INDEPENDENT AUDITORS' REPORT

Administrator and Plan Participants
Nissin Brake Ohio, Inc. Pension Plan

We were engaged to audit the accompanying financial statements of the Nissin Brake Ohio, Inc. Pension Plan, which comprise the statements of net assets available for benefits as of December 31, 2020 and 2019, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note E, which was certified by Principal Trust Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the Principal Trust Company held the Plan's investment assets and executed investment transactions. The plan administrator has obtained a certification from the custodian as of and for the years ended December 31, 2020 and 2019, that the information provided to the plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

We were engaged for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule of Assets (Held at End of Year) as of the year ended December 31, 2020, which is the responsibility of plan management, is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, it is inappropriate to and we do not express an opinion on the supplemental schedule referred to above.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

A – DESCRIPTION OF PLAN

The following brief description of the Nissin Brake Ohio, Inc. Pension Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General - The Plan is a defined benefit pension plan covering substantially all employees of Nissin Brake Ohio, Inc. (Company). The Plan, formerly known as the Findlex Corporation Pension Plan, changed its name during 2007 to reflect the employer's name change. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Principal Financial Group ("Principal") is the custodian, recordkeeper, and actuary. The Plan and all the assets of the Plan are governed by a group annuity contract with Principal. The Plan was adopted in November 1998 and was effective as of April 1, 1998. A participant's years of credited service include years (measured from January 1 through December) prior to the effective date of the Plan, if the participant would have been a covered employee and participant but for the fact that the Plan was not yet in existence. Effective December 31, 2006, the Plan was frozen for both new entrants and benefit accrual.

Pension Benefits - Employees attaining the later of age 65 or 5 years from the first day of the Plan year in which Entry Date occurred are eligible for monthly pension benefits. The monthly pension benefit is based on years of credited service multiplied by \$17 but not to exceed \$510 per month. The \$17 rate is gradually reduced for years of credited service in which an employee works less than 1,800 hours but more than 1,000 hours during the year. The rate is \$0 for less than 1,000 hours worked during the year. The Plan permits early retirement at ages 55 - 64. If employees terminate before rendering five (5) years of service, they forfeit the right to receive their nonvested accrued benefit. Employees will receive their pension benefits in the form of a straight life annuity or a qualified joint and survivor annuity payable monthly from retirement. Employees may elect to receive their pension benefits in various optional forms of an annuity. Upon retirement or termination, employees will receive the value of their accumulated plan benefits as a lump-sum distribution provided that the value of their nonforfeitable benefit is equal to or less than \$5,000.

Death Benefits - If a participant dies after becoming vested and before benefits commence, a death benefit equal to the value of the participant's accumulated pension benefits is paid to the participant's beneficiary in the form of an annuity for the life of the beneficiary, one of the optional forms of benefit or a lump-sum distribution.

B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

December 31, 2020 and 2019

B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Actuarial Present Value of Accumulated Plan Benefits - Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' years of credited service multiplied by the contractual dollar rate. Benefits payable under all circumstances – retirement, death, and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an actuary from Principal Financial Services and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations were (a) life expectancy of participants (the Pri-2012 Blue collar base rate mortality table using the Principal Mortality Improvement Scale 2016-10 based on MP-2020 study was used), (b) retirement age assumptions (100% at Normal Retirement Age - age 65), and (c) the assumed interest rate to value plan liabilities was 5.0%. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Payment of Benefits - Benefit payments to participants are recorded upon distribution.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Risks and Uncertainties: The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note H for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

During 2020, the Plan's investments (including interest, dividends, gains and losses on investments, bought and sold, as well as held during the year) appreciated in value as follows: Pooled separate accounts had net gains of \$820,945.

Exempt Party-In-Interest Transactions: Plan investments are held in funds managed by Principal Financial Group, the Plan's asset custodian, recordkeeper, and actuary. Therefore, transactions with Principal qualify as party-in-interest.

Employees of the Plan sponsor (who may also be participants in the Plan) perform certain administrative functions at no cost to the Plan.

These transactions are not deemed prohibited party-in-interest transactions because they are covered by statutory or administrative exceptions from the Code and ERISA's rules on prohibited transactions.

Subsequent Events: The Plan has evaluated subsequent events through October 12, 2021, the date which the financial statements were available to be issued.

There has been heightened market risk and volatility associated with the COVID-19 pandemic, and this could materially affect investment values. At this time, any financial impact of potential COVID-19 related disruptions is not known.

The Company became part of a joint venture in January 2021 and changed its name to Hitachi Astemo Findlay, Inc.

C – FUNDING POLICY

The amount and time of employer contributions shall be determined based on actuarial valuations and recommendations as to the amounts required to fund benefits under this Plan. The amount of employer contributions shall meet or exceed the minimum funding standards of ERISA and the Internal Revenue Code, and the contributions exceeded these minimum amounts. The plan was frozen for both new entrants and benefit accrual effective December 31, 2006.

Notes to Financial Statements
December 31, 2020 and 2019

D – PLAN TERMINATION

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Vested benefits insured by the Pension Benefit Guarantee Corporation (PBGC) (a U.S. governmental agency) up to the applicable limitations.
- b. All other vested benefits (that is, vested benefits not insured by the PBGC).
- c. All nonvested benefits.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

E – INFORMATION CERTIFIED BY THE CUSTODIAN

The Plan has received certification from Principal Trust Company, the asset custodian, that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments as shown in the Statements of Net Assets Available for Benefits as of December 31, 2020 and 2019
- Investment activity as shown in the Statement of Changes in Net Assets Available for Benefits for the years ended December 31, 2020 and 2019
- The Schedule of Assets Held for Investment Purposes as of December 31, 2020 as shown on Schedule I

F – INCOME TAX

The Plan obtained its latest determination letter on October 28, 2013, in which the Internal Revenue Service stated the Plan, as designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. The Company believes the Plan is currently designed and operated in compliance with the applicable requirements of the IRC, that the Plan is qualified, and the related trust is tax exempt. Plan management believes there are no uncertain tax positions that would require recognition of a liability or disclosure in the financial statements. The Plan's returns are subject to examination by the Internal Revenue Service, generally for three years after the date the return is filed.

H – FAIR VALUE MEASUREMENTS

Accounting standards establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Notes to Financial Statements
December 31, 2020 and 2019

H – FAIR VALUE MEASUREMENTS (continued)

Pooled Separate Accounts (PSA's): Measured at fair value on a recurring basis. Valued at Principal Life Insurance Company's daily computed market value as reported by the fund. Principal calculates and publishes the PSA's daily net asset value (NAV). All PSA transactions are at that day's computed NAV. These funds are deemed to be actively traded with a readily determinable fair value and are classified within Level 1 of the valuation hierarchy.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2020 and 2019:

	Level 1	Level 2	Level 3	Total
Assets at Fair Value at December 31, 2020				
PSA's	<u>\$ 7,139,792</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 7,139,792</u>
Total	<u>\$ 7,139,792</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 7,139,792</u>

Assets at Fair Value at December 31, 2019

PSA's	<u>\$ 6,398,879</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 6,398,879</u>
Total	<u>\$ 6,398,879</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 6,398,879</u>

I – PRIOR PERIOD ADJUSTMENT

The December 31, 2019 financial statements have been adjusted to include an additional employer contribution receivable of \$104,774. As a result, net assets and net increase in net assets increased by the same amount as of December 31, 2019.

Assumptions prescribed by law

Mortality	<u>During benefit payment period</u> IRS Prescribed Mortality - Static Annuitant, male and female.
	<u>Before benefit payment period</u> IRS Prescribed Mortality - Static Non-annuitant, male and female.

Assumptions selected by actuary

Inflation	2.25% increase per year.							
	See Long-Term Capital Market Assumptions link.							
Asset return	5.75% for the current plan year.							
	The asset return is developed as a weighted average rate based on the target asset allocation of the plan and the long-term capital market assumptions. The calculated return is on an arithmetic mean basis. For details, see the Long-Term Capital Market Assumptions link.							
Expected expense	The expected expense included in target normal cost is an estimate based on prior year expenses paid from plan assets. This is the best estimate available of upcoming year's expenses.							
Retirement	Active and inactive participants are assumed to retire at normal retirement age as defined in <u>Plan provisions</u> .							
	This assumption is based on the results of recent experience analysis and anticipated future experience.							
Disability	None. This plan does not offer a subsidized disability benefit therefore the disability assumption is built into the withdrawal assumption.							
Marriage	100% married; husbands are 0 years older than wives.							
	This assumption does not have material impact on the results of this report and has been selected based on our best estimate of active workforce.							
Withdrawal	Table T-3 from the Actuary's Pension Handbook.							
	Selected rates of withdrawal are shown below:							
	<table><tr><th>Age</th><th>Rate of withdrawal</th></tr><tr><td>25</td><td>5.35%</td></tr><tr><td>40</td><td>4.04%</td></tr><tr><td>55</td><td>1.46%</td></tr></table>	Age	Rate of withdrawal	25	5.35%	40	4.04%	55
Age	Rate of withdrawal							
25	5.35%							
40	4.04%							
55	1.46%							
This is based on the assumption selected by your prior actuary. We believe this assumption is reasonable with the plan's design and we will continue to monitor and make appropriate adjustments.								

Form of benefit	Participants are assumed to receive their benefits on the normal form at the assumed retirement age. This is based on the assumption selected by your prior actuary. We believe this assumption is reasonable with the plan's design and we will continue to monitor and make appropriate adjustments
Methods prescribed by law	
Liability measure	Funding target is the present value of the benefits accrued on the valuation date. Target normal cost includes an estimate of plan expenses for the year.
HCE benefit payment restrictions	A ratio of the plan assets and accrued liability is used to determine if restrictions apply. Assets and accrued liability are as of the valuation date and are reduced by: - any retiree benefit index or floor - amounts for HCEs who were previously restricted - an amount for the retiring HCE The estimated HCE ratio illustrated in this report is based on the market value of plan assets (excluding late deposits) and funding target as of the valuation date. The funding target uses the non-stabilized interest rates as defined in IRC §430(h)(2)(C)(iv). Other assumptions or methods could be used.
Methods selected by plan sponsor	
Asset method	Market value
Segment rates	24-month average with no weighting to prior law basis. Use rates where November is the last month included in the average.
PBGC premium basis	Variable Rate Premiums are calculated using census, market value of assets and interest rates in effect on the current valuation date. Interest rates are the 24-month average rates used for annual cost but without the interest rate corridor defined in IRC §430(h)(2)(C)(iv). You elected this Alternative interest method for the 01/01/2020 plan year and this method must be used for five years before a change can be made.
Methods elected by actuary	
Retirees	Assets and liabilities for current and future retirees are included.
Vested benefits	A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date.

The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the survivor annuity death benefit and post retirement death benefits for non-retired participants except as noted in the Plan provisions.

Assumptions and methods elected by actuary - plan accounting (ASC 960)

With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular funding target and target normal cost.

Mortality

Based on Pri-2012 Blue collar base rate mortality table projected generationally using the Principal Mortality Improvement Scale (Principal 2016-10).

Base rates

Before benefit payment period

Employee amount-weighted, male and female

During benefit payment period

Retiree amount-weighted, male and female

The Society of Actuaries is an actuarial organization that periodically reviews mortality data and publishes mortality tables and improvement scales. In October 2019, the SOA released the Pri-2012 Mortality Tables for private-sector retirement plans in the U.S. The Pri-2012 report contains different sets of mortality tables based on complete dataset or various subsets. The Blue collar base rate table was selected based on information provided by the plan sponsor.

Pri-2012 section 12.4. provided three approaches for designated beneficiaries in the calculation of joint-and-survivor annuities. We believe "Approach 1" is reasonable for this plan and has been selected due to data limitations in identifying contingent survivors. In addition, we believe beneficiary mortality isn't materially different while both participants are alive.

Mortality improvement (MI)

Principal 2016-10 MI scale: this scale is based on MP-2020 study and model issued by SOA with the exception of the following user-selected assumptions:

- 10-year convergence period on age and cohort
- Long-term rates (LTR) assumptions using sex-distinct and age-based rates developed from Social Security Trustees Reports.

See Mortality Documentation for rationale and additional information.

Interest rate used to value liabilities 5.00%

The interest rate used to value ASC 960 liabilities is developed as long-term expected geometric return on plan assets. Arithmetic expected return is calculated as the weighted average of broad asset classes' arithmetic returns of the plan's target asset allocation, and then converted to the geometric under lognormal distribution assumption. For details, see Long-Term Capital Market Assumptions link.

Treatment of administrative expenses

No adjustments are made for administrative expenses, either through a reduction in the discount rate or by calculating a present value of future expenses.

Plan sponsors may change their administrative expense handling at any time. Our approach provides consistent handling of ASC 960 liabilities from year to year, whether expenses are paid with plan assets or directly by the employer.

Note - expenses paid with plan assets are required to be included in funding normal cost. As a result, the plan is reimbursed annually through required funding. Exception – contributions are not required due to assets sufficiently in excess of liabilities to fund both expenses and normal cost. In this case, administrative expenses are taken from the excess assets.

The market value of assets on line 2a does not equal assets shown on Schedule H, Schedule I or Form 5500-SF. Schedule H, Schedule I and Form 5500-SF use the full value of contributions received after plan year end. Line 2a includes the value of \$192,322 contributions received after the plan year end with a discounted value of \$185,543.

Schedule SB, Line 22 - Description Of Weighted Average Retirement Age
Nissin Brake Ohio, Inc. Pension Plan
EIN 31-1252372 Plan No. 003

Active participants are expected to retire at the plan's assumed retirement age. The retirement rate reflects only those participants who meet retirement eligibility. An active participant working past assumed retirement age is expected to retire at current age.

1,000 – 1,099 hours	\$9
Less than 1,000	\$0

Benefit freeze Effective 12/31/2006 the accrued benefit is frozen and no additional benefits shall accrue on and after such date.

Early retirement benefit

Age Attained age 55.
Service Completed 10 years of service or
Age Attained age 60
Service Completed 5 years of service.
Form Same as normal retirement benefit.
Amount Accrued benefit reduced by 5% per plan year, prorated per month, for each calendar month preceding normal retirement date.

Late retirement benefit

Age	No maximum age.
Form	Same as normal retirement benefit.
Amount	Greater of the actuarial equivalent of the retirement benefit as of the close of the prior plan year or accrued benefit at the close of the current plan year.

Termination benefit

Vesting percentage	100% after five years of vesting service.
Form	Same as normal retirement benefit.
Amount	Accrued benefit on date of termination multiplied by the vesting percentage.

Survivor annuity death benefit (a vested benefit)

Eligibility	Qualified married participant fully or partially vested in an accrued benefit.
Form	Monthly annuity payable to spouse immediately.
Amount	If death occurs, the amount paid to the surviving spouse is equal to the amount that would have been paid had the participant terminated employment on the date of death and survived to his/her earliest retirement age, retired with a 50% qualified joint and survivor annuity in effect, then died the next day.

Death benefit (a nonvested benefit)

Eligibility	Participant's spouse or non-spouse named beneficiary.
Form	Monthly annuity payable to spouse or lump sum to non-spouse named beneficiary (optional forms available).
Amount	Actuarial Equivalent of the accrued benefit but cannot be less than the survivor annuity death benefit.

Definitions

Optional forms of benefit payments	The optional forms of benefit payments are: • Monthly annuity payable for 5, 10 or 15 years certain and life. • Monthly annuity payable as a survivorship life annuity with survivorship percentages of 50, 66 2/3, 75 or 100. The optional form conversion basis is 7% interest and the mortality table in 1983 Group Annuity for payments other than lump sums. The optional form conversion basis uses the applicable interest rate and applicable mortality table as set forth in Code Section 417 for lump sum payments. The applicable interest rate uses the third calendar month preceding the first day of the stability period which is the plan year.
