INFORMA USA, INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2020 and 2019

Note 1 Description of Plan

The following description of the Informa USA, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established to provide all employees of Informa USA, Inc. (the "Company"), located within the United States of America, with retirement benefits in accordance with Sections 401(a) and 401(k) of the Internal Revenue Code ("IRC"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective December 31, 2019, UBM Holdings Inc. 401(k) Plan ("UBM"), a related qualified defined contribution retirement plan sponsored by the Company, was merged into the Plan. In connection with this merger, net assets of \$218,071,801 were transferred into the Plan. As of December 31, 2019, UBM's assets were held and certified by Great-West Trust Company, LLC ("Great-West"), the trustee. These assets were combined with the Plan's assets held and certified by Fidelity Management Trust Company ("Fidelity") on the statements of net assets available for benefits and the schedule of assets (held at end of year).

Eligibility

All employees of the Company (except certain employees as defined in the Plan document) who have attained the age of 21 are eligible to participate in the Plan immediately. Effective February 7, 2020, the plan was amended to remove the age requirement.

Participant contributions

Eligible participants may make voluntary contributions through salary reductions from 1% to 75% of their eligible annual pre-tax compensation, as defined by the Plan. The Plan also allows participants to defer funds into a "Roth 401(k) deferral", which are subject to federal income taxes. These contributions combined are limited to the maximum amounts allowed under the provisions of the IRC (\$19,500 in 2020). Further, participants who are 50 years of age or older as of December 31, 2020 may contribute an additional "catch up" contribution (\$6,500 in 2020). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers mutual funds, a money market fund, a common collective trust and brokerage funds as investment options for participants.

Effective February 7, 2020, the Plan adopted an automatic enrollment provision. Eligible employees hired on or after February 7, 2020 will be automatically enrolled at 3% of eligible compensation 35 days after their date of hire unless they affirmatively elect not to participate. Eligible employees hired prior to February 7, 2020 will not be impacted.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

December 31, 2020 and 2019

Note 1 Description of Plan (continued)

Employer contributions

The Company makes a matching contribution of 50 cents for every dollar contributed up to 6% of the participant's eligible compensation. Subsequent to year end, the Company calculated a true-up contribution of \$658,892 relating to the 2020 match. The true-up contribution was funded in 2021, which is included in employer contributions on the statement of changes in net assets available for benefits and as an employer contribution receivable on the statements of net assets available for benefits.

Effective July 1, 2020 the Plan adopted a tiered match for the IHS Markit employees acquired and hired under UMB, LLC, Think Services ICMI division which is now known as Informa Tech Holding, LLC and any subsequent hires under this division through March 10, 2020. The company makes a matching contribution of 100% of the first 3% and 50% of the next 3% of participant's eligible compensation.

Participants' accounts

Each participant's account is credited with their respective contribution and its allocation of (a) employer contributions and (b) Plan earnings or losses.

Vesting

Participants' voluntary contributions, rollover contributions, and any earnings thereon vest immediately. Vesting in employer matching contributions and any earnings thereon is based on the number of years of continuous service (as defined). Vesting begins after one year of service, with full vesting after completing three years of credited service. In the event of death, disability or attainment of age 55, participants' accounts become fully vested.

Notwithstanding the above vesting definition, participants who were participants in plans of certain employers that have been merged into the Plan are subject to different vesting schedules for contributions from the prior employers that were made before they merged into the Plan, as defined in those plans.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2020 and 2019, as the loans are secured by the balance in the participant's account. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced, and a benefit payment is recorded.

INFORMA USA, INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

December 31, 2020 and 2019

Note 1 Description of Plan (continued)

Notes receivable from participants (continued)

Participants may borrow up to 50% of their vested account balance with a minimum of \$1,000 and a maximum of \$50,000. Loans from participants are subject to approval by the plan administrator and terms range from one to five years. However, if the loan is to acquire the principal residence of the participant, the term may be extended to ten years. Further, loans will bear interest at a reasonable percentage interest rate to be determined by the plan administrator. Principal and interest is paid ratably through payroll deductions.

During the year ended December 31, 2020, the Plan adopted the loan provisions of the Coronavirus Aid, Relief, and Economic Security ("CARES") Act, effective for qualified participant loans initiated on or after March 27, 2020 and before September 23, 2020. The CARES Act provided Plan participants with the option to borrow up to 100% of their vested account balance, up to a maximum of \$100,000. Participants also have the option of suspending loan payments due between March 27, 2020 and December 31, 2020 for up to one year, however, originally scheduled payments must resume beginning on January 1, 2021. The Plan has not been formally amended to reflect these provisions. Plan amendments related to participant loans taken under the CARES Act must be adopted by December 31, 2022.

Payment of benefits

Upon termination of employment, retirement, attainment of age 59 ½, death, or disability, the participant or the participant's beneficiary is entitled to receive the vested portion of the participant's account in a single lump-sum payment, in accordance with Internal Revenue Service ("IRS") regulations and Plan provisions. Certain participants may also elect to receive distributions in the form of an annuity. Withdrawals from the Plan are also available for special "hardship" reasons (as defined). Distributions to participants are recorded when paid.

During the year ended December 31, 2020, the Plan adopted the distribution provisions of the CARES Act. A CARES Act distribution allows certain eligible participants to take a coronavirus related distribution up to \$100,000 from the Plan retroactive to January 1, 2020 and through December 30, 2020. The Plan has not been formally amended to reflect these provisions. Plan amendments related to coronavirus related distributions must be adopted by December 31, 2022.

Forfeitures

The Plan provides that forfeitures, the unvested portion of employer contributions for terminated participants, can be used to reduce Company contributions. The Company used the forfeiture account to reduce its contributions during 2020 by \$525,404. As of December 31, 2020 and 2019, there was \$512,261 and \$421,034, respectively, of forfeitures available to reduce future Company contributions.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

December 31, 2020 and 2019

Note 1 **Description of Plan (continued)**

Other income

Certain mutual fund and collective trust expenses that are charged by the mutual fund companies to the individual participants are credited to the Plan on a quarterly basis. These assets are held in a reserve account and may be used to pay expenses of the Plan, as described in the agreement. Amounts unused for expenses may be allocated to eligible participant accounts based upon each participant's pro rata percentage of total Plan investments. Such allocation is permitted to take place no more frequently than on a quarterly basis. As of December 31, 2020 and 2019, the balance in the reserve account amounted to \$558,378 and \$436,827, respectively. During the year ended December 31, 2020, funds credited to the Plan amounted to \$295,552, and are included in other income in the accompanying statement of changes in net assets available for benefits.

Note 2 **Summary of significant accounting policies**

The following is a summary of significant accounting policies followed by the Plan.

Basis of accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment valuation and income recognition

Plan investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's sponsor determines the Plan's valuation policies utilizing information provided by the trustees. See Note 8 for discussions of fair value measurements.

Realized gains and losses on investments sold and the unrealized appreciation and depreciation of investments held are reported on an average current cost basis, based on fair market value of the investments at the beginning of the plan year or at the time of purchase during the plan year. Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Administrative expenses

The Company may, at its discretion, pay the expenses incidental to administering the Plan. In the event that the Company does not pay Plan expenses, the expenses shall be paid by the Plan.

Note 2 Summary of significant accounting policies (continued)

Fair value

Accounting standards provide a common definition of fair value and establish a framework to make the measurement of fair value in generally accepted accounting principles more consistent and comparable. Accounting standards also require expanded disclosures to provide information about the extent to which fair value is used to measure certain financial and non-financial assets and liabilities, the methods and assumptions used to measure fair value, and the effect of fair value measures on earnings. The Plan's financial assets reflected in the financial statements at fair value include its investments (see Note 8).

Subsequent events

The Company has evaluated subsequent events through October 6, 2021, which is the date the financial statements were available to be issued.

In May 2021, TrialScope, Inc. Retirement Savings Plan, a related qualified defined contribution plan sponsored by the Company, was merged into the Plan. In connection with the merger, net assets of \$3,531,710 were transferred into the Plan.

Note 3 Information certified by the Plan's trustees

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2020 and 2019, and net appreciation in fair value of investments, interest and dividends for the year ended December 31, 2020, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Fidelity and Great-West, the trustees of the Plan.

Note 4 Related party transactions

Certain Plan investments include shares of mutual funds and a money market fund managed by Fidelity. As described in Note 1, these Fidelity-managed funds may also have fund expenses recaptured by the Plan. Fidelity is the trustee, as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions that are exempt from the prohibited transaction rules, as defined by ERISA.

Note 5 Tax status

The Plan operates under a volume submitter plan. The plan administrator believes and represents that the Plan is designed and is being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

December 31, 2020 and 2019

Note 5 **Tax status (continued)**

The Financial Accounting Standards Board has issued a standard regarding the accounting and recognition of income tax positions taken or expected to be taken by the Plan. The plan administrator assesses the tax positions taken by the Plan and has concluded that as of December 31, 2020, there are no uncertain tax positions taken or expected to be taken that would require recognition or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6 **Plan termination**

Although it has not expressed any interest to do so, the Board of Directors of the Company may, at its discretion, discontinue contributions at any time and terminate the Plan, subject to the provisions set forth in ERISA. In the event that the Plan and the related trust terminate, all accounts will be valued as of the termination date, participants will become fully vested in their accounts, and all accounts will be distributed in full to participants.

Note 7 **Risks and uncertainties**

The Plan provides for various options in accounts which invest in investment securities. Investment securities are exposed to various risks such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that these changes would, in the near term, materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Note 8 **Fair value measurements**

Accounting standards require that financial and non-financial assets and liabilities, recognized or disclosed in financial statements on a recurring basis (at least annually), be measured at fair value. These standards define fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date.

These standards also establish a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. These standards describe three levels of inputs that may be used to measure fair value:

- Level 1 - Quoted prices in active markets for identical assets or liabilities that are accessible at the measurement date.
- Level 2 - Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities in active markets; quoted prices for similar assets or liabilities in markets that are not active; or model-derived valuations or other inputs that are observable or can be corroborated by observable market data for the assets or liabilities.

Note 8 **Fair value measurements (continued)**

Level 3 - Unobservable inputs for the asset or liability that are significant to the fair value measurement. These inputs reflect the Plan's assumptions about the assumptions a market participant would use in pricing the asset or liability.

The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 and Level 3 inputs are only used when higher level inputs are not available. The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurements.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money market fund: Valued at the closing price reported by the fund sponsor from an actively traded exchange.

Common collective trust: Value is based on the underlying unit value of the assets held. The assets of the underlying fund are invested primarily in certain investment contracts, asset-backed securities, corporate bonds, and other securities. The fair value of the contracts is determined using the market approach based on market prices of similar contracts. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 12 months' notification in order to ensure that securities liquidations will be carried out in an orderly business matter.

Brokerage funds: Consists of mutual funds, money market funds, common stock, a government bond, a corporate bond, and a certificate of deposit valued as follows:

Mutual funds: Valued as stated above.

Money market funds: Valued as stated above.

Common stock: Valued at the closing price reported on the active market on which the individual securities are traded.

Note 8 Fair value measurements (continued)

Government bond: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings.

Corporate bond: Valued at the closing price reported on the active market on which the individual securities are traded.

Certificate of deposit: Valued at cash balance on hand.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table summarizes the valuation of the Plan's financial assets which are measured at fair value at December 31, 2020:
