Funding Policy:

The Company's policy is to fund the Plan based on an annual level funding amount which is projected to be necessary to fund each participant's target benefit. The annual level funding is dependent on the participant's current age, normal retirement age, life expectancy, and projected interest rates.

Rollover contributions from other Plans are also accepted, providing certain specified conditions are met.

Contributions are subject to limitations on annual additions and other limitations imposed by the Internal Revenue Code, as defined in the Plan agreement.

Participants' Accounts:

Each participant's account is credited with the employer contributions and earnings and losses thereon.

1 Description of Plan, Continued

Forfeitures:

Forfeitures due to termination from the Plan before a participant is 100% vested were used as a reduction of the employer's contribution and to offset plan expenses. Forfeitures utilized for the years ended December 31, 2020 and 2019 were \$16,618 and \$6,082, respectively. The ending forfeiture balance at December 31, 2020 and 2019 is \$0 and \$1,717, respectively.

Payment of Benefits:

Upon termination of service by reason of separation of service, retirement, death or total and permanent disability, a participant receives a lump sum amount, joint and survivor annuity or life annuity. Benefits are recorded when paid.

Investment Options:

Upon enrollment in the Plan, a participant may direct contributions to any of the investment options offered by the Plan.

Administrative Fees:

The Plan pays for recordkeeping fees. Other expenses are paid by the Company and are excluded from these financial statements.

2 Summary of Significant Accounting Policies

Basis of Accounting:

The Plan's transactions are reported on the accrual basis of accounting.

Valuation of Investments:

Investments are stated at fair value. Marketable securities are reported at fair market value as of the balance sheet date. Fair market values represent quoted market prices or, if quoted market prices are not available, estimated fair values as determined by the Plan's investment broker. The fair value of the common collective trust is based Net Asset Value as the Practical Expedient.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

Use of Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties:

The Plan's investments include investments in mutual funds and collective funds holding investment contracts with varying degrees of risk, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the Statements of Net Assets Available for Plan Benefits.

Recent Accounting Pronouncements:

In August 2018, the FASB issued Accounting Standards Update No. 2018-13, Fair Value Measurement (Topic 820): Disclosure Framework-Changes to the Disclosure Requirements for Fair Value Measurement ("ASU 2018-13"). The new standard removes or modifies certain existing disclosure requirements and adds additional disclosure requirements related to fair value measurement. The Plan adopted ASU 2018-13 for plan year 2020. The effect of the adoption is an overall reduction in the disclosures related to fair value measurement.

3 Tax Status

On July 10, 2015, the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken uncertain tax positions that more-likely-than-not would not be sustained upon examination by applicable taxing authorities. The Plan Administrator has analyzed tax positions taken by the Plan and has concluded that, as of December 31, 2020, there are no uncertain tax positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. However, currently no audits for any tax periods are in progress.

4 Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under Topic 820 are described as follows:

Level 1: Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- * Quoted prices for similar assets or liabilities in active markets
- * Quoted prices for identical or similar assets or liabilities in inactive markets
- * Inputs other than quoted prices that are observable for the asset or liability
- * Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs that are unobservable inputs for the asset or liability.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019.

Mutual Funds:

The fair value of the mutual funds are based on quoted market prices.

Common Collective Trust:

The fair value of the common collective trust is based on a net asset value per unit as a practical expedient. The fund transacts units (purchases and sales) on a daily basis. There are no commitments or restrictions on the funds.

Self-Directed Brokerage Account:

The Self Directed Brokerage Account is a retirement account which allows participants to invest in individual securities outside of the Plan's funds. Investments include common stocks, mutual funds, preferred stocks, unit investment trusts and money market funds. All investments fall into Level 1 of the hierarchy.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019. There were no assets at December 31, 2020. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.
