1. Description of Plan

The following description of the S.W. Management LLC Profit Sharing Plan (the "Plan") provides only general information purposes only. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

a. General

The Plan is a defined contribution plan covering all employees of the Company who have met certain requirements as to age and length of service as laid out in the Plan document. The Plan was established on January 1, 1983 and was amended on January 1, 2016. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Board of Trustees oversees governance of the Plan. The Plan's Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Plan's Board of Trustees.

b. Eligibility

Employees are eligible to participate in the Plan once they have reached age 21 and completed 2 years of service which is defined as being equal to working 1,000 hours during a consecutive 12-month period immediately following the employee's date of hire. Automatically excluded employees are those covered under a collective bargaining agreement (i.e. union employees) and non-resident aliens who do not receive compensation from any U.S. sources.

c. Contributions

The Plan is non-contributory by the participants. A participant may rollover amounts representing distributions from other qualified contribution plans.

The Company may make a discretionary profit-sharing contribution allocated to the various eligible participant accounts. This discretionary computation is reviewed and agreed upon as noted in Board Meeting Minutes. The participants are categorized into tiers where each tier is assigned a contribution percentage noted as being a percentage of compensation. For the year ended December 31, 2020, the contributions rates ranged between 5.00% and 12.28% of annual compensation.

1. Description of Plan (continued)

d. Participants Accounts

Each participant's account is credited with the employer discretionary profit-sharing contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

e. Vesting

Participants are immediately 100% vested in the Company's profit-sharing funds plus actual earnings thereon.

f. Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive benefits by a lump-sum amount equal to the value of the participant's vested interest in their account in cash, by a joint and survivor annuity, a life annuity made over the remaining life of the participant or payments made over the life of the participant and a designated beneficiary.

g. New Authoritative Pronouncements and Legislation

In January 2020, Congress passed the Setting Every Community Up for Retirement Enhancement Act of 2020 ("SECURE Act") that contained the largest package of retirement system reform in over a decade. Many of the provisions of the SECURE Act are effective on January 1, 2020 and will require significant changes to plan administration and recordkeeping.

The World Health Organization officially declared the Coronavirus Disease 2019 (COVID-19) outbreak a global pandemic. During 2020, the financial markets experienced significant volatility due to the COVID-19 pandemic.

The COVID-19 outbreak in the United States has caused business disruption through mandated and voluntary closings of businesses in numerous industries. As of March 27, 2020, Congress passed the Coronavirus Aid, Relief, and Economic Security Act ("CARES Act") that included numerous employee benefit plan provisions to assist plan sponsors and participants.

The Plan was operating in good faith during 2020 with regards to the Bi-Partisan Budget Act to eliminate the six-month suspension of elective deferrals after receiving a hardship distribution.

On December 27, 2020, President Trump signed into law the Consolidated Appropriations Act, 2021. The Act enhances and expands certain provisions of the Coronavirus Aid, Relief, and Economic Security Act.

2. Summary of Significant Accounting Policies

a. Date of management's review

Subsequent events were evaluated through October 11, 2021, which is the date the financial statements were available to be issued.

b. Basis of accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

c. Use of Estimates

The presentation of financial statements in conformity with generally accepted accounting principles accepted in the United States of America, requires the custodian of the Plan to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

d. Investment valuation and income recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan’s Investment Committee determines the plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

e. Contributions

Discretionary employer contributions are determined, funded and recorded annually. Contributions receivable represent amounts not yet deposited into the participants' individual accounts.

f. Payment of benefits

Benefits are recorded when paid.

2. Summary of Significant Accounting Policies (continued)

g. Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

3. Fair Value Measurements

The Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurement,* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

3. Fair Value Measurements (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Self-directed brokerage account: The underlying mutual funds are valued at quoted market prices in an exchange and active market and are classified as Level 1 investments.

Pooled separate accounts: Pooled separate accounts ("PSAs") are privately managed through investment companies and are not publicly quoted. PSAs are comprised, primarily, of shares of registered investment companies held through sub-accounts of an insurance company. The PSAs are valued using net asset value ("NAV") as a practical expedient to estimate fair value where NAV is based on the value of the underlying investment assets held through sub-accounts of a separate account of an insurance company. The Plan has concluded that the NAVs reported by the investment companies approximate the fair value of the investments.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2020 and 2019:

	Investments at Fair Value as of December 31, 2020			
	Level 1	**Level 2**	**Level 3**	**Total**
Self-Directed Brokerage	**$ 716,316**	**$ -**	**$ -**	**$ 716,316**
Investments measured at NAV (1)				**12,797,617**
Total investments				**$ 13,513,933**

	Investments at Fair Value as of December 31, 2019			
	Level 1	Level 2	Level 3	Total
Self-Directed Brokerage	$ 660,474	$ -	$ -	$ 660,474
Investments measured at NAV (1)				10,637,705
Total investments				$ 11,298,179

(1) Certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statement of financial position.

4. Guaranteed Investment Contract

The Plan entered into a traditional fully benefit-responsive guaranteed investment contract with VOYA Retirement Insurance and Annuity Company ("VOYA") totaling $56,470 for 2020 and $47,398 for 2019. VOYA maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals or distributions and administrative expenses. The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer, but may not be less than 2.00% during 2020. The crediting rate is reviewed on an annual basis for resetting. The contract cannot be terminated before the scheduled maturity date.

This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by VOYA, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, or (5) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, and (4) a material amendment to the agreement without the consent of the issuer.

5. Information Prepared and Certified by Custodian

The information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by Voya Retirement Insurance and Annuity Company, the custodian of the Plan, at December 31, 2020 and 2019.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the of Plan termination, participants would become 100% vested in their Employer's contributions.

7. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Although the Plan has been amended since receiving the Determination Letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than now would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Related-Party and Party-in-Interest Transactions

At December 31, 2020 and 2019, the Plan held units in various pooled separate accounts and a stable value fund managed by the Voya Retirement Insurance and Annuity Company, the custodian of the Plan. Additionally, Voya provides certain administrative services to the Plan. These transactions qualify as allowable party-in-interest transactions under the provisions of ERISA.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Amounts shown are expressed as a percentage of program assets based on formulas in effect as of the date above, and are subject to change.

Note: The amounts shown below are not added to each other. Rather, the revenue Voya receives is paid directly or indirectly from the total investment expenses. The compensation paid by Voya is a Voya expense and is not separately charged to the plan.

[3] **Average Annual Total Investment Option Revenue:** This is the weighted average revenue to Voya from all plan investment options, based on assets at the reporting date, including any assets in the Voya Fixed or Guaranteed Accumulation Account.

* The annual compensation paid by Voya to your adviser and TPA reflects the compensation payable after the first year of the program and does not include compensation paid on transferred assets or any "first year" compensation. See your new business paperwork for information on first year compensation. Certain minimum criteria may apply before such payments are made and receipt of compensation by your TPA may vary by plan. In addition, Renewal Contributions are contributions made after the first year of the contract. Increase Contributions are contributions that exceed the highest contributions in any prior year. Voya may also make payments to other plan service providers from the total revenue received by Voya.

Investment Expenses and Indirect Compensation

The chart below shows the components of the investment expenses for the non-fixed interest funds available under your plan as well as the revenue paid to Voya Financial, Inc. (Voya) from the funds in support of the recordkeeping and administrative services we provide in connection with your plan. The revenue received by Voya from the fund is paid by the fund itself or a related party (e.g. the fund's investment manager) and is not an additional expense above the fund fees. Voya uses this revenue to maintain the investment, administrative and technological platforms and other supporting services used by your plan. Part of this revenue may also be used to compensate your advisor. Amounts shown below are based on charges in effect as of the date above and are subject to change.

Please refer to the Appendix for a description of the services provided in connection with the following fees paid by the Funds to Voya:

Other Indirect Compensation

Float

Voya and its affiliated companies ("Voya") earn income in the form of bank service credits on contributions awaiting investment and on payments awaiting distribution from the bank accounts that Voya maintains (or "float"). The bank service credits are applied against the bank service fees that apply to the bank accounts that Voya maintains and may not be redeemed for cash. Specifically, the bank accounts have been established to receive and hold for a reasonable time:

- contributions or other amounts to be invested in your retirement plan, or
- amounts redeemed to pay a distribution or disbursement from your plan.

Your Voya service provider will receive income in the form of bank service credits (as described below) and offset such credits against bank service fees that are charged to Voya for the use of such bank accounts and for services provided by the banks for processing receipts or disbursements.

Float Generated by Contributions:

Your Voya service provider uses a bank account to receive and hold contributions or other Plan deposit amounts to be invested. Contributions or other deposit amounts are held until Authorized Instructions are received in good order. Income in the form of bank service credits are earned on the bank account during any waiting period for Authorized Instructions. For Authorized Instructions received in good order by the close of the New York Stock Exchange (normally 4:00 p.m. Eastern Time), contributions or other deposit amounts will be invested on that business day. For Authorized Instructions received in good order after the close of the New York Stock Exchange, contributions or other deposit amounts will be processed on the next business day.

Float Generated by Distributions:

Your Voya service provider and/or one or more of its corporate affiliates receives income in the form of bank service credits in connection with distributions or disbursements that Voya pays on the plan's behalf. The service credits accrue during the period beginning when an amount is redeemed from the Plan's investment to fund a distribution or disbursement check and ending when the check is presented for payment.

Additionally, from time to time, the corporate affiliate of your Voya service provider may receive money market like rates of return on other deposit or short term investment products in which distributions may be held until such time as the check is presented for payment.

Transaction Processing Errors

Voya processes your Plan's investment instructions on an "omnibus" or aggregated basis. If Voya's correction of a Voya processing error results in a loss to your Plan or its Participants, Voya will absorb the loss. If any gain results in connection with the correction of a Voya processing error, Voya will net any such gain against other losses absorbed by Voya and retain any resulting net gain as a component of its compensation for transaction processing services, including its agreement to make Plan and Participant accounts whole for losses resulting from Voya processing errors. For more information on our error correction policy, please refer to Voya Retirement Insurance and Annuity Company's Policy for Correction of Processing Errors ("VRIAC Policy"). The VRIAC policy is posted in the Sponsor Disclosure section of the Sponsor Web.

Revenue Sharing

In addition, to the extent former or current Affiliates of Voya perform services for the Plan, such Affiliate may share any revenue received with Voya or may credit Voya for such revenue against amounts due from Voya to such Affiliate. Such revenue sharing may include, but it is not limited to, revenue sharing in connection with investment management, brokerage or trustee/custodial services.

Conference Support

Some fund families provide financial support to Voya companies in connection with training and education events attended by Voya employees and representatives. This financial support may include expenses associated with meals. For calendar year 2020 such amount was approximately $0.75 per plan. This estimate was determined by dividing the total amount received from all fund families by the number of plans for which Voya provides investment services.

- **Total Daily Asset Charge**: The sum of the Daily Asset Charge and Voya Admin Fee.

- **Sub Transfer Agent (Sub TA) Expense Reimbursement**: The amount paid to Voya Retirement Insurance and Annuity Company ("VRIAC") or its affiliates by the Fund Family or Fund Transfer Agent for plan and participant level recordkeeping services.

- **12b-1 Fees:** The amount paid to VRIAC or its affiliates by the fund family from the fund's 12b-1 fees for distribution services.

- **Service Fee:** The amount paid to VRIAC or its affiliates by the Fund Family or Fund Transfer Agent for other services provided in connection with the investment option. If your plan uses the Voya Fixed Account or Voya Guaranteed Accumulation Account (GAA), the amount shown in the "Service Fee" column represents our reasonable and good faith estimate of the cost of the recordkeeping and other administrative services being offset through a reduction in the rates of interest that would otherwise be credited. In developing our estimate, we applied guidance issued by the Department of Labor in connection with Form 5500 Schedule C reporting. Under that guidance, if the rate of return on a fixed rate investment contract is net of the expense of recordkeeping and similar administrative services, then the amount so "netted" should be reported as a fee charged against the Plan's investment in order to avoid the inference that the Plan services were being provided free of charge. Estimates of those amounts are permitted so long as the estimate is reasonable, and the methodology and assumptions used to prepare the estimate are disclosed.

  The rate credited to your Plan's Fixed Account and/or GAA ("fixed accounts") balance is a "net" rate that reflects the costs of the recordkeeping and other administrative services we provide. We have estimated the amount of that rate reduction and reported it in the "Service Fee" column of our indirect compensation report in order to inform your understanding of the costs of our recordkeeping and administrative services. Set forth below is a description of the method we used in developing our estimate:

  First, we determined the ratio of (1) our estimated internal costs for providing plan recordkeeping, trusteeship and similar services to all of our Plan customers as of the prior calendar year end, to (2) our average total assets during the same calendar year. We applied that ratio to your Plan's fixed account(s) to arrive at an estimate of the dollar amount of reportable compensation attributable to netting the costs of providing such services against the Fixed Account/GAA rate.

- **Total Revenue to Voya:** The sum of the Total Daily Asset Charge plus amounts received by Voya from the Fund or fund custodian for Sub TA Expense Reimbursement, 12b-1 Fees and other services.
