Enscicon 401(k) Plan
Notes to Financial Statements

Note 1: Plan Description

The following description of the Enscicon 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all qualifying employees of Enscicon Corporation and Onemata (an affiliated adopting employer effective October 1, 2020) (collectively the "Company"). As of January 1, 2020, all employees must have completed one year of service, worked 1,000 hours during the plan year, and attained age 21 to participate in the Plan. An employee must also be employed on the last day of the plan year to be eligible to receive the Company's discretionary matching contribution. Employees are eligible to enter the Plan on either January 1 or July 1 upon meeting the eligibility requirements. For the year ended December 31, 2019 and prior, there was no service requirement and employees were eligible to enter the Plan on the first day of the month following their employment date provided they had attained age 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Certain officers of the Company serve as trustees of the Plan and the Company is the plan administrator. Together, they are responsible for oversight of the Plan and for determining the appropriateness of the Plan's investment offerings and monitoring investment performance. Principal Life Insurance Company is the custodian of the Plan's investments in pooled separate accounts and the guaranteed interest account, Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company is the custodian of the Plan's investments in mutual funds, and Principal Life Insurance Company (on behalf of Principal Global Investors Trust Company), is the trustee of the Plan's investment in the Morely Stable Value Fund (collectively "Principal"). Principal Life Insurance Company also provides third party administration and recordkeeping services to the Plan.

Contributions

Each year, participants may contribute deferral contributions up to the amount allowed by law of annual compensation, as defined by the Plan, on a pretax basis. Deferral contributions shall not exceed certain limits set forth by the Internal Revenue Service ("IRS") ($19,500 in 2020). Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions (up to $6,500 in 2020). Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollovers). The Company may make a discretionary matching contribution not to exceed 100% of each participant's contributions. Additionally, the Company may make additional discretionary profit sharing contributions. For the year ended December 31, 2020, the Company did not make any discretionary matching or discretionary profit sharing contributions.

Note 1: Plan Description (Continued)

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's discretionary matching contributions, allocations of the Company's discretionary profit sharing contributions, and plan earnings and losses. Participant accounts may also be charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary deferral contributions and rollover contributions plus actual earnings thereon. Vesting in the Company's discretionary matching and discretionary profit sharing contributions portion of their account, plus actual earnings thereon, is based on years of continuous service. Participants become fully vested after six years of credited service.

Investment Options

Participants direct the investment of their contributions into various investment options offered under the Plan. The Plan offers a variety of funds held in pooled separate accounts, mutual funds, a common collective trust, and a fully benefit-responsive investment contract as investment options. Participants may change their investment options at any time.

Notes Receivable From Participants

Participants may borrow from their fund accounts a minimum of $1,000, up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Loan terms range from one to five years, or up to 30 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate comparable to the rates being charged by lending institutions in the same geographical locale as the Company. A loan will carry the same rate of interest throughout its term. Principal and interest is paid ratably through bi-weekly payroll deductions.

Payment of Benefits

Upon termination of service due to death, disability, or retirement, a participant may elect to have their vested interest in his or her account paid through a lump-sum payment directly or by rollover to another qualified account. Upon a participant's death, the Plan allows extended payments for all beneficiaries. If the participant's vested account balance does not exceed $5,000, an involuntary cash-out may be made by the Plan. The Plan also allows for in-service distributions upon attaining age 59 ½.

Note 1: Plan Description (Continued)

Hardship Withdrawals

Hardship withdrawals are available if the participant meets certain criteria. Effective January 1, 2020, the Plan adopted the new hardship withdrawal provisions of the Bipartisan Budget Act of 2018 (the "Act"). The Act lifted several restrictions relating to hardship withdrawals, including the elimination of the suspension period for making contributions to the Plan after a hardship withdrawal was taken, elimination of the requirement to exhaust plan loans available before taking a hardship withdrawal, and the inclusion of earnings accrued on elective deferrals when determining the allowable amount of the hardship withdrawal. The Plan has been amended to adopt these changes.

Forfeited Accounts

Forfeitures are used to pay administrative expenses for the Plan and/or reduce future Company contributions. At December 31, 2020 and 2019, there were no forfeited non-vested account balances, and there were no forfeitures used during the year ended December 31, 2020.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States (GAAP).

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Excess Participants' Contributions Payable

As of December 31, 2020 and 2019, Excess Participants' Contributions Payable totaling $12,728 and $-0-, respectively, represent the return of excessive contribution amounts by highly compensated employees as required to satisfy relevant nondiscrimination provisions of the Plan. The excess contributions were recorded as a liability with a corresponding decrease to participant contributions. The Plan distributed the 2020 excess contributions to the applicable participants prior to March 15, 2021.

Note 2: Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition

Investments are reported at fair value, except for the Plan's fully benefit-responsive investment contract (FBRIC). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The plan administrator determines the Plan's valuation policies utilizing information provided by the investment advisor, Principal Life Insurance Company, and Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company. See Note 4 for disclosure of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

FBRICs are reported at contract value, which is the amount participants would normally receive if they were to initiate permitted transactions under the terms of the Plan.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued, but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2020 and 2019. Delinquent notes receivable are recorded as benefit payments on the basis of the terms of the plan document. As of December 31, 2020 and 2019, the Plan had no outstanding notes receivable from participants.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain administrative expenses of maintaining the Plan are paid by the Company and are excluded from these financial statements. Fees related to the administration of benefit payments and notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment advisory and management fees are allocated proportionately to participants based on their respective account balances. Certain investment related expenses are included in net appreciation in fair value of investments.

Subsequent Events

The Plan has evaluated subsequent events through October 13, 2021, which is the date the financial statements were available to be issued.

Note 3: Information Prepared and Certified by the Custodians and Trustee (Unaudited)

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the custodians of the Plan and the trustee of the Morely Stable Value Fund have certified that the following unaudited data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments, as shown in the Statements of Net Assets Available for Benefits as of December 31, 2020 and 2019, except for the fair value of the Common Collective Trust (Morely Stable Value Fund), which is reported by the Plan at contract value by the trustee.

- Interest and dividend income, and net appreciation in fair value of investments as shown in the Statement of Changes in Net Assets Available for Benefits.

- The schedule of assets held at end of year included as supplemental information.

This information has not been audited by the Plan's independent auditors.

Note 4: Fair Value Measurements

GAAP establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority level; Level 2 inputs consist of observable inputs other than quoted prices for identical assets (Level 1); and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs are used for investments for which Level 1 inputs were not available. Level 3 inputs would only be used if Level 1 or Level 2 inputs were not available.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Pooled Separate Accounts: Fair value is estimated using the NAV per unit by the issuer of the pooled separate accounts. Fair value is based on the fair value of underlying investments held by the pooled separate accounts. The underlying investments consist primarily of mutual funds.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Note 4: Fair Value Measurements (Continued)

Common Collective Trust: The Morley Stable Value I Fund ("MSVF"), a common collective trust, invests directly or indirectly in fully benefit-responsive investment contracts. The MSVF is valued at the NAV as provided by the trustee, which is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the MSVF, the issuer reserves the right to temporarily delay withdrawal from the MSVF in order to ensure that securities liquidations will be carried out in an orderly business manner. The MSVF, included in the fair value hierarchy tables following, files a U.S. Department of Labor Form 5500, Annual Return/Report of Employee Benefit Plan, as a direct filing entity. Accordingly, certain disclosure requirements under ASU 2015-12 with respect to investment strategies for investments measured using the NAV practical expedient are not required in this report. There are no participant redemption restrictions for these investments.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2020 and 2019. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

	Assets at Fair Value as of December 31, 2020			
	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 212,762	$ -	$ -	$ 212,762
Pooled Separate Accounts	1,856,355	-	-	1,856,355
Total Assets in Fair Value Hierarchy	$ 2,069,117	$ -	$ -	2,069,117
Investments measured at NAV (a):				
Common Collective Trust				155,047
Total Investments at Fair Value				$ 2,224,164

	Assets at Fair Value as of December 31, 2019			
	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 140,152	$ -	$ -	$ 140,152
Pooled Separate Accounts	1,900,042	-	-	1,900,042
Total Assets in Fair Value Hierarchy	$ 2,040,194	$ -	$ -	2,040,194
Investments measured at NAV (a):				
Common Collective Trust				141,155
Total Investments at Fair Value				$ 2,181,349

Note 4: Fair Value Measurements (Continued)

(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in the table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statements of Net Assets Available for Benefits.

Fair Value of Investments in Entities that use NAV

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2020 and 2019.

As of December 31, 2020	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
Common Collective Trust	$ 155,047	N/A	Daily	30 Days

As of December 31, 2019	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
Common Collective Trust	$ 141,155	N/A	Daily	30 Days

Note 5: Fully Benefit-Responsive Investment Contract

The Plan offers a fully benefit-responsive investment contract with Principal. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

Contributions to the guaranteed investment contract become part of Principal's general account. The contract is credited with interest in accordance with the interest crediting rate established and periodically adjusted by the issuer. The contract is charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

The contract is a traditional guaranteed investment contract and is presented in the Statements of Net Assets Available for Benefits at contract value. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The crediting interest rate is based on a formula determined by the issuer, but it may not be less than 0.0%. Such interest rates are reviewed on a quarterly basis for resetting.

Note 5: Fully Benefit-Responsive Investment Contract (Continued)

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) termination of the contract, (2) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (3) plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from Federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator believes the occurrence of such events that would limit the Plan's ability to transact at contract value with participants is not probable.

The insurance company may terminate the contract with thirty days written notice to the contract owner for reasonable cause, which includes failure by the contract owner to meet contract requirements.

Note 6: Related-Party Transactions and Party-in-Interest Transactions

Certain plan investments are managed by Principal who is the custodian and trustee as defined by the Plan. Principal also serves as a third party administrator and recordkeeper. Transactions with these companies qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of investments, as they are paid through revenue sharing rather than a direct payment. The Plan made direct payments for administrative expenses totaling $16,484 to Principal during the year ended December 31, 2020, which were not covered by revenue sharing.

Notes receivable from participants also qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules of ERISA.

Note 7: Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their Company discretionary contributions.

Note 8: Tax Status

The Plan has adopted the Principal Financial Group Prototype for Savings Plans, which obtained its latest opinion letter on March 31, 2014, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (“IRC”). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt. Accordingly, no provision for income taxes has been included in the Plan's financial statements.

Note 9: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Beginning in March 2020, the United States economy began suffering adverse effects from the Covid-19 Virus Crisis ("CV19 Crisis"). The Company's operations have not been significantly impacted by the CV19 Crisis, however, the Company continues to monitor the situation. Negative impact to the Company's results of operations, cash flows, financial condition, and the ability for the Company to continue to make contributions to the Plan cannot be reasonably estimated at this time.
