Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of ThyssenKrupp Industrial Solutions (USA), Inc. Retirement Plan; ThyssenKrupp Materials NA, Inc. Pension Plan; ThyssenKrupp Crankshaft Company Retirement Income Plan for Employees Covered by the Bargaining Agreement with the International Union, United Automobile, Aerospace, and Agricultural Implement Workers of America, U.A.W. Local 2128; Rotek Salaried and Florence Hourly Pension Plan; and Rotek Incorporated Pension Plan for Aurora-Ravenna Hourly Employees (collectively, the "Plans"), which comprise the statements of net assets available for benefits - modified cash basis as of December 31, 2020 and 2019 and the related statements of changes in net assets available for benefits - modified cash basis for the years then ended, and the related notes to the modified cash basis financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note 2; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrators instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by The Bank of New York Mellon/BNY Mellon, N.A. (the "Trustee"), except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrators that the Trustee holds the Plans' investment assets and executes related transactions. The plan administrators have obtained certifications from the Trustee as of and for the years ended December 31, 2020 and 2019 that the information provided to the plan administrators is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

To the Plan Administrators
thyssenkrupp North America, LLC

Basis of Accounting

We draw attention to Note 2 to the modified cash basis financial statements, which describes the basis of accounting. The financial statements and supplemental schedules are prepared on a modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Emphasis of Matter

As discussed in Note 3, effective December 31, 2020, approximately \$3,270,000 of net assets available for benefits was transferred into ThyssenKrupp Materials NA, Inc. Pension Plan. Our opinion is not modified with respect to this matter.

Other Matter

The modified cash basis supplemental schedules of assets held at end of year as of December 31, 2020 and reportable transactions for the year ended December 31, 2020 for ThyssenKrupp Industrial Solutions (USA), Inc. Retirement Plan are required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1 - Plan Description

The following description of ThyssenKrupp Industrial Solutions (USA), Inc. Retirement Plan (the "TKIS Plan"); ThyssenKrupp Materials NA, Inc. Pension Plan (the "Materials Plan"); ThyssenKrupp Crankshaft Company Retirement Income Plan for Employees Covered by the Bargaining Agreement with the International Union, United Automobile, Aerospace, and Agricultural Implement Workers of America, U.A.W. Local 2128 (the "Crankshaft Plan"); Rotek Salaried and Florence Hourly Pension Plan (the "Rotek Salary and Florence Hourly Plan"); and Rotek Incorporated Pension Plan for Aurora-Ravenna Hourly Employees (the "Rotek Aurora Hourly Plan") (collectively, the "Plans") provides only general information. Participants should refer to each respective plan's legal documents for a more complete description of each plan's provisions.

General

The Plans were adopted to provide a means by which eligible employees of certain divisions within thyssenkrupp North America, LLC (the "Company") are provided retirement benefits. Certain subsidiaries within the Company act as the sponsor of each individual plan. The Plans are noncontributory defined benefit plans that are subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

All of the Plans are frozen to new participants. Additionally, further accrual of benefits was frozen under the Plans effective as of the dates listed below:

Plan	Benefit Accrual Freeze Date
Crankshaft Plan	September 30, 2010
TKIS Plan	December 31, 2017
Materials Plan	December 31, 2018
Rotek Salary and Florence Hourly Plan (salaried employees only)	December 31, 2018
Rotek Aurora Hourly Plan	January 1, 2019

Subsequent to December 31, 2020, accrual of benefits was frozen for hourly employees participating in the Rotek Salary and Florence Hourly Plan.

Eligibility and Vesting

Employees become fully vested in company-funded accrued benefits upon completion of five years of service. Employees who terminate service before becoming fully vested forfeit all benefits under the Plans. Employees in each of the Plans became fully vested in their accrued benefits as of the date in which benefits were frozen.

Pension Benefits

Normal retirement is permitted at the age of 65. The Plans also permit early retirement based on certain age and credited service requirements. Calculation of benefits is based on a blend of credited service, compensation, and a monthly pension benefit in effect when the years of credited service were earned, as described in the plan documents. The Plans also contain provisions for certain disability, deferred vesting, and surviving spouse benefits.

Death Benefits

In certain circumstances, if an active or terminated employee who has a vested interest in the Plans dies prior to his or her normal retirement age, the surviving spouse or designated beneficiary shall receive a survivor benefit, as defined in the plan documents.

Note 1 - Plan Description (Continued)

Funding Policy

Contributions are made by the plan sponsors in actuarially determined amounts. The Company's policy is to make contributions necessary to satisfy ERISA funding standards. The plan sponsors will also make additional contributions from time to time, with the total not to exceed the maximum contribution deductible under the Internal Revenue Code. Annual contributions meet the minimum funding requirements of ERISA.

The TKIS Plan is further supported by employee contributions. Neither the plan sponsor's contributions nor the plan's assets are allocated for the accounts of individuals; however, records of individual employee contributions are maintained. Prior to January 1, 2006, participants were required to contribute 2.25 percent of their monthly compensation. Participants are fully and immediately vested in these contributions. Present employees' accumulated contributions at December 31, 2020 and 2019 were \$661,636 and \$764,080, respectively, including interest credited at rates of 0.62 percent and 2.03 percent in 2020 and 2019, respectively, compounded annually. Beginning on January 1, 2006, employee contributions are no longer allowed.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying statements have been prepared on the modified cash basis of accounting. Under the modified cash basis of accounting, contributions and investment income (loss) are recognized when cash is received, benefit payments and expenses are recognized when paid, and investments are recognized at fair value.

Investment Valuation

The fair value of each individual plan's interest in the thyssenkrupp North America, LLC Master Trust (f/k/a thyssenkrupp North America, Inc. Master Trust) (the "Master Trust") is based on the beginning of the year value of each individual plan's interest in the investment units held by the Master Trust plus actual contributions and allocated investment income (loss), less actual distributions and allocated administrative expenses.

The common collective trust funds are valued at net asset value per share (NAV) or its equivalent of the funds, which is based on the fair value of the funds' underlying assets.

The government securities and corporate debt securities are valued using quoted market prices or other market data for the same or comparable instruments and transactions in establishing the prices, discounted cash flow models, and other pricing models. These models are primarily industry-standard models that consider various assumptions, including time value and yield curve, as well as other relevant economic measures.

Investments in partnerships are valued at NAV or its equivalent of the funds based on audited financial statements of the funds, where available, with adjustments to account for partnership activity and other applicable valuation adjustments.

The money market funds and interest-bearing cash are valued at fair value based on their outstanding balances.

All other investments are valued based on quoted market prices reported in active markets. See Note 7 for additional information.

Notes to Modified Cash Basis Financial Statements

December 31, 2020 and 2019

Note 2 - Summary of Significant Accounting Policies (Continued)

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable, under each individual plan's provisions, to the service employees have rendered to the valuation date. These include benefits expected to be paid to retired or terminated employees or their beneficiaries, beneficiaries of employees who have died, and present employees or their beneficiaries.

The normal individual retirement benefit is based on a blend of credited service, annualized compensation, and a monthly pension benefit in effect when the years of credited service were earned, as described in the plan documents.

Actuarial Assumptions

The actuarial present value of accumulated plan benefits is determined by the independent actuary, Willis Towers Watson, and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts and interest) and probability of payment (by means of decrements, such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The determinations were made as of January 1, 2020.

The significant actuarial assumptions underlying the actuarial computations at January 1, 2020 are as follows:

TKIS and Materials Plans

- Actuarial cost method: Projected unit cost method
- Interest rate: 6.10 and 6.50 percent, respectively
- Mortality basis: RP-2014 white collar mortality rates at 2012, increased by 8.50 percent and based on employee rates for nonannuitants and annuitant rates for those in payment

Rotek Aurora Hourly and Crankshaft Plans

- Actuarial cost method: Projected unit cost method
- Interest rate: 5.80 and 5.60 percent, respectively
- Mortality basis: RP-2014 blue collar mortality rates at 2011, increased by 10.90 percent and based on employee rates for nonannuitants and annuitant rates for those in payment

Rotek Salary and Florence Hourly Plan

- Actuarial cost method: Projected unit cost method
- Interest rate: 6.10 percent
- Mortality basis (salary participants): RP-2014 white collar mortality rates at 2012, increased by 8.50 percent and based on employee rates for nonannuitants and annuitant rates for those in payment
- Mortality basis (hourly participants): RP-2014 blue collar mortality rates at 2011, increased by 10.90 percent and based on employee rates for nonannuitants and annuitant rates for those in payment

The foregoing actuarial assumptions are based on the presumption that each respective plan will continue. Were any of the Plans to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Notes to Modified Cash Basis Financial Statements

December 31, 2020 and 2019

Note 2 - Summary of Significant Accounting Policies (Continued)

Benefit Payments

Benefits are recorded when paid.

There were no lump-sum payment options offered by the Plans during 2020 and 2019.

Administrative Expenses

Various administrative expenses associated with the Plans were paid by the Company and its affiliates during the years ended December 31, 2020 and 2019.

Risks and Uncertainties

Contributions to the Plans and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. It is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the statements of net assets available for benefits - modified cash basis.

Use of Estimates

The preparation of financial statements in conformity with the modified cash basis of accounting requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including October 5, 2021, which is the date the financial statements were available to be issued.

Note 3 - Plan Merger

Effective December 31, 2020, the Copper and Brass Sales Hourly Rated Employees Retirement Plan (the "C&B Hourly Retirement Plan," a plan sponsored by a subsidiary of the Company) merged into the Materials Plan pursuant to the terms of a plan amendment. Accordingly, assets of approximately \$3,270,000 and participant accumulated plan benefits of approximately \$2,630,000 were transferred into the Materials Plan on this date.

Note 4 - Unaudited Information

The Bank of New York Mellon/BNY Mellon, N.A. (the "Trustee") holds the Master Trust's investments and executes all investment transactions. The investment balances and related investment results included in the accompanying financial statements, including master trust information summarized in Note 6, are based solely on information certified by the Trustee.

Certain assets of the Master Trust are in investment funds managed by The Bank of New York Mellon/BNY Mellon, N.A. or its affiliates. Since The Bank of New York Mellon/BNY Mellon, N.A. is the Trustee of the Plans, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines. The market value of these investments was approximately \$19,000,000 and \$39,000,000 at December 31, 2020 and 2019, respectively.

Note 5 - Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits is determined by the independent actuary, Willis Towers Watson. The actuarial present value of accumulated plan benefits as of January 1, 2020 was as follows:

	TKIS Plan	Materials Plan	Crankshaft Plan	Rotek Salary and Florence Hourly Plan	Rotek Aurora Hourly Plan
Actuarial present value of accumulated plan benefits:					
Vested benefits:					
Participants currently receiving benefit payments	\$ 14,904,818	\$ 11,997,748	\$ 10,286,059	\$ 11,661,555	\$ 6,061,510

Note 5 - Accumulated Plan Benefits (Continued)

During the year ended January 1, 2020, the changes in actuarial assumptions to better reflect anticipated plan experience relate to the following:

- TKIS Plan: Increased by \$1,896,758 as a result of decrease in the discount rate from 6.90 to 6.10 percent
- Materials Plan: Increased by \$2,941,297 as a result of decrease in the discount rate from 7.30 to 6.50 percent
- Crankshaft Plan: Increased by \$924,127 as a result of decrease in the discount rate from 6.50 to 5.60 percent
- Rotek Salary and Florence Hourly Plan: Increased by \$1,692,532 as a result of a decrease in the discount rate from 6.90 to 6.10 percent
- Rotek Aurora Hourly Plan: Increased by \$806,966 as a result of a decrease in the discount rate from 6.70 to 5.80 percent

The effects of the plan merger described in Note 3 are not reflected in the calculation of the Materials Plan's accumulated plan benefits above.

Note 6 - Interest in Master Trust

The Plans' investments are in various investment units held by the Master Trust, which was established for the investment of assets of the Plans and several other pension plans sponsored by affiliated participating employers of thyssenkrupp North America, LLC. The assets of the Master Trust are held by the Trustee. Investment income (loss) is allocated to the individual plans based upon the plan's individual ownership of that associated investment unit. Administrative expenses relating to the Master Trust are allocated to the individual plans based upon their share in the net assets of the Master Trust.

Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based upon month-end balances invested by each plan.

Note 6 - Interest in Master Trust (Continued)

Securities Lending

The Master Trust participates in a securities lending program with the Trustee for its U.S. and non-U.S. securities held in custody with the Trustee. The program allows up to \$100,000,000 of the qualified assets to be on loan at any given time. These securities are lent to certain unrelated third-party brokers in exchange for cash and noncash collaterals. At December 31, 2020 and 2019, U.S. assets on loan were collateralized at 102 percent of the assets' market value. There were no non-U.S. assets on loan at December 31, 2020 and 2019. Both the collateral and the securities loaned are marked to market on a daily basis, with additional collateral obtained or refunded as necessary. In the event that the loaned securities are not returned by the borrower, the bank will, at its own expense, either replace the loaned securities or, if unable to purchase those securities on the open market, credit the plan's accounts with cash equal to the fair value of the loaned securities.

The net assets of the Master Trust reflect, as an asset, the collateral received under the securities lending arrangement, with an offsetting liability representing the Master Trust's obligation to return the collateral to the borrower. The collateral received from borrowers totaled \$19,244,904 and \$39,492,711 as of December 31, 2020 and 2019, respectively. At December 31, 2020 and 2019, substantially the entire balance received consisted of cash collateral, which was invested in a money market fund. The amount of noncash collateral was insignificant to the Master Trust. In the event that a loaned security is called, the Master Trust will receive the market value of the asset in cash. The market value of loaned securities totaled \$18,797,599 and \$38,607,313 at December 31, 2020 and 2019, respectively.

Although the Master Trust's securities lending activities are collateralized as described above, and although the terms of the securities lending agreement with the custodial bank require the bank to comply with government rules and regulations related to the lending of securities held by ERISA plans, the securities lending program involves both market and credit risk. In this context, market risk refers to the possibility that the borrower of securities will be unable to collateralize the loan upon a sudden material change in the fair value of the loaned securities or the collateral or that the bank's investment of collateral received from the borrowers of the Master Trust's securities may be subject to unfavorable market fluctuations. Credit risk refers to the possibility that counterparties involved in the securities lending program may fail to perform in accordance with the terms of their contracts.

Derivative Instruments

The Master Trust is party to certain agreements that are designed to manage exposure to foreign exchange and interest rate risks. The interest rate and foreign currency instruments are used for the purpose of hedging changes in the fair value of assets and the actuarial present value of accumulated plan benefits that result from interest rate changes and currency fluctuations or as an efficient substitute for traditional securities. The notional amount of interest rate instruments was approximately \$14,740,000 and \$13,440,000 at December 31, 2020 and 2019, respectively. Management has elected to present derivative information on a gross basis when subject to master netting arrangements. The estimated fair value of derivative instruments at December 31, 2020 and 2019 is insignificant. For the years ended December 31, 2020 and 2019, gains and losses of \$1,472,897 and \$(1,413,960), respectively, attributable to derivative instruments were recognized as investment income in the statements of changes in net assets available for benefits - modified cash basis.

The investment managers, on behalf of the Master Trust, manage its foreign currency and interest rate counterparty credit risks by limiting exposure to and by monitoring the financial condition of each counterparty. In the unlikely event that a counterparty fails to meet the terms of a foreign currency or an interest rate instrument, the Master Trust's risk is limited to the fair value of the instrument offset by the value of any collateral held.

Note 7 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Master Trust has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Master Trust's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following tables present information about the Master Trust's assets measured at fair value on a recurring basis at December 31, 2020 and 2019:

Investments in Entities that Calculate Net Asset Value per Share

The Master Trust holds shares or interests in investment companies at year end where the fair value of the investment held is estimated based on the net asset value per share (or its equivalent) of the investment company.

At December 31, 2020 and 2019, the fair value, unfunded commitments, and redemption rules of those investments are as follows:

	2020	2019		Redemption Frequency, if Eligible	Redemption Notice Period (in Business Days)
	Fair Value	Fair Value	Unfunded Commitments		
Common collective trust funds:					
Equity investments (1)	\$ 165,319,795	\$ 156,444,358	\$ -	Daily	1-2

- (1) This class represents investments in actively managed common collective trust funds that invest primarily in equity securities, which may include common stocks, options, and futures.
- (2) This class represents investments in actively managed common collective trust funds with investments in both equity and debt securities. The investments may include common stock, corporate bonds, U.S. and non-U.S. municipal securities, interest rate swaps, options, and futures.
- (3) GMO Multi-Strategy Fund (Offshore), L.P. invests in various investment funds seeking a variety of investment strategies, including common stock, depository receipts, bonds (including sovereign debt of emerging countries), commodities, currencies, forwards, futures, options, and swap agreements.

Notes to Modified Cash Basis Financial Statements

Note 7 - Fair Value Measurements (Continued)

- (4) Western Asset Global Multi-Strategy, LLC invests primarily in global fixed-income securities in both developed and emerging market countries that are generally rated at least BBB by Standard & Poor's or equivalent quality.
- (5) RBC Emerging Markets Equity Series invests primarily in equity securities of issuers tied to emerging market countries that are considered by the series to have the potential to provide long-term capital growth.

The TKIS Plan also invests in a money market fund. The fair value of the money market fund, a short-term investment, is based primarily on Level 2 inputs, as described above and in Note 2.

Note 8 - Tax Status

The Plans have each received a determination letter from the Internal Revenue Service indicating that each plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Accordingly, no provision for income taxes has been made in the accompanying financial statements. Although certain plans have been amended since receiving the determination letters, management believes that each plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note 9 - Plan Termination

Should any of the Plans terminate at some future time, the respective plan's net assets generally will not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

Administrative expenses The amount included this year for plan-related expenses is \$294,502. The method for determining administrative expenses remains the three-year average of non-PBGC related administrative expenses plus the current year's PBGC premium.

Demographic Assumptions

Inclusion date The valuation date coincident with or next following the date on which the employee becomes a participant.

New or rehired employees It was assumed there will be no new or rehired employees.

Mortality

■ **Healthy** For non-annuitants, IRS-prescribed fully generational mortality table based on the RP/MP-2014 Society of Actuaries study and subsequent updates (including, for 2020 plan years, the use of the MP-2018 mortality improvement scale).

For annuitants, plan specific mortality has been approved by the IRS.

■ **Disabled** Same as healthy.

Retirement

For purposes of determining the Funding Target and Target Normal Cost (both disregarding at-risk assumptions), the rates at which participants retire by age and gender are shown below.

Male and Female	
Attained Age	Rates
50-54	3.5%
55-61	3.5%
62	35.0%
63-64	10.0%
65	100.0%

Rates between 50 and 54 apply only to Steel employees with at least 80 points (age plus service). The weighted average retirement age is 63.

Benefit commencement date:

- Preretirement death benefit The later of the death of the active participant or the date the participant would have attained age 55
- Deferred vested benefit Upon termination of employment
- Disability benefit Upon disablement
- Retirement benefit Upon termination of employment

Form of payment

Active participants:

100% of participants are assumed to elect a lump sum.

Deferred vested participants:

50% of participants are assumed to elect a lump sum and 50% of participants are assumed to elect an annuity.

Actuarial value of assets for determining minimum required contributions

Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year.)

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued based on discussions with thyssenkrupp Materials NA, Inc. regarding the likelihood that these benefits will be paid. Willis Towers Watson has reviewed the plan provisions with thyssenkrupp Materials NA, Inc. and, based on that review, is not aware of any significant benefits required to be valued that were not.

Data Sources

Willis Towers Watson used asset data supplied by the trustee. thyssenkrupp Materials NA, Inc. furnished participant data as of the valuation date. Data were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the company, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale – Significant Economic Assumptions

Discount rate

The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.

**Lump sum
conversion rate**

As required by IRC §430, lump sum benefits are valued using “annuity substitution”, adjusted as required to account for the fact that the plan’s lump sum conversion rate is based on the 30-year Treasury rate. This adjustment results in an expected lump sum conversion rate of 2.60% based on historical Treasury rates.

Assumptions Rationale – Significant Demographic Assumptions

Healthy Mortality

Assumptions used for funding purposes are as prescribed by IRC §430(h), with the exception of annuitant mortality, for which a plan specific table is used.

Disabled Mortality

Same as healthy.

Termination

Termination rates are based on plan sponsor expectations for the future with periodic monitoring of observed gains and losses caused by termination patterns different than assumed.

Assumed termination rates differ by age gender because of expected differences in termination rates by age and gender.

Retirement

Retirement rates are based on plan sponsor expectations for the future with periodic monitoring of observed gains and losses caused by retirement patterns different than assumed.

Form of payment

The percentage of retiring participants assumed to take lump sums is based on observed experience over recent periods with annual review.

The percentage of retiring participants assumed to take joint and survivor annuities is based on observed experience over recent periods with annual review.

Percent married

The assumed percentage married is based on a blending of marital statuses of recent retirees and changes expected to occur in marriage patterns of retirement age individuals in the future.

Spouse age

The assumed age difference for spouses is based on general population statistics of the age difference for married individuals of retirement age.

Source of Prescribed Methods

Funding methods The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law,” as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions since prior valuation

- The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of September 2018 to September 2019 and reflect the interest rate corridors of HATFA to determine minimum funding requirements and benefit restrictions. However, as required by MAP-21, such rates have not been reflected in Section 2.5: Calculation of estimated maximum deductible contribution.
- The mortality used to calculate the funding target and target normal cost was updated as described above.
- For the prior year, lump sums were determined using a 2.70% fixed interest rate, and segment rates of 2.21%, 3.96% and 4.68%. For the current year, the interest rate assumption was changed as described above.
- The assumed plan-related expenses added to the target normal cost was changed from \$682,569 to \$294,502.

Change in methods since prior valuation None.

Model Descriptions and Disclosures (in accordance with ASOP No. 56)

Quantify

Quantify is the Willis Towers Watson centrally developed, tested and maintained Global actuarial valuation system. It is used to perform valuations of clients' benefit plans.

Quantify provides the ability to process data, calculate benefits and value benefit liabilities, develop results using applicable standards, and generate client reports.

Quantify parameters provide significant flexibility to model populations and plan designs. Various demographic, economic and benefit related assumptions exist for users to model multiple demographic and economic situations.

Plan liabilities are calculated based on standard actuarial techniques, developing actuarially reasonable results using the population and parameters entered. The calculation and presentation of liabilities in Quantify relies on the assumptions used and the reasonability of the assumptions selected.

Quantify incorporates standard liability methodologies that are intended to reasonably reflect a variety of economic or demographic conditions. The model itself does not evaluate any assumptions entered for reasonableness, consistency or probability of occurrence.

Quantify is designed specifically for these purposes, and we know of no material limitations that would prevent the system from being suitable for these intended purposes. The actuaries signing this report have relied on the actuaries who develop, test and maintain this system, and have also performed a limited review of results to ensure that system parameters have been set appropriately and plan provisions coded correctly.

Published Demographic Tables

Certain demographic tables described above are standard published tables or are based on standard published tables from models developed by organizations with the requisite expertise.

Plan Compensation

Steel & Auto

Pensionable pay defined as Total Compensation, excluding imputed taxable income and perquisites; "Highest Average Compensation" defined as average Compensation over the five consecutive calendar years during which participant was compensated on a salaried basis, which produces the highest average. Compensation for this purpose is W-2 pay, including elective contributions and excluding in-kind payments, perquisites and company contributions to other benefit plans. For accruals between January 1, 1989 and December 31, 1993, compensation limited to \$235,840. For accruals between January 1, 1994 and December 31, 2001, compensation limited to \$150,000 per year, subject to cost-of-living adjustments. For accruals after January 1, 2002, compensation limited to \$200,000 per year, subject to cost-of-living adjustments.

Copper & Brass Salaried

Pensionable pay is base pay, which excludes overtime, bonuses, imputed taxable income and prerequisites ("Base Salary"). Compensation for accruals between January 1, 1994 and December 31, 2001 is limited to \$150,000 per year, subject to cost-of-living adjustments. Compensation for accruals after January 1, 2002 is limited to \$200,000, subject to cost of living adjustments.

For Participants classified as "Outside Sales Personnel" compensation shall mean the Participant's Total Recognized Compensation ("TRC"). The Participant's TRC is the Participant's "Base Salary" plus the Participant's commissions up to his Maximum Recognized Commissions ("MRC"). The MRC is that portion of the commissions that does not cause the sum of his commissions plus his Base Salary for the current year to exceed his TRC for the previous year. Beginning October 1, 2005, the Participant's MRC shall be increased each year by two percent (2%) of the Participant's TRC for the previous year.

All benefits were frozen as of 12/31/2018.

For Service on or after January 1, 1994:

1.2% of Highest Average Compensation (HAC) up to Covered Compensation (at later of termination or calculation) plus 1.45% of such average in excess thereof, all multiplied by up to 35 years of service (reduced by length of service credited before 1994). HAC is the highest 5 consecutive year average with annual compensation limited to \$150,000 (indexed) after 1993 and before 2002; limited to \$200,000 (indexed) after 2001.

For Service between January 1, 1989 and December 31, 1993:

1.2% of HAC up to Covered Compensation (for 1993) plus 1.45% of such average in excess thereof, all multiplied by up to 35 years of service (reduced by length of service credited before 1989). Compensation for all Pre-1994 years for this benefit accrual period is limited to \$235,840.

Note: For purposes of this section, HAC is the highest 5 consecutive year average as of December 31, 1993, with annual compensation limited to \$235,840, multiplied by the ratio (not less than 1) of the highest annual compensation earned after 1993 (limited as in the post 1993 benefit formula) to the 1993 compensation (annualized if partial year of pay) limited to \$235,840.

For Service prior to 1989:

26% of Highest Average Compensation up to Social Security Covered Compensation plus 50% of such average in excess of Social Security Covered Compensation (for 1988), reduced proportionately for less than 25 years projected service at age 65. Such benefit is then prorated based on the ratio of credited service at 12/31/1988 to projected credited service at age 65. (The 25-year amount is only 15 years for participants as of 7/01/1976.)

Note: For purposes of this section, HAC is the highest 5 consecutive year average as of December 31, 1988, multiplied by the ratio (not less than 1) of the highest annual compensation earned in the period from 1989 through 1993, limited to \$235,840, to the 1988 unlimited compensation (annualized if partial year of pay); and then multiplied by the ratio (not less than 1) of the highest annual compensation earned after 1993 (limited as in the

Copper & Brass Salaried

All benefits were frozen as of 12/31/2018.

Former Salaried Plan Proper:

1.45% of Compensation earned in each calendar year after 1988, plus benefit accrued as of 12/31/88.

Former FitzSimons Manufacturing Plan:

\$23.00 per month per year of service (effective for terminations on or after September 16, 1995).

Former Big Rapids Tube Division Plan:

\$13.00 per month per year of service (effective for terminations on or after January 1, 1994).

Former Vanguard Plan Benefit:

Participants previously covered for Vanguard plan benefits receive additional amount of 33% of frozen final average pay (highest 60-month average prior to 1984 for salaried employees, or 1990 for hourly employees) prorated for credited service less than 15 years. Such benefit is converted from a 10-year certain and life option to a life only option prior to combining with the regular benefit.

The additional Vanguard Plan benefit is based on service projected to age 65 (limited to 15 years), then prorated based on the ratio of (unlimited) service at termination date to (unlimited) service projected to age 65.

Copper & Brass Salaried – Pre-January 1, 2004 Terminations

Accrued normal retirement benefit determined as in Accrued Normal Retirement Benefit and reduced by 5/9% for each month that commencement precedes age 62 down to age 55. Actuarially equivalent reduction (based on the normal form of payment) is applied for commencement prior to age 55.

Vested Deferred Benefit

Accrued benefit payable at age 65, or reduced for early commencement at any age. Reduction is actuarially equivalent, based on the normal form of payment.

Disability Retirement Benefit

Accrued Normal Retirement Benefit, with continuing benefit accruals during the period of disability leave assuming that Compensation remains at the level in effect in the calendar year prior to disability.

Pre-Retirement Death Benefit

50% of the pension he would have been eligible to receive had the participant retired on the first day of the month in which he died. There is no charge for coverage.

Joint & 50%, 55%, 66-2/3%, 75% or 100% Survivor

Ten- Year Certain & Life

Lump Sum

Actuarial equivalence for annuity options is based on a 7.5% interest rate and the 1983 GAM (unisex) table. Lump sum distributions are based on the GATT rate for the December preceding payment, rounded down to the next lowest 0.5%, using the 1983 GAM (unisex) mortality table for lump sums prior to 2003, and the RR2001-62 mortality table beginning in 2003. The lump sum will reflect the normal form of payment. Lump sums for participants eligible for early retirement are based on the accrued benefit reduced for immediate payment, otherwise based on the accrued benefit deferred to age 65.

Future Plan Changes

No future plan changes were recognized in determining minimum and maximum contributions.

Changes in Benefits Valued Since Prior Year

Schedule SB, Line 23 Information on Use of Multiple Mortality Tables

Different mortality tables were used for before and after retirement. Per instructions, Item 23 reflects that the annuitant mortality will apply to the entire population. Below is the break out of the current population.

Population description	Population size	Mortality table
Non-annuitants (Active employees and participants with deferred benefits)	485	Pre-retirement: IRS prescribed fully generational table based on the RP/MP-2014 Society of Actuaries study and subsequent updates (including, for 2020 plan years, the use of the MP-2018 mortality improvement scale). Post-retirement: Plan specific mortality approved by the IRS

Schedule SB, Line 23 Information on Use of Substitute Mortality Tables

Substitute mortality tables are used for the following plan populations:

Mortality is assumed to occur according to a plan-specific substitute mortality table with separate male and female rates, as approved by the IRS in 2018 for valuations for the 2019 through 2028 plan years. The mortality rates are applied to all annuitants (including disabled annuitants). The prescribed tables apply for non-annuitants (including disabled non-annuitants). The tables were developed based on the mortality experience of the annuitant populations for qualified defined benefit pension plans sponsored by thyssenkrupp North America, Inc. for the period January 1, 2012 through December 31, 2016. The tables are generational, based on the IRS-prescribed projection scale MP-2018, with a base year of 2014. The table below presents illustrative rates for the base year.
