Vesting of the Company's profit sharing contributions and matching contributions is based on years of credited service. A participant is 20% vested in the Company profit sharing contributions and matching contributions after 2 years of service, as defined, with an additional 20% for every year of credited service thereafter, with 100% vesting in all past and future Company contributions occurring after 6 years of credited service. Employees become 100% vested in Company profit sharing contributions and matching contributions upon retirement at or after the age of 60, in the event of disability, or upon death.

4. Allocation Provision

Each participant's account is credited with the participant's contribution and allocation of (a) the Company's contribution, and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit which can be provided from the participant's vested account. The accompanying statement of net assets available for benefits includes $3,888,198 and $2,087,954 for participants who have terminated their employment with the Company, but who had not elected to withdraw from participation as of December 31, 2020 and 2019, respectively.

Forfeited balances of terminated nonvested accounts are used to reduce the contributions of the Company. At December 31, 2020 and 2019, unallocated forfeitures were $32,037 and $23,343, respectively. During 2020, the Company used $13,794 in forfeitures to offset company contributions.

A. Description of Plan, Continued

5. Notes Receivable from Participants

Participants have the ability to withdraw up to the greater of (a) the amount of their vested accrued benefit up to $10,000 or (b) one-half of their vested accrued benefit not to exceed $50,000. In no event shall the total outstanding loans to any participant exceed the value of their account at the time a loan is made. Participant loans bear an interest rate of prime plus 1%. The interest rate is established upon the issuance of the loan and remains fixed until the loan is totally repaid. The maximum term of a loan is five years, except for loans used to finance the purchase of a residence, where the term can be extended to fifteen years. Employee loans are due in full upon a participant's termination of employment.

6. Withdrawals and Payment Benefits

Upon a participant's retirement, death, disability, or other termination of employment with the Company, the entire vested balance in the participant's account may be distributed or deferred until as late as age 65, at the participant's election. The normal form of payment with respect to a participant's vested account is lump sum. Participants may also elect to receive installment payments.

In-service withdrawals of participant's contributions and employer's profit sharing contributions and matching contributions are permitted at age 65 under the Plan.

7. Expenses

Investment related expenses are included in net appreciation in fair value of investments. Administrative expenses of the plan are allocated to participant accounts.

B. Summary of Significant Accounting Policies

1. Date of Management's Review

Subsequent events were evaluated through October 12, 2021, which is the date the financial statements were available to be issued.

B. Summary of Significant Accounting Policies, Continued

2. Basis of Accounting

The accompanying financial statements of the Plan have been prepared using a modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Under the modified cash basis, contributions are recorded when received by the trustee, and benefits and administrative expenses are recorded when paid.

3. Investment Valuation and Income Recognition

The Plan's investments are stated at fair value as determined by quoted market prices, which represent the net asset value of shares held by each investment fund of the Plan. Fair value is the price that would be required to sell an asset in an orderly transaction between market participants at the measurement date. See Note C for discussion of fair value measurements. The Plan's stable value fund is valued at the net asset value of the units held in the collective trust. Purchases and sales of investments are recorded on a trade-date basis. Interest and dividend income are recorded when received. Investment income includes unrealized appreciation or depreciation of the investment funds.

4. Notes Receivable from Participants

Loans to participants are reported at their unpaid principal balances. Interest income is reported when paid. If a participant ceases to make loan payments and the Plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced, and a benefit payment is recorded.

5. Contributions

Contributions are recorded when received by the trustee.

6. Payments of Benefits

Benefits are recorded when paid.

B. Summary of Significant Accounting Policies, Continued

7. Administrative Expenses

All expenses of administration, including fees of the trustee, are paid from the assets of the Plan or at the Company's discretion, by the Company. These expenses are recognized when paid.

8. Use of Estimates

The preparation of financial statements in conformity with a modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America, requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

C. Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. The investment committee determines the Plan's valuation policies. Although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs have the lowest priority. The Plan uses

C. Fair Value Measurements, Continued

appropriate valuation techniques based on the available inputs to measure the fair value of its investments. The Plan values the units in the stable value fund at net asset value. The net asset value is used as a practical expedient to estimate fair value.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2020 and 2019 and includes a reconciliation to total investments at fair value at December 31, 2020 and 2019.

	Fair Value	Fair Value Measurements at Reporting Date Using Quoted Prices in Active Markets for Identical Assets (Level 1)	Assets Measured at Net Asset Value (a)
December 31, 2020			
Mutual funds:	$18,177,259	$18,177,259	
Total assets in the fair value hierarchy	$18,177,259	$18,177,259	
Stable value fund	1,326,949	-	$1,326,949
Total investments at fair value	$19,504,208	$18,177,259	$1,326,949
December 31, 2019			
Mutual funds:	$18,307,156	$18,307,156	
Total assets in the fair value hierarchy	18,307,156	18,307,156	-
Stable value fund	1,359,387	-	$1,359,387
Total investments at fair value	$19,666,543	$18,307,156	$1,359,387

(a) In accordance with subtopic 820-10 of ASC 820, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

C. Fair Value Measurements, Continued

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

1. Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

2. Stable value fund: The stable value fund primarily holds fully benefit-responsive investment contracts and is valued at the net asset value of units of the collective trust. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to initiate transactions at fair value instead of contract value. The stable value fund is a direct filing entity and therefore disclosure regarding investment objectives is not required.

Following are additional disclosures related to the investments which are recorded at the net asset value expedient.

	Fair Value	Unfunded Commitments	Redemption Frequency (if Currently Eligible)	Redemption Notice Period
December 31, 2020				
Stable value fund	$1,326,949	N/A	Daily	N/A
December 31, 2019				
Stable value fund	$1,359,387	N/A	Daily	N/A

D. Plan Termination

Although the Company has not expressed any intent to do so, it has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in Company discretionary profit sharing and matching contributions in their accounts.

E. Income Tax Status

The trust established under the Plan to hold the Plan's assets is qualified pursuant to Section 501(a) of the Internal Revenue Code, and accordingly, the trust's net investment income is exempt from income taxes. The Plan's trustee has obtained a favorable tax opinion letter from the Internal Revenue Service for the prototype Plan which the Company has adopted and Plan management believes that the Plan continues to qualify and to operate as designed.

Financial statements prepared on the modified cash basis of accounting require the Plan administrator to evaluate tax positions taken by the Plan and disclose a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress.

F. Party-In-Interest Transactions

The Plan's trustee is Bank of America, N.A. which normally charges a fee for its service. Total fees paid to the trustee out of the Plan for the year ended December 31, 2020 were $3,217. These party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

G. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the various investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

H. COVID 19

In March 2020, the outbreak of the novel strain of coronavirus ("COVID-19") was declared a pandemic by the World Health Organization. The COVID-19 pandemic has led to severe volatility in global financial markets. We cannot estimate the length or severity of the COVID-19 pandemic or the related consequences on global financial markets. Management does not believe there is any financial impact to these financial statements as of December 31, 2020 as a result of this event. Management continues to monitor developments relating to COVID-19 and is coordinating its operational response, including with respect to the Plan, based on existing business continuity plans and on guidance from global health organizations, relevant governments and regulatory agencies, and general pandemic response best.

I. Information Certified by the Plan's Trustee
