MANN+HUMMEL Purolator Filters 401(k) Plan

Notes to Financial Statements

Note A—Description of Plan

The following description of the MANN+HUMMEL Purolator Filters 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution retirement plan which covers all employees of MANN+HUMMEL Purolator Filters, LLC (the “Company”). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

Employees become eligible to participate in the Plan and make deferrals after reaching the age of 20. Eligible participants do not include leased employees or interns.

Contributions

Each year, participants may contribute up to 85% of annual compensation, as defined in the Plan agreement, up to the maximum amount allowed by the Internal Revenue Code (IRC). Participants who have reached age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also make Roth contributions on an after-tax basis. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect to not participate. Automatically enrolled participants have their deferral rate set at 3% of compensation with contributions invested in a designated fund until changed by the participant. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company matches 100% of the first 3% of compensation contributed by the employee plus 50% of the next 3% of compensation contributed by the employee. The Plan also provides for discretionary employer nonelective contributions. No discretionary employer nonelective contributions were made during the years ended December 31, 2020 and 2019. In addition, the Plan is a safe harbor plan and utilizes safe harbor provisions in its compliance testing.

Participant Accounts

Each participant’s account is credited with the participant’s contribution, the Company’s safe harbor matching contribution, allocation of the Company’s nonelective contribution (when made), and Plan earnings. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

MANN+HUMMEL Purolator Filters 401(k) Plan

Notes to Financial Statements

Note A—Description of Plan (continued)

Vesting

Participants are immediately vested in their contributions and employer safe harbor matching contributions plus actual earnings thereon. Company contributions other than safe harbor matching contributions plus actual earnings thereon are subject to a five-year vesting schedule.

Notes Receivable from Participants

Participants may borrow from their account balance a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. Loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates. The interest rates currently in use in the Plan range from 4.25% to 6.50%. Principal and interest are paid ratably through payroll deductions. Loans must be repaid within five years unless used for the purchase of a principal residence, in which case the loan must be repaid within 30 years.

Payment of Benefits

Participants are eligible for Plan distributions upon reaching the age of 65, termination of employment, retirement, total or permanent disability, or death. Participants may elect to receive a lump sum amount equal to the value of the participant's vested interest in their account, or monthly installments as defined in the Plan document. If a terminated participant's account balance is less than \$5,000, the Plan reserves the right to immediately make a lump-sum distribution. Participants who have reached age 59½ may take in-service withdrawals. Hardship withdrawals are also available to participants with certain types of immediate and heavy financial need.

Forfeitures

Forfeitures resulting from the nonvested portions of accounts of participants who terminate prior to being fully vested may be used to reduce the Company's future contributions or to pay Plan expenses. Forfeitures used to reduce Company matching contributions were approximately \$13,700 and \$2,300 in 2020 and 2019, respectively. At December 31, 2020 and 2019, forfeited nonvested accounts totaled approximately \$1,800 and \$20, respectively.

Note B—Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

MANN+HUMMEL Purolator Filters 401(k) Plan

Notes to Financial Statements

Note B—Summary of Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of Plan assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2020 or 2019.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation or depreciation of fair value of investments.

MANN+HUMMEL Purolator Filters 401(k) Plan

Notes to Financial Statements

Note B—Summary of Accounting Policies (continued)

Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

The full impact of the COVID-19 outbreak continues to evolve. Since the values of the Plan's individual investments have and will fluctuate in response to changing market conditions, the amount of losses that will be recognized in subsequent periods, if any, and related impact on the Plan's liquidity cannot be determined at this time.

Subsequent Events

Subsequent events were evaluated through October 11, 2021, which is the date the financial statements were available to be issued.

Note C—Investments

Inputs to valuation techniques refer to the assumptions that market participants would use in pricing the asset. The Plan utilizes a fair value hierarchy for valuation inputs that gives the highest priority to quoted prices in active markets for identical assets (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The three levels of the fair value hierarchy are described as follows:

Level 1—Inputs to the valuation methodology are unadjusted quoted prices for identical assets in active markets.

Level 2—Inputs to the valuation methodology include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in inactive markets, other inputs that are observable, or can be corroborated by observable market data.

Level 3—Inputs to the valuation methodology are both significant to the fair value measurement and unobservable.

MANN+HUMMEL Purolator Filters 401(k) Plan

Notes to Financial Statements

Note C—Investments (continued)

The following valuation methodologies were used to measure the fair value of the Plan's investments:

Mutual Funds: Valued at daily closing prices as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common Collective Trust: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee of the Common Collective Trust (CCT), is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. Investments using the NAV as a practical expedient are not required to be categorized within the fair value table. There are no participant redemption restrictions for these investments, the redemption notice period is applicable only to the Plan.

The Plan's valuation methods may result in a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Although the Plan's management believes the valuation methods are appropriate and consistent with the market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

MANN+HUMMEL Purolator Filters 401(k) Plan

Notes to Financial Statements

Note C—Investments (continued)

The Plan investment assets at fair value as are set forth by level within the fair value hierarchy as follows:

	Level 1	Level 2	Level 3	Total
December 31, 2020				
Mutual funds	\$ 49,214,340	\$ —	\$ —	\$ 49,214,340
Investments measured at net asset value*				2,124,182
Total investments				\$ 51,338,522
	Level 1	Level 2	Level 3	Total
December 31, 2019				
Mutual funds	\$ 48,310,294	\$ —	\$ —	\$ 48,310,294
Investments measured at net asset value*				1,029,697
Total investments				\$ 49,339,991

**Certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.*

Note D—Certification of Information by the Trustees

The Plan Administrator has elected the method of annual reporting compliance permitted by Section 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee, Reliance Trust Company, has certified that the investments, investment income on those investments, participant loans and the information included in the accompanying supplemental schedule is complete and accurate.

Note E—Related Party Transactions and Party in Interest Transactions

Reliance Trust Company is the trustee as defined by the Plan and therefore fees paid to Reliance Trust Company qualify as party in interest transactions. Fees incurred by the Plan for investment management services are included in net appreciation or depreciation in fair value of the investments. The Plan made direct payments to the trustee of approximately \$99,000 and \$50,000 for the years ended December 31, 2020 and 2019, respectively. Notes receivable from participants also qualify as party in interest transactions.

MANN+HUMMEL Purolator Filters 401(k) Plan

Notes to Financial Statements

Note F—Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested in the discretionary employer nonelective contributions, plus actual earnings thereon.

Note G—Income Tax Status

The Internal Revenue Service has determined and informed the trustee by a letter dated March 31, 2014, that the Prototype Non-Standardized Profit-Sharing Plan with CODA (the prototype plan which the Plan is based) is designed in accordance with the applicable sections of the IRC. Although the Plan has been amended since receiving the opinion letter, the Plan Administrator believes the Plan is designed, and is currently being operated, in compliance with the applicable requirement of the IRC and therefore, believes the Plan is qualified and tax-exempt.
