(1) Description of Plan

The following description of the LogRhythm, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of LogRhythm, Inc. (the "Company" and the "Plan Sponsor"), who are age twenty-one or older, excluding union and nonresident alien employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

CARES Act provisions

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security Act ("CARES Act") was signed into law. The CARES Act expanded the ability of certain 401(k) plan participants to withdraw, penalty free, funds from their vested retirement plan accounts up to $100,000, increased the participant loan limit to $100,000, and delayed loan repayments for up to one year, subject to certain participant eligibility criteria. The Plan adopted these provisions of the CARES Act.

Contributions

Each year, participants may contribute up to the maximum amount allowed under the law based on pre-tax annual compensation, as defined in the Plan. Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan offers a fixed interest investment option and various mutual funds as investment options for participants. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 6% of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant. Unless changed by the participant, the automatic deferral percentage will increase at the rate of 1% per year as of the first day of the second Plan year up to a maximum deferral of 10%.

The Company may make discretionary matching and profit sharing contributions to the Plan. In March 2020, the Company suspended matching contributions due to the COVID-19 Pandemic. Matching contributions for the year ended December 31, 2020 were $378,947. Matching contributions are invested as directed by the participant. There were no discretionary profit sharing contributions during 2020. Contributions are subject to certain Internal Revenue Code (IRC) limitations.

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's discretionary profit sharing and matching contributions is based on years of continuous service. A participant is 100% vested after three years of credited service.

(1) Description of Plan (continued)

Notes receivable from participants
Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account. In 2020 and 2019, the annual loan interest rates were between 4.25% - 6.50%. Principal and interest is paid ratably through semi-monthly payroll deductions.

The Plan adopted the temporary increase on maximum plan loan limits from the lesser of $50,000 or 50% of their vested account balance to the lesser of $100,000 or 100% of their vested account balance. These limits applied to loans made from March 27, 2020 through September 22, 2020. Relief from plan loan repayments for any individual with an outstanding plan loan having a repayment due date between March 27, 2020 and December 31, 2020. These suspended loan repayments can be delayed for up to one year longer than the original term of the loan.

Payment of benefits
On termination of service due to death, disability, retirement, or severance of employment, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or a direct rollover to another qualified retirement plan. In addition, hardship and in-service distributions are permitted if certain criteria are met. Corrective distributions are paid in the event a participant makes excess contributions during the year.

Forfeited accounts
As of December 31, 2020 and 2019, forfeited, nonvested accounts totaled $4,727 and $31,659, respectively. In 2020 and 2019, $1,299 and $170 administrative expenses were paid from forfeited nonvested accounts, respectively.

(2) Summary of Significant Accounting Policies

Basis of accounting
The financial statements of the Plan were prepared on the accrual basis of accounting.

Use of estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investments
Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit responsive investment contracts because the contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the plan.

(2) Summary of Significant Accounting Policies (continued)

Payment of benefits
Benefits are recorded when paid. As of December 31, 2020, distributions requested but not paid to withdrawing participants were $0. The Plan adopted the CARES Act provision relating to distributions. A CARES Act distribution allows the Plan's participants to take a COVID-19 related distribution up to $100,000 from the Plan beginning on or after January 1, 2020 and before December 31, 2020. The distributions are not subject to the 10% early withdrawal penalty tax and the individuals are permitted to either report the full distribution as income for 2020 or as income ratably over a three-year period.

Investment valuation and income recognition
The Plan's mutual fund investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and included in net appreciation. Dividends are recorded on the ex-dividend date and included in net appreciation. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2020. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Expenses
Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Plan administrative fees and investment advisor fees are also included in administrative expenses. Investment related expenses are included in net appreciation or depreciation of fair value of investments.

(3) Summary of Information Certified by the Custodian

The following information, which is included in the financial statements, has been certified by MassMutual Life Insurance Company ("MassMutual") for the years ended December 31, 2020 and 2019:

- Investments at fair value
- Investment at contract value
- Notes receivable from participants
- Net appreciation in fair value of investments
- Dividend income
- Interest income on notes receivable from participants
- Interest income on guaranteed investment contract
- Schedule of assets (held at end of year)

(4) Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the assets or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2020 and 2019.

Mutual funds
Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value:

	Assets at Fair Value as of December 31, 2020			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds	$ 36,100,086	$ -	$ -	$ 36,100,086
Investments at fair value	$ 36,100,086	$ -	$ -	$ 36,100,086

	Assets at Fair Value as of December 31, 2019			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds	$ 34,239,821	$ -	$ -	$ 34,239,821
Investments at fair value	$ 34,239,821	$ -	$ -	$ 34,239,821

(5) Fully Benefit Responsive Investment Contract

The Capital Preservation Account is a traditional investment contract and meets the fully benefit responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents the contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses.

The investment contract is recorded on the Statement of Net Assets Available for Benefits as investment at contract value. This investment option allows the Plan Sponsor to withdraw the contract value after a deferral period of up to 12 months.

(6) Tax Status

The Internal Revenue Service (IRS) has issued an opinion letter on the prototype plan dated March 31, 2014, which states that the prototype plan document is in compliance with applicable requirements of the Internal Revenue Code (IRC). The Plan has not received a determination letter specific to the Plan itself; however, the Plan administrator believes that the Plan, as amended, is designed and is being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified and that the related trust is tax exempt.

(7) Related Party Transactions and Party in Interest Transactions

Certain Plan investments are shares of funds managed by MassMutual. MassMutual is the trustee as defined by the Plan and, therefore, these transactions qualify as party in interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation or depreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. As described in Note 2, the Plan made a direct payment to the third party administrator of $230,544 which was not covered by revenue sharing. The Plan Sponsor pays directly any other fees related to the Plan's operations.

(8) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

(9) Commitments, Contingencies, Risks and Uncertainties

Risk

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

(9) Commitments, Contingencies, Risks and Uncertainties (continued)

COVID-19 Uncertainty

In March 2020, the World Health Organization declared a global pandemic as it relates to COVID-19. The spread of COVID-19 appears to be altering the behavior of businesses and people in a manner that is having negative effects on global and local economies. The Plan Sponsor is closely monitoring the impact of COVID-19 on operations. The financial statements do not include adjustments relating to this pandemic.

(10) Subsequent Events

The plan has evaluated subsequent events through the date of the auditor's report, the date the financial statements were available to be issued.
