Notes to Financial Statements

1. Description of Plan

The following description of the PD Systems, LLC 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. The Plan is a multiple employer plan consisting of the following active participating employers, (collectively, "Company"): 1) PD Systems, LLC, 2) PD Power Systems, LLC and 3) TBF Group, Inc. These entities are related by common control to the sponsor company, PD Systems, LLC.

The Plan was amended effective May 1, 2020 in reaction to a corporate reorganization. PD Systems, LLC, was formed as a result of the reorganization of the former entity, PD Systems, Inc. The reorganization was a change in the legal organization, not a change in the reporting entity. PD Systems, LLC retained the FEIN of the former PD Systems, Inc. PD Systems, Inc. was the former plan sponsor.

General

The Plan is a defined contribution plan. The Plan covers all employees, who have completed one month of service and are eighteen years of age or older. The Board of Directors of the Company manages the operation and administration of the Plan. Reliance Trust Company serves as the trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security ("CARES") Act was passed by Congress. The CARES Act, among other things, includes several relief provisions available to tax qualified retirement plans and their participants. Plan management evaluated the impact of the CARES Act on the Plan and adopted several of the provisions regarding the expansion of allowed Plan distributions, the repayment of loans and the suspension of required minimum distributions.

Contributions

Each year, participants may contribute up to 56% of annual compensation, as defined in the Plan agreement, subject to Internal Revenue Code (IRC) limitations. Participant salary deferrals may be traditional 401(k) (pre-tax) or Roth 401(k) (after-tax). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans and certain individual retirement accounts. The Company matches 50% of the first 10% of the Participant's compensation. The Company provides prevailing wage contributions for participants as required by certain government contracts. Contributions are subject to certain limitations.

Investment options

Participants direct the investment of their accounts into various investment options offered by the Plan. Currently, the Plan offers only mutual funds as investment options for participants.

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contributions, and plan earnings and losses, and charged with benefit payments, transaction fees related to notes receivable from participants and distributions, and allocations of administrative expenses. Allocations are based on account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions and Company prevailing wage contributions. Beginning on January 1, 2015, new participants are fully vested in the Company's matching contributions after three years of credited service.

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of \$500 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the plan administrator. At December 31, 2020, outstanding loans bore interest between 4.25% and 6.5%. Principal and interest are paid ratably through payroll deductions.

Payment of benefits

On termination of service, retirement, death, or disability, a participant or their beneficiary in the event of death, may elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum amount, substantially equal installments or partial withdrawals as provided by the Plan. Hardship withdrawals are available upon demonstration of financial hardship with limitations as defined in the Plan. In-service distributions are permitted from fully vested accounts after attaining age 59½.

Forfeitures

At December 31, 2020 and 2019, forfeited non-vested accounts totaled \$268 and \$4,988, respectively. These accounts will be used to reduce future Company contributions or pay plan expenses. During 2020, forfeitures of \$42,369 were used to reduce Company contributions.

2. Summary of Significant Accounting Policies

Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates and assumptions.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the plan's valuation policies utilizing information provided by the trustee. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income from notes receivable from participants is recorded when received. Other interest is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciate includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document.

Payment of benefits

Benefits are recorded when paid.

Administrative expenses

The Plan's administrative expenses are paid by either the Plan or the Company, as provided by the Plan document. Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan. Expenses relating to specific participant transactions (notes receivable from participants and distributions) are charged directly to the participant's account.

Subsequent events

The Plan has evaluated subsequent events and transactions for potential recognition or disclosure through October 11, 2021, the date the financial statements were available to be issued.

3. Fair Value Measurements

Fair value, as defined under GAAP, is an exit price representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy which prioritizes the inputs used in measuring fair value. These tiers include:

Level 1: Observable inputs such as quoted prices in active markets.

Level 2: Inputs other than quoted prices in active markets that are either directly or indirectly observable.

Level 3: Unobservable inputs about which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

There have been no changes in the methodologies used at December 31, 2020 or 2019. The following is a description of the valuation methodologies used for assets measured at fair value:

Mutual funds

Mutual funds are publicly traded investments and are valued daily at the closing price reported on the active market on which the funds are traded.

PD Systems, LLC 401(k) Plan
Notes to Financial Statements

The following tables set forth by level within the fair value hierarchy the Plan's assets accounted for at fair value on a recurring basis as of December 31, 2020 and 2019:

Assets at Fair Value as of December 31, 2020			
	Level 1	Level 2	Level 3
Mutual funds	<u>\$ 11,562,317</u>	<u>\$ -</u>	<u>\$ -</u>
Total assets in the fair value hierarchy	<u>\$ 11,562,317</u>	<u>\$ -</u>	<u>\$ -</u>

Assets at Fair Value as of December 31, 2019			
	Level 1	Level 2	Level 3
Mutual funds	<u>\$ 9,682,077</u>	<u>\$ -</u>	<u>\$ -</u>
Total assets in the fair value hierarchy	<u>\$ 9,682,077</u>	<u>\$ -</u>	<u>\$ -</u>

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. Unaudited Information Certified by Trustee

The accompanying financial statements include the following unaudited information as of December 31, 2020 and 2019 and for the year ended December 31, 2020 that was obtained from data prepared and certified to be complete and accurate by the Plan's trustee:

5. Exempt Party-In-Interest Transactions

Reliance Trust Company (Reliance) is the trustee, and ADP, LLC (ADP) is the recordkeeper, as defined by the Plan; therefore, transactions with Reliance and ADP qualify as party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund. Fees paid to ADP for recordkeeping services and participant-initiated transactions totaled \$6,598. The Plan paid \$24,351 to service providers who are not considered parties-in-interest for professional service including investment advisory, plan recordkeeping and third-party administration services.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their accounts.

7. Tax Status

The Plan has not obtained a determination letter from the Internal Revenue Service (IRS) stating that the Plan was in compliance with the applicable requirements of the IRC. The Plan is relying on the IRS approval of the non-standardized prototype plan that it is utilizing. The IRS has determined and informed the document sponsor by a letter dated July 16, 2014 that the prototype plan document was designed in accordance with applicable sections of the IRC. The plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2020, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. COVID-19

In March 2020, the World Health Organization declared the outbreak and spread of COVID-19, a novel strain of Coronavirus, a pandemic. The coronavirus outbreak has had far reaching and unpredictable impacts on the global economy, supply chains, financial markets, and global business operations of a variety of industries. Governments have taken substantial action to contain the spread of the virus including mandating social distancing, suspension of certain gatherings, and shuttering of certain nonessential businesses.

There is significant uncertainty in the nature and degree of its continued effects on the Plan. The extent to which it will impact the Plan going forward will depend on a variety of factors including the duration and continued spread of the outbreak, impact on the Company's customers, employees and vendors, as well as governmental, regulatory and private sector responses. Further, the pandemic may have a significant impact on management's accounting estimates and assumptions.
