Contributions -

Participants may elect to contribute up to 100% of their eligible compensation to the Plan, subject to the maximum amount allowed under the Internal Revenue Code (the "Code"). Deferral limits under the Code were $19,500 for the year ended December 31, 2020. In addition, participants age fifty and over at the end of the Plan year could elect to contribute a "catch-up" contribution of $6,500 during the year ended December 31, 2020.

The Plan provides for the Company to make discretionary matching contributions to eligible participants. For the year ended December 31, 2020, the Company elected to make discretionary matching contributions equal to 50% of the participant's elective deferrals up to 5% of eligible compensation for a maximum matching contribution of 2.5% of eligible compensation. Company discretionary matching contributions were made each payroll period to participants and totaled $237,642 during the year ended December 31, 2020.

The Company may also make an annual discretionary non-elective profit sharing contribution on behalf of eligible participants. The Company elected not to make a discretionary non-elective profit sharing contribution during the year ended December 31, 2020.

Participants are allowed to make rollover contributions from other qualified plans into the Plan in accordance with regulations under the Code. In addition, participants are allowed to make Roth elective deferrals into the Plan.

The Plan provides for automatic participant enrollment after the first thirty days following the participant's date of hire. The initial elective deferral rate is equal to 5% of the participant's eligible compensation and is increased by 1% each year, not to exceed 15% of eligible compensation.

Participant accounts -

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited with the participant's contributions and allocations of the Company's discretionary non-elective profit sharing and discretionary matching contributions and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan, if not paid by the Company. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting -

Participants are immediately vested in their elective deferrals and rollover contributions plus actual earnings thereon. Participants hired before August 1, 2015, are immediately vested in the Company discretionary matching contribution. For participants hired after August 1, 2015, vesting in Company's discretionary non-elective profit sharing and discretionary matching contribution portion of their account plus earnings is based on years of service as follows:

Years of service	Percentage
Less than two	0%
At least two but less than three	20%
At least three but less than four	40%
At least four but less than five	60%
At least five but less than six	80%
Six or more	100%

Investment options -

Participants direct the investment of their account into various investment options offered by the Plan. The Plan offers a number of investment options including mutual funds and the Putnam Stable Value Fund (the "collective trust") as selected by the Administrator.

Notes receivable from participants -

Participants may borrow up to a maximum of 50% of their vested account balance or $50,000, whichever is less. Note repayment terms range up to a maximum of five years, unless used for the purpose of purchasing a participant's principal residence, with interest generally at the prime rate at time of issuance plus 1% and are collateralized by the individual participant's account. Principal and interest is paid ratably through payroll deductions.

Payment of benefits -

Amounts contributed though payroll deductions may be withdrawn by, or distributed to, a participant only upon termination of employment or attaining the age of 62. Withdrawals prior to attaining the age of 62 are not permitted, except in the event of retirement or as a hardship distribution. Upon proof, to the satisfaction of the Administrator, of an immediate and heavy financial need, amounts contributed may be withdrawn for a hardship purpose. Upon termination of service due to death, disability or retirement, a participant may receive a lump-sum amount equal to the vested value of his or her account or periodic installments.

If upon termination of service, a participant does not attain normal retirement age and the participant's vested account balance is greater than $5,000, the participant may elect to receive a lump-sum amount, a direct rollover to a qualified plan under the Code, a direct rollover to a qualified Individual Retirement Account equal to the value of his or her vested account balance, or may elect to keep their investments in the Plan. If the vested account balance is less than $5,000, the balance will be distributed to the participant as soon as administratively feasible.

Effective January 1, 2020, pursuant to the Setting Every Community Up for Retirement Enhancement Act of 2019, the required minimum distribution age was raised to 72 from 70 ½.

Additionally, pursuant to the Coronavirus Aid, Relief and Economic Security Act (the "CARES Act"), the Plan allows coronavirus-related penalty-free distributions of up to $100,000 to be made to *qualified individuals* as defined in the CARES Act.

The Plan has not yet been amended to provide for this CARES Act provision; the deadline to amend the Plan for the impact of the CARES Act is December 31, 2022.

Forfeitures -

Participants whose employment with the Company has been terminated and who receive a distribution of the vested percentage of their account shall forfeit any amounts which are in excess of their vested interest as of the date of distribution. The non-vested portion will be restored to the participant's account in the event the employee returns to employment before five consecutive one-year breaks in service and pays back the distribution received from the Plan. After restoration of any of these benefits, the remaining forfeitures may be used to reduce the Company contributions.

During the year ended December 31, 2020, the Company utilized approximately $15,900 forfeitures to fund employer discretionary matching contributions. The cumulative balance of forfeitures available to offset Company discretionary matching contributions totaled approximately $16,600 at December 31, 2020.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting -

The accompanying financial statements of the Plan have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of estimates -

The preparation of financial statements in conformity with GAAP requires the Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Significant estimates include, but are not limited to, the fair value of investments and the valuation of notes receivable from participants. Actual results may differ from those estimates.

Investment valuation and income recognition -

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Administrator determines the Plan's valuation policies utilizing information provided by NTC. See Note 4 for a discussion of fair value measurements.

Contributions are recorded by the Plan when withheld from participants. Investment income is recorded by the Plan as earned. Purchases and sales of securities are recorded on a trade-date basis. Net appreciation in fair value of investments in the accompanying statement of changes in net assets available for benefits includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants -

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed as they are incurred. No allowance for credit losses has been recorded as of December 31, 2020 or 2019. If a participant ceases to make loan repayments and the Administrator deems the participant note receivable to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of benefits -

Benefit payments to participants are recorded when paid.

Expenses -

Certain expenses of maintaining the Plan, including audit fees are paid directly by the Company and are excluded from these financial statements. Administrative expenses include third-party recordkeeping, investment advisory and trustee fees. Participants are also charged administrative expenses for specific transactions within the Plan. Administrative expenses charged to the Plan totaled $64,746 for the year ended December 31, 2020.

Investment related expenses are included in net appreciation in fair value of investments in the accompanying statement of changes in net assets available for benefits.

Subsequent events -

The Administrator has evaluated subsequent events through October 11, 2021, which is the date the accompanying financial statements were available to be issued.

3. FINANCIAL INFORMATION CERTIFIED BY THE TRUSTEE (UNAUDITED)

The Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the investment information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared by, or derived from, information provided by NTC and furnished to the Administrator. The Administrator has obtained certification from NTC that the information below is complete and accurate as of December 31, 2020 and 2019, and for the year ended December 31, 2020:

	2020	2019
Mutual funds	$10,857,813	$11,944,587
Collective trust	967,672	154,364
Notes receivable from participants	230,303	295,543
Net appreciation in fair value of investments	943,902	
Interest and dividend income	365,060	
Interest income on notes receivable from participants	14,338	

4. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies for assets measured at fair value. There have been no changes in methodologies used at December 31, 2020 and 2019.

Mutual funds: Mutual funds are valued at the net asset value ("NAV") of shares held by the Plan at year end. NAV is derived from the quoted prices in active markets of the underlying investments. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission.

Collective trust: The Plan uses NAV as a practical expedient to determine the fair value of the collective trust. NAV is based on the fair value of the underlying investments held by the fund less its liabilities. Participant transactions (purchases and sales) may occur daily. Redemption for the collective trust is permitted daily with no other restrictions or notice periods and there are no unfunded commitments.

The fair value of investments measured on a recurring basis at December 31, 2020 is presented below:

	NAV practical expedient	Level 1	Total
Mutual funds	$ -	$10,857,813	$10,857,813
Collective trust	967,672	-	967,672
	$967,672	$10,857,813	$11,825,485

The fair value of investments measured on a recurring basis at December 31, 2019 is presented below:

	NAV practical expedient	Level 1	Total
Mutual funds	$ -	$11,944,587	$11,944,587
Collective trust	154,364	-	154,364
	$154,364	$11,944,587	$12,098,951

5. PARTY-IN-INTEREST TRANSACTIONS

NTC serves as trustee of the Plan's assets. NTC utilizes Matrix Trust Company for certain custodial services. All transactions between the Plan, NTC and Matrix Trust Company, including cash, qualify as exempt party-in-interest transactions. Transactions involving notes receivable from participants also qualify as exempt party-in-interest transactions.

6. TAX STATUS

The Plan adopted a defined contribution volume submitter plan sponsored by Newport Group, Inc. that received a favorable opinion letter from the Internal Revenue Service ("IRS") dated March 31, 2014. The opinion letter stated that the Plan is designed in accordance with applicable sections of the Code. Although the Plan has been amended since receiving the opinion letter, the Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements for the year ended December 31, 2020.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested in their Company discretionary non-elective profit sharing contribution and discretionary matching contribution account balance as of the date of termination.

8. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect participant account balances and the amounts reported in the accompanying statements of net assets available for benefits.
