To the Participants and Plan Administrator of
Cherry Aerospace Pension Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Cherry Aerospace Pension Plan (the Plan), which comprise the statement of net assets available for benefits as of December 31, 2020 and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information discussed in Note 9, which was certified by The Bank of New York Mellon/BNY Mellon, N.A., the trustee of the Plan, except for comparing such information with the related information included in the 2020 financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the year ended December 31, 2020, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the 2020 financial statements. Accordingly, we do not express an opinion on the accompanying 2020 financial statements.

Other Matter - 2019 Financial Statements

The financial statements of the Plan as of December 31, 2019 were audited by predecessor auditors. As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the predecessor auditors not to perform, and they did not perform, any auditing procedures with respect to the information certified by the trustee. Their report, dated September 4, 2020, indicated that (a) because of the significance of the information that they did not audit, they were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, they did not express an opinion on the financial statements and (b) the form and content of the information included in the financial statements other than that derived from the information certified by the trustee, were presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Report on Form and Content in Compliance With DOL Rules and Regulations - 2020

The form and content of the information included in the 2020 financial statements, other than that derived from the information certified by the trustee, has been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, is presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

1. Description of the Plan

The following description of the Cherry Aerospace Pension Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a non-contributory defined benefit pension plan sponsored by Cherry Aerospace, a division of SPS Technologies, LLC (the Company), a wholly-owned subsidiary of Precision Castparts Corp. (PCC). The assets are invested in the Precision Castparts Corp. Master Trust (Master Trust) with The Bank of New York Mellon (BNYM). The Plan is subject to the provisions of the Employee Retirement Income Securities Act of 1974 (ERISA).

The Company has appointed an administrative committee to oversee the administration of the Plan, with local human resources personnel providing day-to-day support functions. The Master Trust Investment Committee determines the appropriateness of the Plan's investments and monitors investment performance.

Funding Policy

The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. No participant contributions are permitted. The minimum funding requirements of ERISA were met for 2020 and 2019.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Eligibility and Vesting

Participation and related future benefit accruals in the Plan were frozen as of August 31, 2009. Employees of the Cherry Aerospace division of the Company, who were employed prior to January 1, 2010, may also be eligible to participate in the SPS Technologies, LLC Retirement Income Plan. Participants who were involuntarily terminated at any time between January 1, 2009 and June 30, 2010, became immediately vested as of June 30, 2010. All other participants become 100 percent vested after five years of service.

Pension Benefits

Participants are entitled to annual pension benefits beginning at the normal retirement age of 65, calculated as detailed in the Plan document. The Plan permits early retirement at any date after age 55 with 10 or more years of service, or for salaried participants, after age 60 with 20 years of service. Participants may elect to receive their pension benefits in the form of a single life annuity or as a joint and survivor annuity with payments continued to the participant’s beneficiary at 50 percent, 75 percent or 100 percent. If participants terminate for any reason other than retirement, they will be entitled only to their vested, accrued benefits, which will begin with the first month following their normal retirement or early retirement date.

Death and Disability Benefits

If a married, vested participant dies prior to retirement, his surviving spouse will be eligible to receive 50 percent of the benefit that would have been payable had the deceased participant retired on the day of death and elected the joint and 50 percent surviving spouse annuity. If a deceased hourly participant was not retirement eligible at death, the benefit will commence at his earliest retirement date as if he terminated at death, survived to his earliest retirement date and then retired. If a deceased salaried participant had less than 20 years of vesting service and was not yet age 55, then the benefit may commence when the participant would have attained age 55, reduced for early retirement whether the participant was eligible or not.

The beneficiary of a salaried participant who is or was eligible for benefit commencement at termination of employment shall receive payments equal to the single life annuity that is or would have been payable for 60 months, less the number of months that retirement benefits have been in payment status. This death benefit is in addition to the surviving spouse benefit mentioned above or any benefit payable due to the form of benefit chosen.

Active salaried participants who become totally disabled will continue to accrue service years while disabled until normal or early retirement age.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosures of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements and changes therein. Actual results could differ from those estimates.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying Statements of Changes in Net Assets Available for Benefits. In addition, certain investment related expenses are included in the Plan's interest in the net investment income of the Master Trust presented in the accompanying Statements of Changes in Net Assets Available for Benefits.

Investment Valuation and Income Recognition

The Plan's interest in the Master Trust is reported at fair value based on the underlying investments. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in the value of investments is allocated by the Master Trust to the Plan based upon the Plan's daily weighted average percentage of net assets for a given month.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' service and, if applicable, compensation prior to August 31, 2009. The accumulated plan benefits for active employees will equal the accumulation of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances such as retirement, death, disability and termination of employment are included, to the extent they are attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Plan's independent actuary as of January 1, 2020 and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The actuarial present value of accumulated plan benefits as of January 1, 2020 is as follows:

Vested benefits:	
Participants and beneficiaries currently receiving payments	$ 33,156,125
Other participants	15,174,428
Total vested benefits	48,330,553
Nonvested benefits	56,057
Total actuarial present value of accumulated plan benefits	$ 48,386,610

The changes in the actuarial present value of the accumulated plan benefits for the year ended December 31, 2019 are summarized as follows:

Actuarial present value of accumulated plan benefits, at beginning of year	$ 50,683,575
Increase (decrease) during the year attributable to:	
Increase for interest due to decrease in discount period	3,537,611
Benefits paid	(3,845,150)
Change in actuarial assumptions	(1,632,757)
Actuarial gain	(356,669)
Actuarial present value of accumulated plan benefits, at end of year	$ 48,386,610

Significant assumptions underlying the actuarial computations are as follows:

a) Mortality - Pri-2012 Private Retirement Plans Healthy Blue Collar Mortality Tables projected with Scale MP 2019 on a generational basis.

b) Discount Rate - 7.25 percent

c) Eligible employees were assumed to retire according to the following table:

Retirement Age	Retirement Rate (%)
55-59	2.0
60-61	5.0
62	35.0
63-64	15.0
65	35.0
66-69	20.0
70	100.0

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The mortality assumption was updated to incorporate a more recent mortality table and projection scale to reflect both current and expected mortality improvements. These changes resulted in an decrease of approximately $1.6 million in the actuarial present value of accumulated benefits in 2020.

Recent Accounting Standard

In August 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2018-13, *Disclosure Framework - Changes to the Disclosure Requirements for Fair Value Measurement*. ASU No. 2018-13 modifies the disclosure requirements for fair value measurements in Topic 820, *Fair Value Measurement*. The amendments are based on the concepts in the FASB Concepts Statement, *Conceptual Framework for Financial Reporting—Chapter 8: Notes to Financial Statements*, which the FASB finalized on August 28, 2018. ASU No. 2018-13 is effective for fiscal years beginning after December 15, 2019. Management has adopted the provisions of this new standard for the year ended December 31, 2020. This update was retrospectively applied.

Subsequent Events

The Plan has evaluated subsequent events for recognition or disclosure through October 7, 2021, the date the financial statements were available to be issued.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observables and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets held in the Master Trust measured at fair value. The Plan is able to purchase or sell units of the Master Trust on a daily basis. The Master Trust asset allocation strategy is designed with the objective of achieving the asset return assumption consistently over the long-term in order to fund future payment obligations, while minimizing contributions and plan sponsor economic risk. The asset categories are described below, along with the valuation methodologies and investment level classifications. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Public Equity - Public equity investments consist of publicly traded equity securities, as well as hedged equity investment strategies which may add short positions in equities or equity futures in order to generate absolute returns regardless of equity market direction. Equity investments held directly are valued based upon closing prices reported in active trading markets and classified as Level 1. Other fund investments are valued using the most recent net asset value (NAV) of the fund.

Private Equity - Private equity investments consist of investments in nonpublic companies made directly or through limited partnerships or commingled vehicles with managers who purchase interests in nonpublic companies. Sub-categories of private equity may include venture capital, early stage, special situations or restructuring funds. Private equity typically has low liquidity, a 10 year or longer investment commitment, and valuation methodologies that require the use of significant unobservable inputs. Direct private equity investments are classified as Level 3, while investments made through funds are typically valued at the most recent NAV of the fund. As of December 31, 2020 and 2019, unfunded capital commitments to private equity investments were approximately $4 million.

Alternative Strategies - Alternative strategies are investments with managers who seek specified levels of absolute returns with minimal correlation to market movements. Alternatives managers typically invest in futures, forwards or options on a variety of asset classes. Investments are typically made in investment funds with values stated at fund NAVs. Royalty investments were historically made through investment funds which purchase income-producing royalties derived from sales of pharmaceutical products, with the fund's underlying royalty investments subject to independent fair valuation methodologies used in determining the fund's NAV. Liquidity was typically arranged in the secondary market with trades occurring at the most recent NAV. During 2020 the Company's significant royalty investment fund holding was restructured and now trades as a publicly listed equity security. As such, this investment was recategorized during 2020 as a Public Equity holding and classified as Level 1.

Fixed Income - Fixed income investments consist of private fixed income securities of non-U.S. corporate issuers classified as Level 3, as well as publicly traded investment funds classified as Level 1.

Cash/Other - Cash and other investments include highly liquid money market securities, demand deposits and other cash equivalents. Cash and other investments are classified as Level 1, or stated at NAV for private money market funds.

4. Undivided Interest in the Precision Castparts Corp. Master Trust

All of the Plan's investments are in the Master Trust. The Plan's interest is calculated based on the fair value at the end of the previous period, plus any contributions and income received, less benefit payments and expenses paid for each plan during the period.

At December 31, 2020 and 2019, the Plan's interest in the net assets of the Master Trust was 4.42 percent and 4.46 percent, respectively. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based upon the amount of time the Plan's assets were invested in the Master Trust.

The following table presents the net assets of the Master Trust as of December 31, 2020 and 2019:

	2020		2019	
	Master Trust	Plan's Proportionate Share	Master Trust	Plan's Proportionate Share
Equity:				
Public	$ 2,093,976,806	$ 92,566,105	$ 1,181,110,281	$ 52,642,727
Private	248,879,852	11,001,955	222,363,967	9,910,883

Total net assets of Master Trust	$ 2,537,085,528		$ 1,811,724,645	
Plan interest in Master Trust		$ 112,154,120		$ 80,749,553

During 2020 and 2019, investment income for the Master Trust is as follows:

	2020	2019
Net appreciation in fair value of investments	$ 767,214,565	$ 238,773,848
Interest and dividends	41,191,425	42,472,493
Total investment income	$ 808,405,990	$ 281,246,341
Plan's interest in Master Trust investment income	$ 35,748,265	$ 12,566,945

The following table sets forth by level, within the fair value hierarchy, the Master Trust's assets at fair value as of December 31, 2020 and 2019:

	Assets at Fair Value as of December 31, 2020			
	Level 1	Level 2	Level 3	Total
Equity:

Total investments at fair value				$ 1,809,514,776

(a) Certain investments measured at NAV have not been classified in the fair value hierarchy but are presented in this table to permit reconciliation of the amounts in the fair value hierarchy to the total investments held by the Master Trust.

The table below sets forth a summary of certain changes in the fair value of the Master Trust's Level 3 assets for the years ending December 31, 2020 and 2019:

	2020		
	Private Equity	**Fixed Income**	**Total**
Purchases	$ -	$ -	$ -
Issuances	-	-	-
Transfers in and/or out of Level 3	(10,235,205)	-	(10,235,205)

	2019		
	Private Equity	**Fixed Income**	**Total**
Purchases	$ 700,000	$ -	$ 700,000
Issuances	-	-	-
Transfers in and/or out of Level 3	-	-	-

Gains and losses (realized and unrealized) included in the change in net assets for the periods above are reported in plan interest in net investment income of Master Trust in the Statements of Changes in Net Assets Available for Benefits.

Transfers Between Levels - The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. We evaluate the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. In 2020 the Plan had $10,235,205 of transfers from Level 3 to Level 1. In 2019, there were no transfers between levels.

5. Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

a) Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.

b) Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations.

c) All other vested benefits (that is, vested benefits not insured by PBGC).

d) All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Company and the level of benefits guaranteed by the PBGC.

6. Related-Party and Party in Interest Transactions

The Plan's investments are administered under a contract with BNYM, the trustee of the Plan. Contributions are held and managed by BNYM, who invests cash received, interest and dividend income and make distributions to participants. These transactions qualify as party in interest transactions which are exempt from the prohibited transactions rules of ERISA.

As described in Note 2, the Plan paid certain expenses related to plan operations and investment activity to various service providers. Additionally, certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

7. Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated July 21, 2017, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Risks and Uncertainties

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

9. Information Certified by Trustee

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2020 and 2019. Accordingly, BNYM, the trustee of the Plan, has certified to the completeness and accuracy of all investments reported in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2020 and 2019 and the related investment activity reported in the Statements of Changes in Net Assets Available for Benefits for the years then ended.

CHERRY AEROSPACE PENSION PLAN

ACTUARIAL ASSUMPTIONS AND METHODS

Discount Rates

- As selected by PCC, the rates for calculating the PPA Funding Target are the January 2020 segment rates. As prescribed by interest rate stabilization legislation, in 2020 these rates must be between 90% and 110% of the 25-year average rates published by the IRS.

Measurements using segment rates	PPA Funding Target
Segment 1 payments under 5 years	3.64%
Segment 2 payments between 5 and 20 years	5.21%
Segment 3 payments after 20 years	5.94%

Mortality

For calculating the Funding Target, mortality follows the RP-2014 annuitant and non-annuitant static mortality tables for 2020 as prescribed by the IRS.

Withdrawal

Withdrawals prior to retirement for reasons other than death were assumed to follow the 2003 SOA Pension Plan Turnover Study – Age Based Withdrawal rates. Sample rates are shown below:

Age	Withdrawal %
20	17.46
25	18.51
30	12.19
35	8.78
40	7.00
45	6.21
50	5.63
55	2.92

No withdrawals prior to retirement are assumed at ages 50 and above for salaried participants with at least 20 years of service.

Disability

For valuation purposes, no disabilities were assumed.

Retirement

Eligible employees were assumed to retire according to the following table:

Age	Retirement Rate (%)
55–59	2.0
60-61	5.0
62	35.0
63-64	15.0
65	35.0
66-69	20.0
70	100.0

Future retirees are assumed to elect a single life annuity.

Vested terminated employees are assumed to retire at age 65.

Future Participation and Service

It was assumed that each active participant would earn one year of participation in each future plan year prior to the year of retirement, death, disability, or withdrawal. No future years of service for the purpose of accruing benefits are earned after August 31, 2009.

Probability of Marriage

80% of non-retired participants are assumed to be married. A three-year age differential between spouses is assumed with the males being older.

Administrative Expenses

Annual non-investment expenses of $250,000 were assumed to be paid from the Trust. (Adopted January 1, 2018)

Actuarial Value of Assets

For funding requirements, the Plan uses the 24-month average value of assets per IRS Notice 2009-22 (adopted January 1, 2009).

Actuarial Cost Method

We calculate the actuarial present value of benefits accrued as of the beginning of the plan year. This cost method is typically referred to as the Unit Credit method

Changes in Actuarial Assumptions

- For the Funding Target calculations, the discount rates and mortality assumption were updated as required and as described above

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

WEIGHTED RETIREMENT AGE			63.5836
ROUNDED WEIGHTED RETIREMENT AGE			64

The weighted average retirement age was calculated by multiplying each possible retirement age by the probability of not retiring prior to that age and then retiring. These products were then summed to produce the weighted average retirement age.

SUMMARY OF THE PLAN

Name

Cherry Aerospace Pension Plan

Effective Date

Created on February 23, 2007 as a separate plan, but as a continuation of the terms of Addenda A and B to the Acument Global Technologies, Inc. Pension Plan. The plan was restated effective January 1, 2016.

Type of Plan

Trusteed plan with a corporate trustee, administered by a committee appointed by the Company's Board of Directors.

Employer

Cherry Aerospace.

Employees Eligible to Participate

Employees who are not collectively bargained (unless the collectively bargained agreement specifically includes participation) and are scheduled to work at least 1,000 hours per year. Those not initially scheduled for at least 1,000 hours are eligible to participate after completing 1,000 hours of service in the first year of employment or any calendar year. Effective August 31, 2009, no new entrants shall be eligible to participate in the Plan.

Normal Retirement Date

A participant's normal retirement date shall be his 65th birthday.

Normal Retirement Benefit

For Hourly Participants, a monthly pension for the life of the participant equal to the product of Credited Service and the benefit multiplier. Effective January 1, 2006 the benefit multiplier is $23.00.

For Salaried Participants, a monthly pension for the life of the participant equal to:

(a) Credited Service up to 35 times 1.5% of average compensation in excess of Covered Compensation, plus
(b) Credited Service up to 35 times 1.0% of average compensation not in excess of Covered Compensation.

Salaried benefits cannot be less than Credited Service up to 5 times $50.

Credited Service was frozen effective August 31, 2009.

Average compensation is the highest average monthly compensation in any five consecutive calendar years prior to August 31, 2009. Compensation includes bonuses and certain deferred compensation amounts but excludes other items such as expense allowances, fringe benefits, and severance pay. Covered Compensation is defined as 82.5% of the 35-year average of Social Security taxable wage bases ending in the year of termination, or 2009, if earlier.

Optional Forms of Benefit

A married participant at retirement will receive a 50% spouse joint and survivor annuity unless he optionally chooses a 75% or 100% spouse joint and survivor annuity or, with spousal consent, a life annuity or a 50% or 100% survivor annuity. A non-married participant at retirement will receive a life annuity unless he elects a 50% or 100% survivor annuity. Tabular factors for form conversion are based on 7% interest and Rev. Ruling 2001-62 mortality.

Earliest Retirement Date

Participants who terminate after attaining age 55 and completing 10 years of Vesting Service are eligible to retire. Salaried Participants are also eligible if they terminate after attaining age 60 or after completing 20 years of Vesting Service.

Amount of Early Retirement Pension

For Hourly Participants, the basic retirement benefit is reduced by 1/2% for each month that early retirement precedes age 62. For Salaried Participants, the basic retirement benefit is reduced by 5/12% for each month that early retirement precedes age 62 down to age 57, and by tabular factors for earlier ages, and the $50 minimum benefit does not apply.

Pre-Retirement Death Benefits

If a married, vested participant dies prior to retirement, his surviving spouse will be eligible to receive 50% of the benefit that would have been payable had the deceased participant retired on the day of his death and elected the joint and 50% surviving spouse annuity. If a deceased Hourly Participant was not retirement eligible at death, the benefit will commence at his earliest retirement date as if he terminated at death, survived to his earliest retirement date and then retired. If a deceased Salaried Participant had less than 20 years of Vesting Service and was not yet age 55, then the benefit may commence when the Participant would have attained age 55, reduced for early retirement whether the Participant was eligible or not.

The beneficiary of a Salaried Participant who is or was eligible for benefit commencement at termination of employment shall receive payments equal to the single life annuity that is or would have been payable for 60 months, less the number of months that retirement benefits have been in payment status. This death benefit is in addition to the surviving spouse benefit mentioned above or any benefit payable due to the form of benefit chosen.

Vesting

A Participant will be vested after completing 5 years of Vesting Service. Benefits may commence at or after age 55.

Benefits for Hourly Participants equal the basic retirement benefit reduced by 1/2% for each month that early retirement precedes age 65. Benefits for Salaried Participants equal the basic retirement benefit reduced by 5/9% for each month that early retirement precedes age 65 down to age 60, and 5/18% for each month that early retirement precedes age 60 down to age 55, and the $50 minimum benefit does not apply.
