OnShift 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of the OnShift 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan was established on January 1, 2011 as a defined contribution profit sharing plan covering substantially all employees of OnShift, Inc. (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions: Immediately upon employment, participants may make voluntary pre-tax contributions, by means of a salary deferral agreement, of up to 100% of their compensation, subject to IRS limitations for the Plan year. Participants may designate all or a portion of their elective deferrals as Roth Elective Deferrals. Participants direct the investment of their contributions into various investment options offered by the Plan and may contribute up to the annual maximum amount pursuant to the applicable section of the Internal Revenue Code. Participants who meet certain age requirements are eligible to contribute additional catch-up contributions subject to certain dollar limits. In addition, participants may contribute amounts representing distributions from other qualified plans.

The Company may also make a discretionary profit sharing contribution. Participants must be employed at the end of the Plan year and have completed 1,000 hours of service to be eligible for the employer discretionary profit sharing contribution allocation. Employer contributions are subject to certain limitations. No discretionary profit sharing contributions were contributed by the Company in 2020.

Participant accounts: Each participant account is adjusted for the participant's contributions, the Company's contributions, if any, and Plan earnings thereon, and charged with an allocation of the Plan's administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's discretionary profit sharing contributions is based on years of service with the Company, as defined in the Plan agreement, based on the following schedule: less than 1 year - 0%, 1 year - 25%, 2 years - 50%, 3 years - 75%, 4 years - 100%. Participants are immediately vested in the discretionary profit sharing contributions at the time of death or disability.

Notes receivable from participants: Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. A maximum of one loan can be outstanding at any one time. The loans are secured by the balance in the participant's account and bear interest at rates commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest is paid ratably through payroll deductions.

Benefit payments: On termination of service, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum. Employees may withdraw their vested interest in the Plan upon attainment of age 59½ and under certain other circumstances, as defined in the Plan agreement.

Forfeited accounts: Forfeitures of nonvested Company contributions may be used to restore forfeitures, reduce Company contributions or pay Plan expenses. No forfeitures occurred during the year ended December 31, 2020, and there were no unapplied forfeitures as of December 31, 2020 and 2019.

Plan termination: Although it has not expressed any intent to do so, the Company reserves the right to terminate the Plan at any time, subject to Plan provisions. In the event of termination of the Plan, participants will become 100% vested in their accounts. The assets then remaining in the Plan will be allocated and distributed to participants in accordance with the terms and provisions of the Plan.

OnShift 401(k) Plan

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value, except for the guaranteed investment contract which is reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan agreement.

Benefit payments: Benefits are recorded when paid.

Administrative expenses: Expenses of the Plan are paid by the Company or the Plan, at the discretion of the Company.

Risks and uncertainties: The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Recently issued accounting pronouncement: In August 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement*, which modifies the disclosure requirements for fair value measurements by removing, modifying, and adding certain disclosures. ASU 2018-13 is effective for the Plan for fiscal years beginning after December 31, 2019. The Plan adopted ASU 2018-13 on January 1, 2020. The adoption did not have a significant impact on the Plan.

Note 3. Information Certified and Provided by Voya Retirement Insurance and Annuity Company

The following is a summary of the Plan's asset information as of December 31, 2020 and 2019 and for the year ended December 31, 2020, included throughout the Plan's financial statements and supplemental schedule that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets.

	2020	2019
Investments, at fair value:		
Pooled separate accounts	\$ 7,582,913	\$ 5,471,035
Investment, at contract value:		
Guaranteed investment contract	\$ 172,796	\$ 98,550

The trustee also certified to the completeness and accuracy of the following for the year ended December 31, 2020:

Net appreciation in fair value of investments	\$ 1,180,043
---	--------------

Note 4. Fair Value Measurements

Accounting standards established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

OnShift 401(k) Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. At December 31, 2020 and 2019, there were no assets or liabilities measured within the fair value hierarchy. There were also no transfers in or out of Level 3.

The following tables summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2020 and 2019. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

- (1) This category includes investments whose objective is to either seek substantial dividend income as well as long-term growth of capital or provide an investment return matching the return of the S&P 500 index. Typically these funds invest primarily in stocks of companies similar in size to those in the S&P 500 index.
- (2) This category's investment objective is to seek long-term capital appreciation. The funds may invest in domestic equity securities with growth potential and/or companies within the range of the market capitalization of the Russell Midcap Value index.
- (3) Investments in this category seek capital appreciation by investing in either growth or value stocks issued by companies with small-sized market capitalization believed to be undervalued in the marketplace or possess above average potential.
- (4) The pooled separate accounts in this category primarily invest at least 80% of assets in equity and debt securities of issuers from Europe and developing market countries.
- (5) The investment option invests primarily in intermediate-term, fixed-income investments such as public and private corporate bonds, commercial and residential mortgages, asset-backed securities, and United States government and agency-backed securities. The fund invests at least 80% of its net assets, plus any borrowings for investment purposes, in a diversified portfolio of fixed-income instruments of varying maturities, represented by forwards or derivatives such as options, futures contracts, or swap agreements, at the time of each purchase. It invests in securities denominated in foreign currencies and in securities of foreign issuers, including securities tied to emerging market countries.
- (6) The pooled separate accounts in this category primarily seek a total return consisting of long-term growth of capital and current income. The fund operates as a "target date fund." It invests primarily in underlying Voya Investments funds, domestic and foreign equity, real asset and alternative investments, and fixed-income funds according to an asset allocation strategy designed for investors having a retirement investment goal close to the year in the fund's name.
- (7) Real estate portfolios invest primarily in real estate investment trusts of various types. REITs are companies that develop and manage real estate properties. There are several different types of REITs, including apartment, factory-outlet, health-care, hotel, industrial, mortgage, office, and shopping center REITs.

Note 5. Guaranteed Investment Contract with Insurance Company

The Plan has a traditional investment contract with Voya Retirement Insurance and Annuity Company. The contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses. The contract value of the traditional investment contract at December 31, 2020 and 2019 was \$172,796 and \$98,550, respectively.

The traditional investment contract held by the Plan is a guaranteed investment contract. The contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 1.00%. Such interest rates are reviewed on a quarterly basis for resetting.

There are no events which limit the ability of the Plan to transact at contract value with the issuer. The agreement may not be terminated by either party prior to the scheduled maturity date.

OnShift 401(k) Plan

Notes to Financial Statements

Note 6. Tax Status

The Plan adopted a standardized form of a prototype plan sponsored by CCH Incorporated, dba FTWilliam.com. The prototype plan received an opinion letter from the Internal Revenue Service as to the plan's qualified status. The prototype plan's opinion letter has been relied upon by the Plan. The Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7. Party-In-Interest Transactions

The Plan invests in pooled separate accounts and a guaranteed investment contract sponsored by Voya Retirement Insurance and Annuity Company or its affiliated entities. Voya Retirement Insurance and Annuity Company is the trustee of the Plan, and therefore, these transactions qualify as party-in-interest transactions. The administrative expenses paid to the trustee and its affiliates amounted to \$1,120 for the year ended December 31, 2020.

Note 8. COVID-19

In March 2020, the World Health Organization categorized Coronavirus Disease 2019 (COVID-19) as a pandemic, and the President of the United States declared the COVID-19 outbreak a national emergency. The COVID-19 pandemic has led to volatility in financial markets and has affected, and may continue to affect, the Plan's assets. The potential economic impact brought by, and the duration of, COVID-19 is difficult to assess or predict and will depend on future developments that are highly uncertain and cannot be predicted.

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) was enacted to, amongst other provisions, provide emergency assistance for individuals, families and businesses affected by the coronavirus pandemic. The CARES Act also provides for certain optional relief measures that can be adopted by qualified retirement plans, including increased levels of participant loans for affected individuals for a limited time, and distributions with special tax treatment for affected individuals. Plans must also allow participants who are affected by the coronavirus to suspend loan payments through December 31, 2020, and required minimum distributions for participants over age 70½ can be omitted for 2020.

Note 9. Subsequent Events

The Plan has evaluated subsequent events for potential recognition and/or disclosure through October 7, 2021, the date these financial statements were issued.

In April 2021, the Plan changed its trustee from Voya Retirement Insurance and Annuity Company to John Hancock Life Insurance Company.
