SCRIPPS/JOURNAL PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2020 AND 2019

1. DESCRIPTION OF THE PLAN

The following is a general description of the Scripps/Journal Pension Plan (the “Plan”). Participants should refer to the Plan document for a more complete information.

General-The Plan represents the participation of The E.W. Scripps Company (the “Company” or “Scripps”) in the Scripps/Journal Pension Plan, a defined benefit pension plan covering substantially all former employees of Journal Communications, Inc and former participants of The Scripps Pension Plan - The E.W. Scripps Company. Russell Investments Trust Company (the “Trustee”) serves as the trustee of the Plan and manages the Plan’s investments. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The Plan was amended to permanently suspend the Plan and cease all benefit accruals under the Plan effective January 1, 2011 for all active participants.

Pension Benefits-Normal retirement benefits are paid upon reaching social security retirement age. The Plan also provides for reduced benefits for early retirement.

A participant’s normal benefit payment shall commence at the later of the participant’s normal retirement date or the participant’s termination of employment. If the participant’s vested accrued benefit does not exceed \$5,000, the participant will receive a lump-sum distribution of the value of his benefits. If the participant’s vested accrued benefit exceeds \$5,000, the participant shall receive monthly benefit payments following the date on which they become eligible for such benefit.

2. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting-The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“US GAAP”).

Subsequent Events-The Plan has evaluated all subsequent events through October 13, 2021, the date financial statements were available to be issued.

Investments-Investments are presented at fair value which has been determined based on the fair value of the underlying investments within the funds. The fair value of the underlying investments within the Plan’s collective trust funds has been determined based primarily on quoted market prices. Purchases and sales of securities are recorded on a trade-date basis. Net appreciation includes the Plan’s gains and losses on investments bought and sold as well as held during the year.

Use of Estimates-The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities and the actuarial present value of the accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Risks and Uncertainties- The Plan invests in collective trust funds which have underlying investments including corporate debt instruments, mutual funds, hedge funds, real estate funds and corporate stocks. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to the uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

In addition, the extent to which COVID-19 impacts the Plan's financial results will depend on numerous evolving factors including, but not limited to: the magnitude and duration of COVID-19, the extent to which it will impact worldwide macroeconomic conditions, including interest rates, employment rates and health insurance coverage, the speed of the anticipated recovery, and governmental and business reactions to the pandemic. The extent of the impact on the Plan's net assets available for benefits, contributions, and participant account will depend on the duration and spread of COVID-19, including any further developments. While there was not a material impact to the Plan's financial statements as of and for the year ended December 31, 2020, the Plan's future assessment of the magnitude and duration of COVID-19, as well as other factors, could result in material impacts to the Plan's financial statements in future reporting periods.

Expenses-Administrative expenses of the Plan are paid by the Plan as provided by the Plan document.

Administration-The Company is responsible for the administration of the Plan. The Company provides the Plan with certain accounting and administrative services for which no fees are charged.

Payment of Benefits-Benefit payments to participants, or their beneficiaries, are recorded upon distribution.

3. FAIR VALUE MEASUREMENTS

As permitted by US GAAP, the Plan uses net asset values as a practical expedient to determine the fair value of all investment funds which do not have a readily determinable fair value and have the attributes of an investment company. In accordance with GAAP, the investments that are measured at net asset values have not been classified in the fair value hierarchy. For all years presented, all investments have been valued using the net asset value.

The Plan's investments in collective trust funds are based on the net asset values of the funds, all which have a daily redemption frequency and do not require a notice of redemption. At December 31, 2020 and 2019, the Plan had no unfunded commitments from redemption of collective trust funds.

4. FUNDING POLICY

Contributions to provide benefits under the Plan are made solely by the Company. The Company's funding policy is to make cash contributions to the Plan in amounts as determined by the Plan's independent actuary. The Plan met the minimum funding requirements of ERISA as of December 31, 2020 and 2019.

5. INFORMATION CERTIFIED BY THE TRUSTEE

The following is a summary of the unaudited information as of and for the years ended December 31, 2020 and 2019, included in the Plan's financial statements and supplemental schedules, that was prepared by the Trustee or derived from information prepared by the Trustee. The Plan administrator has obtained certifications from the Trustee that such information prepared by the Trustee is complete and accurate.

	2020	2019
Statements of net assets available for benefits:		
Investment in commingled trust funds	\$ 490,253,474	\$ 418,190,922
Receivable for investments sold	2,573,065	2,507,967
Statements of changes in net assets available for benefits:		
Net appreciation in fair value of commingled trust funds	77,468,463	82,767,151
Other income	3,816	194,246

All investment balances and information included in the supplemental schedules.

6. ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to service rendered by employees as of the valuation date.

Accumulated plan benefits include benefits expected to be paid to (1) retired or terminated employees or their beneficiaries, (2) beneficiaries of employees who have died, and (3) present employees or their beneficiaries.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuations as of December 31, 2020 and 2019, were:

- a. Life expectancy of participants
 - i. 2020: Pri-2012 generationally projected using Scale MP-2020
 - ii. 2019: Pri-2012 generationally projected using Scale MP-2019
- b. Average retirement age - 62 years in both 2020 and 2019.
- c. Discount rate - 5.50% in both 2020 and 2019.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated benefits.

As of December 31	2020	2019
Actuarial present value of accumulated vested benefits:		
Participants/beneficiaries currently receiving payments	\$ 310,701,978	\$ 308,632,840
Other participants	152,122,464	161,448,219
Total actuarial present value of accumulated benefits	462,824,442	470,081,059
Actuarial present value of accumulated unvested benefits- active participants	1,043,026	1,190,951
Total actuarial present value of accumulated benefits	<u>\$ 463,867,468</u>	<u>\$ 471,272,010</u>
For the Years Ended December 31	2020	2019
Actuarial present value of accumulated benefits- beginning of the year	\$ 471,272,010	\$ 480,712,704
Increases (decreases) due to:		
Changes in assumptions	(2,665,138)	(5,068,787)
Interest	25,051,608	25,471,580
Benefit payments to participants or their beneficiaries	(31,576,470)	(35,186,147)
Actuarial (gains)/losses	1,785,458	5,342,660
Actuarial present value of accumulated benefits- end of year	<u>\$ 463,867,468</u>	<u>\$ 471,272,010</u>

7. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain investments of the Plan are shares of collective trust funds managed by the Trustee of the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services were approximately \$2,105,000 and \$1,806,000 for the years ended December 31, 2020 and 2019, respectively.

8. FEDERAL INCOME TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company, by a letter dated August 7, 2014, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code. The Company and Plan management believe that the Plan is currently designed and operated in compliance with the applicable requirements of the Internal Revenue Code and the Plan continues to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by federal and state tax authorities. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2020 and 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan is no longer subject to income tax examinations for the years prior to 2017.

9. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations there under and the Plan document.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested, normal-age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive the benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide these benefits, the priority of benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

Preretirement death	Monthly preretirement death benefit payable to a surviving spouse on behalf of an active employee or a terminated vested employee is reduced as stated above for employee's early retirement benefit or vested termination benefit.

Other Plan Provisions

Postretirement death benefit	A lump sum equal to 3/12 of final average earnings limited to a maximum of \$10,000 and a minimum of \$2,500. The participant must be retired on or before June 30, 2009 and have not received a lump sum payment of benefits. For lump-sum payments, the actuarial equivalent is paid with the lump-sum.
-------------------------------------	---

Forms of payment	<p>Preretirement death benefits are payable only as described above. Monthly pension benefits are paid as described above as a life annuity, if the participant has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid in the form of 100% joint and survivor annuity option or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan.</p> <p>Optional forms are 50% joint and survivor annuity, 5-year or 10-year certain and life annuity, lump sum for values less than</p>

\$25,000 , a full lump sum benefit and a life annuity (for married participants).

To receive a full lump sum benefit, the participant must meet the following criteria:

- Ten years of vesting service as of January 1, 1984
- Active participant in the Scripps Pension Plan on January 1, 1984

Lump sums are paid only if reason for termination is retirement.

Actuarial equivalence for the annuity options is based on tabular factors as defined in the plan document. The Scripps/Journal Pension Plan adopted Amendment 2018-3 during 2018, which changes the actuarial equivalence effective January 1, 2019 to use the greater of 417(e) segment rates and mortality and the current basis.

Actuarial equivalence for the lump sum option is based on the segment interest rates determined according to Code Section 417(e)(3)(C) for the month of October in the year preceding the benefit commencement date and the mortality table in effect under 417(e)(3).

Maximum on benefits and pay

All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are assumed for determining pension cost but not for determining contributions.

Future Plan Changes

- Annual increases in the statutory pay and benefit limits were recognized.
- No other future plan changes were recognized in determining minimum and maximum contributions.

Plan Provisions

The plan was amended and restated effective January 1, 2013. The plan is effective December 31, 1943. Effective July 1, 2009, benefit accruals were suspended through December 31, 2010. Effective December 31, 2010, benefit accruals were frozen for all participants. The most recent amendment reflected in this valuation is Amendment 2018-3, which changes the actuarial equivalence effective January 1, 2019 to use the greater of 417(e) segment rates and mortality and the current basis and provides for a lump sum for values under \$25,000 to legacy Scripps/Journal Pension Plan participants.

Covered employees	Employees of Journal Communications, Inc.
Participation date	January 1 or July 1 following attainment of age 21 and completion of 1,000 hours in the initial year of employment (or 1,000 hours in a plan year hereafter). Plan participation is closed as of January 1, 2007.
Plan Year	Calendar year.

Definitions

Year of benefit service	A full year of benefit service is granted in a plan year if the participant completes at least the number of hours equal to the number of hours in the participant's regular full-time work week (40 hours, unless a different number has been established for the participant's job classification) times 52. Benefit service begins upon plan participation. Partial years of benefit service are granted based on the ratio of actual hours to the hours required for a full year of benefit service.
Credited service	A year of credited service is granted each plan year in which an employee age 18 or older completes 1,000 hours of service. Special rules apply for breaks in service.
Compensation	Total wages reported for federal income tax purposes (excluding taxable value of fringe benefits and payments under deferred compensation or severance pay agreements). Compensation in excess of the current IRC section 401(a)(17) limit is excluded. For part-time employees, compensation is extended to a full-time basis.

If the participant is under the SSRA, the current year's wage base is assumed to continue in all future years to the SSRA.

Effective July 1, 2009 covered compensation will not be updated for new law years.

Social Security retirement age (SSRA)

Year of Birth	SSRA
1937 and earlier	65
1938-1954	66
1955 and later	67

Normal retirement date (NRD)

The later of the fifth anniversary of the date of participation or the attainment of Social Security Retirement Age.

+
 $0.40\% \text{ of FAC} \times \text{benefit service in excess of 35 years (maximum 5 years);}$
+
 $0.65\% \text{ of FAC (in excess of covered compensation)} \times \text{benefit service (maximum 35 years);}$

Preretirement death benefit	Death while eligible for normal, early, postponed, or deferred vested retirement benefits, with five years of credited service and a surviving spouse.

Benefits Paid Upon the Following Events

Normal retirement	The pension benefit determined as of NRD.
Early retirement	The normal retirement benefit calculated based on benefit service and FAC at the early retirement date. Benefits are reduced by the lesser of 6 $\frac{2}{3}$ % per year for the first five years and 3 $\frac{1}{3}$ % per year thereafter for each year commencement precedes NRD or the reduction using 417(e) interest and mortality.
Late retirement	The greater of the normal retirement benefit based on benefit service and FAC at NRD actuarially increased using 5% interest and the GAM83 unisex mortality table for each year commencement follows normal NRD or the benefit based on benefit service and FAC at actual retirement date.
Deferred vested termination	The normal retirement benefit based on benefit service and FAC at the termination date. The benefit is reduced for early retirement the same as for early retirees.

Funding target	Present value of accrued benefits.
Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year.
Actuarial value of assets	An average value of assets is determined based on the market value as of the valuation date and the market values on the two preceding 12-month periods. Adjustments are made to the asset values for contributions, benefit payments, expenses and expected investment returns over the period between the respective preceding determination dates and the current valuation date, as applicable. Expected investment returns are equal to the expected return on assets assumed for ASC 715 calculations (5.10% for 2018, 5.50% for 2019). The rate of return used in determining the average value of assets is equal to the lesser of the expected rate and the third segment rate from the prescribed yield curve that applies to the appropriate earnings period.
Benefits not valued	All benefits described in the Plan Provisions section of this report were valued. Willis Towers Watson has reviewed the plan provisions with The E. W. Scripps Company and, based on that review, is not aware of any significant benefits required to be valued that were not.

Change in Assumptions and Methods Since Prior Valuation

- The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of September 2018 to September 2019, reflecting the interest rate corridors of MAP-21, and are updated for the extension of the corridors under HATFA and the Bipartisan Budget Act of 2015.
- The mortality table used to calculate the funding target and target normal cost was updated to use the MP-2018 projection scale as specified in the regulations under §1.430(h)(3)-1.
- The assumed plan-related expenses added to the target normal cost were changed to \$5,025,302 for 2020. The method to determine the assumed plan-related expenses is unchanged.

There have been no changes in non-prescribed assumptions and methods since the prior valuation.

Sources of Data and Other Information

The plan sponsor furnished participant data as of 1/1/2020 through its third-party administrator. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

No data adjustments were made and we are unaware of any data adjustment made by the data provider.

Assumptions Rationale - Significant Economic Assumptions for Contributions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Administrative expenses	As required by regulations, plan-related expenses are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration and trustee fees to be paid from the trust). Administrative expenses are assumed to equal the average of non-PBGC expenses paid from the trust from the prior two plan years plus an estimate of the PBGC premium expenses for the current plan year that are to be paid from the trust.
Rates of increase in assumed return for asset smoothing	The assumed return of 5.50% used for asset smoothing for the 2019 Plan Year is the expected return on assets assumption chosen by the client with the help of their investment advisers as of January 1, 2019 and used for ASC 960 plan reporting at January 1, 2019. Although determining the expected rate of return on plan assets was not within the scope of our work, it is the client's best estimate and we determined that it does not significantly conflict with what would be reasonable based on their asset allocation.

Assumptions Rationale – Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Termination rates were based on anticipated turnover. Gains and losses are reviewed each year, and if a significant portion of the gain or loss is due to actual turnover different than assumed, the Company and Willis Towers Watson will study actual experience to determine if the assumption should be changed.
Retirement	Retirement rates were based on anticipated retirements. Gains and losses are reviewed each year, and if a significant portion of the gain or loss is due to actual retirements different than assumed, the Company and Willis Towers Watson will study actual experience to determine if the assumption should be changed.

Source of Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.
