NOTE 1 DESCRIPTION OF PLAN

The following description of the Hollins Management Group, Inc. 401(k) Plan the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan that was adopted by Hollins Management Group, Inc. 401(k) Plan (the Company), effective January 1, 2020, and is subject to the requirements of the Employee Retirement Income Security Act of 1974 (ERISA) and the Internal Revenue Code of 1986 (IRC), as amended. The purpose of the Plan is to provide retirement benefits for substantially all employees who have completed one year of service and are age 21 or older. The Administrative Committee is responsible for the oversight of the Plan and determines appropriateness of the Plan's investment offerings, and monitors investment performance.

Contributions

Participants may elect to contribute up to 100% of their pretax annual compensation not to exceed the maximum deferral limitation, as defined in the IRC. Participants who fulfill the eligibility requirements for deferrals are additionally eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. At the option of the Board of Directors, the Company may make discretionary matching contributions. During the year ended December 31, 2020, the Company elected not to make any contributions to the Plan.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings and charged with an allocation of certain administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon as well as in the Company's safe harbor matching contribution. Vesting in the Company's discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after three years of credited service.

Benefit Payments

Upon termination of service due to death, disability, retirement, or for other reasons, a participant will receive a lump sum distribution equal to the vested portion of his or her account, as defined in the Plan document. Additionally, under certain circumstances of financial hardship or upon attaining the age of 59½, participants are allowed to withdraw certain funds from the Plan. During 2020, the Plan also allowed qualified coronavirus-related distributions up to an aggregate limit of $100,000 for the period from March 27, 2020 to December 31, 2020.

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Forfeitures

Forfeitures of the employee's nonvested portion of the Company's discretionary contributions are either used to reduce administrative expenses of the Plan or applied to reduce future Employer's contributions. At December 31, 2020, there was $-0- of forfeited unallocated account balances.

Administrative Expenses

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee received compensation from the Plan. The majority of administrative expenses incurred by the Plan are absorbed by the Company.

Investment management fees and operating expenses charged to the Plan for investments in the various funds are deducted from income earned on a daily basis and are reflected as a component of net appreciation (depreciation) in fair value of investments.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP). References to the "ASC" hereafter refer to the Accounting Standards Codification established by the Financial Accounting Standards Board (FASB) as the source of authoritative U.S. GAAP.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value) at December 31, 2020. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 10 for a discussion of fair value measurements.

As further disclosed in Note 5, contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Capital gains and/or losses are reported the day after the trade date.

Brokerage fees are added to the acquisition costs of assets purchased and subtracted from the proceeds of assets sold.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The process of preparing financial statements in accordance with U.S. GAAP requires the use of estimates and assumptions regarding certain types of assets and liabilities, revenues and gains, and expenses and losses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

NOTE 3 CONCENTRATIONS, RISKS, AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 4 INFORMATION PREPARED AND CERTIFIED BY PRINCIPAL TRUST COMPANY

Certain information disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants at December 31, 2020, and net appreciation in fair value of investments and interest and dividends for the year ended December 31, 2020, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Principal Trust Company, the trustee of the Plan.

NOTE 5 INVESTMENTS AT CONTRACT VALUE

Investments at contract value consist of the following at December 31:

Principal Fixed Income Guaranteed Option	$ 9,512

NOTE 5 INVESTMENTS AT CONTRACT VALUE (CONTINUED)

Principal Fixed Income Guaranteed Option

The Plan invests in a fixed income contract (FIC), which is a benefit-responsive group annuity contracts issued by Principal Life Insurance Company. The FIC is a traditional investment contract that meets the fully benefit-responsive investment contract criteria and therefore, is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals and administrative expenses.

The interest crediting rate is calculated as the greater of the guaranteed minimum interest rate (3.0%) or the sum of (a), (b), and (c) (as stated below), rounded to the nearest 0.05%

(a) The aggregate of the values of each guaranteed interest balance for which the deposit periods have closed.
(b) The expected value of any guaranteed interest balance for which the deposit period has not closed.
(c) The expected value of each new guaranteed interest balance for the deposit period for which the composite crediting rate is being determined.

Under the terms of the existing FIC, the composite crediting rate is currently reset on a semiannual basis and will never be less than the guaranteed minimum interest rate. The guaranteed minimum interest rate is determined by taking the average of five-year constant maturity treasury rates 12 months prior to announcing the composite crediting rate, reducing this average by 1.25%, and rounding this amount to the nearest 0.05%.

Changes in future interest crediting rates will not affect the amount reported as an adjustment from fair value to contract value on the statements of net assets available for benefits for the portion of net assets attributable to fully benefit-responsive investment contracts. Fair value is considered book value less an early withdrawal charge.

By definition, an FIC is an insurance contract. As a result, the Plan may transact according to the terms defined in the FIC at any time. Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan); (2) changes to Plan's prohibition on competing investment options or deletion of equity wash provisions; (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

NOTE 5 INVESTMENTS AT CONTRACT VALUE (CONTINUED)

Termination of the Plan's interest in the FIC will be made pursuant to the sponsor's request; however, it may be subject to surrender charges. The issuer has the right to no longer receive deposits if it has announced that it will no longer establish new guaranteed interest balances. However, the circumstances for termination of the FIC may still be subject to the surrender charges.

NOTE 6 PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, all participants would become fully vested in their accounts.

NOTE 7 TAX STATUS

The Plan is based on the Prototype Non-Standardized Profit Sharing Plan with a cash or deferred arrangement, which received a determination letter from the Internal Revenue Service (IRS) dated March 31, 2014, stating that the prototype plan was designed in accordance with the provisions of the IRC. The Plan has subsequently been amended and has not yet filed for its own determination letter from the IRS. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. The related trust, therefore, is not subject to tax under present income tax law.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and to recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan; it has concluded that as of December 31, 2020, there were no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 8 PARTIES IN INTEREST

The investment in the guaranteed interest account is managed by Principal; therefore, this investment qualifies as a party-in-interest transaction. The Plan also has a number of service providers. Such providers are parties in interest under ERISA.

NOTE 9 WITHDRAWN PARTICIPANTS

At December 31, 2020, there were no amounts allocated to accounts of persons who have elected to withdraw from the Plan but have not been paid.

NOTE 10 FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements and Disclosures* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; or
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value measured on a recurring basis as of December 31, 2020:

	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 1,047,197	-	-	$ 1,047,197
Total Assets at Fair Value	$ 1,047,197	$ -	$ -	$ 1,047,197

NOTE 11 NON-EXEMPT TRANSACTION

The Company failed to remit employee 401 (k) deferral contributions for one pay period totaling $55 within the time frame prescribed by the Department of Labor. This is deemed a prohibited transaction in accordance with ERISA and the Internal Revenue Code. The Company corrected the prohibited transaction by depositing the lost earnings, filing the required Form 5330 with the Internal Revenue Service, and paying the appropriate excise tax.

NOTE 12 SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through October 7, 2021, the date the financial statements were available to be issued.
