Independent Auditor's Report

To the Plan Administrator
The Chart Pension Plan
Ball Ground, Georgia

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2020 Financial Statements

We have performed an audit of the financial statements of The Chart Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statement of net assets available for benefits as of December 31, 2020 and 2019, and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements (2020 financial statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2020 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained a certification from a qualified institution as of December 31, 2020, and for the year then ended, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion on the 2020 Financial Statements

In our opinion, based on our audit and the procedures performed as described in the *Auditor's Responsibilities for the Audit of the 2020 Financial Statements* section of our report

- the amounts and disclosures in the accompanying 2020 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP); and
- the certified investment information in the accompanying 2020 financial statements agree to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2020 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the 2020 Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2020 Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2020 Financial Statements* section of our report, our objectives are to obtain reasonable assurance about whether the 2020 financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2020 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the 2020 financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – 2020 Supplemental Schedules Required by ERISA

The 2020 supplemental schedules of Schedule H, line 4i—Schedule of Assets (Held at End of Year) and Schedule H, line 4j—Schedule of Reportable Transactions are presented for purposes of additional analysis and are not a required part of the 2020 financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the 2020 financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the 2020 financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the 2020 financial statements or to the 2020 financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the certified investment information in the supplemental schedules agrees to, or are derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Other Matter – Report on the 2019 Financial Statements

We were engaged to audit the statement of net assets available for of the Plan as of December 31, 2019. As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information certified by the qualified institution. Our audit report, dated October 12, 2020, indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an opinion and accordingly, we did not, express an opinion on the financial statements, and (b) the form and content of the information included in the 2019 financial statements other than that derived from the information certified by the qualified institution, were presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Notes to Financial Statements

1. Description of the Plan

The following description of The Chart Pension Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan is a noncontributory defined benefit pension plan and is subject to the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended. The Plan provides for pension and postretirement death benefits for hourly employees of the former Chart Heat Exchangers Limited Partnership (formerly ALTEC International Limited Partnership) (“Heat Exchangers”), which is today, the LaCrosse, WI operation of Chart Energy & Chemicals, Inc., a wholly owned subsidiary of Chart Industries, Inc. (the “Company”). On March 31, 1998, the Plan was frozen, and participants do not accrue service or earnings for benefit payment calculation purposes subsequent to that date. The Plan is sponsored by the Company.

In addition, the Plan incorporates the provisions of the following merged plans: Greenville Tube Corporation Pension Plan for Salaried Employees (“GTC Pension Plan”); Chart, Inc. Retirement Income Plan (“RIP Pension Plan”); and Chart, Inc. Service Related Pension Plan (“SRPP Pension Plan”).

Greenville Tube, LLC, a wholly owned subsidiary of the Company, provided for retirement, death, and disability benefits for substantially all employees of the Greenville, Pennsylvania and Clarksville, Arkansas facilities. On July 31, 2003, the GTC Pension Plan was frozen, and participants do not accrue service or earnings for benefit payment calculation purposes subsequent to that date.

The RIP Pension Plan covered eligible executive, managerial, office, technical, administrative, professional, clerical, and sales employees at Chart Inc.’s former Burnsville, Minnesota and New Prague, Minnesota facilities who completed 1,000 hours of service during a twelve-month period. Chart Inc. is a wholly owned subsidiary of the Company. Effective December 31, 2004, the RIP Pension Plan was frozen, and participants do not accrue service or earnings for benefit payment calculation purposes subsequent to that date.

The SRPP Pension Plan covered substantially all hourly employees at Chart Inc.’s former Burnsville, Minnesota and New Prague, Minnesota facilities, and provided for retirement, death, and disability benefits. Effective February 28, 2006, the SRRP Pension Plan was frozen, and participants do not accrue service or earnings for benefit payment calculation purposes subsequent to that date.

Funding Policy

The Plan’s funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. The Company’s contributions have met the ERISA minimum funding requirements for 2020 and 2019.

Although it has not expressed any intention to do so, the Company has the right under the plan to discontinue its contributions at any time and to terminate the plan subject to the provisions set forth in ERISA.

Notes to Financial Statements

Plan Benefits

Participants are entitled to a monthly benefit based on their participation in the merged plans prior to the respective plan merger:

The Chart Pension Plan (formerly Chart Heat Exchangers Pension Plan)

Participants are entitled to a monthly benefit based on years of past benefit service multiplied by the applicable benefit rate. Participants who retire with 15 or more years of benefit service are also entitled to a monthly retirement supplement. Early retirement is permitted at ages 55 through 64 with a reduced benefit based on the months by which payment commenced prior to the participant's normal retirement date.

Pension benefits fully vest upon completion of five years of service. Participants who terminate employment prior to their normal retirement date and after the completion of five years of service are entitled to vested pension benefits payable at their normal retirement date. Upon death of a participant, the surviving eligible spouse is entitled to 50 percent of the accrued benefit that would have been payable to the participant.

Greenville Tube Corporation Pension Plan for Salaried Employees

Salaried participants are entitled to a monthly benefit based on the sum of (1) 1.25 percent of the participant's average compensation multiplied by the participant's total years of credited service, and (2) 0.6 percent of the participant's average compensation in excess of one-twelfth of covered compensation multiplied by the participant's total years of credited service after January 1, 1999, up to a maximum of 35 years. Hourly participants are entitled to a monthly benefit based on the sum of (1) four dollars multiplied by years of credited service as of December 31, 1988, and (2) 1.25 percent of the participant's average compensation multiplied by the participant's total years of credited service after January 1, 1989, plus 0.6 percent of the participant's average compensation in excess of one-twelfth of covered compensation multiplied by the participant's total years of credited service after January 1, 1999, up to a maximum of 35 years. Early retirement is permitted at ages 55 through 64 with a reduced benefit based on the months by which payment commenced prior to the participant's normal retirement age.

Pension benefits fully vest upon completion of five years of service. Participants who terminate employment prior to their normal retirement date and after completion of five years of service are entitled to vested pension benefits payable at their normal retirement date. Upon death of a participant, the surviving eligible spouse is entitled to 100 percent of the accrued benefit that would have been payable to the participant under the joint and full survivor annuity, unless the participant elected otherwise.

Chart, Inc. Retirement Income Plan

Participants are entitled to a monthly benefit based on the sum of (1) 1 percent of the participant's average compensation multiplied by the total years of credited service, and (2) the excess, if any, of (a) over (b), where (a) equals 0.5 percent of the participant's average compensation multiplied by credited service, and (b) equals 1.5 percent of the primary social security benefit multiplied by credited service, up to a maximum of 50 percent of the primary social security benefit. Early retirement is permitted at ages 55 through 64 with a reduced benefit based on the months by which payment commenced prior to the participant's normal retirement date.

The Chart Pension Plan

Notes to Financial Statements

Pension benefits fully vest upon completion of five years of service. Participants who terminate employment prior to their normal retirement date and after completion of five years of service are entitled to vested pension benefits payable at their normal retirement date. Upon death of a participant, the surviving eligible spouse is entitled to 50 percent of the accrued benefit that would have been payable to the participant under the joint and one-half survivor annuity, unless the participant elected otherwise.

Chart, Inc. Service Related Pension Plan

Participants are entitled to a monthly benefit based on years of past benefit service multiplied by the applicable benefit rate, up to a maximum of 40 years of credited service. Early retirement is permitted at ages 55 through 64 with a reduced benefit based on the months by which payment commenced prior to the participant's normal retirement date.

Pension benefits fully vest upon completion of five years of service. Participants who terminate employment prior to their normal retirement date and after completion of five years of service are entitled to vested pension benefits payable at their normal retirement date. Upon death of a participant, the surviving eligible spouse is entitled to 50 percent of the accrued benefit that would have been payable to the participant under the joint and one-half survivor annuity, unless the participant elected otherwise.

In addition, for all merged plans, benefits are paid to participants without an eligible spouse in the form of a life-only pension, unless a different payment option has been elected. Participants have the option of electing to have benefits paid in the form of a life annuity with ten years certain or a joint and 100 percent, 66⅔ percent, or 50 percent survivor annuity.

2. Summary of Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Accounting Standards Adopted in 2020

In August 2018, the FASB issued ASU No. 2018-13, Technical Corrections and Improvements to Financial Instruments - Overall ("ASU 2018-13"), which requires an entity to modify its disclosures on fair value measurements. The provisions of ASU 2018-13 are effective for fiscal years (and interim reporting periods within those years) beginning after December 15, 2019. The amendments on changes in unrealized gains and losses, the range and weighted average of significant unobservable inputs used to develop Level 3 fair value measurements,

and the narrative description of measurement uncertainty are required to be applied prospectively beginning in the first reporting period in which the guidance is effective. All other amendments should be applied retrospectively to all periods presented upon their effective date. We adopted the amendments as required in the year ended December 31, 2020. The provisions of ASU 2018-13 were not material to the Plans' financial statements.

The Chart Pension Plan

Notes to Financial Statements

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation/(depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments are recorded upon distribution.

Administrative Expenses

Substantially all Plan expenses were paid by the Plan. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation/depreciation of fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

3. Actuarial Present Value of Accumulated Plan Benefit Obligations

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions for service rendered by the employees through the date the respective plan was frozen (see Notes 1 and 3). Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included to the extent they are deemed attributable to employee service rendered through the date the respective plan was frozen.

Consulting actuaries from MassMutual estimated the actuarial present value of accumulated plan benefits at December 31, 2019, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The Chart Pension Plan

Notes to Financial Statements

The accumulated plan benefit information at the beginning of the Plan year is as follows:

<i>December 31,</i>	<i>2019</i>
Actuarial present value of accumulated plan benefits	
Vested benefits	
Participants currently receiving payments	\$ 23,511,867
Participants entitled to deferred benefits	7,941,370
Other participants	7,443,350
Total vested benefits	38,896,587
Non-vested benefits	148,929
Total actuarial present value of accumulated plan benefits	\$ 39,045,516

The changes in accumulated plan benefits were as follows:

<i>Year Ended December 31,</i>	<i>2019</i>
Actuarial present value of accumulated plan benefits, beginning of year	\$ 39,353,576
Increase (decrease) during the year attributed to:	
Passage of time increase	2,764,267
Benefits paid	(2,495,163)
Other	(577,164)
Total decrease	(308,060)
Actuarial present value of accumulated benefits, end of year	\$ 39,045,516

The more significant assumptions underlying the actuarial computations are as follows:

Factor	Assumption
Interest rate	7.25%
Actuarial cost method	Unit Credit
Retirement age	80 percent of participants are assumed to retire at age 62, the remainder retire at normal retirement age or age on the valuation date, if greater, for former Chart Heat Exchangers participants; age 65 for the former GTC participants; the earlier of normal retirement age or age plus service equal to 98 (not earlier than age 55) for former RIP participants; age 62 for the former SRPP participants.
Mortality basis	Pri-2012 Blue Collar mortality tables for annuitants and non-annuitants, projected fully generationally using Scale MP-2020 except for RIP which uses No Collar. For beneficiaries of deceased participants, the Pri-2012 Blue Collar mortality tables for contingent annuitants, projected fully generationally using Scale MP-2020 except for RIP which uses No Collar.

The Chart Pension Plan

Notes to Financial Statements

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2020. Had the valuation been performed as of December 31, there would be no material differences.

4. Plan Termination

The Company reserves the right to discontinue contributions under the Plan and to terminate the Plan in whole or in part with respect to a specific group of employees. In the event of full or partial termination, employees affected thereby shall have a nonforfeitable right to their accrued benefits, to the extent funded. The Administrator, upon termination, shall cause the assets of the Plan to be allocated for the purposes set forth, and in the order of priorities established by Section 4044 of ERISA. Any residual assets remaining thereafter shall be returned to the Company. The Company shall not be liable to participants for benefits other than those which can be provided by the Plan's assets.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

5. Fair Value Measurements

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets,
- Quoted prices for identical or similar assets or liabilities in inactive markets,
- Inputs other than quoted prices that are observable for the asset or liability, and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 inputs must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The Chart Pension Plan

Notes to Financial Statements

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Pooled Separate Accounts - Stated at fair value as determined by the issuer of the pooled separate accounts based on the net asset value ("NAV") of the underlying investments. The NAV, as provided by MassMutual, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the funds less its liabilities. This practical expedient is not used when it is determined to be probable that the funds will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the pooled separate accounts, the investment adviser reserves the right to temporarily delay withdrawal from the funds in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following table summarizes investments for which fair value is measured using the practical expedient as of December 31, 2020 and 2019, respectively. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan:

	Fair Value		Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
Investments measured at net asset value	2020	2019			
Pooled separate accounts:

(h) Large Value	4,246,516	4,094,133	n/a	Daily	n/a
(i) Mid-Cap Blend	5,948,126	4,295,284	n/a	Daily	n/a
(j) Small Blend	4,976,520	2,537,676	n/a	Daily	n/a
(k) World Bond	-	2,774,135	n/a	Daily	n/a
Investments measured at net asset value	\$ 52,124,822	\$ 48,811,449			

^(a)The investment seeks capital appreciation.

^(b)The investment seeks long-term capital appreciation. The fund invests primarily in a diversified portfolio of common stocks of non-U.S. companies.

^(c)The investment seeks long-term growth of capital. The fund invests primarily in common stocks of issuers in Europe and the Pacific Basin that the investment adviser believes have the potential for growth.

^(d)The investment seeks to maximize current income; and capital appreciation is a secondary objective.

^(e)The investment seeks a high and stable rate of current income, consistent with long-term preservation of capital.

^(f)The investment seeks to approximate as closely as practicable (before fees and expenses) the capitalization-weighted total rate of return of that portion of the U.S. market for publicly traded common stocks composed of larger-capitalized companies.

^(g)The investment seeks long-term capital growth.

^(h)The investment seeks current income, growth of capital and conservation of principal.

⁽ⁱ⁾The investment seeks total return before fees and expenses that corresponds to the total return of the Standard & Poor's (S&P) MidCap 400® Index.

^(j)The investment seeks long-term appreciation consistent with reasonable risk to principal.

^(k)The investment seeks current income with capital appreciation and growth of income.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Chart Pension Plan

Notes to Financial Statements

6. Information Certified by MassMutual

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, MassMutual has certified that the following data included in the accompanying financial statements and supplemental schedules is complete and accurate for the years ended December 31, 2020 and 2019.

<i>December 31,</i>	<i>2020</i>	<i>2019</i>
Pooled separate accounts	\$ 52,124,822	\$ 48,811,449
Guaranteed interest account, at contract value	\$ 1,808,666	\$ 309,299

<i>Year ended December 31,</i>	<i>2020</i>	<i>2019</i>
Net appreciation in fair value of investments	\$ 6,582,170	\$ 8,873,704
Interest income from guaranteed interest account	\$ 25,681	\$ 28,779

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information with the related information included in the financial statements and supplemental schedules.

7. Investment Contract with MassMutual

The Plan has a guaranteed interest account ("GIA") contract with MassMutual, which is a fully benefit-responsive stable value investment with a guaranteed rate of return and principal that is backed by MassMutual. The account is credited with 100 percent of employer contributions to the Plan that are then allocated between the pooled separate accounts and the GIA. The account is charged for benefits paid to participants and administrative expenses. The guaranteed interest account issuer is contractually obligated to repay the principal and a specified rate that is guaranteed to the Plan.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The guaranteed interest rate is established on a semi-annual basis for deposits received during a specified period and an annual minimum interest rate was also established to remain in effect for each year of the agreement.

This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by MassMutual, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include, but may not be limited to, the following: (1) the complete or partial termination of the Plan; (2) the establishment or activation of, or material change in, any Plan investment fund, or an amendment to the Plan or a change in the administration or operation of the Plan, including the removal of a group of employees from Plan coverage as a result of the sale or liquidation of a subsidiary or division or as a result of group layoffs or early retirement programs. The plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The Chart Pension Plan

Notes to Financial Statements

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits. There were no investments that exceeded 10% of the total net assets available for benefit as of December 31, 2020.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would-be material to the financial statements.

The effects of the novel strain of coronavirus ("COVID-19") pandemic and the related actions by governments around the world to attempt to contain the spread of the virus have impacted economies and global financial markets. Due to the COVID-19 pandemic, the value of the Plan's investments has been subject to significant volatility. As a result of the uncertainties surrounding COVID-19, the impact on the Plan's liquidity cannot be reasonably estimated at this time.

9. Income Tax Status

The Plan obtained its latest determination letter on August 28, 2020, in which the IRS states that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the tax authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

10. Related Party and Party-in-Interest Transactions

Plan investments are managed by MassMutual. MassMutual is the record keeper as defined by the Plan and, therefore, transactions therewith qualify as party-in-interest transactions. Fees paid by the Plan to MassMutual amounted to \$95,500 and \$95,000 for the years ended December 31, 2020 and 2019, respectively.

11. Subsequent Events

The Plan has evaluated subsequent events from the date of the Statement of Net Assets Available for Benefit through October 13, 2021, the date which the financial statements were available to be issued. There were no material recognizable subsequent events, except as follows.

In 2018, the Company acquired SmithCo and became the Plan Sponsor of Retirement Plan for Union Employees of SmithCo Engineering ("SmithCo Plan"). Effective February 28, 2021, the Plan was amended to merge the SmithCo Plan into the Chart Plan. As a result of the merger, the Plan's net assets increased by approximately \$2,400,000.

Schedule C Soft Dollar Compensation Eligible Indirect Compensation (“EIC”) Statement

Mutual fund investments with a retirement plan (whether held directly or indirectly through a separate investment account) can have soft dollar arrangements pursuant to which the investment advisor or sub-advisor of the mutual fund (and/or its affiliates) may direct trades to certain brokers in exchange for research and other services. The Securities and Exchange Act of 1934 contains guidance regarding the use of soft dollar arrangements.

For plans that invest directly or indirectly in the MassMutual Premier or Select Funds, soft dollar compensation is disclosed on the Schedule C and the Schedule C Formula Description and/or EIC Statement Description Attachment. For all other mutual funds, a Schedule C Soft Dollar Compensation Disclosure Attachment is provided and should be filed along with the Form 5500.

For additional information regarding soft dollar compensation, refer to the respective mutual fund’s Statement of Additional Information (“SAI”) for details regarding brokerage allocation and other practices. SAI’s are posted on the Plan Sponsor website in the Investments Publications section.

- (2) The excess, if any, of (a) over (b):
 - (a) 0.5% of Average Compensation multiplied by Credited Service; and
 - (b) 1.5% of Primary Social Security Benefit multiplied by Credited Service (up to a maximum of 50% of the Primary Social Security Benefit).

The Accrued Benefit of the Retirement Plan shall be frozen as of December 31, 2004.

For Service Plan, the Benefit Rate in accordance with the following chart, multiplied by such Participant's Credited Service (up to a maximum of 40 years of Credited Service). The Accrued Benefit of the Service Plan shall be frozen as of February 28, 2006.

Termination Date	Benefit Rate
Prior to March 1, 2001	\$10.00 for Credited Service prior to March 1, 1989
	\$13.05 for Credited Service from March 1, 1989-March 1, 1995
	\$20.00 for Credited Service from March 1, 1995-March 1, 2001
On or after March 1, 2001	\$25.00 for all Credited Service

Termination Benefit: A Participant who has at least five years of Vesting Service has a nonforfeitable right to 100% of his Accrued Normal Retirement Benefit.

Schedule SB, Part V - Summary of Plan Provisions

Early Retirement Benefit: Accrued Benefit determined as of Early Retirement Date, reduced by:

For Heat Exchangers, 2/12 of 1% for each of the first 36 completed months and 5/12 of 1% for each of the next 84 completed months by which a Participant's benefit commencement date precedes their Normal Retirement Date.

For Greenville and Service Plan, 0.5% for each month that the Participant's benefit commencement date precedes their Normal Retirement Date.

For Retirement Plan, 2% for each year to age 62, 4% to each year thereafter to age 60 and 6% for each year thereafter to age 55. If the Participant's benefit commences after age 61 and age plus vesting service is greater than 90, no reduction will apply. If the Participant's benefit commences prior to age 62 and age plus vesting service is greater than 90, only part 2(b) of the Normal Retirement Benefit described above will be reduced for early commencement.

Normal Forms

Unmarried Members: Annuity payable for life.

Married Members: 50% Joint and Survivor Annuity.

Optional Forms:

For Heat Exchangers, Five Years Certain and Life Annuity and 100% Joint and Survivor Annuity.

For Greenville, Joint and Survivor Annuities ranging from 50% to 100%, Certain and Continuous Options and Lump Sum if the Present Value of the Vested Benefit is less than \$10,000.

For Retirement Plan, Five Year Certain Annuity, Ten Year Certain Annuity and Joint and Survivor Annuities.

For Service Plan, Ten Year Certain Annuity, 66 2/3% Joint and Survivor Annuity and 100% Joint and Survivor Annuity.

Death Benefits

Heat Exchangers:

Pre-retirement: In the event a married participant dies prior to commencement of vested benefits, their surviving spouse shall be eligible to receive a pension beginning as early as the date the participant would have attained age 45. The amount of the pension shall be equal to the Accrued Benefit, reduced as if the participant had elected a joint and 50% survivor annuity, and further reduced by 2/12 of 1% for each of the first 36 months, 5/12 of 1% for each of the next 84 months, and 4/12 of 1% for each of the next 120 months the benefit commencement precedes the Normal Retirement Date.

Post-Retirement: If a participant dies after retirement and commencement of benefits, the participant's beneficiary shall be entitled to a lump sum benefit of \$4,000 in addition to any survivorship benefit payable under the Plan. This death benefit shall accrue over 10 years of vesting service, from February 1, 1989, at a rate of 1/120 of the \$4,000 benefit for each completed month of service. Accrual is frozen as of March 31, 1998. The death benefit is \$5,000 for participants retiring between February 4, 2001 and June 30, 2001. The death benefit shall be reduced to zero for participants retiring after June 30, 2001.

Schedule SB, Part V - Summary of Plan Provisions

Greenville:

Pre-retirement: In the event of a married active participant's death after having become eligible for early retirement, the benefit payable to the spouse will be calculated assuming that the participant had retired on the day prior to the death and elected a joint and 100% survivor benefit. In the event of a married vested participant's death, prior to having become eligible for early retirement, the benefit payable to the spouse will be calculated assuming the participant had terminated on the date of death, survived to the earliest retirement age, elected a joint and 100% survivor benefit and died the next day.

Post-Retirement: None except as provided by the annuity form elected.

Retirement Plan:

Pre-retirement: In the event of a married vested participant's death, prior to having become eligible for normal retirement, the benefit payable to the spouse will be the 50% joint and survivor benefit. However, the minimum spouse benefit will be 40% of the amount of the accrued benefit that would have been payable had the participant survived to Normal Retirement. The Average Compensation used to determine the benefit shall be the greater of the participant's earnings in the calendar year prior to death and the Average Compensation at the time of death.

Post-Retirement: None except as provided by the annuity form elected.

Service Plan:

Pre-retirement: In the event a married participant dies prior to commencement of vested benefits, his surviving spouse shall be eligible to receive a pension beginning as early as the date the participant would have attained age 55. The amount of the pension shall be equal to the Accrued Benefit, reduced as if the participant had elected a joint and 50% survivor annuity.

Post-Retirement: None except as provided by the annuity form elected.
