**REVISED RETIREMENT PLAN FOR EMPLOYEES OF
ELECTRIC ENERGY, INC.
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2020 and 2019**

1. Description of the Plan

The following brief description of the Revised Retirement Plan For Employees of Electric Energy, Inc. (the “Plan”) provides only general information. Participants should refer to the Plan documents for a more complete description of the Plan’s provisions.

General

The Plan, as amended, is a non-contributory defined benefit pension plan sponsored by Electric Energy, Inc. (“EEI”). The Plan covers all employee categories of the EEI as described in the Plan document. Effective March 1, 2012 for Union (or represented) employees and April 1, 2012 for Management (or non-represented) employees, the pension plan was converted to a cash balance plan.

Dynegy, Inc. (“Dynegy”) was previously the owner of eighty percent (80%) of the outstanding equity of EEI, and Dynegy was merged with and into Vistra Energy Corp. (“Vistra Energy”) effective as of April 9, 2018. As result of the merger, the Plan changed its plan sponsorship to Vistra Operations Company LLC, (“Company”), a wholly-owned subsidiary of Vistra Energy. Effective as of the end of the day on December 31, 2018, no newly hired or rehired non-represented employees shall be eligible to participate in the Plan, and the benefits of all non-represented participants shall be frozen. Effective as of July 1, 2019, no newly hired or rehired represented employees shall be eligible to participate in the Plan. Active represented employees hired prior to June 30, 2019 are still accruing.

Effective July 2, 2020, Vistra Energy changed its name to Vistra Corp.

The Vistra Retirement Plan Investment Committee controls and manages the operations and administration of the Plan. The Bank of New York Mellon/BNY Mellon, N.A. (Mellon) serves as the trustee of the Plan as of and for the year ended December 31, 2018. Effective January 1, 2019, The Northern Trust Company, an Illinois corporation, was appointed as successor trustee (“Trustee”). The Plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Employees are eligible to participate the later of the following dates:

- The first day of the month coinciding with or following first day of employment, or
- The first day of the month coinciding with or following attainment of age 21.

Contributions

Employer contributions are based upon minimum funding requirements as calculated by the Plan’s actuary.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying Plan financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for

**REVISED RETIREMENT PLAN FOR EMPLOYEES OF
ELECTRIC ENERGY, INC.
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2020 and 2019**

benefits, the disclosure of contingent assets and liabilities at the date of the financial statements, and the actuarial present value of accumulated plan benefits as of the valuation date. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. See Note 4 for additional information on fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Expenses of the Plan

Expenses incurred by the Plan consist principally of professional fees for actuarial services and administrative fees paid to the Trustee. Certain other expenses of the Plan are paid by the Company.

Payment of Benefits

Benefit payments to participants/beneficiaries are recorded upon distribution.

Contributions

Contributions to the Plan are recorded in the period that the Plan's actuary determines they relate to except that a contribution receivable is recorded to the extent that amounts due are pursuant to formal commitments as well as legal or contractual requirements in existence at the end of the Plan year.

3. Funding Policy

The Company funds the Plan. All contributions to the Plan by the Company are based on estimates provided by actuaries using the projected unit credit cost method. The Company's policy is to fund pension costs at or above actuarially determined minimums. For the years ended December 31, 2020 and 2019, the ERISA minimum funding requirements were met.

4. Investments (Certified by Trustee) and Fair Value Measurements

Information related to investments and related investment income as of December 31, 2020 and 2019, and for the years ended December 31, 2020 and 2019, presented in the financial statements and supplemental schedules, were certified by the Trustee and Mellon,

**REVISED RETIREMENT PLAN FOR EMPLOYEES OF
ELECTRIC ENERGY, INC.
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2020 and 2019**

respectively, as permitted by 29 CFR 2520.103-8 of the Department of Labor rules under ERISA.

Financial Accounting Standards Board (“FASB”) Accounting Standards Codification 820 (“ASC 820”) defines fair value as the price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between willing market participants at the measurement date. ASC 820 provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The three levels of the fair value hierarchy are described below. At December 31, 2020 and 2019, none of the Plan’s assets were classified as Level 1, 2 or 3.

Level 1 valuations use quoted prices in active prices for identical assets that are accessible at the measurement date. An active market is a market in which transactions for the asset occur with sufficient frequency and volume to provide pricing information on an ongoing basis.

Level 2 valuations use inputs that, in the absence of actively quoted market prices, are observable for the asset, either directly or indirectly. Level 2 inputs include: (a) quoted prices for similar assets in active markets; (b) quoted prices for similar assets in inactive markets; (c) inputs other than quoted prices that are observable for the asset such as interest rates and yield curves observable at commonly quoted intervals and (d) inputs that are derived principally from or corroborated by observable market data by correlation or other mathematical means.

Level 3 valuations use unobservable inputs for the asset. Unobservable inputs are used to the extent observable inputs are not available, thereby allowing for situations in which there is little, if any, market activity for the asset at the measurement date.

The asset or liability’s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The fair value measurement of an asset (e.g. an investment) is required to fall in its entirety in one level, based on the lowest level input that is significant to the fair value measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgment, considering factors specific to the asset being measured.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

**REVISED RETIREMENT PLAN FOR EMPLOYEES OF
ELECTRIC ENERGY, INC.
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2020 and 2019**

The following table sets forth by level, within the fair value hierarchy, the assets held by the plan at fair value as of December 31, 2020 and 2019:

Assets at Fair Value as of December 31, 2020			
Level 1	Level 2	Level 3	Total
Investments measured at NAV per practical expedient			\$ 38,892,612
			<u>\$ 38,982,612</u>
Assets at Fair Value as of December 31, 2019			
Level 1	Level 2	Level 3	Total
Investments measured at NAV per practical expedient			\$ 53,074,256
			<u>\$ 53,074,256</u>

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of investments within the fair value hierarchy. In instances where a transfer is required from one level to another as a result of re-evaluation of inputs or change in economic conditions, the transfer is reported at the beginning of the reporting period.

5. NAV per Share

In accordance with FASB ASU No. 2009-12, *Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, the Plan's fair value disclosure includes the category, fair value, redemption frequency, and redemption notice period for those assets whose fair value is estimated using the NAV per share or its equivalent for which the fair value is not readily determinable as of December 31, 2020 and 2019. For the Plan, such assets include investments in common/collective trust funds.

NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2020 and 2019**

6. Agreements with Third Parties – Allocated Insurance Contracts

Northern Trust and investment management agreements established collective investment funds in which contributions were deposited and earned interest. For participants who retired on or after January 1, 1995, retirement benefit payments are made directly from Plan assets. For participants who retired prior to January 1, 1995, retirement benefits were provided by monthly retirement annuities from The Prudential Insurance Company of America. These annuities were purchased from Plan assets which discharged the Plan's obligations with respect to these benefits. The amounts contained in the monthly retirement annuities are not reflected as assets of the Plan on the statements of net assets available for benefits, nor are they reflected as obligations in the accumulated benefit obligation presented in Note 8.

7. Group Annuity Contracts

On December 9, 2020, Vistra amended the Plan and entered into a commitment agreement ("Agreement"), by and among Vistra and Banner Life Insurance Company ("Banner"). Under the Agreement, Vistra purchased a group annuity contract from Banner, irrevocably transferring the future benefit obligations and annuity administration for 86 retirees and beneficiaries (as defined in the plan amendment) from the Plan to Banner. The purchase of the group annuity contract, which was funded directly by the Plan's assets, was settled on December 14, 2020 and reduced Vistra's pension obligations by \$17,997,000. The settlement is accounted for as a benefit payment in the statement of changes in net assets available for benefits. The annuity contracts purchased will not be assets of the Plan following the purchase.

8. Accumulated Plan Benefits

Accumulated Plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated Plan benefits include benefits expected to be paid to (1) retired or terminated employees or their beneficiaries, (2) beneficiaries of employees who have died and (3) present employees or their beneficiaries. Benefits under the Plan are determined as described in Note 1.

Benefits payable under all circumstances - retirement, death, disability and termination of employment - are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

An actuary determined the actuarial present value of accumulated plan benefits as of January 1, 2020, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

**REVISED RETIREMENT PLAN FOR EMPLOYEES OF
ELECTRIC ENERGY, INC.
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2020 and 2019**

The accumulated plan benefit information as of January 1, 2020 is as follow:

	<u>2020</u>
Actuarial present value of accumulated plan benefits:	
Vested benefits:	
Participants currently receiving payments	\$ 42,445,046
Other participants	<u>16,212,967</u>
Total vested	58,658,013
Nonvested benefits	<u>440,318</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 59,098,331</u>

Changes in the actuarial present value of accumulated plan benefits for the year ended January 1, 2020 were as follows:

	<u>2020</u>
Actuarial present value of accumulated plan benefits:	
Beginning of year	\$ 67,479,712
Increase (decrease) during the year attributable to:	
Interest accumulated	3,346,910
Actual benefits paid	(14,766,719)
Plan amendments	174,178
Changes in actuarial assumption	1,168,642
Other changes	<u>1,695,608</u>
Net decrease	<u>(8,381,381)</u>
Actuarial present value of accumulated plan benefits	
End of year	<u>\$ 59,098,331</u>

Significant actuarial assumptions used in January 1, 2020 are as follows:

A change in the mortality assumption from the amounts-weighted aggregate rates of the Pri-2012 mortality study projected generationally from 2012 with Scale MP-2019 to the amounts-weighted aggregate rates of the Pri-2012 mortality study projected generationally from 2012 with Scale MP-2020.

The interest rate assumption changed from 5.56% to 5.45%.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

ELECTRIC ENERGY, INC.
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2020 and 2019**

9. Party-In-Interest Transactions

Certain Plan investments are units of funds managed by the Trustee and Mellon. They also provided custodial and other fiduciary services to the Plan during Plan years 2020 and 2019, therefore, purchases and sales of these investments qualified as party-in-interest transactions allowable under ERISA regulations. Fees paid during the year ended December 31, 2020 and 2019 for legal, accounting, actuarial and other professional services rendered by parties-in-interest were based on customary and reasonable rates for such services. For Plan years 2020 and 2019, total fees paid to parties-in-interest in connection with services rendered to the Plan totaled \$16,536 and \$8,351, respectively.

The Plan incurs expenses related to general administration and record keeping. Certain costs of administering the Plan are paid by the Company. These costs are immaterial to the Plan.

10. Income Tax Status

The Plan obtained its latest determination letter dated July 8, 2013, in which the Internal Revenue Service stated that the Plan, as designed, constitutes a qualified plan under the Internal Revenue Code of 1986, as amended (the “Code”). Accordingly, the Plan is exempt from federal income taxes under Section 501(a) of the Code. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code. Therefore, no provisions for income taxes have been included in the Plan’s financial statements.

GAAP requires Plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2020, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to examinations by taxing jurisdictions; currently, the Plan is not under examination.

11. Plan Termination

Although the Company has not expressed any intent to do so, it has reserved the right to terminate the Plan. Whether all participants receive their entire Plan benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan’s net assets to provide for accumulated benefit obligations. The receipt of full Plan benefits may also depend on the financial condition of the Company and its affiliates, the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (“PBGC”) (a United States government agency) at that time and the priority of those benefits. Some benefits may be

**REVISED RETIREMENT PLAN FOR EMPLOYEES OF
ELECTRIC ENERGY, INC.
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2020 and 2019**

fully or partially provided for by the then existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by Section 4044 of ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Benefits attributable to employee contributions, taking into account those paid out before termination.
- b. Annuity benefits that former participants or their beneficiaries have been receiving for at least three-year period ending on the Plan's termination date, or that participants eligible to retire before the beginning of that three-year period would have been receiving as of the beginning of that three-year period if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during that three-year period. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five-year period ending on the Plan's termination date.
- c. Other vested benefits insured by the PBGC up to the applicable limitations (discussed below).
- d. All other vested benefits (that is, vested benefits not insured by the PBGC).
- e. All non-vested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Generally, vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

12. Risks and Uncertainties

The Plan holds various investments instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of investments will occur in the near term and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

**REVISED RETIREMENT PLAN FOR EMPLOYEES OF
ELECTRIC ENERGY, INC.
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2020 and 2019**

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported, based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is reasonably possible that such changes in these estimates and assumptions in the near term would be material to the financial statements.

13. Subsequent Events

In preparing the accompanying financial statements, Plan management has reviewed all known events that have occurred after December 31, 2020, and through October 11, 2021, the date the financial statements were available to be issued, for inclusion in the financial statements and footnotes.

The Funding Target decreased from \$58,840,896 to \$56,940,895. Additionally, the PFB increased from \$0 to \$814,165 due to the decrease in the 2019 Minimum Required Contribution after electing and applying the 15-year shortfall amortization in 2019 due to ARPA. The AFTAP value was impacted by this update and increased from 95.00% to 96.74%. The values on the 2020 Form 5500 Schedule SB match those of the revised AFTAP certification.

ARPA shortfall relief was first applied for 2019. Under the American Rescue Plan Act of 2021 (ARPA), the shortfall relief wiped out existing shortfall amortization bases and changed the amortization period. By default, this relief would have applied starting with the 2022 plan year. This Schedule SB reflects the ARPA shortfall relief retroactive to the 2019 plan year. On August 31, 2021, Vistra Corp. made this explicit election for the Revised Retirement Plan for Employees of Electric Energy Inc.
