Notes to Financial Statements

December 31, 2020 and 2019

Note 1: Description of Plan

The following description of the Local 422 Pension Trust Fund (the “Plan”) provides only general information. Participants should refer to the plan document for a more complete description of the Plan’s provisions.

General

The Plan is a multiemployer collectively bargained defined benefit pension plan covering individuals that were represented by Ice, Coal, Miscellaneous Scrap Metal, Auto Wrecking and Smelting Drivers & Workers, Local Union No. 422 Affiliated with the International Brotherhood of Teamsters, Chauffeurs, Warehousemen & Helpers of America (the “Union”). It is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The Plan is administered by a Board of Trustees. The Plan’s Board of Trustees has overall responsibility for the operation and administration of the Plan. The Plan’s Board of Trustees determines the appropriateness of the Plan’s investment offerings and monitors investment performance. Effective January 1, 2010, the Plan’s Board of Trustees declared a mass withdrawal under the provisions set forth in ERISA and terminated the Plan.

Funding Policy

The Plan was funded by employer contributions pursuant to collective bargaining agreements. The contributions were designed to fund the Plan’s current service costs on a current basis and to fund the past service liabilities arising from qualifying service. Due to the mass withdrawal, employers ceased contributions to the Plan and a withdrawal liability was assessed. The plan’s funding is achieved through investment earnings and payments made by employers subject to the withdrawal liability.

Pension Benefits

Participants are eligible to receive normal retirement benefits at age 65 and after obtaining five years of vesting service. Participants are eligible to receive early retirement benefits at age 55 and after obtaining 30 years of vesting service. A participant’s monthly benefit shall be reduced by 0.75% for each calendar month by which the participant precedes age 65.

Disability Benefits

Participants are eligible to retire on a disability pension if retiring as a result of a total and permanent disability and having obtained at least five years of vesting service. The monthly amount of the disability pension is the same as the normal retirement benefit would be at the time payment begins.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Basis of Presentation

The Plan follows authoritative guidance issued by the Financial Accounting Standards Board (FASB), which established the FASB Accounting Standards Codification (ASC) as the single source of authoritative accounting principles generally accepted in the United States of America.

Reclassification

Certain accounts in the prior year financial statements have been reclassified for comparative purposes to conform with the presentation in the current year financial statements.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Board of Trustees determines the Plan's valuation policies utilizing information provided by the investment adviser and custodian. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on the trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Note 2: Summary of Significant Accounting Policies (continued)

Employer Withdrawal Liability Receivable

The Plan's actuary has calculated a net withdrawal liability for each employer. Employers pay the Plan in quarterly installments. Due to the quarterly payments being lower than the quarterly assessed interest, the employers are making these payments in perpetuity. Management does not believe that any of the principal portion of the assessed withdrawal liability will be collected. Management has written off the entire \$6,138,319 of principle as uncollectible withdrawal liability during the year ended December 31, 2019.

Cash

The Plan considers all highly liquid investments with original maturities of three months or less to be cash. The plan maintains its cash account at a national financial institution. The balance, at times may exceed federally insured limits.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Subsequent Events

The Plan has evaluated subsequent events through September 8, 2021, the date the financial statements were available to be issued.

Note 3: Certified Investments

Certain information related to investments disclosed in the accompanying financial statements and supplemental schedules, including investments held at December 31, 2020 and 2019, and net appreciation in fair value of investments, interest and dividends for the years ended December 31, 2020 and 2019, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by Key Bank (the custodian of the Plan).

Local 422 Pension Trust Fund

Note 4: Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump sum distributions that are attributable under the Plan's provisions to the service participants have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated participants or their beneficiaries, (b) beneficiaries of participants who have died, and (c) present participants or their beneficiaries. The accumulated plan benefits for active participants are based on their accrued credited service as of the benefit information date. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to participant service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decreases such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation as of December 31, 2019 were as follows:

- Interest rate: 2.53%
- Mortality rate: Rates published by the PBGC for December 31, 2019 under ERISA Section 4044 for healthy and disabled lives
- Retirement age: Earliest eligible retirement age per ERISA Section 4281.12(b)
- Benefit election: All participants are assumed to elect the normal form of payment based on their assumed marital status
- Administrative expenses: \$10,000 plus \$200 per vested participant, plus a percentage (defined in the statute) of the excess of the value of benefits over \$200,000

The computation of the actuarial present value of accumulated plan benefits was made as of January 1, 2020. Had the valuation been performed as of December 31, 2019 there would be no material difference.

Note 5: Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Local 422 Pension Trust Fund

Notes to Financial Statements

December 31, 2020 and 2019

Note 5: Fair Value Measurements (continued)

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Registered investment companies: Valued at the daily closing price as reported by the fund. The mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common collective trust funds: Valued at the NAV of units of the trust. The NAV, as provided by the investment's manager, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying assets held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the Plan will sell the investment for an amount different than the reported NAV. If the Plan initiates a full redemption, the issuer reserves the right to temporarily delay withdrawal in order to ensure that securities liquidations will be carried out in an orderly manner.

Money market fund: Valued at cost plus accrued interest, which approximates fair value.

Note 6: Plan Termination

At January 1, 2009, the plan was certified as being in critical status as defined in the Pension Protection Act of 2006 (PPA). In response to this, the Plan's Board of Trustees declared a mass withdrawal under the provisions set forth in ERISA and terminated the Plan effective December 30, 2009. Thereafter, the Plan's Board of Trustees agreed to amend the Plan to effectuate the Plan termination based on a mass withdrawal. The amendment, effective January 1, 2010, allowed the remaining contributing employers to withdrawal from participation in the Plan.

Additional provisions of the amendment were as follows:

- (i) Effective December 31, 2009, no participant shall accrue any further benefits under the Plan. The accrued benefit for each participant shall be frozen as of December 31, 2009.
- (ii) No employer shall have any further obligation under any collective bargaining agreement to make any contributions to the Plan.
- (iii) No participant shall be credited with any service for employment after December 31, 2009.
- (iv) As of December 31, 2009, all participants in the Plan are vested in their accrued benefits earned as of such date and these benefits shall not be forfeited.
- (v) No participant shall earn any further years of eligibility service or further hours of service related to the Plan.

Certain benefits under the Plan are insured by the PBGC. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

The PBGC's guarantee of benefits in a terminated multiemployer plan, payable as financial assistance to the Plan, only starts if and when the Plan is unable to make payments at the statutorily guaranteed levels. Whether all participants receive their benefits will depend on the sufficiency of the Plan's net assets to provide for accumulated benefit obligations and the level of benefits guaranteed by the PBGC.

Note 7: Tax Status

The Plan obtained its latest determination letter on January 8, 2016, in which the Internal Revenue Service (IRS) states that the Plan, as then designed was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is designed and being operated in compliance with the applicable requirements of the IRC.

Local 422 Pension Trust Fund

Notes to Financial Statements

December 31, 2020 and 2019

Note 7: Tax Status (continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8: Related-Party and Party-in-Interest Transactions

The Plan reimburses Local 400 Terminal Employees Welfare Fund (the "Welfare Fund") for expenses incurred by the Welfare Fund in administering the Plan. These expenses include an allocation of salary, benefits, and taxes paid by the Welfare Fund based on the amount of time spent administering the Plan. For the years ended December 31, 2020 and 2019, the Plan paid \$28,076 and \$31,793, respectively, for these services.

The Plan's expenses include various amounts reimbursed to Commission House Drivers, Helpers and Employees Union Local No. 400 (the "400 Union") for occupancy costs incurred in the normal course of the Plan's operations. Total reimbursements to the 400 Union for the years ended December 31, 2020 and 2019 were \$2,360 and \$2,396, respectively.

The Plan has several arrangements with service providers. These transactions are party-in-interest transactions under ERISA.

Note 9: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits in liquidation.

The actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and participant demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Local 422 Pension Trust Fund

Notes to Financial Statements

December 31, 2020 and 2019

Note 9: Risks and Uncertainties (continued)

In early calendar 2020, the world began dealing with the effects of the Coronavirus pandemic (COVID-19). Disruptions to business operations, including government mandated actions and employee, supplier and customer related challenges have impacted many businesses. The financial markets have experienced high volatility. These conditions have resulted in the Plan experiencing decreases in net appreciation in fair value of investments. The effects of COVID-19 has continued subsequent to year-end and management is unable to determine the impact it will have on the Plan.

Note 10: Prior Period Adjustment

Certain errors resulting in an overstatement of previously reported employer withdrawal liability receivable balances was discovered during the current year. Accordingly, an adjustment of \$6,138,319 was made to write down the previously reported employer withdrawal liability receivable balance to \$-0- as of December 31, 2019 and report the same amount as uncollectible withdrawal liability for the year ended December 31, 2019. The effect of this prior period adjustment was to report a larger net decrease in net assets available for benefits for the year ended December 31, 2019 and to reduce beginning net assets available for benefits by \$6,138,319 for the current year.
