consists of the Fidelity Short Term Investment Fund included in Interest Income Fund.

There were no transfers between the levels of the fair value hierarchy for the years ended December 31, 2020 or 2019.

In accordance with FASB Accounting Standards Update No. 2009-12, *Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, the Plan's fair value disclosure includes the category, fair value, redemption frequency, and redemption notice period for those assets whose fair value is estimated using the net asset value per share, or its equivalent, for which the fair value is not readily determinable at December 31, 2020 and 2019. For the Plan, such assets include investments in common collective trust funds.

The following table sets forth a summary of the Plan's investments for which the fair value has been estimated using the NAV of the investments.

4. INTEREST INCOME FUND

As of December 31, 2020 and 2019, the investments held in the Interest Income Fund had an aggregate contract value of \$153,651,618 and \$140,267,902 as shown in the table below.

	December 31,	
	2020	2019
Separate Account GICs	\$ 14,751,287	\$ 11,458,888
Fixed Maturity Synthetic GICs	17,048,279	19,172,396
Constant Duration Synthetic GICs	121,852,052	109,636,618
Aggregate contract value	<u>\$ 153,651,618</u>	<u>\$ 140,267,902</u>

The interest income fund generally consists of investment contracts as described below:

Guaranteed Investment Contracts — Insurance company separate account GICs are investments in a segregated account of assets maintained by an insurance company for the benefit of the investors. The total return of the segregated account assets supports the insurance company separate account GICs return. The credited rate on this product will reset periodically and it will have an interest rate of not less than 0%.

Synthetic Guaranteed Investment Contracts — General fixed maturity synthetic GICs consist of an asset or collection of assets that are owned by the fund (or plan) and a benefit-responsive (as discussed in Note 2) book value wrap contract. The wrap contract assures that book value, benefit-responsive payments will be made for participant-directed withdrawals. The interest rate of the contract is set at the start of the contract and typically resets every quarter. Generally, fixed maturity synthetic GICs are held to maturity. The initial interest rate is established based on the market interest rates at the time the initial asset is purchased, and it will have an interest rate not less than 0%.

Constant duration synthetic GICs consist of a portfolio of securities owned by the fund (or plan) and a benefit-responsive, book value wrap contract purchased for the portfolio. The wrap contract amortizes gains and losses of the underlying securities over the portfolio duration, and assures that book value, benefit-responsive payments will be made for participant-directed withdrawals. The crediting rate on a constant duration synthetic GIC resets every quarter based on the book value of the contract and the market yield, the market value and the average duration of the underlying assets. The crediting rate aims at converging the book value of the contract and the market value of the underlying portfolio over the duration of the contract and therefore will be affected by movements in interest rates and/or changes in the market value of the underlying portfolio. The initial crediting rate is based on the market interest rates at the time the underlying portfolio is initially established, and it will have an interest crediting rate of not less than 0%.

It is probable that withdrawals and transfers resulting from the events listed below, although no such events are considered probable, will limit the ability of the fund to transact at book or contract value. Instead, market value would likely be used in determining the payouts to the participants.

- Employer-initiated events — events within the control of the Plan or the plan sponsor that would have a material and adverse impact on the fund;
- Employer communications designed to induce participants to transfer from the fund;
- Competing fund transfer or violation of equity wash or equivalent rules in place;
- Changes of qualification status of Employer or plan.

In general, issuers may terminate the contract and settle at other than contract value if the qualification status of the Employer or plan changes, if there is a breach of material obligations under the contract and misrepresentation by the contract holder, or failure of the underlying portfolio to conform to the pre-established investment guidelines.

1) See accompanying independent auditor's report.

2) Current value for the Interest Income Fund is based on contract value. Cost of the investment has been omitted because investments are all participant directed.

3) Party-in-Interest

4) The rate of interest charged is the trustee's current prime lending rate plus 2.0%. During 2020, the rate of interest charged on new loans was 6.25% for January through April and 5.25% for the remaining part of 2020. Maturities range from one to five years for general purpose loans and up to 15 years for a primary home loan.
