Note 1 Description of Plan

The following description of the Daybrook Fisheries Inc. (the “Company”) 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the summary plan description or Plan document for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). Every employee who was employed on the effective date of the Plan, March 1, 1990, is automatically eligible to participate. Employees hired after the effective date are eligible upon satisfying specific service requirements. Any employee who has completed sixty consecutive days of service is eligible to participate in the Plan on the first day of the month coinciding with or next following the date he or she has satisfied such requirements.

Employee and Employer Contributions

Participants are eligible to make a salary reduction contribution up to the maximum amount allowed by law (\$19,500 for 2020). Employees who reach the age of 50 during the Plan year may elect to contribute certain additional amounts beyond their defined limits (\$6,500 for 2020).

The Company may make a discretionary Employer Contribution in which all eligible participants will receive a portion of the Employer’s Contribution of which is determined as a uniform percentage of compensation for all eligible participants. In order to receive the Employer Contribution, the participant must be employed on the last day of the plan year. As of December 31, 2020, the Company did not make an Employer Contribution to the Plan. In addition, the Plan is a Safe Harbor 401(k) Plan. As a Safe Harbor 401(k) Plan, the employer makes matching contributions to the account of each eligible participant in an amount equal to the sum of 100% of the amount of the participant’s elective deferrals that do not exceed 3% of the participant’s compensation, plus 50% of the amount of the participant’s elective deferrals that exceed 3% of the participant’s compensation, but do not exceed 5% of the participant’s compensation.

Participant Accounts

Each participant’s account is credited with the participant’s contributions, allocations of the Company’s contributions, and Plan earnings. Earnings and loss for each fund are based on the change in the net value for the respective investment. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the vested benefit that can be provided from the participant’s account.

Investment Options

The participants’ contributions and the Company’s contributions are allocated to the various investment options offered by the Plan as directed by the participant. Participants may change their investment options at any time.

Note 1 Description of Plan (continued)

Vesting

Participants are immediately 100% vested in their contributions plus actual earnings thereon and the Safe Harbor 401(k) matching contributions made by the Company. Vesting in the Company's Employer Contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. Company Employer Contribution vests in accordance with the following schedule:

Years of Vesting Service	Vested Percentage
1	0%

Payment of Benefits

Upon termination of service for any reason, a participant with a vested account balance greater than \$5,000 will receive a single lump-sum distribution equal to the value of the participant's vested interest in his or her account or has the option to leave their balance in the Plan. A single lump-sum distribution will be made upon termination if the participant's vested account balance is less than \$5,000. The Plan also allows for in-service distributions of participant contributions when a participant becomes 59 ½ years of age, employer contributions at the Plan's normal retirement age of 65, and rollover contributions at any time. Additionally, under certain circumstances of financial hardship, the participant is allowed to withdraw funds from the Plan.

Notes Receivable from Participants

Participants may borrow from their vested account balance a minimum of \$1,000 up to an amount not to exceed the lesser of (a) 50% of their vested account balance or (b) \$50,000. However, the \$50,000 is reduced by the highest outstanding loan balance the participant had under the Plan within the previous twelve-month period on the date the loan is made. Note repayments are made ratable through payroll deductions, with repayment terms ranging from up to 5 years or up to 10 years if for the purchase of a primary residence. The notes are collateralized by the balance in the participant's account and bear interest at prime rate. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced, and a benefit payment is recorded. As of December 31, 2020 and 2019, the annual interest rates ranged from 3.25% to 6.00%.

Note 1 Description of Plan (continued)

CARES Act

During March 2020, Congress passed the Coronavirus Aid, Relief, and Economic Security Act (the "CARES Act"), which included several relief provisions available to tax qualified retirement plans and their participants. The provisions of the CARES Act may be effective and operationalized immediately, prior to amending the Plan Document. During 2020, the Plan elected to implement the provisions allowing eligible plan participants to request penalty-free distributions of up to \$100,000 before December 31, 2020 for qualifying reasons associated with the COVID-19 pandemic. During 2020, the Plan also implemented the temporary provisions related to increased plan loan limits and the deferral of certain plan loan repayments.

Note 2 Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosures of contingent assets and liabilities at the date of the financial statements. Actual amounts could differ from those estimates.

Investment Valuation and Income Recognition

Except for the group annuity contract with an insurance company (See Note 9), the Plan's investments are stated at fair value as reported on the last business day of the Plan year. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (See Note 3). Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits payments are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. No allowance for credit losses has been recorded as of December 31, 2020 and 2019. Delinquent notes receivable from participants are reclassified as benefit payments, reducing the participants' notes receivable balance, based upon the provision of the Plan Document.

Note 2 Summary of Significant Accounting Policies (continued)

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants, plan distributions, and domestic relations orders are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Forfeitures

At December 31, 2020 and 2019 forfeited non-vested accounts totaled \$0 and \$22,853, respectively. During the year ended December 31, 2020, the forfeited non-vested account of \$22,853 was used to reduce employer contributions to the Plan.

Note 3 Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Note 3 Fair Value Measurements (continued)

The following is a description of the valuation methodology used for assets measured at fair value:

- Mutual funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (“NAV”) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

There have been no changes in methodologies used at December 31, 2020 and 2019.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan’s assets at fair value as of December 31:

Description	Assets at Fair Value as of December 31, 2020			
	Level 1	Level 2	Level 3	Total

The following is a summary of the investment information regarding the Plan as of December 31, 2020 and 2019 and for the year ended December 31, 2020, included in the Plan’s financial statements and supplemental schedule, that was prepared or derived from information provided by Reliance Trust Company, the Trustee, and furnished to the Plan Administrator. The Plan Administrator has obtained a certification from the Trustee that such information is complete and accurate.

Note 5 Risks and Uncertainties

The Plan invests in various investment securities. These securities in general are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

During 2020, the global outbreak of COVID-19 which was declared a pandemic by the World Health Organization in March 2020 led to significant volatility in global financial markets. The COVID-19 pandemic is ongoing in nature and therefore the ultimate impact of COVID-19 on the market value of Plan investments is uncertain.

Note 6 Tax Status

On March 31, 2014, the Internal Revenue Service ("IRS") stated that the volume submitter profit sharing plan adopted by the Plan, as then designed, qualifies under Section 401(a) of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the opinion letter, the Plan Administrator and tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified and the related trust is tax-exempt.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7 Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their accounts.

Note 8 Related Party Transactions and Party-in-Interest Transactions

The Plan invests in mutual funds and a group annuity contract sponsored by Reliance Trust Company, the Trustee, as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. The Plan makes loans to participants and therefore, these transactions qualify as a party-in-interest.

Note 9 Group Annuity Contract with Insurance Company

The Plan holds a fully benefit-responsive group annuity contract with Massachusetts Mutual Life Insurance Company that comprises a traditional investment contract. This contract meets the fully benefit-responsive investment criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses.

The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rates remained approximately at 2.18% and 2.27% for 2020 and 2019, respectively. The contract value of the group annuity contract was \$371,128 and \$273,365 for 2020 and 2019, respectively. Interest is credited on contract balances using a single “portfolio rate” approach.

Under this methodology, a single interest crediting rate is applied to all contributions made to the product regardless of the timing of those contributions. Such interest crediting rates are reviewed on a semi-annual basis for resetting.

The Plan’s ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer’s ability to meet its financial obligations. The issuer’s ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Note 9 Group Annuity Contract with Insurance Company (continued)

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

1. The Plan's failure to qualify under Section 401(a) of the Internal Revenue Code or the failure of the trust to be tax-exempt under Section 501(a) of the Internal Revenue Code.
2. Premature termination of the contracts.
3. Plan termination or merger.
4. Changes to the Plan's prohibition on competing investment options.
5. Bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

1. An uncured violation of the Plan's investment guidelines.
2. A breach of material obligation under the contract.
3. A material misrepresentation.
4. A material amendment to the agreements without the consent of the issuer.

The group annuity contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.
