Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Southeastern Ohio Regional Medical Center Pension Plan (the "Plan"), which comprise the statement of net assets available for benefits as of December 31, 2020 and 2019 and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by PNC Bank, N.A. (the "Trustee"), except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the Trustee holds the Plan's investment assets and executes related transactions, except for the investment in the alternative investments. The plan administrator has obtained certifications from the Trustee as of and for the years ended December 31, 2020 and 2019 that the information provided to the plan administrator, other than the investment in the alternative investments, is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules of assets held at end of year as of December 31, 2020 and reportable transactions for the year ended December 31, 2020 are required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on these supplemental schedules.

Note 1 - Plan Description

The following description of Southeastern Ohio Regional Medical Center Pension Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit plan covering all eligible employees of Southeastern Ohio Regional Medical Center (the "Medical Center"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Employees became participants in the Plan following completion of the eligibility requirements described in the Plan agreement and are fully vested for normal retirement benefits after five years of service. The board of directors of the Medical Center resolved to freeze the Plan effective April 30, 2007. Accrued benefits for individual participants will not increase; however, service will continue to be credited for vesting and retirement purposes.

Pension Benefits

Eligible employees with five or more years of service are entitled to normal annual pension benefits beginning at the participant's normal retirement age of 65, as described in the Plan. The individual pension benefit is equal to a percentage, as specified in the Plan, of the employee's final average monthly compensation multiplied by the employee's credited service, not to exceed 35 years. Special provisions for retirement at other than the normal retirement age are described in the plan agreement. Employees with at least 10 years of service may elect early retirement and receive the accrued normal retirement benefits at age 55 or a reduced monthly retirement benefit payable immediately in accordance with the plan agreement. Employees may elect to receive the value of their accumulated plan benefits as a lump-sum distribution upon retirement or termination or they may elect to receive their benefits as a life annuity payable monthly from retirement.

Payment of Benefits

Upon retirement, death, or permanent disability, a participant's distribution will commence in the form of one of the various annuity options, as selected by the participant. In certain instances, it may be paid in a lump sum.

Contributions

All contributions to the Plan are made by the Medical Center. The Medical Center contributes such amounts, as determined on an actuarial basis, to provide the Plan with assets sufficient to meet the projected benefits to be paid to plan participants and to satisfy ERISA funding standards. Annual contributions meet the minimum funding requirements of ERISA. No participant contributions are permitted.

Party-in-interest Transactions

Certain plan assets are in investment funds managed by PNC Bank, N.A. or its affiliates (PNC Bank or the "Trustee"). PNC Bank is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation

The Plan's investments are stated at fair value.

The common/collective trust funds are valued at net asset value per share (NAV) (or its equivalent) of the funds, which is based on the fair value of the funds' underlying assets. There were no unfunded commitments or redemption restrictions on the common/collective trust funds.

December 31, 2020 and 2019

Note 2 - Summary of Significant Accounting Policies (Continued)

The alternative investments are valued at NAV of the respective fund based on audited financial statements of the respective fund, where available, with adjustments to account for investment activity and other applicable valuation adjustments.

The money market fund is valued at fair value based on its outstanding balance.

See Note 5 for additional information.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

Various administrative costs are paid by the Medical Center.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments that are attributable, under the Plan's provisions, to the service employees have rendered. These include benefits expected to be paid to the following:

- (a) Retired or terminated employees or their beneficiaries
- (b) Beneficiaries of employees who have died
- (c) Present employees or their beneficiaries

Benefits are calculated based on active employees' credited years of service multiplied by a specified percentage of their average monthly compensation plus a specified percentage of their average monthly compensation in excess of the Social Security Integration Level.

Benefits provided via annuity contracts are deducted from plan assets and from accumulated plan benefits.

Actuarial Assumptions

The actuarial present value of accumulated plan benefits is determined by an actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and probability of payment between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation of the Plan at January 1, 2020 are summarized as follows:

Actuarial cost method	Projected unit credit
Assumed rate of return	6.11 percent per annum
Mortality basis	Pri-2012 private retirement plans mortality table using projection scale MP-2020
Discount rate	5.80 percent per annum

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Notes to Financial Statements

December 31, 2020 and 2019

Note 2 - Summary of Significant Accounting Policies (Continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

Contributions to the Plan and the accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. It is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the financial statements.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including October 7, 2021, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

PNC Bank holds the Plan's investments, other than the alternative investments, and executes all related investment transactions. The investment balances and related investment results included in the accompanying financial statements, supplemental schedule of assets held at end of year, and supplemental schedule of reportable transactions, other than the alternative investments, are based solely on information certified by the Trustee.

The Plan's alternative investments totaling \$7,890,972 and \$4,677,811 at December 31, 2020 and 2019, respectively, and related investment income of \$386,132 and \$183,386 for the years ended December 31, 2020 and 2019, respectively, were not certified by the Trustee.

Note 4 - Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits is determined by consulting actuaries. The calculation of the actuarial present value of accumulated plan benefits attributable to participants in the Plan, which was made as of January 1, 2020, the most recent actuarial valuation, is as follows:

Actuarial present value of accumulated plan benefits:

Vested benefits:

Participants currently receiving benefit payments	\$ 40,328,683
Other vested participants	13,513,536

Total vested benefits	53,842,219
-----------------------	------------

Nonvested benefits	1,090,774
--------------------	-----------

Total actuarial present value of accumulated plan benefits	<u>\$ 54,932,993</u>
--	----------------------

Southeastern Ohio Regional Medical Center Pension Plan

Notes to Financial Statements

December 31, 2020 and 2019

Note 4 - Accumulated Plan Benefits (Continued)

A summary of significant changes in the actuarial present value of accumulated plan benefits from January 1, 2019 to January 1, 2020 is as follows:

Actuarial present value of accumulated plan benefits - Beginning of year	\$ 53,537,415
Increase (decrease) during the year attributable to:	
Interest due to the decrease in the discount period	3,231,326
Benefits paid	(3,728,910)
Changes in actuarial assumptions	2,085,820
Other	(192,658)
Net increase	1,395,578
Actuarial present value of accumulated plan benefits - End of year	\$ 54,932,993

The increase in actuarial present value of accumulated plan benefits due to changes in actuarial assumptions relates to an decrease in the discount rate from 6.25 percent to 5.80 percent and change in mortality projection scale from MP-2019 to MP-2020.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset.

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

- (1) This fund's investment objective is to generate consistent long-term capital appreciation with diversification of risk through the use of a multimanager, multistrategy global investment approach.
- (2) This fund's investment objective is to invest primarily in publicly traded equity and debt securities of the United States and foreign issuers of the hedge funds, and private equity investments for the private equity funds.
- (3) This fund's investment objective is to identify, acquire, hold, manage, and dispose of investments in real estate private equity funds for income and capital appreciation.

Investments in Entities that Calculate Net Asset Value per Share

The Plan holds shares or interests in investment companies at year end whereby the fair value of the investment held is estimated based on the net asset value per share (or its equivalent) of the investment company.

Southeastern Ohio Regional Medical Center Pension Plan

Notes to Financial Statements

December 31, 2020 and 2019

Note 5 - Fair Value Measurements (Continued)

At year end, the fair value, unfunded commitments, and redemption rules of those investments are as follows:

	December 31, 2020	December 31, 2019			
	Fair Value	Fair Value	Unfunded Commitments	Redemption Frequency, if Eligible	Redemption Notice Period

Total	<u>\$ 7,890,972</u>	<u>\$ 4,677,811</u>	<u>\$ 1,224,225</u>		

Note 6 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note 7 - Plan Termination

Should the Plan terminate at some future time, its net assets generally will not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Expected Return on Assets

2018 Plan Year	6.25%
2019 Plan Year	6.25%, limited to 6.11%

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Schedule SB, Part V—Summary of Plan Provisions

General Information

Original Effective Date	July 1, 1967
Effective Date of Last Amendment	November 1, 2016
Plan Year/Employer Fiscal Year	January 1 to December 31
Employer ID Number	31-4391798
Plan Number	001
Plan Administrator	Southeastern Ohio Regional Medical Center

Eligibility

All employees of employer are eligible to participate in the plan on the January 1 nearest the completion of one year of service and attaining age 21. As of April 30, 2007, no new participants shall enter the plan.

Service

Service shall equal total years of service with the employer. A year of credited service is credited for each year in which an employee works 1,800 hours and a pro-rata year if less hours are earned, provided at least 500 hours of service are earned. A break in service occurs at the start of any plan year in which the employee works 500 hours or less for the employer in such year. Service will not be interrupted by:

- (1) A leave of absence granted by the employer;
- (2) A period of service in the Armed Forces of the United States under which employment rights are granted.

An employee will be given credit for his pre-break service if either of the following occurs:

- (1) The employee had a vested interest in his accrued benefit at the time of his break in service; or
- (2) The employee's period of absence was less than his pre-break service, or five years, whichever is greater.

A year of eligibility service is granted for a calendar year in which an employee worked at least 1,000 hours.

No credited service shall be earned after April 30, 2007.

Normal Retirement Date	Normal retirement date is the first day of the month coincident with or next following the later of 1) the attainment of age 65 and 2) the fifth anniversary of participation in the plan.
Normal Retirement Benefit	The amount of annual benefit to be paid in monthly installments for life is 1.5% of the average compensation up to covered compensation multiplied by the participant's years of credited service, limited to a maximum of 35, plus 2.15% of the participant's average compensation in excess of covered compensation multiplied by the participant's years of credited service, limited to a maximum of 35.
Average Compensation	The average of the final five years of compensation in which service was earned. Compensation for years were less than one year of service is earned shall be annualized to a 1,800 hour basis. Average compensation is frozen as of April 30, 2007.
Delayed Retirement	A participant may continue in the employment of the employer after his normal retirement date. In such event he will receive at actual retirement or death the greater of the actuarial equivalent of his normal retirement benefit or the accrued benefit as of the delayed retirement date based on service and average compensation to that date.
Accrued Benefit	The accrued benefit at any time prior to a participant's normal retirement date shall be the benefit as calculated in the normal retirement benefit section above, using average compensation and service as of the date of determination.
Early Retirement Benefits	Upon the completion of 10 years of service and the attainment of age 55, a participant may elect to retire. He may receive a monthly benefit for life beginning at his normal retirement date equal to the accrued benefit at early retirement date. Payments may begin immediately, with the benefit being reduced 1/180th per month for each of the first five years and then 1/360th per month for each additional year that the early retirement date precedes the normal retirement date. If a participant's age plus service sum to at least 89 (called the "Rule of 89"), they may receive their accrued benefit without reduction at early retirement.

Death Benefit

In the event of a married active participant's death, after having become eligible for early retirement, the benefit payable to the spouse will be calculated assuming that the participant had retired on the day prior to death and elected a joint and one-half survivor benefit.

In the event of a married vested participant's death prior to having become eligible for early retirement, the benefit payable to the spouse will be calculated assuming the participant had terminated on the date of death, survived to the earliest retirement age, elected a joint and one-half survivor benefit, and died the next day.

Severance Benefits

Upon the termination of employment after five or more years of vesting service or after reaching normal retirement age, a participant shall be 100% vested in his accrued benefit which will be payable at normal retirement date.

A participant who terminates with 10 or more years of service may elect to receive a reduced benefit as early as age 55.

Optional Methods of Settlement

All optional methods of settlement are actuarially equivalent to the normal form of annuity. If a married participant does not elect the normal form of annuity or does not elect one of the optional methods of settlement described below, then the participant's retirement benefit shall automatically be paid under option [1] below. The options are:

- (1) A reduced benefit to be paid during the participant's lifetime with one half the reduced benefit to be continued to his spouse for her lifetime after his death.
- (2) A reduced benefit to be paid during the participant's lifetime with either 66⅔%, 75% or 100% of the reduced benefit to be continued to his spouse for her lifetime after his death.
- (3) A reduced benefit to be paid for either 120 months certain or 180 month certain and thereafter for life.

All optional methods of settlement are actuarially equivalent to the normal form of annuity and are based on the 1971 GAM table for males and 8% interest.

Amendment or Termination of Plan

The employer reserves the right to amend or terminate the plan at any time. Generally, the Pension Benefit Guaranty Corporation reserves the right to terminate the plan if the employer fails to meet the minimum funding standards or is unable to pay benefits when due.

If the plan is terminated, the plan assets will be distributed among the plan participants based upon a priority allocation procedure and the employer shall be liable for any unfunded vested benefits to the extent required by law.

The above description is a summary only; for additional details, reference should be made to the formal plan document.

Plan Changes Since the Prior Year

The funding valuation does not reflect any plan changes.

Other Information to Fully and Fairly Disclose the Actuarial Position of the Plan

Due to software limitations with the electronic filing process, information filed electronically cannot be controlled by the Enrolled Actuary. The values on the signed Schedule SB will govern to the extent there are any differences in the entries filed electronically and the actual data contained on the signed Schedule SB.

Under the American Rescue Plan Act of 2021 (ARPA), the stabilized interest rates for certain purposes will be adjusted once the ARPA stabilization is applied. By default, this stabilization would have applied starting with the 2020 plan year.

Southeastern Med made an explicit election not to apply the ARPA interest rate stabilization (for any purposes) to the Southeastern Ohio Regional Medical Center Pension Plan for the 2020 plan year. Therefore, this Schedule SB reflects stabilized 2020 minimum funding interest rates without regard to ARPA.

Normal Retirement Date	Normal retirement date is the first day of the month coincident with or next following the later of 1) the attainment of age 65 and 2) the fifth anniversary of participation in the plan.
Normal Retirement Benefit	The amount of annual benefit to be paid in monthly installments for life is 1.5% of the average compensation up to covered compensation multiplied by the participant's years of credited service, limited to a maximum of 35, plus 2.15% of the participant's average compensation in excess of covered compensation multiplied by the participant's years of credited service, limited to a maximum of 35.
Average Compensation	The average of the final five years of compensation in which service was earned. Compensation for years were less than one year of service is earned shall be annualized to a 1,800 hour basis. Average compensation is frozen as of April 30, 2007.
Delayed Retirement	A participant may continue in the employment of the employer after his normal retirement date. In such event he will receive at actual retirement or death the greater of the actuarial equivalent of his normal retirement benefit or the accrued benefit as of the delayed retirement date based on service and average compensation to that date.
Accrued Benefit	The accrued benefit at any time prior to a participant's normal retirement date shall be the benefit as calculated in the normal retirement benefit section above, using average compensation and service as of the date of determination.
Early Retirement Benefits	Upon the completion of 10 years of service and the attainment of age 55, a participant may elect to retire. He may receive a monthly benefit for life beginning at his normal retirement date equal to the accrued benefit at early retirement date. Payments may begin immediately, with the benefit being reduced 1/180th per month for each of the first five years and then 1/360th per month for each additional year that the early retirement date precedes the normal retirement date. If a participant's age plus service sum to at least 89 (called the "Rule of 89"), they may receive their accrued benefit without reduction at early retirement.

Death Benefit

In the event of a married active participant's death, after having become eligible for early retirement, the benefit payable to the spouse will be calculated assuming that the participant had retired on the day prior to death and elected a joint and one-half survivor benefit.

In the event of a married vested participant's death prior to having become eligible for early retirement, the benefit payable to the spouse will be calculated assuming the participant had terminated on the date of death, survived to the earliest retirement age, elected a joint and one-half survivor benefit, and died the next day.

Severance Benefits

Upon the termination of employment after five or more years of vesting service or after reaching normal retirement age, a participant shall be 100% vested in his accrued benefit which will be payable at normal retirement date.

A participant who terminates with 10 or more years of service may elect to receive a reduced benefit as early as age 55.

Optional Methods of Settlement

All optional methods of settlement are actuarially equivalent to the normal form of annuity. If a married participant does not elect the normal form of annuity or does not elect one of the optional methods of settlement described below, then the participant's retirement benefit shall automatically be paid under option [1] below. The options are:

- (1) A reduced benefit to be paid during the participant's lifetime with one half the reduced benefit to be continued to his spouse for her lifetime after his death.
- (2) A reduced benefit to be paid during the participant's lifetime with either 66⅔%, 75% or 100% of the reduced benefit to be continued to his spouse for her lifetime after his death.
- (3) A reduced benefit to be paid for either 120 months certain or 180 month certain and thereafter for life.

All optional methods of settlement are actuarially equivalent to the normal form of annuity and are based on the 1971 GAM table for males and 8% interest.

Amendment or Termination of Plan

The employer reserves the right to amend or terminate the plan at any time. Generally, the Pension Benefit Guaranty Corporation reserves the right to terminate the plan if the employer fails to meet the minimum funding standards or is unable to pay benefits when due.

If the plan is terminated, the plan assets will be distributed among the plan participants based upon a priority allocation procedure and the employer shall be liable for any unfunded vested benefits to the extent required by law.

The above description is a summary only; for additional details, reference should be made to the formal plan document.

Plan Changes Since the Prior Year

The funding valuation does not reflect any plan changes.

Other Information to Fully and Fairly Disclose the Actuarial Position of the Plan

Due to software limitations with the electronic filing process, information filed electronically cannot be controlled by the Enrolled Actuary. The values on the signed Schedule SB will govern to the extent there are any differences in the entries filed electronically and the actual data contained on the signed Schedule SB.

Under the American Rescue Plan Act of 2021 (ARPA), the stabilized interest rates for certain purposes will be adjusted once the ARPA stabilization is applied. By default, this stabilization would have applied starting with the 2020 plan year.

Southeastern Med made an explicit election not to apply the ARPA interest rate stabilization (for any purposes) to the Southeastern Ohio Regional Medical Center Pension Plan for the 2020 plan year. Therefore, this Schedule SB reflects stabilized 2020 minimum funding interest rates without regard to ARPA.

Under the American Rescue Plan Act of 2021 (ARPA), the shortfall relief wipes out existing shortfall amortization bases and changes the amortization period. By default, this relief applies starting with the 2022 plan year. This Schedule SB reflects the shortfall amortization bases without regard to the ARPA shortfall relief for the 2019 and 2020 plan years.
