REPORT OF INDEPENDENT AUDITORS

To the Plan Administrator and Participants
Precision Workforce, LLC 401(k) Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Precision Workforce, LLC 401(k) Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2020 and 2019 and the related statement of changes in net assets available for benefits for the year ended December 31, 2020, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, auditing procedures with respect to the information summarized in Note 5, which was certified by Nationwide Financial Services, Inc, the Trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2020 and 2019, that the information provided to the plan administrator by the Trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express such an opinion on these financial statements.

Other Matter

The supplemental schedule of schedule H, Line 4i - Schedule of Assets (Held at End of Year) is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Precision Workforce, LLC 401(k) Plan

Notes to Financial Statements

Note 1 - Description of the Plan

The following description of the Precision Workforce, LLC 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement or Summary Plan Description for a more comprehensive description of the Plan's provisions.

General

The Plan was effectively formed on January 1, 2018 as a defined contribution plan covering substantially all employees of Precision Workforce, LLC (the Plan Sponsor or Employer). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). In addition, the financial statements have been prepared in compliance with ERISA and the Internal Revenue Code (IRC).

The Plan is administered by the Plan Sponsor and the Plan's assets are held in trust pursuant to a trust agreement with Nationwide Financial Services, Inc (Nationwide or the Trustee). See Note 5.

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security Act, also known as the CARES Act, was signed into law. The CARES Act contains several provisions that temporarily impact 401(k) plans, such as the waiver of required minimum distributions, a new hardship withdrawal option, and increased loan limits. The Company has incorporated these provisions into the Plan as applicable.

Eligibility

To participate in the Plan, employees must have completed sixty days of service. Union employees, leased employees, and non-resident aliens are excluded from participating in the Plan. Participants may commence salary deferrals beginning on the first day of the month once the service requirements are met.

Contributions

The Plan is funded through employee elective deferrals and the Employer's elective matching and profit-sharing contributions. Each year, participants may contribute between 1 and 100 percent of pretax annual compensation, as defined in the Plan document, up to the maximum limitation imposed by the IRC. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Precision Workforce, LLC 401(k) Plan

Notes to Financial Statements

Note 1 - Description of the Plan – (Continued)

Contributions – continued

Each year the Company may, at its discretion, make a matching and/or a profit-sharing contribution for the plan year not to exceed certain limitations prescribed by the IRC. The Company did not make matching or a profit-sharing contribution for the years ended December 31, 2020 and 2019.

Participant accounts

Each participant's account is credited with their participant contributions, the Company's elective matching contributions, if any, an allocation of the Company's discretionary profit-sharing contributions, if any, and Plan earnings and losses, and charged with an allocation of administrative expenses. Allocations of Plan earnings and losses are based on a participant's account balance in each investment option as a percentage of the total of all participants' account balances.

Vesting

Participants are vested immediately in their contributions and rollover accounts, plus any income or loss thereon. Vesting in the Company's elective employer matching or profit-sharing contributions, plus earnings or losses is based on years of continuous service. One year of service is defined as each year in which an employee reaches 1,000 hours of service during the plan year. The Plan utilizes the following vesting schedule:

<u>Years of Service</u>	<u>Vested %</u>
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Participants will also become 100% vested in his or her account balance upon plan termination, becoming disabled (as defined by the Plan), or death while they are still employed with the Company.

Precision Workforce, LLC 401(k) Plan

Notes to Financial Statements

Note 1 - Description of the Plan – (Continued)

Forfeitures

A non-vested amount remaining in a participant account (terminated employee) after distribution of his or her vested account balance is defined as a forfeiture. Forfeitures are used first to reduce Employer contributions or to offset the Plan's administrative costs. There were no forfeitures in the Plan at December 31, 2020 or 2019.

Notes receivable from participants

Notes receivable from participants are not permitted by the Plan.

Payment of benefits

The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance. Upon death, disability, or retirement, a participant is eligible to receive a lump-sum distribution. The cash out provision of the Plan allows the Plan, upon termination of employment, to distribute vested account balances of less than \$1,000 without the participant's consent as a lump-sum distribution or by direct rollover to an Individual Retirement Account (IRA) or other eligible retirement plan. Account balances exceeding \$1,000 may be distributed to an IRA or other eligible retirement plan with the written consent of the participant. In addition, the Plan allows for in-service distributions provided the participant has attained the age of 59 ½.

A participant may receive a hardship distribution from their vested account if the distribution is an "immediate and heavy financial need" related to: (i) medical expenses incurred by the participant, their spouse or dependents; (ii) the purchase of (excluding mortgage payments) a principal residence of the participant; (iii) the payment of post-secondary tuition expenses incurred by the participant, their spouse or dependents; (iv) the need to prevent eviction of the participant from his or her principal residence or foreclosure upon the mortgage of the participant's principal residence; or (v) any other distribution which is deemed by the Commissioner of Internal Revenue to be necessary to satisfy an immediate and heavy financial need of a participant, as provided in Treasury regulations.

Investment options

Participants direct the investment of their contributions into several investment options including various pooled separated accounts or a fixed income guaranteed fund offered by the Plan.

Administrative expenses

Administrative expenses are generally paid by the Employer. However, the Plan may pay transaction fees which are allocated to the specific participant initiating the transaction.

Precision Workforce, LLC 401(k) Plan

Notes to Financial Statements

Note 2 - Summary of Significant Accounting Policies – (Continued)

Basis of accounting

The financial statements of the Plan are prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of estimates

The preparation of the financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates. See Note 3 for discussion of significant estimates used to measure fair value of investments.

Investment valuation and income recognition

Investments held by the Plan are stated at fair value except for the fixed income guaranteed fund. This fund is considered fully benefit responsive and is stated at contract value, which is equal to principal plus accrued interest. See Note 4.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as, held during the year.

Payment of benefits

Benefits paid to participants are recorded as a reduction of net assets available for benefits when paid.

Risks and uncertainties

The Plan and its participants invest in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities, it is possible that changes in the value of investment securities will occur at any given time, and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Precision Workforce, LLC 401(k) Plan

Notes to Financial Statements

Note 2 - Summary of Significant Accounting Policies – (Continued)

Risks and uncertainties – continued

In March 2020, the COVID-19 outbreak was declared a pandemic by the World Health Organization. The COVID-19 pandemic has also led to volatility in financial markets and has affected, and may continue to affect, the Plan's net assets available for benefit. While the potential economic impact brought by, and the duration of, COVID-19 may be difficult to assess or predict, a widespread pandemic could continue to result in significant disruption of the global financial markets. The extent to which COVID-19 has impacted and will continue to impact the financial markets may depend on future developments that are uncertain and may not be predicted. Plan Management will continue to monitor the impact COVID-19 has on the Plan and will reflect the consequences as appropriate in the Plan's financial records.

Asset management fees

Plan participants are charged for asset management fees based on fund balances. Asset management fees are accrued daily by the Trustee based on participant balances in each fund and are included in net appreciation (depreciation) of investments.

Subsequent events

The Plan's Trustee has evaluated events and transactions occurring subsequent to the date of the financial statements for matters requiring recognition or disclosure in the notes to the financial statements. The accompanying financial statements consider events through October 11, 2021, the date which the financial statements were available to be issued. See Note 12.

Adopted accounting pronouncements

In August 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2018-13, *Disclosure Framework - Changes to the Disclosure Requirements for Fair Value Measurement*. ASU No. 2018-13 modified the disclosure requirements for fair value measurements in Topic 820, *Fair Value Measurement*. The Plan adopted this ASU on January 1, 2020. The guidance did not have a material impact on the Plan's financial statements.

Note 3 - Fair Value Measurements

Fair value is defined as the price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. GAAP also establishes a fair value hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value.

Precision Workforce, LLC 401(k) Plan

Notes to Financial Statements

Note 3 - Fair Value Measurements – (Continued)

The standard describes three levels of inputs that may be used to measure fair value:

- Level 1: Quoted prices in active markets for identical assets or liabilities.
- Level 2: Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or that can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

An asset or liability's classification within the fair value hierarchy is based on the lowest level of significant input to its valuation.

Following is a description of the valuation methodologies used for assets measured at fair value.

Pooled Separate Accounts: Valued at net asset value of units held by the Plan at year end based on the net asset value of the underlying investment.

The valuation methods described above may produce a fair value measurement that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's management believes the valuation methods are appropriate and consistent with other market participants, the use of differing methodologies or assumptions to determine the fair value of the Plan's investments could result in different fair value measurements at the reporting dates.

Pooled separate accounts carried at fair value which the plan invests are valued at net asset value per share. In accordance with accounting standards, investments valued at net asset value per share are not required to be classified in the fair value hierarchy.

Precision Workforce, LLC 401(k) Plan

Notes to Financial Statements

Note 4 - Investment in Guaranteed Income Contract

The Plan maintains one guaranteed income contract investment option, the Nationwide Fixed Selection Option, which is a traditional investment contract. The underlying investment options of this contract are considered to be fully benefit-responsive as described in FASB ASC 946, Plan-Accounting-Defined Contribution Pension Plans, and therefore are reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals and administrative expenses.

The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed by the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 0%. The crediting rate is reviewed on a semi-annual basis for resetting.

The determination of credited interest rates, as determined by the service provider, reflects a number of factors, including mortality and expense risks, interest rate guarantees, the investment income earned on invested assets and the amortization of any capital gains and/or losses realized on the sale of invested assets. A market value adjustment may apply to amounts withdrawn at the request of the contract holder.

The underlying contract has no restrictions on the use of Plan assets and there are no valuation reserves recorded to adjust contract amounts.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (i) amendments to the Plan documents (including complete or partial plan termination or merger with another plan) (ii) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; or (iii) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator made the determination on April 21, 2021 to terminate the plan. The effective date of plan termination was June 30, 2021. This limits the Plan's ability to transact at contract value with participants going forward.

Note 5 - Information Certified by the Trustee (Unaudited)

The plan administrator has elected the method of annual reporting permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by the Trustee, except for comparing such information certified by the Trustee to information included in the Plan's financial statements and supplemental schedule.

The Trustee has certified that the following data included in the financial statements and supplemental schedule is complete and accurate:

	December 31,	
	2020	2019
Pooled Separate accounts	\$ 126,937	\$ 70,210
Fixed Selection Option	1,461	680

The Trustee also certified to the completeness and accuracy of the following data for the year ended December 31, 2020:

Net appreciation of investments	\$ 18,443
---------------------------------	-----------

Note 6 - Income Tax Status

The prototype Plan received a favorable determination letter from the IRS dated March 31, 2014, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. Although the Plan has been restated since receiving the determination letter, the plan administrator believes that the Plan currently is designed and being operated in compliance with the applicable requirements of the IRC and therefore, the Plan qualifies under Section 401(a) and the related trust is tax-exempt as of December 31, 2020. Accordingly, no provision for income taxes has been included in the Plan's financial statements.

Precision Workforce, LLC 401(k) Plan

Notes to Financial Statements

Note 6 - Income Tax Status – (Continued)

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2020, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7 - Party-in-Interest Transactions

Parties-in-interest are defined under Department of Labor Regulations as any fiduciary of the Plan, any party rendering services to the Plan, the Employer, and certain others. Certain Plan investments bear the namesake of Nationwide Financial Services, Inc., the third-party Trustee of the Plan, and as such, transactions conducted by Nationwide Financial Services, Inc. qualify as party-in-interest transactions.

Note 8 - Plan Termination

The Plan Sponsor made the decision on April 21, 2021 to terminate the plan. The effective date of plan termination is June 30, 2021. See Note 12. The Plan's termination is subject to the provisions of ERISA.

Note 9 - Excess Contributions Payable

Excess contributions payable of approximately \$14,000 as of December 31, 2020 and 2019 relate to amounts payable to certain active participants to return to them excess deferral contributions required to satisfy the relevant non-discrimination testing provisions.

*The fair values of the investments have been estimated using the net asset value of the investment.

- (a) The investment option seeks a total return consisting of long-term growth of capital and current income. To pursue its goal, this Target Date Fund generally invests in affiliated open-ended mutual funds to provide broad diversification while incrementally decreasing exposure to stocks and increasing exposure to bonds as each fund's target retirement date approaches.

Notes to Financial Statements

Note 10 - Net Asset Value (NAV) Per Share – (Continued)

- (b) The investment seeks long-term capital appreciation. The fund normally invests at least 80% of its net assets (plus the amount of any borrowings for investment purposes) in common stocks and securities convertible into common stocks (collectively, "stocks") of issuers based in at least three different countries located outside the United States.
- (c) The investment seeks capital appreciation. The fund invests primarily in common stocks. It invests in domestic and foreign issuers whose value the adviser believes is not fully recognized by the public. It invests in either "growth" stocks or "value" stocks or both.
- (d) The investment seeks long-term total return. The fund normally invests at least 80% of its net assets in investments of small-capitalization (small-cap) companies. Small-cap companies are companies with market capitalizations not exceeding either: 1) the highest market capitalization in the Russell 2000 Index; or 2) the 12-month average of the highest market capitalization in the Russell 2000 Index. It generally invests in equity securities that the fund's investment manager believes are undervalued at the time of purchase and have the potential for capital appreciation.
- (e) The investment seeks long-term capital appreciation. The Portfolio purchases a broad and diverse group of securities associated with emerging markets, which may include frontier markets (emerging market countries in an earlier stage of development), authorized for investment by Dimensional Fund Advisors LP's (the "Advisor") Investment Committee ("Approved Markets"), with a greater emphasis on small capitalization, value, and high profitability companies.
- (f) The investment seeks long-term capital appreciation. The fund will invest at least 80% of its net assets in emerging markets equity securities that are defined in the prospectus as Approved Markets securities. It may gain exposure to companies in Approved Markets by purchasing equity securities in the form of depositary receipts, which may be listed or traded outside the issuer's domicile country.
- (g) The investment seeks long-term capital appreciation. Under normal circumstances, the fund invests at least 80% of its net assets (including the amount of any borrowings for investment purposes) in common stocks of U.S. and foreign companies that have market capitalizations, at the time of purchase, in the range of companies in the Russell 1000® Growth Index (the index).
- (h) The investment seeks long-term growth of principal and income. Under normal circumstances, the fund will invest at least 80% of its total assets in equity securities of non-U.S. companies, including common stocks, depositary receipts evidencing ownership of common stocks, preferred stocks, securities convertible into common stocks, and securities that carry the right to buy common stocks. The fund typically invests in medium-to-large well-established companies based on standards of the applicable market.
- (i) The investment seeks to provide long-term capital appreciation. The fund, under normal market conditions, invests at least 80% of its net assets in U.S. equity securities with medium market capitalizations that Diamond Hill Capital Management, Inc. ("the Adviser") believes are undervalued. Equity securities consist of common and preferred stocks. Mid cap companies are defined as companies with market capitalizations at the time of purchase between \$1.5 billion and \$20 billion or in the range of those market capitalizations of companies included in the Russell Midcap Index at the time of purchase.
- (j) The investment seeks to provide long-term capital appreciation. The fund invests mainly in the stocks of small and mid-size companies. These companies tend to be unseasoned but are considered by the fund's advisors to have superior growth potential. Also, these companies often provide little or no dividend income. It uses multiple investment advisors.
- (k) The investment seeks long-term capital appreciation. The fund normally invests at least 80% of its net assets in equity securities issued by U.S. mid-capitalization companies which the fund management believes have above-average earnings growth potential. The fund adviser generally defines these companies, at the time of the fund's investment, as those with market capitalizations comparable in size to the companies in the Russell Midcap® Growth Index. It primarily invests in common stock but also can invest in preferred stock, convertible securities and other equity securities.
- (l) The investment seeks long-term capital appreciation. The fund is a Feeder Portfolio and pursues its objective by investing substantially all of its assets in its corresponding master fund, the U.S. Large Cap Value Series (the "U.S. Large Cap Value Series") of the DFA Investment Trust Company (the "Trust"), which has the same investment objective and policies as the U.S. Large Cap Value Portfolio.

Precision Workforce, LLC 401(k) Plan

Notes to Financial Statements

Note 10 - Net Asset Value (NAV) Per Share – (Continued)

- (m) The investment seeks long-term capital appreciation. The fund purchases a broad and diverse group of the readily marketable securities of U.S. small and mid cap companies that the advisor determines to be value stocks with higher profitability. It may purchase or sell futures contracts and options on futures contracts for U.S. equity securities and indices, to adjust market exposure based on actual or expected cash inflows to or outflows from the fund.
- (n) The investment seeks to generate current income consistent with preservation of capital. The fund invests at least 80% of its net assets in fixed-income securities. It invests significantly in fixed-income securities of non-U.S. companies. The fund normally invests in the fixed-income securities of companies located in at least three countries. It may invest in a broad range of fixed-income securities in both developed and emerging markets. The fund may invest across all fixed-income sectors, including U.S. and non-U.S. government and corporate debt securities.
- (o) The investment seeks total return. The fund will seek to achieve its objective through a mix of current income and capital appreciation as determined by the fund's subadvisor. It invests, under normal circumstances, at least 80% of the fund's investable assets in bonds. For purposes of this policy, bonds include all fixed-income securities, other than preferred stock, with a maturity at date of issue of greater than one year. The fund may invest up to 30% of its investable assets in speculative, high risk, below investment-grade securities having a rating of not lower than CCC. It may invest up to 30% of its investable assets in foreign debt securities.
- (p) The investment seeks to provide total return through a combination of current income and capital appreciation. Under normal circumstances, the fund invests at least 80% of its net assets in debt securities that are denominated in local currencies of emerging market countries, as well as derivative instruments that provide investment exposure to such debt securities. It is non-diversified.
- (q) The investment seeks capital appreciation and current income. Under normal circumstances, at least 80% of the fund's assets will be invested in the equity securities of corporations that regularly pay dividends, including common stocks and debt securities and preferred stock convertible to common stock. "Assets" means net assets, plus the amount of borrowings for investment purposes. Although the fund invests primarily in securities of large cap companies, it may invest in equity investments of companies across all market capitalizations.
- (r) The investment seeks to provide long-term capital growth. Under normal circumstances, the fund will invest in equity securities, primarily common stocks, issued by companies of any size. It normally will invest across a wide range of sectors and industries, using a growth style of equity management that emphasizes companies with sustainable competitive advantages, long-term structural growth drivers, attractive cash flow returns on invested capital, and management teams focused on creating long-term value for shareholders.
- (s) The investment seeks long-term growth of capital. The fund invests primarily (no less than 65% of its total assets under normal market conditions) in equity securities, including common and preferred stocks, of foreign companies that the Subadvisor believes will experience growth and benefit from sustainable competitive advantages in their markets. It may invest in companies of any size located in, or economically tied to, any country or region outside of the United States, including developed foreign and emerging markets.
- (t) The investment seeks capital appreciation. The fund mainly invests in common stocks of U.S. companies that the portfolio managers expect to have above-average growth rates. It seeks to invest in newer companies or in more established companies that are in the early growth phase of their business cycle, which is typically marked by above average growth rates. The fund will normally invest at least 80% of its net assets (plus any borrowings for investment purposes) in equity securities of mid-cap issuers.
- (u) The investment seeks maximum real return, consistent with preservation of capital and prudent investment management. The fund normally invests at least 80% of its net assets in inflation-indexed bonds of varying maturities issued by the U.S. and non-U.S. governments, their agencies or instrumentalities, and corporations, which may be represented by forwards or derivatives such as options, futures contracts or swap agreements.
- (v) The investment seeks long-term growth of capital. The fund invests primarily in common stocks of issuers in Europe and the Pacific Basin that the investment adviser believes have the potential for growth. Growth stocks are stocks that the investment adviser believes have the potential for above-average capital appreciation. It normally will invest at least 80% of its net assets in securities of issuers in Europe and the Pacific Basin.
- (w) The Fund seeks to achieve long-term capital appreciation. The Fund seeks to achieve exposure to a broad portfolio of securities of U.S. and non-U.S. companies in the real estate industry, with a focus on REITs.

- (x) The Fund seeks to maximize total return, consistent with income generation and prudent investment management. The High Yield Fund invests primarily in non-investment grade bonds with maturities of ten years or less. The High Yield Fund normally invests at least 80% of its assets in high yield bonds.
- (y) The Fund seeks a total return which corresponds to that of the S&P 500 Index. The Fund invests at least 80% of its assets in common stocks included in the Index. The Fund may lend securities to earn income and uses statistical sampling techniques in stock selection.
- (z) The Fund seeks to provide investment results corresponding to the total return of foreign stock markets. The Fund invests at least 80% of its assets in common stocks included in the Morgan Stanley Capital International Europe, Australasia, Far East Index.

Note 12 - Subsequent Events

Effective January 1, 2021, the Plan Sponsor amended the plan to provide a safe harbor matching contribution. The Plan Sponsor will make a safe harbor matching contribution equal to 100% of employees' salary deferrals that do not exceed 3% of compensation plus 50% of salary deferrals between 3% and 5% of compensation. Safe harbor matching contributions are 100% vested.

On April 21, 2021, the governing body of the Plan decided to terminate the Plan. The effective date of termination was on June 30, 2021, at which time contributions to the Plan were discontinued. All plan assets were distributed from the plan on September 10, 2021. As a result of this plan termination the participants became 100% vested in their account balances.
