FLORIDA PHYSICIAN SPECIALISTS 401(K) PLAN

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Florida Physician Specialists 401(k) Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2020 and 2019 and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Notes 6, 7 and 11, which was certified by The Principal Financial Group, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan administrator that the custodians hold the Plan's investment assets and execute investment transactions. The Plan administrator has obtained certifications from The Principal Financial Group as of and for the years ended December 31, 2020 and 2019, that the information provided to the Plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matters

We were engaged for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of assets held for investment purposes and delinquent participant contributions, which are the responsibility of Plan management, are presented for the purpose of additional analysis and are not a required part of the financial statements but are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, it is inappropriate to and we do not express an opinion on the supplemental schedules referred to above.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodians, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. DESCRIPTION OF PLAN

The following description of the Florida Physician Specialists (the "Company" or "Plan Sponsor") 401(k) Plan (the "Plan") provides only general information. The Plan was formerly known as "ICON, LLC 401(k) Plan". The Plan was amended on January 1, 2013 to change the name to Florida Physician Specialists 401(k) Plan. The Plan was amended on November 1, 2016 to incorporate auto enrollment. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan (401(k)) covering all full-time employees who have completed six months of service and are age twenty-one or older. Years of service with any medical practice operated by a physician immediately prior to the physician becoming a member of the Company are recognized. The Principal Financial Group (the "Custodian") serves as a custodian of the Plan from November 1, 2016 to current. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants generally may contribute up to 80 percent of their annual compensation, as defined in the Plan document, subject to certain Internal Revenue Code ("IRC") limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants may also contribute amounts on an after-tax basis.

Every qualified employee will be auto enrolled at a 3% contribution rate or at their previous elected contribution rate, if higher than 3%. The amount of their automatic enrollment will increase by 1% in the second through seventh years to a maximum of a 10% contribution rate. The qualified employee must file an election to "receive cash in lieu of elective deferrals" before auto enrollment begins or within the 60-day period thereafter if they want to decline to participate in the Plan. The Participant shall not receive a refund of any elective deferral made.

The Company may make discretionary matching contributions equal to a uniform percentage of participant salary reductions. The Company may also elect to make "safe harbor" contributions,

1. **DESCRIPTION OF PLAN** – (Continued)

Contributions – (Continued)

but is under no obligation to do so. The "safe harbor" contribution is equal to 3% of total eligible compensation for the Plan year. If the Company elects to satisfy the "safe harbor", then the discretionary matching contribution will not exceed 6% of compensation of a participant who is eligible to share in the discretionary matching contribution for the Plan year. The Company may also make discretionary profit-sharing contributions.

Investment Options

Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan's investment options include mutual funds, pooled separate funds, guaranteed investment contract, and money market funds as investment options for participants. In addition, participants may utilize an individual self-directed brokerage option, through which participants are able to invest in a variety of securities including stocks, bonds, mutual funds, and government securities in accordance with the Plan document.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contributions, and Plan earnings or losses. Additionally, each participant account is charged with benefit payments, transaction fees related to notes receivable from participants and distributions, and allocations of administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Participants are also 100% vested in the Company's "safe harbor" contributions and qualified non-elective contributions contributed to the Plan. Vesting in the Company's match and profit-sharing portion of their accounts plus actual earnings thereon is based on years of continuous service. A year of service is based on 1,000 hours of service in a particular Plan year. A participant is 100% vested after six years of credited service. The vesting schedule is as follows:

Years of Service	Vesting %
Less than 2 years	0
2 but less than 3	20
3 but less than 4	40
4 but less than 5	60
5 but less than 6	80
Over 6 years	100

Distributions

On termination of service due to death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum amount as provided by the Plan. In-service distributions, as provided by the Plan, may be made upon demonstration of financial hardship, disability, or after participants reach the age of 59.5 years.

Hardship Distributions

Participants who have incurred certain hardship conditions as specified by provisions of the Internal Revenue Code may elect to receive a distribution from his/her elective contribution account. Effective January 1, 2020, the Plan was amended to allow for hardship distributions from the vested portion of participant employer matching and profit-sharing contribution accounts.

Forfeited Accounts

At December 31, 2020 and 2019, there were $28,193 and $4,821, respectively, in forfeited non-vested accounts. These accounts are used to reduce employer contributions and, then, administrative expenses. During 2020 and 2019, $33,495 and $1,641 of forfeitures were used to reduce the employer contributions, respectively.

Participant Loans

Participants may, pursuant to the provisions in the Plan document, borrow from their vested account balance. The loans are secured by the balance in the participant's account and bear interest at a reasonable rate. At December 31, 2020 and 2019, outstanding loans bore interest rates of 3.25% to 5.50%. Principal and interest is paid ratably through payroll deductions.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Valuation

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Risks and Uncertainties

The Plan provides for various investment options. Investment securities are exposed to various risks, such as interest rate fluctuations, market changes, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of these investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and changes in net assets available for benefits.

Notes Receivable From Participants

Notes receivable from participants (participant loans) are measured at their unpaid principal balance. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

Payment of Benefits

Benefits are recorded upon distribution.

Administrative Expenses

The Plan's administrative expenses are paid by either the Plan or the Company, as provided by the Plan document. Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan. Expenses relating to specific participant transactions (notes receivable from participants and distributions) are charged directly to the participant's account. Fees associated with the audit for the Plan were paid by the Plan Sponsor and are not included in expenses in these financial statements. During the years ended December 31, 2020 and 2019, expenses and fees were $69,880 and $70,084, respectively.

3. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

4. TAX STATUS

On January 31, 2006, the Plan's volume submitter practitioner submitted a volume submitter Plan document to the Internal Revenue Service (the "IRS") which the Plan is utilizing. The IRS has determined and informed the Plan's volume submitter practitioner by a letter dated March 31, 2008 that the volume submitter Plan document was designed in accordance with applicable sections of the Internal Revenue Code (the "IRC"). The Plan was amended on March 1, 2006 and was informed by a letter from the IRS dated June 19, 2007 that the Plan and related trust are designed in accordance with the applicable sections of the IRC for the Plan amendment executed on March 1, 2006. The Plan has been amended since receiving the determination letter; however, the Plan administrator believes that the Plan is designed and currently being operated in compliance with the applicable provisions of the IRC. Therefore, the Plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

4. TAX STATUS – (Continued)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax provisions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2020 and 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. The tax years 2017, 2018, 2019, and 2020 are subject to examination.

5. CONCENTRATION OF CREDIT RISK

Contributions receivable from Plan participants as of December 31, 2020 and 2019 were $168,192 and $154,236, respectively. Contributions receivable from the Plan Sponsor as of December 31, 2020 and 2019 were $961,963 and $764,454, respectively.

6. FAIR VALUE MEASUREMENTS

Fair value as defined under GAAP is an exit price, representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value.

These tiers include:

- Level 1: Observable inputs such as quoted prices in active markets for identical assets that the Plan has the ability to access at the measurement date.
- Level 2: Inputs other than quoted prices within Level 1 that are observable for valuing the asset or liability, either directly or indirectly. Observable inputs include quoted prices for similar assets or liabilities in active or non-active markets. Level 2 may also include insignificant adjustments to market observable inputs.
- Level 3: Unobservable inputs used for valuing the asset or liability. Unobservable inputs are those that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing the asset, based on the best information available in the circumstances.

6. FAIR VALUE MEASUREMENTS – (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective investment trusts: Valued at fair value based upon net asset value.

Pooled separate accounts: Invests in mutual funds. The fair values of the underlying mutual funds are publicly quoted prices used in determining net asset value.

Principal Life Insurance Company Guaranteed Investment Contract: Valued at contract value (principal plus accumulated earnings). See note 7 for more information.

There have been no changes in the methodologies used at December 31, 2020 and 2019.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2020 and 2019. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

6. FAIR VALUE MEASUREMENTS – (Continued)

Fair Value as of December 31, 2020

	Fair Value	Quoted Prices In Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Investments at fair value	$ 15,288,164			

In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

7. GROUP ANNUITY CONTRACT WITH PRINCIPAL LIFE INSURANCE COMPANY

The Plan entered into a traditional fully benefit-responsive guaranteed investment contract with Principal Life Insurance Company (the "Principal"). Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rate is reviewed on a quarterly basis for resetting. The crediting rate at December 31, 2020 was 1.60%. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, or (5) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, or (4) a material amendment to the agreement without the consent of the issuer.

7. GROUP ANNUITY CONTRACTS WITH PRINCIPAL LIFE INSURANCE COMPANY – (Continued)

An employer-level liquidation or employer-initiated transfer of the Plan's interest in the Principal Fixed Income Guaranteed Option will be subject to either a 12-month advance notice or a 5% surrender charge, whichever the employer chooses. Notification of a plan's intent to terminate its interest may be revoked within 90 days of our receipt of such notice, after which time, notice becomes irrevocable.

A 5% surrender charge will also apply if the cumulative of participant transfers from the Principal Fixed Income Guaranteed Option exceeds 20% of the Plan's interest in the contract during the 12-month period immediately preceding the employer-level surrender or the Plan's interest in the contract. If this scenario occurs, the surrender charge will be billed to the employer. Refer to the contract for a full description of the Surrender Charge.

8. NON EXEMPT PARTY-IN-INTEREST TRANSACTIONS

As described in the Statement of Delinquent Participant Contributions (included in the supplemental information), the Company did not remit certain contributions to the Plan in a timely manner, as defined by ERISA. During the 2020 and 2019 Plan years, there were unintentional delays by the Company in submitting participant contributions to the custodian in the amounts of $0 and $16,309, respectively. These late contributions are considered non-exempt party-in-interest transactions, which are prohibited transactions, and may result in an imposition of a 15% excise tax on the amount of the transaction. The tax status opinion of the Plan is not affected by these non-exempt transactions. If assessed, the Company intends to pay all fines that may be imposed. At December 31, 2020 and 2019, management estimates approximately $0 and $687, respectively, in lost income due to the delays.

9. SUBSEQUENT EVENTS

The date to which events occurring after December 31, 2020, the date of the most recent balance sheet, have been evaluated for possible adjustment to the financial statements or disclosure is September 23, 2021, which is the date on which the financial statements were available to be issued.

10. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are units of pooled separate accounts managed by Principal Life Insurance Company. The Principal Life Insurance Company transactions qualify as party-in-interest transactions and have been identified as such within the supplemental information.

Certain Plan investments are managed by Principal Life Insurance Company. It is the trustee/custodian for the Plan and, therefore, these transactions qualify as party-in-interest transactions.

Howard & Company
CERTIFIED PUBLIC ACCOUNTANTS, P.A.

10. PARTY-IN-INTEREST TRANSACTIONS

During the years ended December 31, 2020 and 2019, Principal Life Insurance Company, Principal Securities, Inc., Economic Group Pension Services, Inc., and Wilshire Associates Incorporated received advisory fees and/or administrative fees. Fees paid for these services are included in the Plan expense. These transactions also qualify as party-in-interest transactions for which there is a statutory exemption.

11. CERTIFIED INVESTMENTS

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Investments held at December 31, 2020 and 2019 including investment information related to the 401(k) account (see Note 6), that is disclosed in the accompanying financial statements and supplemental schedules, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the trustee of the Plan.

The following is a summary of information certified:

FLORIDA PHYSICIAN SPECIALISTS
401(k) PLAN

We have completed a DOL limited-scope audit of the financial statements of Florida Physician Specialist 401(k) Plan for the year ended December 31, 2020 and 2019 and have issued our report thereon dated September 23, 2021. As permitted by 29 CFR 2520-103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Notes 6, 7 and 11 to those financial statements. Because of the significance of the information that we did not audit, we are unable to, and have not, expressed an opinion on those financial statements and supplemental schedules as a whole. We did, however, audit the form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, in accordance with auditing standards generally accepted in the United States of America and found them to be presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated September 23, 2021. Professional standards also require that we communicate to you the following information related to out audit.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by Florida Physician Specialists 401(k) Plan are described in Note 2 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2020. We noted no transactions entered into by the Plan during the year for which there is a lack of authoritative guidance or consensus. There are no significant transactions that have been recognized in the financial statements in a different period than when the transaction occurred.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected.

> Your estimate of the fair value of individual mutual funds is based on an estimate of net asset value by a third party. We evaluated the key factors and assumptions used to develop the fair value of separate pool accounts in determining that it is reasonable in relation to the financial statements taken as a whole.

> Management's estimate of the fair value of individual mutual funds is based on an estimate of value by a publicly traded exchange. We evaluated the key factors and public exchange information used to develop the fair value of securities in determining that it is reasonable in relation to the financial statements taken as a whole.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in performing and completing our audit.

Uncorrected Misstatements

Professional standards require us to accumulate all misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. There were no misstatements.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Other Matters

With respect to the supplementary information accompanying the financial statements, we made certain inquiries of you and evaluated the form, content, and methods of preparing the information to determine that the information complies with the DOL's Rules and Regulations and Disclosure under ERISA, the method of preparing it has not changed from prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to underlying accounting records used to prepare the financial statements or to the financial statements themselves.

This information is intended solely for the use of Trustees and management of Florida Physician Specialists 401(k) Plan and is not intended to be and should not be used by anyone other than these specified parties.

TO THE TRUSTEES OF
FLORIDA PHYSICIAN SPECIALISTS
401(K) PLAN

Except as discussed in the following paragraph, in planning and performing our audit of the financial statements of Florida Physician Specialists 401(k) Plan (the "Plan") as of and for the years ended December 31, 2020 and 2019, in accordance with auditing standards generally accepted in the United States of America, we considered Florida Physician Specialists 401(k) Plan's internal control over financial reporting (internal control) as a basis for designing our auditing procedures that are appropriate in the circumstances for the purpose of issuing our report on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we do not express an opinion on the effectiveness of the Plan's internal control.

We were engaged to perform a DOL limited-scope audit of those financial statements as permitted by 29 CFR 2520-103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Our audit did not include all of the procedures required by auditing standards generally accepted in the United States of America and did not include consideration of internal control relating to the financial information certified by the Trustee to those financial statements. Because of the significance of the information that we did not audit, we were unable to, and did not, express an opinion on those financial statements.

Our consideration of internal control was for the limited purpose described in the preceding paragraphs and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified certain deficiencies in internal control that we consider to be significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the Plan's financial statements will not be prevented, or detected and corrected, on a timely basis.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the following deficiencies in Florida Physician Specialists 401(k) Plan internal control to be significant deficiencies:

Contribution Remittance

The Department of Labor (DOL) requires employee contributions and loan repayments to be remitted within 15 business days. However, the 15-day rule should not be used as a safe harbor. Once the Sponsor has established a time period where contributions can be separated from the Sponsor's funds, this time period is the repaid remittance deadline. Based on our testing, we determined that each office remits contributions at varying frequencies. These late contributions are prohibited transactions as ERISA's position on this is that the employer is making an unauthorized loan from the employees. As a result, we recommend that management implement a company policy where contributions are remitted within 5 business days once withheld from employees' paychecks. Failure to comply with ERISA laws could result in a 15% excise tax to the Plan sponsor.

Remittance of Loan Payments

During our audit of contribution and loan remittances from payroll to trust, we noted that loan amounts were withheld from payroll for various employees throughout the year; however, the monies had not been remitted timely. We recommend management implement policies and procedures to review all participant contributions and loan remittances compared to payroll to ensure that the participant accounts are in agreement with contributions and loans per payroll. Total remittance for loans and contributions per payroll should be traced to the amounts remitted to the trust on a periodic basis.

Improve Controls over the Financial Reporting Process

The Trustee is responsible for establishing and maintaining internal controls and for the fair presentation of the net assets available for benefits, supplementary information, and disclosures in the financial statements, in conformity with U.S. generally accepted accounting principles (GAAP). The Plan does not have a system of internal controls that would enable the Trustee to conclude the financial statements and related disclosures are complete and presented in accordance with GAAP. As such, the Trustee requested us to prepare a draft of the financial statements, including the related footnote disclosures. The outsourcing of these services is not unusual in plans of your size and is a result of the Trustee's cost benefit decision to rely on our accounting expertise rather than incurring this internal resource cost.

During our audit, we also became aware of the deficiencies in internal control other than significant deficiencies or material weaknesses, and the following other matters that are opportunities for strengthening internal controls and operation efficiency:

Monitoring Service Providers' Fees and Disclosures

ERISA Section 408(b)(2) fee disclosure regulations became effective. Such regulations require the plan's covered third-party service providers to disclose the administrative and investment costs associated with providing a plan to its employees. Because the plan's service provider is considered a party-in-interest, its provision of services to the plan and the plan's payment for those services would be considered a prohibited transaction were it not for the statutory exemption allowing a "reasonable contract". Final rules under ERISA Section 408(b)(2) define what would be considered a reasonable contract or arrangement, thereby allowing a plan sponsor and service provider to enter into a contract to provide necessary services for the plan's operation without committing a prohibited transaction.

According to the rules, a service provider must disclose the following information, in writing, to a responsible plan sponsor:

a. A description of the services to be provided.
b. A description of the compensation, direct or indirect, that the provider reasonably expects to receive for such services.
c. A description of whether the compensation is to be charged on a transaction basis or charged against the investment and reflected in the plan's net asset value.
d. A description of compensation expected in case the contract is terminated.
e. A description of compensation, direct or indirect, to be charged for recordkeeping services.
f. A description of how the compensation is to be received.

Such disclosures must be made by the service provider in advance of the date the contract is entered into, extended, or renewed. Because there is no requirement for annual disclosures, the initial disclosure remains adequate until the contract is changed, extended, or renewed. The service provider must provide to the plan administrator the investment information that the administrator must provide to the participants.

Plan management is responsible for monitoring the fees and expenses within the plan to determine whether they are reasonable. During our audit for plan year 2019, we were unable to obtain evidence that management had performed such a review. The failure to comply with these requirements may cause the plan to be considered to be involved in a prohibited transaction, which may result in any or all of the following: (a) excise tax penalties, (b) reimbursement to the plan for excessive fees, and (c) potential plan disqualification. We recommend that plan management develop written policies and procedures for the review of the required disclosures and that such a review be appropriately documented (for example, in the plan's board of director or administrative committee minutes) to support management's conclusion that the plan's covered third-party service provider agreements and related fees are reasonable.

Analyze Plan Fees and Expenses for Reasonableness

During our audit, we noted that supporting documentation and analysis was not readily available for all plan fees and expenses. We recommend that management monitor plan fees and expenses throughout the year to determine whether such fees and expenses are reasonable and in agreement with third-party service agreements. We also recommend that such process be documented.

Review Auditors' Reports on Controls at Third-party Service Organization (SOC 1 Reports)

During our audit, we noted that plan management does not perform a detailed review of the SOC 1 report of The Principal Financial Group. Since The Principal Financial Group processes a significant number of the plan's transactions, plan management should understand the controls at the service organization as part of assessment about whether the plan's internal controls over financial reporting are effective. Management's review should consider whether the description of the service organization's controls listed within the SOC 1 report covers all significant transactions, processes, or computer applications that affect the plan's financial statements. In addition, if the SOC 1 report identifies design deficiencies in the service organization's controls, consideration should be given to the effects of the findings on the plan's financial statements.

Furthermore, plan management should evaluate the design and implementation of relevant controls at the plan sponsor that relate to the services provided by the service organization, including those that are applied to the transactions processed by the service organization. For example, when the plan sponsor initiates transactions and the service organization executes, processes, and records those transactions, the plan sponsor should implement effective controls to assure the completeness and accuracy of data processed by a service organization. Such controls may include a comparison of data submitted to the service organization with reports received from the service organization after the data has been processed, or a recalculation of a sample of participant distributions for accuracy, and compliance with the plan documents. If

effective, such controls, coupled with the controls at the service organization, may enable plan management to conclude the plan sponsor's internal controls over financial reporting have been properly designed and implemented.

To facilitate the understanding of the controls at the service organization, we recommend that management obtain and review a SOC 1 report from The Principal Financial Group's service auditor next year. Once management has obtained an understanding of the controls that The Principal Financial Group's has designed and implemented, it should also determine whether the plan sponsor has effective complementary controls to ensure the (a) proper and complete transmission of data to the service organization, (b) proper processing of data and complete receipt of data from the service organization, and (c) timely reconciliation of data received by the service organization.

We will review the status of these comments during our next audit engagement. We have already discussed many of these comments and suggestions with various Plan personnel, and we will be pleased to discuss them in further detail at your convenience, to perform any additional study of these matters, or to assist you in implementing the recommendations.

This communication is intended solely for the information and use of Plan management and the Trustees of Florida Physician Specialists 401(k) Plan, and is not intended to be and should not be used by anyone other than these specified parties.

Documentation of Parties-in-Interest

During our audit of the Plan's records, it came to our attention that the level of documentation regarding parties-in-interest normally expected with respect to a retirement plan is not present. Although nothing came to our attention causing us to believe that errors may have occurred, sufficient procedural controls do not seem to be in place. For example, we did not find an up to date listing of parties-in-interest, as those terms are defined by the law. This makes it difficult to monitor transactions with those parties to ensure that no prohibited transactions occur. We recommend that the Plan sponsor adopt a written set a policies and procedures designed to mitigate the Plan's risk with regard to identifying parties-in-interest.

This communication is intended solely for the information and use of plan management and trustees of Florida Physician Specialists 401(k) Plan and others within the plan, and is not intended to be and should not be used by anyone other than these specified parties.

Ms. Meaghan Lutz, Manager
Florida Physician Specialists 401(k) Plan
7017 A.C. Skinner Parkway
Jacksonville, Florida 32256

Dear Ms. Lutz:

We recently completed an audit of Florida Physician Specialists 401(k) Plan as of and for the years ended December 31, 2020 and 2019. Based on the results of our audit, we would like to bring to your attention matters that represent opportunities to improve the integrity of the Plan. The specific conditions along with the appropriate recommendations are defined below. This letter does not affect our report dated September 23, 2021.

Trustees Meeting Minutes

Our audit procedures disclosed the fact that although meetings were held, minutes provided were an investment review. Minutes should document changes in the Plan, review of Plan expenses and assistance with participants to be retirement ready.

Participant Retirement Readiness

As a retirement plan sponsor, employers have the responsibility to help their employees achieve retirement readiness. Employee retirement readiness can best be defined as financially prepared employees able to retire without lowering their standard of living.

The following are features of a retirement ready plan:

1. Automatic enrollment of all new participants at a default contribution percentage of at least 3%.

2. An annual automatic increase in participant contribution rates of 1% per year, typically up to a maximum of 10%.

3. Automatic re enrollment each year of participants who opt out at initial enrollment at the time of hire or stop contributing during the year.

4. Requirement of hardship withdrawal criteria in order to take a loan and or reduction in the number of loans available (i.e., not multiple loans for a participant).

5. Roth 401(k) availability to make after tax contributions.

6. An employer match spread over a larger percentage of employee contributions. For example, 25% of the first 12% rather than the standard 50% of the first 6%. The goal of the stretched match is to encourage participants to contribute more.

7. Provide financial Wellness education through your financial advisor for your retirement plan.

8. Provide a mix of actively managed index options that all use for lowest cost share classes available.

9. Provide some sort of investment advice to your participants through the plan's financial advisor.

10. Provide an investment mix that makes available target date funds.

Improve Controls Over Participant Contributions and Timely Distribution

During our audit, we noted that there are several participants that were overfunded in the prior years and classed as employee contributions receivable. Most of the participants had no contribution activity for the plan year resulting in these funds being carried forward as employee contribution receivable to the following year. We recommend the implementation of controls requiring a reconciliation of participants' payroll deferrals to the Plan Sponsor's deposits on a periodic basis and that the difference be investigated by plan management. Also, we recommend that any over funded accounts be reimbursed to the Plan Sponsor prior to year-end.

Management Review of SOC 1 Reports

Third-party service providers perform a significant amount of the processing of plan transactions. Generally a Plan Sponsor must review the procedures at these third-party service providers on a consistent basis as well as review reports produced and assumptions made.

We understand resources are limited given the Company's current operating status and are aware of a lack of multiple levels of accounting personnel. We recommend instituting a policy requiring annual review of the SOC 1 report for the third-party service provider and documentation of the acceptability of the SOC 1 report with regard to the annual assessment by Plan management that controls at the Plan sponsor and service providers are operating in a way to ensure timely and accurate processing of Plan data and also address any noted exceptions and how those exceptions may affect the Plan. Usually prepared annually, a SOC 1 report is useful in assessing the reliability of the third-party's controls over the processing and security of plan and participant data and activity. We also recommend ongoing timely review of reports provided by third-party providers. These controls at the plan sponsor level service to assure proper and complete transmission of data to third parties, proper processing of data and complete receipt of data from third parties and timely reconciliation of data, as necessary.

Role Of A Fiduciary

Fiduciaries, such as yourself, have important responsibilities and are subject to standards of conduct because they act on behalf of participants and their retirement plan and beneficiaries. These responsibilities include:

- Acting solely in the interest of plan participants and their beneficiaries and with the exclusive purpose of providing benefits to them;
- Carrying out their duties prudently;
- Following plan documents;
- Diversifying plan investments; and
- Paying only reasonable expenses.

The Department of Labor considers focusing on the *process* for making fiduciary decisions as being prudent. Therefore, it is wise to document decisions and the basis for those decisions. For instance, in hiring any plan service provider, the fiduciary may want to survey a number of potential providers, asking for the same information (the same requirements). By doing so, a fiduciary can document the process and make a meaningful comparison in selection.

We recommend that the Plan Sponsor establish a formal review process to decide if it wants to continue to use the current service providers or select replacements. This is especially important for the investment advisors.

The Plan Sponsor should review the performance of the investment advisor including education of participants and benchmarking the performance of the plan's assets to other investment alternatives (including considerations of all appropriate fees and expenses paid directly and indirectly) or getting a competitive quote annually.

Analyze Plan Fees and Expenses for Reasonableness

During our audit, we noted that supporting documentation and analysis was not readily available for all plan fees and expenses. We recommend that management monitor plan fees and expenses throughout the year to determine whether such fees and expenses are reasonable and in agreement with third-party service agreements. We also recommend that such process be documented.

We would be glad to further discuss these matters with you and to assist you in their implementation.
