Each year, the Company will determine the formula for the discretionary matching contribution.

Participant Accounts

Each participant's account is credited or charged with his or her contributions and allocations of Company contributions, investment earnings or losses and trustee administrative fees. Allocations are based on participant earnings, account balances, or account activity. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

The CARES Act

On March 27, 2020, the President signed the Coronavirus Aid, Relief, and Economic Security Act (the "CARES Act" into law. The CARES Act included provisions for eligible defined contribution plans, including availability of qualified coronavirus-related distributions, delay of repayments for existing plan loans, and other relief provisions. These CARES Act provisions were optional and employers were permitted to choose whether, and to what extent, to provide the coronavirus-related distribution and/or loan provisions of the CARES Act. The Plan provided access to the new CARES Act distribution and loan deferral options to participants as soon as administratively feasible, in accordance with Internal Revenue Services ("IRS") guidance and other applicable requirements.

Vesting

Participants are vested immediately in their contributions adjusted by investment earnings or losses thereon. Company contributions are vested based on years of credited service. There is a graded vesting schedule whereby a participant is 100 percent vested after four years of credited service (25% after one year of service and 25% per year thereafter). Upon retirement age, death, disablement or termination of the Plan by the Company, a participant becomes fully vested.

1. DESCRIPTION OF THE PLAN (continued)

Investment Options

The Plan currently offers mutual funds and common/collective trusts as investment options for participants. The participants may change their investment options at any time. Mutual funds offered by the Plan include a money market fund, bond funds, domestic and international equity funds, and asset allocation funds.

Payments of Benefits

On termination of service due to death, permanent disability or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments, or partial payments. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. The Plan also allows in-service hardship withdrawals before retirement age for qualifying circumstances. Distributions to the participants of the plan are recorded when paid.

Forfeitures

Forfeited nonvested accounts are available to be used to offset Plan expenses, but can also be used to reduce employer contributions or allocated as discretional additional matching contributions. Forfeitures were used to reduce employer contributions by $33 in 2020. At December 31, 2020 and 2019, the balance of forfeitures were $106 and $21, respectively.

Notes Receivable from Participants

Participants may borrow from their account balances, provided that the note receivable does not exceed the lesser of 50% of their vested account balance or $50,000 reduced by the highest outstanding note receivable balance during the preceding 12 months. The notes receivable are secured by the vested balance in the participant's account and bear interest at a rate commensurate with the prevailing rate charged by commercial lenders for a note receivable of similar duration, repayment terms and security, as determined by the Plan administrator. Interest rates on the notes outstanding at December 31, 2020 were between 4.25% and 6.50%. Borrowers repay principal and interest over five years or less via regular payroll deductions.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. Accordingly, income is recognized when earned, and expenses are recorded when incurred.

Notes Receivable from Participants

Notes receivable from participants are reported at their unpaid principal balances plus any accrued but unpaid interest.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Investment Valuation and Income Recognition

Investments in mutual funds and common/collective trusts are reported at fair value, which is valued at the net asset value of shares owned by the Plan at year end. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. *(See Note 5)*

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation and depreciation includes the Plan's gains and losses on investments bought and sold as well as held at year-end.

The Plan presents, in the Statement of Changes in Net Assets Available for Benefits, the net appreciation and depreciation in the fair value of its investments, which consists of the realized and unrealized gains on those investments.

Administrative Expenses

Investment transaction expenses are offset against the related investment income. Other administrative and non-investment expenses of the Plan are either paid by the Plan Sponsor, which is a party-in-interest, or through the Plan expense account. Expenses paid by the Plan Sponsor, which are not reflected in the accompanying financial statements, constitute exempt party-in-interest transactions under ERISA. Expenses paid through the Plan expense account are included in Administrative expenses in the Statement of Changes in Net Assets Available for Benefits. For the year ended December 31, 2020, the administrative expenses paid by the Plan were $20,370.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

3. INFORMATION PREPARED AND CERTIFIED BY THE TRUSTEE

Reliance Trust Company (the Trustee) has certified that the following information included on the financial statements as of December 31, 2020 and 2019 is complete and accurate:

a. Investments as included on the Statements of Net Assets Available for Benefits.

Reliance Trust Company (the Trustee) has certified that the following information included on the financial statements as of December 31, 2020 and 2019 is complete and accurate:

b. All information pertaining to investment income and expenses on the Statement of Changes in Net Assets Available for Benefits.

4. INVESTMENTS

During the year ended December 31, 2020, the Plan's investments (including gains and losses on investments bought and sold, as well as held at year-end) appreciated in value by $398,879.

The Plan's investments earned interest and dividend income totaling $100,299 for the year ended December 31, 2020.

5. FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying Statements of Net Assets Available for Benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC"), *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of fair value hierarchy under FASB ASC, *Fair Value Measurements* are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to the valuation methodology are observable other than level 1 prices, such as quoted prices for similar assets and liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 - Inputs to the valuation measurement are unobservable, supported by little or no market data, and are significant to the fair value of the assets and liabilities.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Mutual funds: Valued at the net asset value of shares held by the plan at year end.

5. FAIR VALUE MEASUREMENTS (continued)

Common/collective trusts: valued based on the underlying investments in the Fund. The Fund holds synthetic and other fully benefit responsive guaranteed investment contracts, which are recorded at contract value because they guarantee a minimum rate of return and provide for benefit responsiveness. Contract value represents contributions made to the Fund, plus earnings, less participant withdrawals and administrative expenses. While there are certain Fund and Plan level restrictions that may affect the Fund's ability to transact at contract value, Plan management believes that the occurrence of events that would cause the Fund to transact at less than contract value are not probable of occurring.

Fair value of assets measured on a recurring basis at December 31, 2020:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ -	$ 4,388,799	$ -	$ 4,388,799
	$ -	$ 4,388,799	$ -	4,388,799
Common/collective trusts (1)				408,155
				$ 4,796,954

(1) The fair value of each common collective trust fund has been estimated using the net asset value of the investment as a practical expedient.

Fair value of assets measured on a recurring basis at December 31, 2019:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ -	$ 4,044,769	$ -	$ 4,044,769
	$ -	$ 4,044,769	$ -	4,044,769
Common/collective trusts (1)				437,740
				$ 4,482,509

(1) The fair value of each common collective trust fund has been estimated using the net asset value of the investment as a practical expedient.

As of December 31, 2020 the plan had no assets measured at fair value on a non-recurring basis and no liabilities measured at fair value on a recurring or non-recurring basis.

6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their employer contributions.

7. PARTY-IN-INTEREST TRANSACTIONS

A party-in-interest is defined under Department of Labor regulations as any fiduciary (including, but not limited to, any administrator, officer, trustee or custodian), counsel or employee of the Plan, any party rending services to the Plan, the employer and certain others. The independent auditor of the plan's financial statements is a service provider to the plan and a party-in-interest. Certain plan investments are managed by Reliance Trust Company or affiliates thereof. Reliance Trust Company is the trustee as defined by the Plan and therefore, these transactions qualify as party-in-interest transactions. Notes receivable from participants also reflect party-in-interest transactions. Certain administrative functions are performed by officers or employees of the Plan Sponsor. No such officer or employee received compensation from the Plan.

8. TAX STATUS

The Company adopted a Prototype Non-Standardized Profit Sharing Plan which received a favorable opinion letter from the Internal Revenue Service (IRS) on July 16, 2014, which stated that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan is following the accounting requirements associated with the uncertainty in income taxes using the provisions of FASB ASC, *Income Taxes.* Using that guidance, tax positions initially need to be recognized in the financial statements when it is more-likely-than-not the positions will be sustained upon examination by tax authorities. It also provides guidance for derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition.

As of December 31, 2020, the Plan had no uncertain tax positions that qualify for either recognition or disclosure in the financial statements.

9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits at December 31, 2020.

In March 2020, the World Health Organization declared Coronavirus COVID-19, a global pandemic. This contagious disease outbreak and any related adverse public health developments may adversely affect workforces, economies, and financial markets globally, potentially leading to an economic downturn. It is not possible for the Plan to predict the duration or magnitude of the adverse results of the outbreak and its effects on the Plan's business or results of operations at this time.

10. CONCENTRATION OF MARKET AND CREDIT RISK

The Plan's exposure to credit loss in the event of nonperformance of investments is limited to the carrying value of such instruments. The Plan's concentration of credit risk and market risk is dictated by the Plan's provisions as well as those of ERISA and the participants' investment preferences.
