DAWSON RESOURCES 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2020 AND 2019

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the Dawson Resources 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General - The Plan was established on January 1, 2007 and is a defined contribution plan covering all employees of DeCapua Enterprises d.b.a Dawson Resources (the Company) who are age 21 or older and have completed one year of service or 1,000 hours. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Participants may contribute up to 100% of their annual compensation provided, however, that such contribution does not exceed the Internal Revenue Service (IRS) prescribed limitations. The Plan allows participants who have attained age 50 by the end of the Plan year to make catch-up contributions in accordance with Internal Revenue Code (IRC) Section 414(v). Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company may decide to make matching and profit-sharing contributions, solely at the Company's discretion. There were no profit sharing or matching contributions made for the year ended December 31, 2020.

Participant Accounts - Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions and (b) Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined by the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their contributions, plus actual earnings thereon. Vesting in the remainder of an employee's account is based on the employee's years of service, vesting 20% each year. A participant is 100% vested after six years of credited service. Upon retirement, death or disability, participants become 100% vested in their accounts.

Forfeitures - Forfeitures of terminated participants' nonvested accounts can be used to offset current-year Plan expenses or to reduce employer contributions. At December 31, 2020 and 2019, forfeited nonvested accounts totaled approximately \$13,000 and \$12,000, respectively.

Payment of Benefits - On termination of service, disability, retirement or death, a participant may elect to receive a lump-sum distribution equal to the value of his or her vested interest in the account.

Coronavirus Aid, Relief, and Economic Security Act Amendment - The Plan was amended during the year ended December 31, 2020, for benefits offered through the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) for coronavirus relief. Under the CARES Act, the Plan elected to increase the maximum loan amount to the lesser of \$100,000 or 100% of the vested account balance, for loans taken between March 27, 2020, and September 23, 2020. In addition, participants who had loans due from March 27, 2020, through December 31, 2020, may delay their repayments and extend the term for up to one year.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2020 AND 2019

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of significant accounting policies consistently applied by the Plan sponsor in preparation of the accompanying financial statements follows:

Basis of Accounting - The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - Investments are reported at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment committee determines the Plan's valuation policies utilizing information provided by the investment adviser, trustee and insurance company. See Note 4 for discussion of fair value measurement. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits - Benefit distributions are recorded when paid.

Administrative Expenses - Administrative expenses of the Plan, including trustee, service provider and audit fees, are paid for by the Plan or the Plan sponsor.

Fair Value Measurement - In August 2018, the Financial Accounting Standards Board issued the Accounting Standards Update (ASU) No. 2018-13, Disclosure Framework - Changes to the Disclosure Requirements for Fair Value Measurement. This ASU removes the requirements to disclose the amount of and reasons for transfers between Level 1 and Level 2 of the fair value hierarchy, the policy for timing of level transfers, and the valuation processes for Level 3 fair value measurements. This ASU requires entities that calculate net asset value (NAV) to disclose the timing of liquidation of an investee's assets and the date when redemption restrictions might lapse, only if the timing was communicated to the entity or publicly announced, and disclose information on measurement uncertainty as of the reporting date. In addition, this ASU will require entities to present the changes in unrealized gains and losses for recurring Level 3 fair value measurements, as well as the range and weighted average of significant unobservable inputs used to develop Level 3 fair value measurements, based on materiality. The amendments in this ASU are effective for fiscal years beginning after December 15, 2019. All amendments, with the exception of the disclosures on changes in unrealized gains and losses, Level 3 unobservable inputs and measurement uncertainty information, will be applied retrospectively. The Plan adopted ASU 2018-03 for the year ended December 31, 2020. The adoption of the standard did not have a material impact on the financial statements.

DAWSON RESOURCES 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2020 AND 2019

NOTE 3 - CERTIFICATION (UNAUDITED)

The Plan administrator has received certification from Nationwide Financial Services, Inc. (Nationwide), the trustee of the Plan's assets, as to the completeness and accuracy of the investments and related investment income. Such information includes the composition and current value of the investments reported in the statements of net assets available for benefits and the related investment income reported in the statement of changes in net assets available for benefits.

NOTE 4 - FAIR VALUE MEASUREMENT

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under Accounting Standards Codification 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded. The fair value of these assets are measured using Level 1 inputs.

Money Market Fund: Valued at cost, which approximates fair value (cost plus interest). The fair value of these assets are measured using Level 1 inputs.

DAWSON RESOURCES 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2020 AND 2019

NOTE 4 - FAIR VALUE MEASUREMENT (Continued)

The method described above might produce a fair value calculation that might not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

		2020			
		Level 1	Level 2	Level 3	Total
Mutual funds	\$	2,927,940	-	-	\$ 2,927,940
Money market funds		15,108	-	-	15,108
Investments At Fair Value	\$	<u>2,943,048</u>	<u>-</u>	<u>-</u>	\$ <u>2,943,048</u>
		2019			
		Level 1	Level 2	Level 3	Total
Mutual funds	\$	2,380,438	-	-	\$ 2,380,438
Money market funds		14,229	-	-	14,229
Investments At Fair Value	\$	<u>2,394,667</u>	<u>-</u>	<u>-</u>	\$ <u>2,394,667</u>

NOTE 5 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of a plan termination, participants will become fully vested in their accounts.

NOTE 6 - TAX STATUS

The Plan is a prototype plan of Trinity Pension Consultants, Inc., which received an opinion letter dated January 22, 2018, in which the IRS stated that the form of the Plan document was acceptable under the applicable requirements of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving this opinion letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC, and, therefore, believes the Plan is qualified, and the related trust is tax-exempt.

DAWSON RESOURCES 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2020 AND 2019

NOTE 6 - TAX STATUS (Continued)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2020 and 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes that the Plan is no longer subject to examinations for years prior to 2017.

NOTE 7 - PARTY-IN-INTEREST TRANSACTIONS

Plan investments are managed by Nationwide. Nationwide is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions. Certain administrative functions are performed by officers or employees of the Company at no cost to the Plan. These transactions qualify as party-in-interest transactions.

NOTE 8 - RISK AND UNCERTAINTIES

The Plan invests in various investment securities that are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 9 - SUBSEQUENT EVENTS

Subsequent events are defined as events or transactions that occur after the statement of net assets available for benefits date but before the financial statements are issued or are available to be issued. Management has evaluated subsequent events through August 31, 2021, the date the financial statements were issued and determined that there have been no events that have occurred that would require adjustments to the disclosures in the financial statements except for the matter described in the following paragraph.

Subsequent to year-end, the Company sold its entire healthcare division for a total purchase price of \$14,000,000, which included 13 employees who were participants in the Plan. The balance of participants who were affected by the sale and within the Plan as of December 31, 2020, totaled to be \$773,602 of the net plan assets of \$2,943,048.
